Are You Aware that a series of text-books has been prepared by the special design of facilitating the work of teachers, tutors, and college professors, whose duties imply the careful preparation of students to pass, not only entrance examinations for college, but also the final and all intermediate examinations for degrees?

This is the design of the **University Tutorial Series**, comprising over 200 books on the above lines, prepared by *expert examiners*, and covering text-books in Latin, Greek, French, the sciences, mathematics, ethics, etc., etc. Mackenzie's "Ethics," for example, is esteemed an epoch-maker in its field.

By special arrangement with W. B. Clive, London, we have become sole agents and publishers for America of the **TUTORIAL SERIES**.

PREFACE.

IN the selection and rejection of material for this book, the Editor has been guided by the standards established by the Federal Bureau of Education at Washington. Thus many schools conferring degrees or bearing the name of college have been omitted because they are not recognized as such by the Commissioner of Education. Other institutions of higher learning have suffered omission by reason of the limitations of their charters or the obvious restriction of their training. All theological seminaries, law schools, musical conservatories, academies of art, or colleges of medicine, pharmacy, and dentistry; all trade and business schools; all normal and teachers' institutes; schools of languages; summer and night schools, as well as most women's colleges, unless forming an integral part of some recognized university or institute of general learning, have been excluded, notwithstanding their educational merit or reputation. By the same rule, all requests to be included in this issue of the book, that were made by Canadian and other foreign universities, or by colleges conducted under American charters abroad, have reluctantly been denied by the Editor. The reason for this will be readily understood when it is recalled that the schools coming under the above classifications number thousands.

In all other cases strenuous efforts have been made to do justice to every school, college, institute, or university authorized to confer collegiate degrees. In pursuance of this aim, the

Editor endeavored to enter into correspondence with the presidents, secretaries, or other responsible officers of all American schools of higher learning enumerated in the official reports of the Bureau of Education, or in the lists of colleges printed in the annual summaries of metropolitan journals. Where such efforts failed, recourse was had to the various existing State Reports of Education, to cyclopedias and other available publications.

It is to be hoped that future issues of the book will afford an opportunity to atone for all insufficiencies and for any errors of fact or conception.

The Editor takes pleasure in returning thanks for the courteous aid rendered him by many college officers and graduates, and in acknowledging his indebtedness to the editors and publishers of the German year-book "Minerva,"—to those of the almanacs issued by the New York World and Tribune,—of the "Spirit of the Times"; to the author of "American College Fraternities," and to George H. Emerson, his invaluable helpmate.

The school was founded in 1873, and was converted into a college and assumed its present name in 1890. It has been moved very recently from Thorp Spring to Waco, on the donation of fifteen acres and a building. It is governed by a board of fifteen trustees. The degree of B.A. is granted after a four years' course. The year is from September 2 to June 1. There are three literary societies: the Walton, Add-Ran, and Nolls, and there is an oratorical association. No secret societies are allowed. The students publish "The Collegian." In all 153 alumni have been graduated, the oldest of whom is E. Milwell, 1876, of Okla, Texas.

Adrian College was organized in 1859. It consists of four schools: the college, the theological seminary, the musical conservatory, and the preparatory school. It is governed by thirty trustees, six of

whom are elected by the alumni, and there is a ladies' committee of six. Admission is by examination and upon certificates. Degrees of B.A., B.S., B.L., B.Ph., and in Music are conferred. The expenses for the year, lasting from September 30 to June 24, are from \$170 to \$200. Prizes are given in English literature, oratory, and for the best essay.

The college grounds cover twenty acres, and the value of the property is estimated at \$225,000. The literary societies are the Star, Lambda-Phi, and the Theological. Chapters of the following fraternities have been established: $\Delta T \Delta$, 1878; $\Lambda T \Omega$, 1881; $K K \Gamma$, 1882; $\Sigma A E$, and $\Delta \Delta \Delta$, 1890.

The college was established in 1872 as a school of industrial science. At that time Congress gave to the State a tract of 240,000 acres of land. Owing to a gift of a building from the Methodist Church at Auburn the college was located there. In 1883 the State appropriated \$30,000 to construct an additional building, and to encourage technical education. In June, 1887, the main college building with all its equipments was burned to the ground, but was restored with the help of \$30,000 insurance. In the following year Congress established an agricultural experiment station at the college, and appropriated \$15,000 annually for its support. Further appropriations by the general and State legislatures brought the general income up to \$70,000 a year.

The presidents have been the Rev. I. T. Ticknor, 1872-1882; William L. Broun, 1882-1883; David F. Boyd, 1883-1884, and William L. Broun, the present incumbent.

There are ten trustees, with two *ex-officio* members of the board. Admission is by examination, and upon certificate. Attendance at chapel and military drill are compulsory. There is no tuition fee, but an incidental fee of \$12 a year is charged. The expenses for

the year, lasting from the first week in September to the first week in June, are from \$140 upwards.

The literary societies are the Wirt and Websterian, holding contests on Thanksgiving Day and Washington's birthday. Besides two Christian Associations, and an athletic association including football and baseball teams, a glee club and chapters of the following fraternities have been organized among the students: Σ A E, 1878; Φ Δ Θ , 1879; K A T Ω , 1879; K A, 1883; Σ N and Π K A.

The college publications are an annual report and the periodical bulletins of the agricultural station, a biennial report, a Y. M. C. A. handbook, and a fortnightly called the "Orange and Blue." The alumni of the college now number 400.

History and Organization: Albion College was endowed as the Wesleyan Seminary in 1839, and opened in 1843. In 1849 the granting of degrees to women was authorized. In 1861 the present name and system were adopted. In all, 796 students have been graduated, 117 of whom are women. The general government of the institution is vested in a board of trustees, consisting of sixteen persons, six elected by the Detroit Conference of the Methodist Episcopal Church, six by the Michigan Conference, and three by the Society of Alumni. With the foregoing, the President of the college is asso-

ciated as a member *ex-officio*. The State appoints annually a Board of Visitors and Examiners to inspect the workings of the college, which Board makes a Report to the Superintendent of Public Instruction. Boards of visitors are also appointed by both the Detroit and Michigan Conferences, and also by the Society of Alumni.

In the interim of meetings of the Board of Trustees a certain measure of power is vested in an Executive Committee.

Admission, Degrees, etc.: Candidates must be sixteen years old, but can be admitted without examination on certificates from high schools. There is a department for preparatory study. The nature of the degrees is determined by the work of the first two years. The different degrees are B.A., B.S., B.Ph., B.L., with degrees for music and painting, as well as degrees of M.A., M.S., M.Ph., and LL.D. The college opens on September 24, and closes on June 27.

Equipment: There are new buildings for a chemical laboratory and gymnasium, and a new library building is under construction.

Allegheny College was founded by Timothy Alden and other citizens of Meadville, in 1815. A charter was obtained in 1817, and the foundations of the first building, Bentley Hall, were laid in 1820. In 1833 the school passed into the control of the Methodists. Women were admitted as students in 1870.

The presidents have been: the Revs. T. Alden, D.D., 1817-1833; Martin Ruter, D.D., 1833-1837; Homer J. Clark, D.D., 1837-1847; John Barker, D.D., 1847-1860; George Loomis, D.D., 1860-1874; Lucius H. Bugbee, D.D., 1875-1882; David H. Wheeler, D.D., LL.D., 1883-1888; W. G. Williams, D.D., 1888-1889; D. H. Wheeler, D.D., LL.D., 1889-1893; and Wm. H. Crawford, D.D., 1893.

The government of the college is vested in forty-seven trustees. Admission is by examination and upon the certificates of high schools. Three courses of study lead to degrees of B.A., and a fourth to the degree of C.E. The master's degree is conferred after one year of post-graduate study. During the first three years military drill is compulsory for all male students. Attendance at chapel is compulsory for all. The expenses for the year, lasting from September 19 to June 29, are \$160.

The college grounds cover thirteen acres, and are situated two hundred feet above the river. The natural history museum contains good

collections of minerals, shells, and entomological specimens. The literary societies are: the Allegheny, the Philo-Franklin, and the Ossoli, the last of which is for women. Between them they own some 3,600 books. There are two Christian Associations and an athletic association, with foot-ball, base-ball, and basket-ball teams, and an alumni association. Chapters of the following fraternities have been organized: $\Phi K \Psi$, 1855; $\Phi \Gamma \Delta$, 1860; $\Delta T \Delta$, 1863; $\Phi \Delta \Theta$, 1879; $K \Lambda \Theta$, 1882; $\Sigma A E$, 1887; $K K \Gamma$, 1888; and A. C. C. B. The students publish "The Kaldron," an annual, and "The Campus," a weekly.

The graduates number 1,044, of whom 844 are living. The most prominent among these are William McKinley, Governor Lowndes of Maryland, and Senator Allison of Iowa, while the oldest is William Reynolds, 1837, of Meadville, Pa.

History and Organization: The Presbyterians of Michigan in 1886 established this college with \$120,000 received from three churches. Since that time it has received annual gifts from all the churches in the State. Its first president was George F. Hunting, D.D., who had charge of the college from 1887 to 1891. Since then the present incumbent of the president's chair has had charge. The college is governed by twenty trustees. Classical, philosophical, scientific, and literary courses are offered, leading to appropriate degrees. There is a library with 14,000 books, a gymnasium, and a laboratory building. Attendance at chapel is compulsory. The college grounds cover twenty-nine acres. There are five literary societies. Students for the ministry may receive \$80 per year. Three prize scholarships are offered. The academic year extends from September 11 to June 19.

AMERICAN UNIVERSITY.

*Washington, D. C.**Men.**Methodist Episcopal.*

This university, which has not as yet been organized, was chartered by Congress in 1893. At that time fifty trustees were appointed, and funds and real estate aggregating \$1,040,000 subscribed. With a part of these funds a site of ninety acres, on both sides of Massachusetts Avenue, in the northwestern part of Washington, has been purchased, and the construction of one building, the History College, has been begun. Other buildings, for colleges of literature, philosophy, technology, law, art, and the sciences are to follow. In the meanwhile the "University Quarterly" is published by the university.

History: Amherst College was opened on Sept. 19, 1821, as a result of a private endowment. By its charter of 1825 it was given the privilege of electing its own trustees, not to exceed seventeen, ten of whom were to be laymen. After the expiration of their terms, all vacancies in the board of trustees were to be filled by the legislature of the State. By an act of the legislature in 1874 the election of trustees was transferred to the alumni of the college. The presidents have been the Rev. Drs.: Zephaniah Swift Moore, 1821-1823; Heman Humphrey, 1823-1845; Edward Hitchcock, LL.D., 1845-1854; William Augustus Stearns, LL.D., 1854-1876; Julius Hawley Seelye, LL.D., 1876-1890; Edwards Gates, LL.D., L.H.D., since 1890.

In all, 3,650 students have been graduated, of whom 2,500 are living. The oldest living graduate is Prof. E. Sayre, of Monticello, Mo., who took his degree in 1828.

Organization: The college is governed by a board of seventeen trustees, seven of whom are clergymen. The Faculty, consisting of the entire force of instructors, has charge of all matters of discipline and study. The undergraduates are represented in the Faculty by a committee of students, to whom is accorded the privilege of attending Faculty conferences.

The College Course: Candidates for admission must be fifteen years old. In the classical course the studies of the first year are prescribed; in the sophomore year four out of twelve courses are elective; in the junior and senior years the choice of studies is unrestricted. In the scientific course, two languages besides English are required; two courses in natural science are continued throughout; all the rest are elective. Examinations for admission are in writing, but certificates of fitness from certain preparatory schools are accepted in lieu of examination. In addition to the degrees of B.A. and B.S., that of M.A. may be acquired after residence and study of one year, and that of Ph.D. after two years' study. Attendance at gymnastic exercises is compulsory. Negroes are admitted.

Dues, Scholarships, and Prizes: The general term-bill is \$110 a year; rent in dormitories is from \$35 to \$36. The following fellowships are established: Two for \$250, and one on the income from \$30,000, to an alumnus spending three years at a German University or four years of lectures at the college. There are senior prizes, \$80 and \$40, for scientific evidences of religion; \$60 for Greek; thirteen of from \$10 to \$40 for Latin; two of \$50 and \$30 for biblical literature; ten of from \$40 to \$100 for English; two of \$40 and \$20 for German; two of \$20 and \$40 for mathematics and physics; five of from \$5 to \$50 for science; and four of from \$50 to \$100 for general culture. There are in all forty-four scholarships from the interest of \$180,000. The entire proceeds of the college amount to \$108,000, the interest of \$1,320,000.

The academic year embraces thirty-seven weeks, beginning in the middle of September and closing on the last Wednesday in June. Vacations are at Christmas and Easter.

College Adjuncts: There is a gymnasium under the care of two physicians, two new dormitories, a chapel, attendance at which is compulsory, a library and art collections with a fund of \$3,000, and an observatory. The campus covers fifteen acres, while "Pratt Field," the athletic ground, covers thirteen acres.

The students publish the "Amherst Student," the "Amherst Literary Monthly," and the "Olivet." Besides a Christian association and athletic association, with football, baseball, and other teams, and a glee and banjo club, chapters of the following fraternities have been organized: $\Phi B K$, 1837; $A \Delta \Phi$, 1837; ΨT , 1841; $\Delta K E$, 1846; ΔT , 1847; $Z \Psi$, 1858-65; $X \Psi$, 1864; $X \Phi$, 1873; $B \Theta \Pi$, 1883; $\Theta \Delta X$, 1885. $\Phi \Delta \Theta$, 1888, and "Sarcophagus," 1896.

Arkansas College was founded by Isaac J. Long, its first president, in 1872. He was succeeded by his son E. R. Long, who was in turn succeeded by Mr. Cleland, the present incumbent, in 1895. The college is governed by nine trustees. Students are admitted on certificates from high-grade preparatory schools, or from the college preparatory department. The degrees are B.A. and B.S. At least fifteen recitations per week are required of all students, as is attendance at chapel and gymnastic drill. The expenses for the year, lasting from September 16 to June 10, are \$144, of which \$55 is paid for tuition. The students publish the "College Magazine," and maintain three literary societies, of which the Philomathean and Erosophic are for men, and L'Etoile for women. The organization of a branch of the Y. M. C. A. has been undertaken by the college, and an athletic association is expected to follow the recent equipment of a gymnasium. There have been 106 graduates.

Armour Institute was founded by Mr. Armour, of Chicago, in 1893. It is intended for those seeking a practical technical education, but is not a free school. There are departments of chemistry, engineering, architecture, library work, domestic arts, and all forms of mechanical and domestic work, as well as commercial and musical courses. The junior and senior years embrace in sequence: kinematics, machine-drawing and design, study of materials, steam-engineering, thermo-dynamics, boilers, hydraulics, applied mechanics, statics, dynamics, and extensive practice in engineering laboratory, with extended inspection visits and reports, leading up to thesis work.

There are some eight buildings in all, five of which are used for dormitories. Gymnasium drill is provided, but is not compulsory. No chapel service. The Armour Mission alone is endowed with a fund of \$2,000,000, maintains a library of 16,000 volumes for 2,200 pupils, and publishes "The Mission Visitor." The students maintain a Christian Endeavor society, a Saturday Night Club, Young Women's club, Chord Club, Technical Association, Engineers' Club, Arena, Glee and Mandolin Club, and an Athletic Association, with

base-ball and football teams. The college year lasts from September 20 to June 19.

Atlanta University was incorporated and opened in 1869. It is governed by a board of seventeen trustees. Since its organization the college has graduated 285 students, of whom 259 are now living. It stands on a tract of sixty-five acres, one mile from the city.

Besides a full college course, there are normal, mechanical, and preparatory courses. The work is chiefly among negroes, and one of the main purposes is to furnish teachers for public schools. There is an income for scholarships from a fund of \$24,000, and a permanent library fund of \$5,000. The academic year lasts from October 2 to May 28. The university publishes a monthly bulletin, while the students publish the "Scroll," a weekly, under the control of the Phi Kappa society. Besides this society, there is a Christian Association, a Y. P. S. C. E., the Ware Lyceum, the Wheatley Society, the Owl and Bone, an athletic association with base-ball team, and a glee club. Since 1873, some 206 alumni have been graduated.

---------------------------	------------------	--------------------	-----------------	-----------------

Baldwin University celebrated its fiftieth anniversary this year. From its date of foundation, in 1846, men and women have been admitted. The school was founded by John Baldwin, who gave land and a building. Its presidents have been: John Wheeler, D.D., from 1846-1870; W. D. Godman, 1871-1874; Aaron Schuyler, 1874-1884; Joseph E. Stubbs, 1886-1894; fifth and last president, Millard F. Warner, 1895 to present time. The institution is governed by a board of twenty-one trustees, fifteen of whom represent the three Ohio conferences, while six are chosen by the alumni. There are six departments for liberal arts, preparation, business, music, art,

and elocution, conferring the usual degrees. Of the five college buildings three are modern; they are the recitation hall, library, and ladies' hall. Chapel attendance is compulsory, but military drill is not. Negroes are not excluded. The campus covers fifteen acres in the heart of the village of Berea. One paper, a monthly, called "The Bulletin," is issued by students. The Philozetian, Phrenocosmian, Clionian, and Alethean, are the four literary societies; there are also two religious organizations. Fraternities there are none. A base-ball and football team are maintained by the students.

The total of graduates since 1846 is 413, of whom 381 are living. The oldest of these are Rosanna Baldwin, of Canton, N. Y., and Julia D. Sheldon, of Topeka, Kan., of the class of 1851. College opens September 2 and closes June 13. Associated with the university is Wallace College, a German school, and a summer school.

INCOME, \$50,000	STUDENTS, 150	INSTRUCTORS, 27	BUILDINGS, 1	BOOKS, 203,000
---------------------	------------------	--------------------	-----------------	-------------------

Barnard College, incorporated in 1889 by the regents of the University of the State of New York, is a college for women, in close

affiliation with Columbia University. The founders were: Messrs. J. H. Schiff, J. Talcott, J. Pierpont Morgan, Mrs. J. J. Goodwin, Mrs. Seth Low, Mrs. E. Herrman, Mrs. F. P. Olcott, Miss Mabel Slade, with one gift made in the name of Josiah M. Fiske. It is an independent corporation, consisting of a dean, twenty-three trustees, forty-seven associates, and a registrar. At Barnard College the curriculum is the same as at Columbia College, and Columbia makes itself responsible for its standards by conducting all the examinations. These are identical with those of Columbia. The instruction at Barnard is given for the most part by Columbia instructors, and, when this is impossible, by persons appointed with the approval of the President of Columbia University. Degrees are given to the graduates of Barnard College by Columbia University. Through Barnard College, women properly qualified, can obtain the Columbia degrees of A.B., A.M., and Ph.D. In the three lower years of the course the instruction is separate. In the senior and graduate years certain courses at Columbia are open to the students of Barnard.

Tuition is \$150 for the year, lasting from the first week of October until the middle of June. In addition to this there is a matriculation fee of \$5, a final fee of \$15, and a fee of \$50 for special students taking botany or chemistry. Diploma fees of \$25 and \$35 are also charged. Twenty scholarships, equivalent to tuition, and one of \$50 for special students are available. Prizes of \$50 and \$25 are awarded to seniors and sophomores for excellence in mathematics and chemistry.

Faculty.

Emily James Smith, Dean.

Mrs. N. W. Liggett, Registrar.

Emily L. Gregory, Ph.D., Botany.

Ernest R. Von Nardroff, M.E., Physics.

For all other instructors see names marked thus * in the Faculty list of Columbia College.

Beloit College was founded in 1843, and was chartered in 1846. The first instruction was given in 1847. President Chapin took charge in 1850, and resigned in 1884. In 1874 a philosophical course was added, and a course in science in 1892. Women were admitted in 1895.

The college is governed by twenty-nine trustees. The students from other colleges are admitted on certificate. Degrees of B.A., B.S., and B.Ph., as well as M.A. are given. The expenses vary from \$158 to \$300 per year. Twelve prizes and one scholarship are offered.

There is a gymnasium, with an athletic field covering fifteen acres. The students maintain two literary societies, a Christian Association, a scientific society, an athletic association, with football and baseball teams, glee and banjo club, and the following fraternity chapters: B Θ Π, 1861; Φ K Ψ, 1881; Σ X, 1882. A magazine, "The Round Table," now in its forty-second year, is published.

Since the foundation of the school 494 students have been graduated, of whom 433 are living. The oldest of these is Rev. Joseph Collis, of the class of 1851, of Delaware.

--------------------	------------------	--------------------	-----------------	-----------------

Benzonia College is the successor of Grand Traverse College, a secondary school founded by a colony from Oberlin settling in Benzie County in 1858. The college grounds were dedicated in 1860. Instruction began to be given in the Carrier building during the summer of 1863, with Dr. J. B. Walker as president. Sessions were next held in a log-house erected for the purpose. With the completion of the new building in 1869, came more students, until the destruction of the college building by fire in 1874, when instruction was for a while suspended. A temporary structure was used until the building now known as East Hall was secured, in which recitations were held until the completion of Barber Hall in 1890. In 1888 a new charter was obtained; the property of the former institution was turned over to the present trustees, coming under the control of the Congregational churches of Northern Michigan. The first president of the new college was the Rev. M. A. Breed, who resigned in 1895. Rev. J. G. Rodger was elected president March 30, 1896. Between these dates the acting president was Dr. E. L. Whitney. The trustees number twenty-one, with the president.

The requirements for admission to the college are the same as to the University of Michigan. Students from the academy are admitted to the corresponding course in the college without examination. Graduates of schools approved by the University of Michigan are also admitted to the college without examination. Students with certificates from other schools will be given credit for work performed.

Graduates from the classical course receive the degree of A.B.; from the philosophical course, Ph.B.; from the scientific course, S.B.; from the literary course, Litt.B., and from the normal course, Pd.B. The corresponding master's degrees are given for one year of resident graduate study. Instruction is also given in music and art. Attendance at chapel is obligatory. All college exercises are omitted on Mondays. The expenses for the year, lasting from September 29 to June 26, are \$150.

The total endowment, including buildings, is valued at \$50,000. Besides the two college buildings there is a college church. Near the college is Crystal Lake, nine miles in length. There is no saloon within nine miles of the campus. The societies are the K K A, the Crescent, and a choral society.

Berea College was founded in 1855 by the anti-slavery men of Kentucky. The first preacher in the college was the Rev. John G. Feer, in 1853; the first teachers, in 1858, were Waters and Lincoln: the first principal, from 1858 to 1869, was the Rev. J. A. R. Rogers; and the first president, from 1869 to 1889, was the Rev. E. H. Fairchild. Dr. D. K. Pearsons, of Chicago, recently gave \$50,000, on condition that \$150,000 more should be raised. This is being done.

The college is governed by a board of eighteen trustees. There are three courses, the classical, philosophical, and literary; and appropriate degrees are given. The library contains some eight thousand books and pamphlets. All tuition is free. The students last year numbered 460.

The college was founded in 1840, after Alexander Campbell's idea, to teach "literature, morality, and unsectarian Christianity." The charter was obtained in 1840, and the school was located on a site of great natural beauty in the Panhandle of West Virginia. The trustees number twenty-nine. Admission is upon certificate. Four regular courses of study are offered. The classical and ministerial course lead to degrees of B.A., while the literary and scientific courses lead to degrees of B.L.L., and B.S. The expenses for the year, lasting from September 21 to June 18, are \$175, of which \$50 is paid for tuition and matriculation. Diploma fees are also charged. Students for the ministry can have tuition reduced by one-half, but may be required to give instruction in the primary classes. A loan fund of \$5,000 has also been established for the benefit of ministerial students.

The students publish the "Monthly Collegian," and maintain four literary societies, of which the American and Neotrophian are for men, the Ossolian for women, and the Adelpian for ministerial students. In all, 318 students have been graduated.

The college was founded in 1847. It is governed by thirteen trustees. Admission is upon certificate. The departments are the preparatory, collegiate, professional, musical, and that of fine arts, and lead to bachelors' degrees in arts, philosophy, science, music, and English literature. The degree of Master of Accounts is conferred at the completion of the business course, while that of M.A., M.L.L., and M.Ph. is given after one year of post-graduate study. Tuition for the term of five months is \$25 in all departments. Students preparing for the ministry are admitted free, but whenever they abandon such purpose tuition shall be due. Students are not allowed to profane the Sabbath, and must not attend shows, horse-races, balls, hops, dances, or places of mere vain amusement; also the reading of novels is forbidden.

Four literary societies are maintained by the students. Of these the Burrow, Ewing, and Kallelogion are for men, and the Corrinian for women. Of the 150 graduates, 100 are living. The oldest of these is M. J. Hort, 1855, of Dyersburg, Tenn.

History and Organization: Bethel High School was organized in 1849, was opened in 1854, and became a college in 1856. During the Civil War instruction was suspended. The presidents have been: B. T. Blewitt, 1854-1861; Rev. George Hunt, 1861-1864; J. W. Rust, 1864-1868; Noah K. Davis, LL.D., 1868-1873; Leslie Waggoner, 1873-1883; James H. Fuqua, 1883-1887; W. S. Ryland, the present incumbent. The trustees number fifteen. Candidates for admission must be fourteen years old. Entrance examinations are not required. The courses of study, divided into eight independent schools, are elective. To attain degrees of B.A. and B.S. it is necessary to have taken studies in seven and five schools, respectively. Attendance at chapel and gymnastic exercise are not required. The tuition is \$55 for the year, lasting from September 2 until June 10. Other expenses aggregate \$70. Free scholarships are given to Baptist licentiates, sons of clergymen, and to twenty pupils from the public schools of Logan County, and the State. Seven prizes are offered.

Equipment: Of the four college buildings, one is a dormitory and boarding-hall. A new building has been given to the college for a library, and a new gymnasium, with an adjoining athletic field, has recently been equipped. The students publish the "Blue and Gold," and maintain the following societies: the Philomathean, and Neotrophian, owning libraries; the ministers club, Texas club, military company, and alumni association, with chapters of the following fraternities: $\Phi \Gamma \Delta$, ΣN , $\Sigma A E$, and K E. Of the 185 graduates, 158 are living. The oldest of these is the Rev. C. P. Shields, 1857, of Russellville.

The university was founded in 1864. Since 1870 there have been 250 graduates. The school is governed by sixteen trustees. Degrees of B.A., B.S., and B.Ph. are granted. Examinations for admission are in prescribed studies, though a fair equivalent may be offered. There are nine scholarships, leading up to \$60 a year; and up to \$100 a year is given to students for the ministry. Senator Palmer, president of the board of trustees, gave \$500, the interest of which is devoted to prizes for oratory. The average expense for the year is \$150. The academic year is from September 10 to June 3.

The college grounds cover ten acres. There is a gymnasium with athletic grounds. The students have organized three literary societies, — the Orthopathic, the Philomathian, and the Oroparthenian, the last of which is for both sexes. In addition to this, there is a science club and a Christian Association. Among the publications is the "Blackburnian," which succeeded the "Gazette" in 1887, and afterward the "Courier," and the "Centre Rush," a publication devoted to athletics. The alumni now living number 245, of whom Dr. D. J. MacMillan, 1870, of New York, is the oldest.

History: Boston University was founded by Isaac Rich, who gave \$1,000,000, in 1869. In the same year it was chartered by the Commonwealth of Massachusetts. In 1883 an additional charter was obtained from New York. The Colleges of Liberal Arts and of Music were opened almost immediately after the university was chartered; while the place of the College of Agriculture has been supplied since 1875 by the Massachusetts Agricultural College at Amherst.

Organization: The corporation consists of the president and five classes of trustees, elected for terms of five years. The president and dean of the several departments constitute the university council. The members of the council, together with all the regular professors in all the schools and colleges, constitute the university senate. In addition to these bodies, there is a university convocation, consisting of all the alumni and a board of visitors, who are annually appointed.

The university is divided into schools or colleges, which are thus distributed: The College of Liberal Arts, 12 Somerset street, Boston;

the College of Music, Franklin Square, Boston; the College of Agriculture, Amherst, Mass.; the School of Theology, 72 Mt. Vernon street, Boston; the School of Law, 10 Ashburton Place, Boston; the School of Medicine, East Concord street, Boston; the School of All Sciences, 12 Somerset street, Boston.

Admission, Courses of Study, and Degrees: Admission is by examination, which can be undergone either at the end of September or in the middle of March. The courses of instruction presented in the college proper number more than 180. Bachelors' degrees are conferred in arts, letters, laws, medicine, music, philosophy, science, surgery, and theology; masters' degrees, in arts and laws; doctors' degrees, in civil law, medicine, music, philosophy, and theology. The doctor's diploma confers the privilege of attending courses at the schools of art in Athens and Rome free of charge. During the last year the attendance was thus divided among the six colleges: Liberal arts, 353; agriculture, 172; theology, 152; law, 339; medicine, 170; and graduate school 125, making a total of 1,252. In the College of Liberal Arts, tuition and incidental expenses for the year, lasting from September 17 to June 3, are \$110. Students who are able to live at home, it is estimated, can secure the entire college course of four years for \$500. One hundred and eight free scholarships have been established. There are two fellowships yielding an annual income of \$500, and four other beneficiary funds, ranging from \$5,000 to \$30,000, for scholarships, to be equally divided between men and women.

Equipment: The assets of the university are as follows: Real estate above incumbrance, \$1,283,279.71; stocks, bonds, notes receivable, etc., \$327,822.93; sundries, including cash, \$55,462.38; total, \$1,666,565.02. The liabilities at the same date were \$85,637.25. Excess of assets over liabilities, \$1,580,927.77.

During the year 1895-96, \$35,000 was received in donations and bequests. The bulk of this, \$30,000, was a bequest from Miss L. B. Paddock, a former school teacher, to be applied in scholarships for both sexes. In answer to an appeal for gifts to establish a museum of all religions, Somdet Phra Paramindr Maha Chulalonkorn Phra Chula Chom Klao, the King of Siam, gave an original edition of the "Tripitaka," or canonical sacred writings of the Southern Buddhists, comprised in thirty-nine volumes.

New buildings costing \$200,000, have been erected for the Law School, which moved into its new quarters at the beginning of the academic year, thus enlarging the quarters of the College of Liberal Arts. A new Museum of All Religions has been projected.

Societies and Organizations: Literary and debating societies, language clubs, seminaries of philology, philosophy, history, etc., are maintained by professors and students alike. Some of these are: La Conférence Française, the French Dramatic Club, the German Seminar, the Deutsche Gesellschaft, philosophical club, and athletic association, with football and base-ball teams. The "University Beacon" is published monthly. Chapters of the following fraternities have been organized: Β Θ Π, Θ Δ Χ, 1876; Κ Κ Γ, 1882; Α Φ, 1883; Φ Δ Φ, 1885; Γ Φ Β, 1887; Δ Τ Δ, and Δ Δ Δ, 1889. The graduates number 3,225.

BOWDOIN COLLEGE.

*Brunswick, Me.**Men.**Congregational.*

TOTAL INCOME, \$47,153	STUDENTS, 364	INSTRUCTORS, 30	BUILDINGS, 9	BOOKS, 55,000
---------------------------	------------------	--------------------	-----------------	------------------

History: Bowdoin College, the oldest college of Maine, was incorporated in 1794, six years after the first petition for a charter had been presented to the Massachusetts Legislature. It was named after James Bowdoin, Governor of Massachusetts, and was established on its present site with five townships as a foundation. Eight students were admitted in 1802. James Bowdoin, the son of the governor, gave one thousand acres of land and more than £1,100, and at his death, in 1811, he bequeathed to the college more land, together with his entire library, his paintings, and more than one thousand specimens and models of crystallography. This collection has formed a nucleus for the present valuable museum. In 1831 President Allen was removed, but was reinstated by the courts. The presidents have been: Joseph McKeen, D.D., 1801-1807; Jesse Appleton, D.D., 1807-1819; Rev. William Allen, D.D., 1819-1839; Leonard Woods, D.D., 1839-1866; Rev. Samuel Harris, S.T.D., 1867-1871; Joshua L. Chamberlain, LL.D., 1871-1885, and William De Witt Hyde, the present incumbent.

Organization: The government of the college is vested in a board of fourteen trustees and forty overseers. There is a visiting committee, and an examining committee, each composed of two trustees and three overseers, and the finance committee of two trustees and two overseers. Connected with the college is the Medical School of Maine.

Admission, Instruction, and Degrees: Admission is by examination only. The regular course of study comprises four years, all studies being required, except that for the third term of the third year; Italian and Greek are optional, and for the second term of the last year Spanish is optional. Besides this regular course leading to B.A., there is a scientific course leading to B.S. After a post-graduate course of three years, degrees of A.M., Sc.D., and Ph.D. are conferred. Attendance at the chapel and military drill is compulsory.

Tuition, Scholarships, and Prizes: The expenses for the year, lasting from September 17 to June 27, are \$105 for each student, to which \$40 for necessary expenses must be added. The income of \$55,000 is devoted to scholarships, of which there are more than a score. In addition to this there are a dozen prizes ranging from \$10 to \$300 for excellence in English, oratory, the classics, French, and mathematics.

Equipment: Among the nine college buildings, the most noteworthy are Massachusetts hall, the Searles science building with several laboratories, the Walker art building, and the astronomical observatory. The library in Banister hall contains 50,000 books, while the medical library in Adams hall contains 4,000 volumes. The college grounds are one mile from the Androscoggin River,

where the university boathouse is, and four miles from the ocean. There is a gymnasium, but no athletic field.

Societies: Besides several literary and religious societies, there is an athletic association with football and baseball teams and a crew. Chapters of the following fraternities have been organized: Φ β κ , Δ Δ Φ , 1841; Ψ Υ , 1843; χ Ψ , 1844-1869; Δ κ ϵ , 1844; Θ Δ χ , 1854; Δ Υ , 1857-1862; Σ Ψ , 1868.

The graduates number 4,410, of whom 2,550 are living. Among them were Nathaniel Hawthorne, and Henry W. Longfellow. The oldest of these is Thomas P. Stone, D.D., 1820, of Bowdoin, Mass.

BROWN UNIVERSITY.

*Providence, R. I.**Co-Educational.**Baptist.*

INCOME, \$193,152	STUDENTS, 850	INSTRUCTORS, 78	BUILDINGS, 16	BOOKS, 80,000
----------------------	------------------	--------------------	------------------	------------------

History: The university now bearing the name of Nicholas Brown was founded in Warren in 1764, and its original name was Rhode Island College. The change in name was made in 1804, in accordance with a provision of the charter, and a special vote of the fellows and trustees in 1803 that the university should take the name of the benefactor who first gave it the sum of \$5,000. The design of the college originated with the Philadelphia Baptist association, who wished to found a college "somewhere in North America." Six years after its establishment in Rhode Island the school was moved to Providence instead of to Newport, where it had been chartered. The college opened with one student, William Rogers by name. At the first commencement, in 1769, seven students were graduated. Of these, three distinguished themselves in the war of the Revolution. During this period all instruction at the new college was suspended, the town having fallen into the hands of the British. The solitary college building, University Hall, modelled after Nassau Hall of Princeton, was turned into barracks, and afterward into a hospital for French troops. After the war the students broke the royal seal of the university, causing a new seal to be adopted. Owing to the lack of students commencements were not resumed till 1786. The first funds of the college, a trifle more than \$1,000, were increased by a subscription of \$4,500 raised in England by Rev. Morgan Edwards. The next considerable gift was that of Nicholas Brown, a former student of the college, and the son of its treasurer. This fund accumulated until in 1826 it had more than doubled. In 1853 eleven scholarships, on the interest of \$1,000 each, were endowed by the same benefactor. In 1860, John Carter Brown, his son, subscribed \$25,000, to which he added \$50,000 in 1874. Previous to this the college obtained \$50,000 from the Federal land grant of 1862, as well as immunity from taxation. After long litigation, the Compromise Act of 1894 authorized the State treasurer to pay over to the university the sum of \$40,000, in consideration of which, the proceeds of the land-grant, amounting to \$50,000, and the accumulated Morrill fund, amounting to \$88,000, had to be returned to the State treasurer to be redistributed among the higher schools of Rhode Island. In 1889 George F. Wilson, of Providence, left \$100,000 for a science building. In 1891 the university was made co-educational.

The presidents have been: James Manning, 1764-1791; Rev. Dr. Maxcy, 1792-1802; Asa Messer, 1802-1826; Francis Wayland, 1826-1855; Barnas Sears, 1855-1867; Alexis Caswell, 1868-1872; E. G. Robinson, 1872-1889, and Elisha B. Andrews, the present incumbent.

Organization: The university is governed by a corporation, consisting of thirty-six trustees and twelve fellows. Of the trustees twenty-two must be Baptists, five Quakers, five Episcopalians, and

four Congregationalists. Of the fellows, eight, including the president, must forever be Baptists. Once in three years the corporation must choose from the trustees a treasurer, and a chancellor of the university, and from among the fellows a secretary. The office of chancellor is merely to preside over the trustees, while the president presides over the fellows. All instruction and immediate government of the college rests with the president and fellows, to whom, with the faculty, belongs the privilege of conferring degrees.

Admission, Instruction, and Degrees: Pupils from schools of known excellence are admitted on the certificates of the principals. All others must undergo examination, either at commencement, or at the opening of the college in September. Instruction is given in the liberal arts, the sciences, and military tactics. In the last three years most studies are elective. Attendance at chapel and military drill is compulsory. The following degrees are given: B.A., B.Ph., B.S., C.E., M.E., M.A., and Ph.D. These last two are given only after resident post-graduate study. Honorary degrees are conferred in arts, letters, laws, music, and divinity.

Dues, scholarships, and prizes: Tuition for the year, lasting from September 16 to June 17, is \$150. Expenses are estimated at from \$265 to \$500. There are one hundred scholarships in all, seventy-three of which are on the interest of \$1,000 each, while nine are on the interest of \$5,000. Two fellowships, on the interest of \$10,000 each, have been established by the G. A. R. of Rhode Island, and the alumni of Philadelphia. Twenty-five prizes and medals, ranging in value from \$10 to \$36, are given for excellence in study and debate. In addition to this two free beds, for students or alumni of Brown, have been placed in the Rhode Island hospital; and a small loan fund for short term loans has recently been established.

Equipment: The working funds of the university amount to \$117,319. The library funds amount to \$46,000. The number of volumes is 80,000, while the pamphlets number 20,000. The college buildings number sixteen: among which are the women's college, in process of erection; the recently completed science building; a new gymnasium; a chapel; an observatory; four laboratories; a museum, with several collections of artistic, archeological, geological, zoölogical, and botanical specimens. The college dormitories number eight, rooms in which are rented at from \$50 to \$125. The grounds comprise a campus and athletic field adjoining the river, with opportunities for boating.

Societies and Publications: The Misokosmian, a literary secret society, which afterward changed its name to Philerrminian, was founded in 1794. The United Brothers, a similar society, originated in 1806. In 1824 the Franklin Society was organized, only to disband again in 1834. Some six thousand books are owned by the two former societies. A chapter of $\Phi B K$ was established in 1830, to be followed by chapters of other fraternities in the following order: $A \Delta \Phi$, 1836; $\Delta \Phi$, 1838; $\Psi \Upsilon$, 1840; $B \Theta \Pi$, 1847; $\Delta K E$, 1850; $Z \Psi$, 1852; $\Theta \Delta X$, 1853; $X \Psi$, 1860; $\Delta \Upsilon$, 1867; $X \Phi$, 1872; and $\Phi \Delta \Theta$, 1889; besides these societies there is a dramatic club, several dining associations, two Christian Associations, an alumni association, and an athletic association with a track team, football eleven, baseball

nine, and boat club. The students publish the "Liber Brunensis," an annual, the "Brunonian," a weekly, the "Daily Herald," and the "Brown Magazine."

The graduates number nearly 5,000, of whom 2,200 are living. The oldest of these is the Rev. George W. Briggs, 1825, of Cambridge, Mass.

BRYN MAWR COLLEGE.

Bryn Mawr, Pa.

Women.

Non-Sectarian.

INCOME, \$1,500,000 and tuition fees.	STUDENTS, 298	INSTRUCTORS, 36	BUILDINGS, 7	BOOKS, 23,000
---	------------------	--------------------	-----------------	------------------

History and Organization: The college was endowed in 1880 by Dr. Joseph W. Taylor of New Jersey, for the advanced education of women. In 1884 a president,—James E. Rhoads,—and a dean of the Faculty,—M. Carey Thomas,—were chosen, and the college was opened in 1885. The college is governed by a board of thirteen trustees. All matters of conduct and discipline are regulated by a self-government association, consisting of all the students acting through an annually elected Executive Committee of eight students.

Admission, Studies, and Degrees: Three classes of students are admitted: graduates, undergraduates, and hearers, the last having a required age of at least twenty-five years; and having, before entering, pursued the studies required in the matriculation examination. There is no division into the traditional four classes, and, although the course is usually four years, there is no fixed date for graduation. Candidates for degree of Ph.D. must have spent three years in graduate work, and at least two of these years at Bryn Mawr. The A.M. degree is conferred only on graduates of Bryn Mawr.

Dues, Scholarships, and Prizes: Tuition is \$100 a year, other expenses are from \$275 to \$500. Among other provisions for poor students there are three public school \$100 scholarships, nine \$200 scholarships, and three of \$400 each open to graduates of local institutions. Three scholarships of the value of \$300 and three of the value of \$200 are awarded on the results of the entrance examinations. Eleven resident graduate fellowships of \$525 each are awarded annually to graduates of any college of good standing, and five scholarships of \$200 each are awarded to the candidates next

in merit. There are also three graduate fellowships of \$500 each for the purpose of European study. The academic year extends from September 29 to June 3.

Equipment: There is a gymnasium with running track and swimming bath, and also athletic grounds with skating pond. Gymnastic exercise is required of all resident undergraduates. There is a cottage hospital. The library is equipped for special study, and \$3,000 is expended annually for additions. There are, besides the two halls for lecture purposes and a gymnasium, five dormitory buildings.

Societies and Publications: The students issue an annual magazine called "The Lantern," and maintain the following organizations: The Self-Government Association, graduate club, undergraduate Association, athletic association, philosophical club, a branch of the Y. W. C. T. U., missionary association, Christian Union, De Rebus Club, and chess club.

INCOME, \$30,825.	STUDENTS, 491	INSTRUCTORS, 15	BUILDINGS, 5	BOOKS, 7,000
----------------------	------------------	--------------------	-----------------	-----------------

The college was founded in 1870 by the Ohio convention of Universalists, and was named after John R. Buchtel, its most liberal benefactor. The presidents have been: the Revs. S. H. McCollister, D.D., 1872-1878; E. L. Rexford, D.D., 1878-1880, and Orello Cone, D.D., the present incumbent. In June, 1879, a fire partially destroyed the main building. In December, 1890, another fire caused great loss of property, and resulted in the death of three students.

The school is governed by eighteen trustees. The degrees are B.A., B.S., B.Ph., and M.A. There are six endowed professorships, fifty endowed scholarships, and other funds amounting to \$66,000. Tuition is from \$24 to \$39 a year. All studies after the Sophomore year are elective. Chapel and gymnasium are not compulsory. The college campus covers six acres, and there is an athletic field covering nearly four acres. The students publish "The Buchtelite," a weekly, and "The Buchtel," an annual junior publication. Besides two literary societies, the usual Christian Associations, and an athletic association, chapters of the following fraternities have been organized: Δ T Δ, 1873; Φ Δ Θ, 1875; K K Γ, 1877; Δ Γ, 1879 and The Lone Star, 1882.

Carleton College was incorporated in 1866, and a preparatory school was opened in 1867. The first college class was graduated in 1874. The school received from W. Carleton, of Minnesota, \$50,000, and \$10,000 from his wife. In 1883 Dr. Williams, of Philadelphia, gave \$12,000 for a science building, and \$15,000 for a telescope. In all, 229 students have been graduated, 224 of whom are living. The oldest of these is J. J. Dow, 1874, of Faribault, Minn.

The college is governed by a board of twenty-two trustees. Three parallel courses lead to degrees of B.A., B.L., B.S., and M.A. There are ten scholarships on funds amounting to \$37,000, and an education society. The highest scholarship provides for \$1,000 a year. Students for the clergy can receive \$100 a year. Besides this there are five prize funds. The income from \$4,500 is devoted to the increase of the library. There is a museum containing 20,000 speci-

mens, and two gymnasiums for the separate use of men and women students. The college grounds cover eighty acres. The academic year extends from September 4 to June 13.

There are six literary societies, an oratorical and athletic association, a naturalists' club, a Christian Association, and a missionary society. A chapter of $\Phi K \Psi$, 1883-1888, was once organized.

The school was founded as the Mossy Creek Missionary Baptist Seminary, by the Baptist Educational Society of East Tennessee. It was chartered in 1851, and was endowed by W. C. Newman, who also endowed Newman College, which was added to the older college after its change of name in 1889. The presidents have been William Rogers, 1850-1851; R. R. Bryan, 1851-1853; Dr. Samuel Anderson, 1853-1857; Rev. Mathew Hillsman, D.D., 1857-1859; Rev. N. B. Goforth, 1859-1862; R. R. Bryan (second term), 1866-1868; Rev. Jesse Baker, D.D., 1869-1870; Dr. N. B. Goforth (second term), 1870-1882; Rev. B. G. Manard, 1882; S. W. Tindell, 1882-1888; Rev. W. A. Montgomery, D.D., LL.D., 1888-1892; and J. T. Henderson, the present incumbent. During the Civil War, and later, 1882, during a small-pox epidemic, instruction was suspended. The college is governed by thirty-three trustees. Admission is by exami-

nation upon certificate from a limited number of schools. Three courses of study, the classical, Latin-scientific, and English, lead to degrees of B.A., and B.S. The masters' degree is given after one year of post-graduate study, and the payment of a diploma fee. Attendance at chapel and gymnasium drill is required. The expenses for the year, lasting from August 25 to May 28, are \$120. Tuition is remitted to ministerial students. The college grounds cover thirteen acres. The societies are: the Columbian and Philomathean for men, the Calliopean and Hypatian for women, the Berean for ministerial students, two Christian Associations, and an athletic association. The graduates number nearly 200, of whom 140 are living. The oldest of these is Richard S. Scruggs, M.D., 1855, of Sweetwater, Tenn.

The college was chartered in 1870, by the general synod of the Evangelical Lutheran Church in the West. The first class was graduated in 1875, and 144 alumni, in all, have been graduated. The presidents have been: Rev. D. L. Tressler, 1873-1880; Rev. J. A. Kunkelman, 1881-1883; Rev. J. S. Detweiler, 1883-1884; Rev. E. F. Bartholomew, 1884-1888; Rev. Holmes Dysinger, 1888-1895.

The twenty-fifth anniversary of the college was celebrated last year, when a souvenir volume was published. The school is governed by a board of seventeen trustees. Scientific and Classical courses lead to degrees of B.A. and B.S. There is a Junior class scholarship, and three prizes for excellence in study are offered. The grounds cover fifteen acres. A gift of \$10,000 for a new dormitory was made last year. Attendance at chapel is compulsory to students who have recitations before and after chapel hours. Colored students have not as yet attended, but would be admitted. The students maintain two literary societies, called the Cicero and Galileo, two Christian Associations, a musical association, an athletic association, with a foot-ball team, and a chapter of $\Pi \text{ B } \Phi$ was organized in 1882, lasting six years. The college year is from September 5 to May 28.

The school was founded by Leonard Case, who gave it an endowment of about \$2,000,000 in 1877. The school was incorporated in 1880. Instruction was begun in Mr. Case's house after his death in 1881. In 1885 the school was transferred to its new buildings opposite, four in number, and a campus of thirty acres. There are twenty-one members of the corporation, and seven trustees. The various courses of instruction are those specified by the founder, and comprise mathematics, physics, engineering, chemistry, geology, mining, mineralogy, natural history, drawing, and the modern languages. Excursions to mines and manufactories form a part of the curriculum.

Tuition is \$100. There are five scholarships, of \$300 each, for students from Ohio High School, and four others of the same amount open to all students. A prize of \$25 is offered in the course of physics in the Sophomore year.

The academic year lasts from the third Wednesday in September to the second Thursday in June. Attendance at chapel and gymnasium drill is not compulsory. Since the foundation of the school there have been 109 graduates. The students issue "The Integral," a monthly, and an annual publication. The names of the associations and societies are legion. Among them is a chapter of Z Ψ, founded in 1885.

History and Organization: The university was founded in 1884, after a gift by Miss Caldwell of \$300,000 to the American Episcopate. From 1889 to 1895 its educational activity was confined to the School of Divinity. In 1895, after the Pope had expressed a hope that the university might be able to adapt its work to modern educational needs in a wider sense, schools of philosophy and the social sciences were opened, with departments of philosophy, letters, mathematics, physics, chemistry, biology, technology, sociology, economics, political science, and law. During the last year eleven chairs for the teaching of the arts and sciences have been endowed by individuals.

The university is governed by seventeen directors, and a chancellor, who is at present Cardinal Gibbons of Baltimore. With the directors, who are for the most part, prominent members of the Catholic clergy, are associated by virtue of their office, all the Catholic archbishops in this country.

Admission, Instruction, and Degrees: Students are admitted to the school of social sciences, either by examination or upon the presen-

tation of other evidences of sufficient preliminary education. For admission to the school of philosophy, a diploma for the degree of B.A., or its equivalent, is required. Candidates for degrees in divinity must have completed a seminary course. The school of divinity has four departments; the school of philosophy, six; that of social sciences, four; and that of technology, four; making in all eighteen, each of which is under a full professor, aided by associates and assistants. The school of divinity grants baccalaureate, licentiate, and doctor's degrees; the school of philosophy confers degrees in letters and philosophy; the school of social science degrees of B.A. and M.A.; the law school degrees of LL.B., LL.M., D.C.L., J.E.D., J.U.D., and LL.D.; while in the institute of technology, degrees in civil, electrical, and mechanical engineering, with corresponding masters' degrees are conferred. Eleven scholarships, distributed among five different dioceses, have been established by individuals, and there are three further scholarships in chemistry.

Dues, Scholarships, and Prizes: The annual fee for students in the schools of philosophy, social sciences, and law, is \$100. Resident students in the school of divinity pay \$250. Candidates for degrees of Ph.D. and LL.D. pay \$200, besides fees of from \$10 to \$25 for diplomas. Special fees are charged in the departments of physics, sociology, and in laboratory courses.

Equipment: The university is in the northern suburb of the city, adjoining the Soldiers' Home Park, some three miles from the Capitol. Two buildings, — the Caldwell and MacMahon halls of divinity and philosophy, — are already in use, while eleven more, not including dormitories and dwelling-houses, have been projected. The two present buildings, besides lecture rooms and dwelling-rooms for teachers and students, contain a chapel, the university and MacMahon libraries, the general museum, post-office, twelve laboratories, a seminary, and a gymnasium.

Publications and Societies: The university publishes the "Catholic University Bulletin." Besides several literary, religious, and athletic societies, a debating club, and moot court are maintained by the students of the law school.

CATHOLIC SUMMER SCHOOL OF AMERICA.

A Roman Catholic Chautauqua or Summer School was opened at New London, Conn., in the summer of 1892 under the auspices of distinguished clergymen and laymen, and the first meetings were held from July 30 to August 14. The association has since acquired a site at Bluff Point, near Plattsburgh, N. Y., on Lake Champlain, upon which the necessary buildings have been erected, and here the summer school is held annually in July and August. The object of this institution is "to encourage the diffusion of sound literature; to give those who desire to pursue their studies, after leaving school, an available opportunity to follow prescribed courses of the most approved reading; to enable others, who have made considerable progress in education, to review their past studies, and, particularly, to encourage individual home reading and study on systematic and Catholic lines." Besides the school a reading circle for home work all the year round is in successful operation. A full course requires four years' study, but members may join for one year or longer. The term each year begins October 1 and ends July 1. Special or post-graduate courses will be prepared for those who complete the regular course. An annual fee of fifty cents shall be paid by each member. This fee is required to meet the necessary expenses incidental to the work, namely, printing, postage, etc., and shall be remitted to the general secretary with the application.

The college was founded through the efforts of Bishop W. W. Orwig, of the Evangelical Association, in 1855, and was first incorporated as Union Seminary. Owing to the war it was closed in 1863 and its charter was forfeited. In 1865 Rev. M. J. Carothers secured its reorganization. The principals have been Rev. W. W. Orwig, 1855-1859; Rev. Francis Hendricks, A.M., 1859-1860; A. S. Sassaman, A.M., 1860-1862; Rev. John H. Leas, A.M., 1862-1863; Rev. Francis Hoffman, A.M., 1865-1869; D. Deninger, 1869-1874; Rev. Francis M. Baker, A.M., 1874-1879; Rev. J. W. Bentz, A.M., March to December, 1879; and Rev. A. E. Gobbler, who has been president since the new articles of incorporation were granted in 1880. The college is now the property of the United Evangelical Church. Instruction is given in classical, scientific, and commercial courses, as well as in theology. Attendance at chapel is compulsory. There is no gymnastic nor military drill.

The students maintain an Agassiz Association, and three literary societies, — the Excelsior, Neocosmian, and Enigma, the last of which is for women students, — as well as three Christian Associations and a baseball club and football team. Of the 129 graduates, 117 are living; the oldest of these is Miss Kate Swinford, 1859, of Philadelphia.

CHAUTAUQUA.

The Chautauqua Assembly was organized in 1874 as the result of a joint plan of Lewis Miller and John H. Vincent. It holds annual sessions during July and August at Chautauqua, N. Y. The plan includes courses of instruction in language, literature, science, and art, lecture courses, musicales, recitals, and concerts, and various forms of entertainment and recreation.

The Chautauqua Literary and Scientific Circle, J. L. Hurlbut, New York, General Secretary; Kate F. Kimball, Buffalo, Executive Secretary, was organized at Chautauqua in 1878, with the aim of continuing the influence of the assembly throughout the year in all parts of the country. Since that time more than two hundred and twenty thousand members have been enrolled. The circle aims to promote habits of reading and study in history, literature, science, and art, in connection with the routine of daily life. The course seeks to give "the college outlook" on the world and life. The essentials of the plan are: A definite course covering four years each year's course complete in itself; specified volumes approved by the counsellors, allotment of time by the week and month, a monthly magazine with additional readings and notes, a membership book with review outlines, and other aid. Individual readers may have all the privileges and local circles may be formed by three or four members. The time required is about one hour daily for nine months. Certificates are granted to all who complete the course. Seals are affixed to the certificates which are granted for collateral and advanced reading. Any one may become a member of the C. L. S. C. by sending an application together with fifty cents (the annual fee) to John H. Vincent, Drawer 194, Buffalo, N. Y.

This institution for colored students owes its foundation to Lee Claflin, of Boston. In 1870 a charter was obtained, and sixty-seven acres of land purchased. In 1872 the college of agriculture and of mechanical arts was organized, and a farm of one hundred and sixty acres was secured. The college is governed by twenty-one trustees, with a board of sixteen for the college of agriculture. Nine courses of study lead to degrees of B.A. and B.S. The college year is from October 3 to May 22. Besides several literary societies, there are two Christian Associations, a building for which is in progress. Of the 300 graduates, 280 are living, the oldest of whom is W. S. Buckley, 1882, of Orangeburg, S. C.

The Thomas S. Clarkson Memorial School of Technology was founded in 1895, and opened its doors to students in September, 1896. It was established in commemoration of the late Thomas S. Clarkson, of Potsdam, who before his death in 1894 had expressed a wish to found such a school. His three sisters, with the help of a committee, the members of which visited the most prominent schools of technology in the East, endeavored to carry out their brother's plans by establishing the present school. The plan is to train students for the engineering profession, laboratory work, and for the various branches of industrial art and the applied sciences, together with the usual liberal studies. Candidates for admission must be sixteen years old. Both sexes are admitted on an equal footing. Tuition is from \$20 to \$40 for term of twenty weeks, and from \$6 to \$10 for manual training. Students in the State Normal School of Potsdam can attend all courses given in the new school free of charge. A course in engineering leads to the degree of B.S. No other degree is given. The endowment fund is \$300,000, and \$200,000 have been spent for the buildings and equipment.

Coe College had its origin in a school opened in 1851, which organized as a collegiate institute afterwards known as the Parsons Seminary and Coe Collegiate Institute, finally adopting the name of Coe College in 1881. The first president was Rev. Stephen Phelps, who was followed by the present incumbent in 1887. From the sale of real estate \$80,000 have been realized for the college, and \$50,000 is still expected. The total endowment is \$270,000. The college is governed by eighteen trustees. There are four courses,—the classical, philosophical, engineering, and scientific. In the last two years a large number of studies are elective. Twenty prizes, varying from \$5 to \$25, are given for excellence in various studies.

There is a gymnasium with athletic grounds, a campus of ten acres, and a building for the Y. M. C. A. A preparatory school is also maintained. The students have organized four literary societies, and publish a monthly paper called "The Cosmos."

Colby University was founded in 1820, and was formerly called Waterville College. In all, 1,037 students have been graduated, of whom 690 are now living; the oldest of these is Albert N. Paine, 1832, of Bangor, Me. The fiftieth and seventy-fifth anniversaries of the college were duly observed. There is a gymnasium, with an athletic ground covering eleven acres. The college grounds cover twenty-five acres. Degrees of B.A., B.S., and M.A. are given. Attendance at chapel is compulsory, as is attendance in the gymnasium

during the winter term. Negroes are not excluded, though but three have attended in all. The students publish the "Colby Echo," a fortnightly, and the "Colby Oracle," an annual. Among the societies organized by students are an athletic association, two Christian Associations, a chess club, and chapters of the following fraternities: Δ K E, 1845; Z Ψ, 1850; Δ Υ, 1852; Σ K, 1874; and Φ Δ Θ, 1884.

History and Organization: Colgate University was founded in 1816 by Daniel Heascall, D.D. One hundred and twenty acres of land were given for a college site in 1826, to be increased to two hundred acres at a later time. The presidents have been Nathaniel Kendrick, D.D., 1836-1848; Stephen W. Taylor, LL.D., 1851-1856; George W. Eaton, D.D., LL.D., 1856-1868; Ebenezer Dodge, D.D., LL.D., 1868-1890; George William Smith, LL.D., 1895-.

The fiftieth anniversary of the university was celebrated on May 1, 1869. An effort to move the university to Rochester failed after a controversy of three years.

The college is governed by a corporation of twenty-five members. There is a fund of \$500,000, one half the interest of which is added to the principal. Three parallel courses lead to degrees of B.A., M.A., B.L., B.Ph., B.S., and B.D. Attendance at chapel and gymnastic exercise is compulsory.

Scholarships and Prizes: Tuition and yearly expenses are \$60 and from \$200 to \$400. There are sixty-four scholarships, yielding from \$30 to \$90 a year. The education society aids poor students; and there are thirty prizes of from \$12 to \$60 for excellence in study.

College Adjuncts: The library receives an income of \$25,000 a year. There is a gymnasium accommodating four hundred, and an athletic field of fifteen acres. The students publish the "Madisonenses," a bi-weekly paper, and the "Salmagundi," the college annual. There is an athletic association, with a football eleven, a baseball nine, and a track team; a glee club, a banjo, guitar, and mandolin club, a university quintette, a students' private band, a press club, dramatic club, students' association, Laurie Club, and Y. M. C. A. Chapters

of the following fraternities have been established: A Δ Φ, 1850-1851; Δ K E, 1856; Δ T, 1868; Δ Φ, 1874-1876; B Θ Π, 1880; Φ Γ Δ, Φ Ψ, 1887; Φ K Ψ, 1887; Θ N E; and B Δ B.

The college, which is the oldest in the State, was chartered in 1785, after a petition had been sent to the assembly in 1770. Owing to the disturbances of the Revolutionary War the college was not actually organized until 1791, when a new charter was obtained, and gifts of \$60,000, made before the war, were realized upon. In 1794 the first class, numbering six students, was graduated. Among the presidents have been: the Rev. Robert Smith, 1785-1797; Thomas Bee; Rev. George Buist; Rev. Jasper Adams, 1824-1836; Dr. William Brantley, 1836-1845; Dr. Perronneau Findley, 1845-1857; Dr. N. R. Middleton, 1857-1880; and Dr. Henry E. Shepherd, the present incumbent, who was elected in 1882.

During the first thirty years the work of the college was practically that of a grammar school. It deteriorated steadily until Professor Adams was called from Brown University to assume the presidency. He raised the school to collegiate rank at once, but his attempted abolishment of the preparatory department embroiled him with the trustees, who compelled his resignation. As a result of the difficulties that followed, the city authorities assumed control, detached the preparatory department, and constituted a new board of twelve trustees, three of whom are members of the city council.

Admission is by examination. The degree of B.A. is given after completion of the four years' curriculum, with one elective course, and a graduating essay. M.A. is conferred after two years. Attendance at chapel is compulsory. Smoking is forbidden on the college grounds, as is the possession of "fireworks, explosives, firearms, knives, dirks, or deadly weapons," or the practice of hazing. The expenses of the year, as well as tuition, lasting from October 5 to June 29, are \$214. Ten scholarships yielding \$150 have been established by the late Kerr Boyce.

The college now enjoys the income from \$200,000, of which \$170,000 was given by Ephraim Baynard, a planter of the State. The city annually appropriates \$2,000. A museum of natural history was founded in 1851 at the suggestion of Louis Agassiz. The library, dating back to the last century, contains 12,000 volumes. The Chrestomatic Society, a debating club, which has existed, with its hall and library, for more than fifty years, is officially recognized as an educational adjunct of the college. Chapters of the following fraternities have been organized: Σ A E, 1881-1882, and A T Ω , 1889.

The graduates number 476, of whom 226 are living. The oldest of these is the Rev. R. S. Trapier, U. S. N., 1828, of Charleston.

History and Organization: The Free Academy of New York was established in 1848. In 1866 it became a college, and the present name was adopted. The first class to complete a four years' course was that of 1853. In 1882 the school was opened to all young men of New York City. The institution is governed by the board of regents of the State, and eleven trustees.

Admission, Degrees, etc.: Admission is free. All who pass the entrance examinations are admitted on probation for eight weeks. There are four courses of study, two of five years each: the classical, leading to the degree of B.A., and the scientific, leading to the degree of B.S.; and two of one year each, the commercial and the mechanical. The academic year is divided into two terms, and lasts from the Thursday following the second Monday of September to June 18.

Scholarships, Prizes, and Equipment: No tuition is charged. There is a loan fund for poor students. Eight gold medals, six of silver and twenty of bronze, are awarded, besides prizes for speaking, mechanical proficiency, and excellence in political economy. There is a prize of \$80 for the best essay on American affairs, and one of \$100 for the best translation.

The students publish the "Microcosm," an annual, and "The Mercury." There are two literary societies: the Clionian, and the Phrenocosmian; glee and mandolin clubs, an athletic association, with lacrosse and football teams, and chapters of the following fraternities have been established: Φ B K, Α Δ Φ, 1855; Δ K E, 1856; X Ψ, 1857-1882; Φ Γ Δ, 1865; Δ Υ, 1874-1879; Θ Δ X, 1881; Φ Δ Θ, 1884. Colorado College, the oldest school in the State, was founded in 1873, and incorporated and opened in 1874, while Colorado was still a territory. The presidents have been: Rev. Jonathan Edwards, 1874-1875; Rev. James G. Dougherty, 1875-1885; and William F. Slocum, Jr., 1888, who is still in charge. Before Mr. Slocum's

election, the college was without a president for three years. The first permanent building was occupied in 1880. Dormitories for men and women, and a gymnasium, were added in 1889 and 1891, to be followed by a library and observatory of great architectural beauty in 1894. During the last year \$200,000 have been subscribed in consequence of a gift of \$50,000 from Dr. D. K. Pearson, of Chicago.

In 1896 the property of Tillotson Academy at Trinidad, Col., was transferred to the college. The school is governed by eighteen trustees. Associated with it is a musical conservatory and Cutler Academy. Admission is by examination, except for the graduates of the academy, or for those bearing certificates of the Colorado State Teachers' Association, or of accredited schools. Three courses, of four years each, lead to degrees of B.A., B.S., and B.Ph. In the junior and senior years a choice of fifty elective courses is offered. Attendance at chapel is not required. The expenses for the year, lasting from September 22 to June 16, are from \$100 to \$200, of which \$43 is for tuition. Ten scholarships are offered, three of which are of \$1,000, one of \$700, and three of \$500. Several others are supported by annual subscription. One prize of \$10 is offered for proficiency in Greek. The societies are the Women's Educational Society (the object of which is to make loans to poor students), the Colorado Scientific Society, an alumni association, two Christian Associations, three literary societies, who jointly own a society hall, and an athletic association, with football and baseball teams, tennis association, and golf clubs.

University extension was inaugurated in 1894.

History and Location: King's College, as Columbia University was formerly called, was founded in 1754, under royal charter. The design of establishing a college in New York was contemplated fifty years before. Active measures began to be taken in 1746, when provision was made by law for raising money by public lottery. The college was established on a grant of land known as the king's farm, the property of Trinity Church, between the present Barclay and Murray Streets, overlooking the Hudson River. It was then declared by travellers to have the finest site of any college in the world. In 1857 it was removed to a block between 49th and 50th Streets, New York City, overlooking the East River. From the beginning this location was regarded as temporary. The present site on Morningside Heights, between 116th and 120th Streets, was the field of the Battle of Harlem. It overlooks the Hudson River on one side, and North New York on the other, and is once more declared to be one of the finest college sites in the world.

The original charter made the college a non-sectarian one. The first class was graduated in 1760 with eight students. During the Revolutionary War instruction had to be suspended, the president of the college, a royalist, having been forced to flee to England. The college buildings were converted into a military hospital. In 1784, after a lull of eight years, the school was revived under the name of Columbia College. The first student under its new name was DeWitt Clinton, while the new president was the son of the first president of King's College. The names and terms of the presidents are as follows: Samuel Johnson, S.T.D., 1754-1763; Myles Cooper, LL.D., 1763-1775; Benjamin Moore, A.M., 1775-1776; William Samuel Johnson, LL.D., 1787-1800; Charles H. Wharton, S.T.D., 1801*; Benjamin Moore, S.T.D., 1801-1811; William Harris, S.T.D., 1811-1829; William Alexander Duer, LL.D., 1829-1842; Nathaniel F. Moore, LL.D., 1842-1849; Charles King, LL.D., 1849-1864; Frederick A. P. Barnard, S.T.D., LL.D., L.H.D., D.C.L., Ph.D., 1864-1889; Seth Low, LL.D., 1890.

A medical faculty was established in King's College in 1767, and consisted at first of six professors. The faculty was discontinued in 1813 because of the establishment of the college of physicians and surgeons. No degrees in medicine were given for fifty years. In 1860 the college of physicians and surgeons became the medical department of Columbia, but the present charter was not surrendered till 1891. Instruction in law was first given in 1793. The school of mines, now the school of applied science, through the efforts of Thomas Eggleston, was founded in 1863. In 1880 a school

* Resigned.

of political science was opened. Barnard College, where instruction is given to women, was founded in 1889. The school of philosophy was established in 1890, and that of pure science in 1892.

Organization: Columbia University consists of a school of arts (the original college), of sundry professional schools, to wit: the school of law, the college of physicians and surgeons, the school of applied science, of political science, of philosophy, of pure science, and Barnard College. The various schools are under their own faculties, which in turn are governed by the university council, consisting of the president, the faculty deans, and one member of each faculty. The university as a whole is governed by twenty-four trustees, who hold office for life, and who appoint their own successors.

Degrees and Instruction: Degrees are given by all the various schools, embracing degrees of bachelors of arts, science, laws, medicine, and engineering as well as master's and doctor's degrees. The college has a four years' course in arts and sciences, leading to the degree of B.A. Admission is upon written examination, and candidates must be at least eighteen years of age. Negroes are not excluded. Graduates of colleges and scientific schools in good standing, and all persons who have received the academic diploma of the regents of New York, are admitted without examination. The studies for the first two years are obligatory; in the junior year two studies are required, and forty-two are elective; in the senior year all are elective. In the junior and senior years of Barnard College all courses given in the school of arts are open to students. The degrees for Barnard College are those of Columbia University, and are given as such. Attendance at chapel or gymnastic drill is not compulsory. The college year lasts from October 5 to June 10.

Tuition, Scholarships, and Aid: The tuition fee is from \$150 to \$200, with special fees in the various schools. The price for tuition can be reduced, except in the medical school, on the ground of good character and ability. The total expenses of the year range from \$380 to \$1,000. There are twenty-four fellowships yielding the income of \$500 each, twenty-nine scholarships of lesser income, and nearly one hundred prizes for the students of the college. In the medical school there are three fellowships of \$500 each, and one prize of \$700 in medical science. Three similar prizes are given for clinical reports, three for proficiency, and three of \$200 and \$100 for medical essays. One scholarship of \$1,300, and two of \$1,000 provide for foreign study. Two prizes, one of \$1,000, and the other of \$400, have been established for the best works on North America, and there are seven prizes of from \$500 to \$40 for good work in political science.

Equipment: The annual income is \$770,833. The library contains 215,000 volumes, and receives 500 periodicals. The university press publishes "The Bulletin," and all meritorious work in special research. Besides the Seth Low library building, costing \$100,000, a hall to cost \$300,000, and two new buildings costing \$650,000, six new buildings are to be erected, the future cost of which is estimated at \$2,000,000. One of these is a gymnasium to be connected with the present athletic grounds in North New York, and with the

university boat-house on the Hudson, which has already been completed.

Instructors, Students, and Alumni: The number of students during the last current year was 1,943. More than 2,000 are to attend the session of 1896-1897. The number of American colleges represented in the postgraduate department is 136, and of foreign colleges, 26. The total number of instructors is 265. The total number of alumni last December was 14,634; of these 2,719 had died. The oldest living graduate is Hamilton Martin, 1824, of New York.

Societies and Publications: The following is a list of the societies and athletic teams maintained by the students: Philolexian Literary Society, Barnard Literary Association, Shakespeare Society, Columbia Musical Society, Banjo Club, Mandolin Club, Glee Club, Gun Club, Athletic Association, with track team, 'varsity eleven, 'varsity crew, 'varsity nine, lawn tennis club, freshmen crew, and freshmen baseball club. Chapters of the following fraternities have been organized: $\Phi B K$, $A \Delta \Phi$, 1836; $\Psi \Upsilon$, 1842; $\Delta \Phi$, 1842; $X \Psi$, 1846-1885; $\Delta \Psi$, 1847; $\Phi K E$, 1855-68; $\Phi \Gamma \Delta$, 1866; $\Phi K \Psi$, 1872-1876; $\Delta K E$, 1874; $A \Sigma X$, 1877-1878; $Z \Psi$, 1879; $B \Theta \Pi$, 1881; $\Phi \Delta \Phi$, 1881; $A T \Omega$, 1881-1882; $\Delta T \Delta$, 1882-1888; $\Theta \Delta X$, 1883; $\Phi \Delta \Theta$, 1884; ΔT , 1885, and $\Sigma A E$. The students issue "The Columbia Spectator," "The Morningside," "The Columbia Literary Monthly," and "The Columbia Medical News."

COLUMBIAN UNIVERSITY.

*Washington, D. C.**Co-Educational.**Baptist.*

INCOME, \$68,821	STUDENTS, 1069	INSTRUCTORS, 142	BUILDINGS, 3	BOOKS, 11,000
---------------------	-------------------	---------------------	-----------------	------------------

History and Organization: The original act of incorporation was in 1821. In 1873 the present name was adopted. There are eleven overseers and seventeen trustees. The university consists of the Columbian College, with scientific, summer, graduate, law, medical, and dental schools, the University Extension, and the Columbian Academy. The endowment is \$1,000,000. A school of corporate jurisprudence is to be added at a cost of \$250,000.

Admission, Degrees, and Study: Examinations for admission are in writing. Appropriate degrees are conferred by all the schools, and degrees of Ph.B. and LL.D. are given by the Graduate Faculty. Honorary degrees are rarely given. The college year is from September 20 to June 10.

Dues, Scholarships, and Prizes: The college admission is \$10, and a yearly tuition from \$50 to \$100. Other expenses are from \$20 to \$35 per month, \$90 in the scientific school, \$80 in the law school, \$75 in the medical school, and \$100 in the dental school per year. There are seven gold medals given yearly, five prizes of from \$20 to \$100 in the law school, and six prizes in the medical school.

College Adjuncts: There is the Enosinian Society for debate and composition in the college, a moot court and court of appeals in the law school, as well as a debating society. The following fraternities have established chapters at the university: Σ A E, 1859-1869; Σ X, 1864-1878; Φ K Ψ, 1868; A T Ω, 1874; Φ Δ Φ, 1884; Π B Φ, 1889.

By special agreement the resources of some twenty national scientific societies, besides the libraries and museums of Washington, have been made available for students.

The college was founded in 1857 by Rev. G. B. Bowman. The first presidents were Rev. R. W. Keeler, 1857-1859, and Rev. Samuel M. Fellows, 1859-1863. In 1882 the quarter-century of the college was celebrated. The institution is governed by thirty trustees. The courses are classical, philosophical, scientific, and civil engineering, all of which lead to bachelor's degrees. Attendance at chapel and drill are compulsory. There are ten scholarships, four of which are for women. For needy ministerial students the income of \$10,000 is given. The college grounds cover seventy acres, twenty of which are used for an athletic field.

The students maintain seven literary societies in the college and three in the academy, an engineering society, the ministerial club, an athletic association, and a glee club. The following fraternities had chapters: Φ K Ψ, 1868-1872; Σ N, 1888-1890.

History and Endowment: Cornell University was incorporated by the legislature of the State of New York April 27, 1865, and opened October 7, 1868. The existence of the university is due to the combined bounty of the United States, the State of New York, and Ezra Cornell. By an Act of Congress of July, 1862, it was provided that there should be granted to the several States public lands, the proceeds of which should be used for the endowment and maintenance of at least one college. The share of the State of New York was 990,000 acres. By a union of the money realized for this land and the resources of Ezra Cornell, Cornell University was founded. Ezra Cornell's wish was to found an institution where any person could find instruction in any study; while the State stipulated that the college should be strictly non-sectarian, and that it should annually receive from each assembly district of the State one student free of charge. Ezra Cornell's first gift was \$500,000 with two hundred acres of land. Later he purchased all that remained of the land scrip for \$50,000, upon the condition that all the profits that should accrue from the sale of lands in the future should be paid to Cornell University. His terms were accepted in 1866, and the absolute ownership by the university of the endowment fund was established in 1890 by a decision of the Supreme Court of the United States. The college land scrip fund amounts to \$688,576.

The first college buildings were built by the students. Women were admitted, and a large dormitory known as Sage College erected for them, in 1872. There are no other dormitory buildings on the campus proper, the situation of which, on a plateau between two waterfalls, overlooking Cayuga Lake and the settled valley at its head, is unique. In 1890, after a long lawsuit, the large property left to the university by Mrs. Jenny McGraw Fiske was withheld from it by a ruling of the Supreme Court of the United States. To make up for this, Henry W. Sage, a previous benefactor of Cornell, gave \$560,000 for the cost and endowment of the new university library. In 1891 the fees for tuition were raised. In 1896 an expedition was sent to Greenland under Professor Tarr to make geological observations. The presidents have been Andrew D. White, 1865-1885; Charles K. Adams 1885-1890; Jacob G. Schurman, 1890 till present.

Organization: The university is governed by thirty-five trustees, fifteen of whom are elected by the alumni. They are organized in an executive committee and in seven standing committees.

Admission, Instruction, and Degrees: Candidates for admission must be at least sixteen years of age, and if women, seventeen. Examinations in all the subjects required for admission are held twice a year, at Ithaca only. No candidate markedly deficient in English is admitted

to any course in the university. Candidates with diplomas from the regents of New York are accepted without examination. Certificates from specified schools are also accepted in lieu of an examination, but no school certificate will be accepted in place of the entrance examination in English. Students of at least twenty-one years may be admitted as special students without examination, except in the department of architecture. Degrees of B.A., B.S.A., C.E., and M.E. are conferred after at least one hundred and eighty weekly term hours of credited attendance at recitations and lectures. All studies of the first two years are obligatory, as is military drill; but in the junior and senior years all studies, other than that of military science during the first term, are elective. The Faculty has decided after 1897, when severer conditions of admission go into force, to permit freedom of election, except in the matter of drill and physical training, to all candidates for the degree of B.A., doing away with the general courses in philosophy, letters, and science. The master's degree is given in arts [philosophy, letters, science], architecture, civil engineering, mechanical engineering, agriculture, and veterinary science. The doctor's degree is conferred in philosophy [and science] after two years of graduate study. The architectural department has been organized as a college. The college year lasts from September 23 to June 18. There is also a short summer course of study, open to undergraduate students and others.

Tuition, Scholarships, and Prizes: Tuition is \$100 a year in the school of law, in the medical preparatory course, and in the course in arts [philosophy, letters, and science] for both graduates and undergraduates. Special students pay \$125. Students in engineering pay \$5 for extra expenses, and a fee of \$5 has to be paid for each diploma. The yearly expenses are estimated at from \$325 to \$500.

Under the law of the State the Superintendent of Public Instruction is empowered to award annually a number of free scholarships equal to the number of assembly districts in this State (128). In addition to this eighteen scholarships of \$200 each are thrown open each year for competing candidates. Eighteen further scholarships of \$200 each become available every other year. There are twelve university fellowships of an annual value of \$500 each, and one fellowship in modern history yielding \$600. In the Susan Linn Sage School of Philosophy there are six graduate scholarships of \$300 each, and ten further graduate scholarships yielding the same income have been distributed among ten departments. There is an annual prize of a \$100 gold medal for oratory, a \$30 prize for declamation, two \$10 and \$20 prizes for veterinary, a \$100 prize in mechanic arts, and a \$60 prize for Shakespeare study. Medals of gold and silver are offered for good work in civil engineering and American history.

College Publications and Societies: Learned publications. President J. G. Schurman is editor of "The Philosophic Review;" Prof. H. Morse Stephens is co-editor of "The American Historical Review;" Professors Wheeler, Bennett, Bristol, Emerson, and Elmer edit "Cornell Studies in Classical Philology;" Professors Trevor and Bancroft publish and edit "The Journal of Physical Chemistry;" Professor Baily edits the "Bulletin of the Agricultural Experiment

Station;" Professor Fuertes, the crop and other reports of the State; Professor Harris edits and publishes a palæontological bulletin. The students publish the "Cornellian," an annual; the "Cornell Magazine," a monthly; the "Era," a weekly; the "Daily Sun," also the "Sibley College Journal of Mechanical Engineering."

Cornell students form one company of the New York National Guard. There are three debating societies, two Christian Associations, an ethical club, the Savage Club, a dramatic club, a self-government association, a civil service reform club, and an athletic association, embracing a football eleven, baseball nine, track team, several crews, and a canoe club. Chapters of the following fraternities, most of which own houses of their own, have been established at Cornell University: Φ B K, Σ E, 1886; Z Ψ , 1869; X Φ , K A, 1868; X Ψ , Φ K Ψ , Δ T, 1869; Δ K E, Δ X, A Δ Φ , Θ Δ X, 1870; Φ Δ Θ , 1872; A Σ X, B Θ Π , 1874; Ψ T, 1876; K A Θ , 1881; K K Γ , 1883; Δ Γ , 1885; A T Ω , 1887; Φ Δ Φ , 1888; Φ T T, 1888-1889; Φ Γ Δ , 1888; Φ Σ K, A Φ , A Z, 1889; Δ T Δ , and Σ X, 1890.

Edward Creighton, the founder, for the purpose of establishing a free institution of learning, left \$100,000, which was laid in the hands of the Catholic bishop by his widow. In 1879 the fund had risen to \$147,000. With this the university was begun. Since that time \$100,000 more has been spent on buildings and equipment. Tuition is free. Degrees of B.A., B.S., B.Ph., Ph.D., and professional degrees are conferred. The grounds cover six acres. The students maintain a religious sodality, a debating society, an athletic association, a glee club, and there is also an alumni association. The academic year, of one term, lasts from the first Monday in September to the last week in June.

The college was established in 1827 at Princeton, Ky., but in 1842 the presbytery, by reason of its indebtedness, transferred the school to Cumberland. During the war the buildings were burned, the library destroyed, and the endowments scattered. The school was re-opened in 1865. The presidents have been: F. R. Cossitt, 1842-1844; T. C. Anderson, 1844-1867; B. W. McDonald, 1867-1873, and Nathan Green, the present incumbent. Four halls are now in use, and a fifth building is just completed. The school is governed by seven trustees. There is a department for women, where instruction is given in literature, art, music, elocution, shorthand, and typewriting. The law school is the oldest in the South. The theological school is co-educational. Collegiate degrees of A.B., B.S., A.M., Ph.B., together with C.E., B.L.L., and B.D. are conferred. Attendance at chapel is not compulsory. The total number of graduates has been 2,294; the oldest living is Nathan Green, 1845, of Lebanon, Ky. The students maintain three literary societies with halls, and an athletic association. Chapters of the following fraternities have been established: Β Θ Π, 1854; Mystical Seven, 1867 (united, 1889); Δ Κ Ε, 1857-1873; Δ Ψ Α Δ Φ, 1858-1861; Φ Κ Ε, 1859-1861; Σ Α Ε,

History and Organization: Dartmouth was the outgrowth of a charity school opened by Master Moor in 1754 for Indians. Two years later, fifteen of the thirty students were English. In 1765 £1,000 was raised in England, and placed in charge of the trustees, with the Earl of Dartmouth at the head. The founder, Dr. Wheelock, decided to reach "a greater proportion of English youth." The present site was chosen, and in 1769 a charter was given. The first four students were graduated in 1771. There was a suit for the control of the college between the State and the college, which was decided in 1819 in favor of the trustees, on argument by Daniel Webster. The medical college dates from 1798; the Chandler School of Science and the Arts from 1851; the College of Agriculture and Mechanical Arts from 1866; and the Civil Engineering School from 1867. The presidents have been: Eleazar Wheelock, 1769-1779; John Wheelock, 1779-1815; Francis Brown, 1815-1820; Daniel Dana, 1820-1821; Bennett Tyler, 1821-1828; Nathan Lord, 1828-1863; Asa Dodge Smith, 1863-1877; Samuel Colcord Bartlett, 1877-1892, William Jewett Tucker, 1893. The college is governed by a board of twenty-four trustees.

Courses of Study: Three parallel courses,—the classical, the Latin-scientific, and the scientific lead to degrees of B.A., B.S., M.A.,

and Ph.D. In the first year all studies are prescribed, in the three following years elective studies are offered. Attendance at chapel is compulsory for all. Gymnastics are compulsory for freshmen.

Scholarships and Prizes: There are four resident graduate scholarships of \$300 each per year; four resident graduate scholarships, twelve class, and two hundred beneficiary scholarships with twenty-three prizes.

Equipment: Among the fifteen college buildings, are seven dormitories, rooms in which cost from \$14 to \$100 a year, and a gymnasium. Expenses range from \$252 to \$391 per year. The college grounds cover thirty acres, with a campus of four acres. In 1894 the different libraries were consolidated,

College Adjuncts: The students publish the "Dartmouth," and "Literary Monthly," and "Ægis," and maintain an athletic association, with a football and baseball team. Other societies are: Ace of Spades, Scouts, Creosote, Lebanon Club, Dramatic Club, Medical Club, Eating Club, Co-operative Association, Medical Society, Press Club, College Council, Orchestra, Choir, Glee Club, Bazoo Concert Company, Hare and Hounds, Boat Club, and Christian Associations. Chapters exist of: Φ B K, Ψ T, 1842; K K K, 1842; A Δ Φ , 1846; Z Ψ , 1855; Δ K E, 1853; Φ Z M, 1857; Φ Δ Θ , 1884; B Θ Π , 1889; Θ Δ X; Σ X and Θ N E.

Denison University was organized in 1831 under the auspices of the Ohio Baptist Educational Society, bearing the name of the Granville Literary and Theological Institution. In 1845 the name was changed to Granville College, and again in 1856 to the present name, in honor of William S. Denison, of Adamsville, Ohio. The site was at first a farm, some two miles southwest of Granville, but in 1855 the present site, containing twenty acres, was purchased, and the college moved to town. The first class was graduated in 1840. A severe fire occurred during the first year of the school's existence.

The list of presidents is as follows: Rev. John Pratt, D.D., 1831-1837; Rev. Jonathan Going, D.D., 1837-1844; Rev. Silas Bailey, D.D., LL.D., 1846-1852; Rev. Jeremiah Hall, D.D., 1853-1863; Rev. Samson Talbot, 1863-1873; Rev. Elisha Benjamin Andrews, D.D., LL.D., 1875-1879; Rev. Alfred Owen, D.D., 1879-1886; Rev. Galusha Anderson, S.T.D., LL.D., 1886-1889; Daniel Boardman Purinton, Ph.D., LL.D., 1890.

Degrees of A.B., B.S., B.L., B.Ph., and M.A. are conferred. The college is governed by thirty-six trustees. A gymnasium, costing \$25,000, is to be added to the present buildings, two of which were erected only two years ago. Attendance at chapel is required. The students publish "The Denisonian," a weekly, "The Denison Quarterly," "The Journal of Newsology," and "The Adytum," an annual, and maintain two literary societies, having their own halls, an athletic association, an oratorical association, and a mandolin and guitar club, with the following fraternity chapters: ΣX , 1867; $B \Theta \Pi$, 1869, and $\Phi \Gamma \Delta$, 1885.

The total number of graduates has been 450, of whom 75 have died. The college year is from September 17 to June 17.

History: The Indiana Asbury University was chartered in 1837. In 1847 the university was empowered to establish professional schools. The first president, in 1839, was Matthew Simpson, afterward bishop. The old buildings were begun in 1837. After a fund of \$143,000 had been raised, W. C. De Pauw gave \$167,000, and the name was changed. The university as such was not organized until 1884. The semi-centennial celebration was held in 1887. A conflagration resulting in the destruction of West College occurred in 1879.

Organization and Instruction: The university is governed by a board of twenty-one trustees. Degrees are offered in arts, letters, science, philosophy, law, and theology. During the last two years elective courses can be taken. Attendance at chapel and drill are compulsory.

Equipment: The college grounds cover twenty-four acres in the city, and include a university park of 120 acres. There are ten buildings, among which are a woman's hall and three dormitories for women and an observatory.

The students publish the "De Pauw Weekly" and the "Mirage," a junior annual. They maintain the following associations: philological and athletic associations, Der Deutsche Bund, French Club, Christian Associations, oratorical association, glee club, symphony orchestra, quartette, Independent Literary Society, De Pauw Skull, and Fortnightly Club.

The following fraternities have chapters at De Pauw: Φ B K, B Θ Π, 1845; Φ Γ Δ, 1856; Ξ X, 1859; Φ K Ψ, 1865; Δ K E, 1866; Φ Δ Θ, 1868; K A Θ, 1870; Π B Φ, 1870; Δ T Δ, 1871; K K Γ, 1875; A X Ω, 1885; Δ Υ, 1887; A Φ, 1887.

Since the foundation of the school there have been 1,789 graduates, 1,376 of whom are now living. The oldest of these is the Rev. T. A. Goodwin, 1840, of Indianapolis, Ind.

The college year is from the third Wednesday in September to June 2.

The college was founded in 1865. It is affiliated with the University of Chicago, which sends occasional instructors, grades examination papers, issues certificates of attainment, and confers the same degrees, to which students would be entitled if at the university, besides offering fellowships of \$140 to graduates of the college.

The trustees number forty-six. Candidates for admission must be fourteen years old, and must pass examinations in thirty-one of fifty-eight subjects. Instruction is given in academical and collegiate courses and in music. The college confers degrees of A.B., B.S., and Ph.D. Attendance at chapel is compulsory. Students are not allowed to undergo ordination for the ministry during term time, and are forbidden to secure rooms, contract debts, or leave the city during term, without permission from the president. The expenses for the year, lasting from September 30 to June 30, are from \$125 to \$250. Of this \$36 is for tuition, while fees of \$3, \$10, and \$20 are charged for the use of the library, and for instruction in chemistry and music.

The students maintain three literary societies and two Christian Associations. The graduates number 75, of whom L. Ella Miller, 1875, of California, is the oldest.

---------------------	------------------	--------------------	-----------------	------------------

Dickinson College was founded in 1783. It is governed by a board of forty-eight trustees, four of whom are alumni. Originally all trustees were clergymen. Its preparatory department has existed since the foundation of the college. The law school was organized in 1836.

Four parallel courses of study are pursued: the classical, Latin-scientific, Greek-scientific, and in modern languages. The studies of the first two years are almost all compulsory, while those of the last two years are elective; the degrees are B.A., Ph.B., M.A., D.D., B.L., and LL.D. Tuition is \$50 a year; other expenses amount to \$200. There are three scholarship funds, several scholarships of \$1,000 each, and seventeen college prizes for excellence in study, with four prizes for debate.

Equipment: With the exception of two old buildings, built in 1804 and in 1836, all other buildings—seven in number—are modern. The campus is a full square. There are three libraries, containing 34,000 volumes, a museum, and an observatory and a gymnasium with a running track and an athletic field.

Societies and Publications: There are two literary societies, the Belles Lettres and Philosophical, coeval with the founding of the college, and two general societies which meet at commencement. Besides these, there is an alumni association, two Christian Associations, with chapters of the following fraternities: Φ B K; Σ Ψ , 1853-1855; Φ K Σ , 1854-1878; Φ K Ψ , 1859; Σ X, 1859; Θ Δ X, 1861; X Φ , 1869; B Θ Π , 1874; Φ Δ Θ , 1880.

There have been 1,564 graduates, of whom 836 are now living. The oldest is the Rev. William B. McIlvaine, of the class of 1825, in Peoria, Illinois.

The college began in 1872 with six hundred acres of land, overlooking the city of Crete. Ninety acres of this were devoted to the college campus. The institution is governed by a board of twenty-seven trustees. There are two regular courses in classics and sciences; the studies of the first two years are prescribed. Military drill and attendance at chapel are compulsory. The students maintain three Christian Associations and three literary societies, named the Hesperian, Philomathean, Palladian, Phi Kappa Delta, an athletic association, with a tennis association and football team, and the glee club and mandolin club. "The Oval" is published by the students.

Since the foundation of the school there have been 89 graduates, 86 of whom are living.

At a Congregational convention in 1873 the college was established at Springfield with an endowment of \$225,000, and with a campus

of thirty-five acres. The presidents have been: Rev. Nathan Jackson Morrison, D.D., LL.D., 1873-1887; Rev. Francis Theodore Ingalls, D.D., 1887-1892. The school is governed by twenty trustees. Students are admitted on certificates. Two parallel courses lead to degrees of B.A., B.S., and M.A. The expenses range from \$125 to \$175 a year. There are eighteen scholarships, and three prizes of from \$10 to \$25. Attendance at chapel, military drill, and gymnastics are compulsory. The college year is from September 11 to June 11. The natural history collection owned by the college is considered to be very good. A gymnasium with athletic grounds provides for physical exercise. There are two literary societies: the Oratorical Association for men, and the Lauriferae for women; two similar societies in the preparatory department; three Christian Associations and Endeavor Societies, and a Historical Society. "The Mirror" is published fortnightly.

Earlham College was founded in 1859. It began as a co-educational institution, having grown out of the Friends' Boarding School of the same town, to which both sexes were likewise admitted. The first graduating class consisted of one man and one woman; since that time one-third of the graduates have been women. The college is governed by thirteen trustees.

Admission is by examination, or upon certificates from fourteen specified academies, and five high schools of Indiana. There are eight courses of study of four years each. The degrees are B.A.,

B.Ph., B.L.L., B.S., and that of M.A., after one year's study. The total expenses for the year, lasting from September 14 to June 9, are \$215. Eight benevolent funds, aggregating \$40,000, have been established, from the interest of which scholarships of \$65 each are bestowed. In addition to these funds there is a loan fund for young women, and one for graduating students.

The college grounds cover one hundred and twenty acres, and overlook the valley of the White River. There is an athletic field large enough for all sports, and an auditorium seating one thousand. Of the societies the Oratorical Association is open to members of all four classes. The Ionian is for men, and the Phoenix Band for women. Both own libraries. The "Earlhamite" is published by the students.

In all, 350 students have been graduated, 323 of whom are living. The oldest of these is Luzena Thornburg, 1862, of Carthage, Ind.

This college, which was originally intended as a German preparatory theological seminary, was founded in 1871, and celebrated its twenty-fifth anniversary in 1896. It is situated sixteen miles from Chicago, on a tract of twenty-eight acres. The trustees number eight, with three parishes having one vote each. Admission is on certificate. Instruction is given in the classics, modern languages, sciences, music, and pedagogy. Attendance at chapel is compulsory. Students are forbidden to correspond without permission from the

president, and must have no intercourse whatever with members of the opposite sex. A marriage engagement is followed by instant dismissal. The expenses for the year are \$200. Poor students can obtain scholarships of from \$100 to \$150, but in return for such scholarships must sign articles promising to return such advances, and promising also never to leave the Evangelical Church.

The graduates number one thousand.

The school was chartered in 1852 as the Auburn Female University. It was transferred to Elmira in 1853, and was opened to students two years later as the first women's college giving the degree of B.A. in the East. It was also the first to receive aid from the State. It is governed by nineteen trustees. Students holding certificates of the Regents of New York, or of preparatory and high schools are admitted without examination. Degrees of B.A., B.S., and in music are given, as are the degrees of M.A. and M.S. after one year's post-graduate study. The expenses for the year are \$350. The income of \$25,000 is used to assist worthy students, and the interest of \$1,000 is given to the best graduate.

The campus covers ten acres, and contains athletic grounds. The graduates number 404, of whom 340 are living. The oldest of these is Martha B. Flint, 1859, New York City. Two literary associations, the Kappa Sigma, and the Phi Nu are maintained by the students, and the "Sibyl" is issued five times a year by the Seniors. The college year lasts from September 16 to June 10.

The school was chartered as the Texas Wesleyan College in 1881, but changed its name to the present one in 1889. It is governed by a board of thirteen trustees. Admission is by examination and upon certificate. Two collegiate courses, and courses in law and medicine, lead to degrees of B.A., B.S., LL.B., and M.D. Two preparatory courses, a normal and commercial course, besides courses in music and military training, are also offered. Attendance at chapel, church, and at military drill for men, is required. The expenses for the year, lasting from September 15 to May 20, are \$165, of which \$50 is for tuition. Scholarships equivalent to tuition are offered in the Normal College, and a gold medal is given for excellence in oratory.

The campus, situated in the midst of Fort Worth, the "Chicago of Texas," on the southern bank of the Trinity River, covers ten acres. Of the buildings, four, including the dining-hall and armory, are on the campus, while the professional schools are in the centre of the town. The college owns a good library, observatory, two laboratories, and a museum of zoölogical and mineralogical specimens, and of archæological casts. The societies are the Athenian and Hesperian for men, the Orophilian for women, an Athletic Asso-

ciation, with football and baseball teams, and two Christian Associations. Of the twenty-eight graduates, William R. Edrington, 1887, of Fort Worth, is the oldest.

The college was founded in 1825, and was flourishing in the days of Andrew Jackson, who was among its benefactors. Of the thirty-five colleges of Ohio only five have graduated a larger number of classical students. It is governed by twenty-one trustees. Admission is by examination and upon certificate. The curriculum leads to degrees of B.A., B.S., and B.Ph., and diplomas in business, music, and art are offered. Degrees of M.A., Ph.M., and M.S. are given after three years. Expenses for the year, lasting from September 1 to June 2, are from \$130 to \$200.

A new college building has recently been erected at a cost of \$12,000, and a separate dormitory has been provided for women. The students maintain two chartered literary societies, the Philosophic and Jefferson, and two Christian Associations. A chapter of $\Delta T \Delta$ was organized in 1863, but expired in the same year.

The graduates number 800, a very large majority of whom are clergymen. The oldest of these is Rev. Joseph McKee, 1832, of Los Angeles, Cal.

Georgetown University was founded by Archbishop John Carroll in 1789 on Georgetown Heights, two and a half miles from the Capitol, where it still stands. It was the first Catholic college in the country, and opened its doors to students in 1791. It was recognized by Congress as a university in 1815, and was empowered to grant degrees in philosophy and theology in 1833. An observatory was established in 1843. A college of medicine was added in 1851, to be followed by a law school in 1870. The present buildings were begun in 1878. They have a frontage of eight hundred feet, and are surrounded by seventy-eight acres of ground. The presidents have been: the Rev. Drs. Plunkett, 1791-1793; Robert Molyneux, 1793-1796; William L. DuBourg, 1796-1799; Leonard Neale, D.D., 1799-1806; Robert Molyneux, S.J., 1806-1808; William Matthews, 1808-1810; Francis Neale, S.J., 1810-1812; John Grassi, S.J., 1812-1817; Benedict J. Fenwick, S.J., 1817-1818; Anthony Kohlmann, S.J., 1818-1820; Enoch Fenwick, S.J., 1820-1822; Benedict J. Fenwick, S.J., 1822-1825; Stephen Larigaudelle Dubuisson, S.J., 1825-1826; William Feiner, S.J., 1826-1829; John William Beschter, S.J., 1829; Thomas F. Mulledy, S.J., 1829-1837; William McSherry, S.J., 1837-1840; Joseph A. Lopez, S.J., 1840; James Ryder, S.J., 1840-1845; Samuel A. Mulledy, S.J., 1845; Thomas F. Mulledy, S.J., 1845-1848; James Ryder, S.J., 1848-1851; Charles H. Stonestreet, S.J., 1851-1852; Bernard A. Maguire, S.J., 1852-1858; John Early, S.J., 1858-1865; Bernard A. Maguire, S.J., 1866-1870; John Early, S.J., 1870-1873; Patrick F. Healy, S.J., 1873-1882; James A. Doonan, S.J., 1882-1888; Joseph Havens Richards, S.J., 1888 to the present.

Admission, Degrees, etc.: From certain preparatory schools students are admitted on certificates, in all other cases only after exam-

ination. The degrees are B.A., M.A., and Ph.D., besides the degrees granted by the professional schools. Attendance at chapel is compulsory, but not so drill. The college year lasts from the second Wednesday in September to the fourth Tuesday in June.

Dues, Scholarships, and Prizes: The total expenses for the year are \$337. Prizes of \$25 are given to the best students in philosophy, English history, and Oriental literature; and fourteen gold medals and thirty silver medals are conferred for excellence in numerous specified studies.

College Societies and Publications: The college grounds cover seventy acres. The seniors' campus measures 400x500 feet, while that of the juniors measures 270x350. There is no adequate gymnasium or college hospital. The school of medicine is in Washington City at 920 H Street, N. W., while the law school is at 506 E Street, N. W. Besides four religious societies, an alumni association, and athletic association, there is a debating club and historical society, a glee club, students' library, and a junior sodality with a library. Tau Theta Kappa, a literary society organized among the students, dates back many years. The "College Journal" is published, and the observatory issues regular reports of its observations and discoveries.

Girard College was founded in 1848. It is governed by the board of directors of city trusts of Philadelphia, thirteen in number. The first president was Alexander Dallas Bache, LL.D., elected in 1836, but the college was not opened until 1848. Hon. Joel Jones was the first acting president in 1847; he was succeeded by William Henry Allen, LL.D., in 1849. In 1863 President Allen was succeeded by Richard Somers Smith, A.M. In 1867 President Smith was succeeded by Ex-President Allen, who served until his death. The present incumbent, A. H. Fetterolf, LL.D., was elected in 1882.

The development of manual training and mechanical instruction in which Girard College stands so high, is due largely to the efforts of the late Richard Vaux, who was long a member of the board of directors. As a consequence of this development fifty per cent of the graduates, some 3,000 in number, are engaged in clerical and

mercantile pursuits. Under the will of the founder negroes are excluded. Attendance at chapel and at gymnastics and military drill are compulsory. Theodore A. De Dow, 1855, is the oldest living graduate. The college, which has never been moved, stands on grounds covering some forty acres. The most noticeable events of the college year are New Year's Day, when the annual distribution of premiums takes place, and Founder's Day which occurs on May 20.

The college was organized as Grand River Academy in 1850, but was not incorporated until 1859. During this interval the original building was destroyed by fire in 1853, and replaced by a new one in 1858. The school was the first co-educational institution in the State. It is governed by twelve directors and six trustees. Admission is by

examination and upon certificate. Besides the college curriculum leading to degrees of B.A., B.S., and B.L., courses in theology, business, music, and art are offered. Attendance at chapel is required. In the college all "gallanting and loafing, the use of tobacco, or the carrying of dangerous and deadly weapons" is strictly prohibited. The expenses for the year, lasting from September 15 to May 6, are from \$100 to \$130, of which \$26 is for tuition. The college grounds cover four acres of fine blue grass. The buildings consist of the old college structure, and a dormitory for women. The library contains several hundred volumes. The students maintain the Alpha-Philomathian, and a Christian Endeavor Society.

The college was founded in 1837; the corner-stone was laid in 1843, and in 1846 the building was completed. The founders were the members of North Carolina Conference which met at Petersburg. A Faculty was selected in 1847. The college was burned in 1864, and rebuilt in 1875. The presidents have been: Rev. Solomon Lea, 1846-1847; Rev. A. M. Shipp, 1847-1850; Rev. Charles F. Deems, 1850-1854; Rev. T. M. Jones, 1854-1890; Dr. B. F. Dixon, 1890-1893; Rev. F. L. Reid, 1893-1894, and Dred Peacock, the present incumbent. The college is governed by seven directors. The degree is B.A. It is conferred after completion of the entire English course and a course in at least one ancient or modern language. Candidates are admitted on certificate. The expenses are \$160 a year. Attendance at chapel is compulsory. Negroes are excluded. The college year lasts from September 1 to May 25.

The college grounds cover forty acres. There are two literary societies, the Irving and the Emerson, a Woman's Christian Temperance Union, and the Marvin Missionary Society. "The College Message" is published.

The college is governed by a board of twenty-one trustees. It confers the degree of B.A. only. The fees are \$76 a year. There are two prize scholarships, and fourteen other scholarships, two of which are for ministerial students, while eleven are given by local branches of the alumni. Of the two literary societies the Union was organized in 1789, and the Philanthropic in 1805. They meet twice

annually in debate, and jointly issue a college magazine. The College Historical Society makes research in local and State history its prime object. Chapters of the following fraternities have been organized: B Θ Π, 1850; Φ K Ψ, 1855; Σ A E, 1860-1861; X Φ, 1867; Φ Γ Δ, 1870; Σ X, 1872-1879; K Σ, 1883; Φ A X, 1884; Π K A, 1885.

History and Organization: Hampton Institute was founded by General S. C. Armstrong in 1868, and was conducted and managed by him till his death in 1893. He was succeeded by H. D. Frissell, D.D. It is governed by seventeen trustees and six State curators. The students of the institute are either negroes or Indians. Originally the school was intended only for negroes, but in 1878 Indians of Florida, who had been held as prisoners of war, were received. Tuition is free, the estimated cost of instructing each pupil being from \$50 to \$70. Instruction is given in the liberal arts, as well as in industrial and mechanical pursuits. Attendance at chapel, gymnastics, and military drill is compulsory. The academic year lasts from the first week in October to the middle of June.

Equipment: The grounds of the school extend over one hundred and fifty acres, and comprise some sixty buildings, among which are the Whittier School, the Normal School, the Indian School, and a Night School, as well as a gymnasium, library, and observatory.

Societies and Publications: The Indian students publish "Talks and Thoughts;" the negroes publish "The Beacon;" while the institute as such publishes the "Southern Workman." The societies are the Lyceum League, Lend-a-Hand, several Christian and Endeavor Associations, and an Athletic Association, with a football and baseball team. The graduates number 840, the oldest of whom is Jonas A. Fields, 1871, of Newport News.

The college began in 1827 in a log cabin; was incorporated in 1828; became a synodical school in 1829, and in 1833 received its present name. It was opened to women in 1880. The presidents have been: James E. Blythe, D.D., 1832-1836; Duncan McCauley, D.D., 1836-1838; Erasmus Darwin MacMaster, D.D., LL.D., 1838-1843; Sylvester Scovel, D.D., 1846-1849; Thomas E. Thomas, D.D., 1849-1854; Jonathan Edwards, D.D., LL.D., 1855-1857; James Wood, D.D., 1859-1866; George D. Archibald, D.D., 1868-1870; George C. Heckman, D.D., LL.D., 1870-1879; Daniel W. Fisher, DD., LL.D., 1879 to the present.

The school is governed by a board of thirty-two trustees. The degrees are B.A., B.S., M.A., Ph.D., and LL.D. Tuition is free; expenses are from \$150 to \$200. Attendance at chapel is compulsory; gymnastic, and military drill are not required. Negroes are excluded. The college year lasts from September 16 to June 16.

Of the four literary societies, the Union and Philaethian are for men, and the Zetaethian and Crestomathian for women. Together they own 2,000 books. Besides this there are two Christian Associations, an Alumni Association, and chapters of the following fraternities: B Θ Π, 1853; Φ Γ Δ, 1864; Φ Δ Θ, 1860; Σ X, 1871; Δ T Δ, 1872; Δ Γ, 1881; Π K A, 1885.

History: Harvard University, the oldest school in America, was founded in 1636, six years after the first settlement of Boston. The Commonwealth of Massachusetts, through its General Court in that year, made a grant of £400 "to advance learning and perpetuate it to posterity," and in the following year appointed twelve of the principal men in the colony "to take order for a college at Newtown." Two years afterward the Rev. John Harvard, a non-conformist clergyman of Charlestown, who the year before had graduated at Emmanuel College, Cambridge University, gave by his will the sum of £779 17s. 2d. in money, and three hundred books, more than half of his estate. Nine students entered the first class. All of these distinguished themselves in after life; one of them, Sir George Downing, achieving the unenviable distinction of serving both the Commonwealth and the king in the English Revolution. Two other members of the class upon graduating were publicly rebuked for "foul misbehavior, in swearing and ribaldry speech." John Harvard's bequest was followed by other gifts, such as "a font of printing letters," books, silver spoons, cooking utensils, garden tools, and others, varying in value from three shillings to two hundred pounds. The first gift of real estate was two and one-half acres of land given by the town of Cambridge, thereby changing the site of the college from Newtown to Cambridge. The General Court, in lieu of the money it had promised, granted to Harvard College the right of ferry between Charlestown and Boston. In 1642, the board of overseers, consisting of the governor and deputy-governor of the colony, the magistrates then in jurisdiction, the president of the college, and the teaching elders was constituted. In 1643 the present seal of the university and its motto, "Christo et Ecclesiae," was adopted. The college charter was granted in 1650, and the college

"corporation" created. In 1653, Rev. Henry Dunster, the first president, fell under suspicion of favoring the Antipoedobaptists, and as a consequence was indicted by the grand jury for "disturbing the ordinance of infant baptism in the Cambridge Church." He was tried, convicted, and besides being compelled to resign, and being laid under bonds for good behavior, was sentenced to receive an admonition once a year. Previous to this Nathaniel Eaton, the first person who had charge of the institution, was dismissed for beating his usher. The presidents in succession, with their terms of office, have been as follows: Henry Dunster, 1640-1654; Charles Chauncy, 1654-1672; Leonard Hoar, 1672-1675; Urian Oakes, Acting President, 1675-1679, President, 1679-1681; John Rogers, 1682-1684; Increase Mather, Acting President, 1685-1686, Rector, 1686-1692, President, 1692-1701; Charles Morton, Vice-President, 1697-1698; Samuel Willard, Vice-President, 1700-1707; John Leverett, 1707-1724; Benjamin Wadsworth, 1725-1737; Edward Holyoke, 1737-1769; Samuel Locke, 1770-1773; Samuel Langdon, 1774-1780; Joseph Willard, 1781-1804; Samuel Webber, 1806-1810; John Thornton Kirkland, 1810-1828; Josiah Quincy, 1829-1845; Edward Everett, 1846-1849; Jared Sparks, 1849-1853; James Walker, 1853-1860; Cornelius Conway Felton, 1860-1862; Thomas Hill, 1862-1868; Charles William Eliot, 1869 to the present time.

During the term of the second president a hall, costing £350, was erected for the purpose of giving instruction to Indians, but one Indian only applied for admittance, and was graduated by the college. Before this a single building had served all the purposes of the college. All the college halls that were erected after this during the seventeenth century were subsequently rased or destroyed, so that the oldest building now standing on the Harvard yard is Massachusetts Hall, erected in 1720.

Harvard College from that time on prospered. Thus, during the first ten years, no less than £2,000 in money, and nine hundred acres of land had been given to the college. The total grants made by the legislature of the colony during the first century aggregated £8,000. Since that time no year has passed in which some gift of money or land has not fallen to Harvard College. The history of the college is usually divided into four periods: the first from the foundation till 1692, when it was avowedly a theological institution; the second from the accession of President Holyoke to the end of its first century, taken up with bitter religious controversies; the third from 1738 till accession of President Eliot, when it was a college proper, and the last when it became a university.

Organization: The legal title of the corporation is "The President and Fellows of Harvard College." It consists of the president of the university, five fellows, and the treasurer. The board of overseers, all of whom are elective, consists of thirty members. The university is divided into the following departments, with separate faculties or boards of administration: Harvard College, Lawrence Scientific School, Graduate School, Divinity School, Law School, Medical School, Dental School, School of Veterinary Medicine, Bussey Institution (a School of Agriculture), Arnold Arboretum,

University Library, Museum of Comparative Zoölogy, University Museum, Botanic Garden, Herbarium, Astronomical Observatory, Peabody Museum of American Archæology and Ethnology. Radcliffe College, formerly known as the Harvard Annex for Women, though intimately connected with the university, is still a separate institution. The first three departments are governed by the faculty of arts and sciences. In addition to this there is an administrative board of sixteen members of the Faculty for Harvard College proper.

Admission, Instruction, and Degrees: Candidates for admission are examined in writing in a stated number of subjects. The examinations for admission embrace two classes of studies, elementary and advanced, and are by common consent considered to be the most difficult to pass in this country. No students are exempt from examination, but partial exemption is granted to those who enter from other colleges. Upon proper notification the entrance examinations may be taken in any other place than Cambridge, and in a specified number of places in Europe. Courses at Harvard may be taken by students who have not passed the regular examinations, upon certain conditions, but such students are classed as special students only, and cannot receive degrees. The degree of A.B. is conferred after four or three years of study, provided all prescribed studies, and the requisite number of elective courses have been satisfactorily passed by the candidate. In the freshman year two courses are prescribed, and forty can be open to students as elective courses. In the sophomore and junior years, two half courses are prescribed, while all courses of study, except in the graduate department, are open for election. In the senior year no courses are prescribed, while all courses of instruction given at the university are open for election. The degrees granted by the university are: Bachelor of Arts, of Agricultural Science, of Divinity, of Laws, of Science, Master of Arts. and Doctor of Philosophy, Science, Laws, Medicine, Veterinary Medicine and Dentistry, after one year of residence.

Tuition, Scholarships, and Prizes: Tuition is \$150 a year. The yearly expenditures are estimated at from \$372 to \$1,010. The aid annually available from scholarships and other beneficiary funds amounts to about \$90,000. Of the 144 scholarships, twenty-nine with an annual value of \$8,050 are awarded to members of the graduate school; 115, aggregating \$25,630 a year, go to undergraduates. Three of these may be assigned to special students. The annual value of the scholarships varies from \$40 to \$450, the average amount being \$225. Most of these scholarships are assigned only on the basis of a previous year of work in the college. Sums of \$100 to \$250 a year, from the "Price Greenleaf Fund," are awarded to undergraduates in the first year, or to deserving students who have failed to get other scholarships. In addition to these beneficiary funds there is a loan fund, the interest of which, amounting to \$3,000, is lent to meritorious students, in sums ranging from \$40 to \$75. Prizes in the form of books, called "deturs," are annually distributed. Three prizes of \$60 each, and three of \$45 are awarded to seniors and juniors at a public competition in elocution. Nine prizes of from

\$50 to \$100 are distributed for the best dissertations on specified subjects. A prize of \$100 is given for the best essay on Dante, and another of \$100 for the best metrical translation of an ode of Horace. A prize of \$250 is offered for the best thesis of an honor student in modern literature, and another prize of \$250 for the best essay upon "The Causes of the Russian War of 1812." A prize of \$150 is offered for the best essay on a subject in political science, two prizes of \$100, and one of \$50 for the best essays on any modern social subject, and two prizes of \$40 and \$45 for the best Spanish student, and the best essayist on any American governmental subject. Many other prizes, not here enumerated, are given in the various professional schools.

Equipment: The college grounds are distributed through Cambridge, Boston, West Roxbury, Hyde Park, Rochester, Brighton, and Arequipa, Peru. They cover about 700 acres. There are fifty-six college buildings, twenty of which are used for instruction, while the others are used as dormitories, for commons and eating-houses, or for purposes of entertainment. The university library contains nearly a million books and pamphlets, and there are in addition a number of separate libraries distributed among the professional schools and faculties. Besides the Divinity School, Law School, Medical School, Veterinary School, Dental School, and Agricultural Institution, with their chemical, physical, and clinical laboratories, botanical gardens, herbaria, and arboreta, there are museums of zoölogy, botany, mineralogy, ethnology, American archæology, and semitic antiquities. There is also a general university museum and an art museum. Astronomical observatories are maintained both at Cambridge and at Arequipa, Peru. Opportunities for physical exercise are afforded by the large gymnasium, the athletic grounds on Holmes and Soldiers' field, two football and baseball fields, the polo grounds and the university boathouse on the Charles River. All students are required to undergo physical measurements at the gymnasium, but gymnastic exercise is not compulsory. Attendance at chapel is likewise not compulsory.

Societies, Teams, and Publications: The following clubs and societies are maintained by the students: Amphadon Club, Andover Club, Alumni Association, Banjo Club, Freshman Banjo Club, B. L. S. Association of Harvard University, Boylston Chemical Club, Brewster Academy Club, Camera Club, Cambridge Latin School Association, Canadian Club, Catholic Club, Central New York Club, Cercle Française, Chess Club, Christian Association, Civil Service Reform Club, Classical Club, Co-operative Society, Cycling Association, Deutscher Verein, Disciple Club, Dining Association, Engineering Society, English Club, E. The athletic associations and teams are: the Athletic Association, the Mott Haven Team, 'Varsity Football Team, Second Eleven, Freshman Football Team, Baseball Nine, Class Nines, Freshman Nine, Cricket Eleven, 'Varsity Crew, Class Crews, Freshman Crew, Tennis Association, Polo Club, Canoe Club, Shooting Club, Harvard Rifles, Cyclers' Association, Fencing Club, Lacrosse Team, Pushball Club, Weld Boat Club, and Cross Country Runners.

Chapters of the following fraternities have been organized: Φ \mathbf{B} \mathbf{K} , 1837; \mathbf{A} $\mathbf{\Delta}$ $\mathbf{\Phi}$, 1837; \mathbf{B} $\mathbf{\Theta}$ $\mathbf{\Pi}$, 1843; $\mathbf{\Delta}$ $\mathbf{\Phi}$, 1845; Ψ $\mathbf{\Upsilon}$, 1851-1872; \mathbf{Z} $\mathbf{\Psi}$, 1852; $\mathbf{\Delta}$ \mathbf{K} \mathbf{E} , 1851; $\mathbf{\Pi}$ \mathbf{H} , 1850; $\mathbf{\Theta}$ $\mathbf{\Delta}$ \mathbf{X} , 1855-1889; Φ \mathbf{K} $\mathbf{\Sigma}$, 1865; $\mathbf{\Delta}$ $\mathbf{\Upsilon}$, 1880; \mathbf{X} $\mathbf{\Phi}$, 1885-1887; Φ $\mathbf{\Delta}$ $\mathbf{\Phi}$, 1887; Φ $\mathbf{\Delta}$ $\mathbf{\Theta}$, 1888.

The students publish: "The Index," an annual; "The Harvard Monthly Magazine;" "The Harvard Advocate," a weekly; "The Lampoon," an illustrated weekly; "The Crimson," a daily; "Harvard Club Book;" "The Portfolio," and "The Law Review." These publications proceed directly from the departments: "Harvard Oriental Series," Indo-Iranian Department; "Harvard Studies in Classical Philology," yearly; "Studies and Notes in Philology and Literature," yearly; "Harvard Historical Studies;" "Quarterly Journal of Economics;" "Annals of the Observatory of Harvard College;" "Comparative Zoölogy Bulletin," Memoirs by Professors and Assistants; "Contributions from the Zoölogical Laboratory;" "American Archæology and Ethnology," annual reports; "The Harvard Graduates' Magazine," issued quarterly.

Since the foundation of Harvard College nearly 20,000 students in all have been graduated, of whom some 11,000 are alive. The oldest living graduate is William Lambert Russell, A.M., M.D.

HAVERFORD COLLEGE.

*Haverford, Pa.**Men.**Quakers.*

INCOME, \$60,000	STUDENTS, 99	INSTRUCTORS, 17	BUILDINGS, 7	BOOKS, 31,604
---------------------	-----------------	--------------------	-----------------	------------------

In 1830 the Friends in Philadelphia raised \$40,000, and bought 215 acres, near Bryn Mawr, nine miles away. In 1833 Haverford College was opened with twenty-one students. The school was suspended from 1845 to 1848. In 1852 an observatory was built, and the college reorganized three years afterward. In 1861 the preparatory school was abandoned leaving college studies only. The presidents have been: Samuel J. Gummere, 1856; Thomas Chase, 1856-1873, and Isaac Sharpless, 1887 to the present time. The school is governed by twenty-seven managers. Admission is on examination or certificate from schools of recognized ability. Expenses are from \$400 to \$525. Three courses lead to degrees of B.A., and B.S., and degrees of M.A., and M.S. are conferred after three years of study.

* So far as announced.

There are five undergraduate and four graduate scholarships of \$100 and \$300, two junior prizes, one alumni prize, a prize for English, while honors are conferred in seven departments. Attendance at chapel and gymnastic drill are compulsory. Negroes are not excluded. The college year is from September 25 to June 11.

The Lagonian Society dates from 1834. There is another society called the Athenian, and two Christian Associations. Fraternities are not allowed. The Athletic Association includes a football and cricket eleven, with a tennis association. The cricket team is considered the best college eleven in the country. The students publish the "Haverfordian."

Since 1836 there have been 580 graduates, of whom 420 are living. The oldest of these is Thomas F. Cook, M.D., LL.D., 1836, of New York City.

Heidelberg College was incorporated in 1851, and in 1890 was changed into a university. It was originally located at Tarleton, and was moved to Tiffin, Ohio, in 1850, upon a site of ten acres. College work has never been suspended. The founders were the Revs. S. S. Rickley and J. S. Good. The presidents and chancellors have been: Rev. E. V. Gerhart, 1850-1855; Rev. Moses Kieffer, 1855-1863; Rev. George W. Aughenbaugh, 1863-1865; Rev. George W. Williard, D.D., 1865-1892; Rev. John A. Peters, D.D., 1892; Rev. John Kost, D.D., 1892-1893; Rev. L. H. Kefauver, D.D., 1893 to the present time.

The school is governed by twenty-four regents. Admission is by examination. Students from academies and high schools receive credit for work done. The degrees are B.A., B.S., B.Ph., and M.A. A theological seminary is connected with the university. Tuition and contingent fees are \$36 for the year, lasting from September 7 to June 17. Prizes of \$20 and \$10 are offered for the best orations. Attendance at chapel and at gymnastic drill is compulsory. Negroes are admitted.

Of the four literary societies the Excelsior and the Heidelberg are for men, the Hesperian for women, and the Irving for preparatory students. There is an Oratorical Association, a Christian Association, and a Glee Club. The students publish the "Argus" and the "Kilikidik." Of the 425 graduates, 383 are living; the oldest of whom is Rev. George P. Mechling, 1854, of Hamilton, Ohio.

The Arkansas Conference in 1884 purchased the Central Collegiate Institute at Altus. For five years both sexes were admitted, but in 1889 the Galloway Female Institute was opened, and the college was restricted to men only, although women have never been formally excluded. In 1890 the school was moved from Altus to Conway without suffering suspension. The college grounds cover twenty-eight acres. Rev. J. L. Burrow, A.M., was the founder and the first president. He was succeeded by the present incumbent in 1887.

The school is governed by eighteen curators from three conferences. Students are admitted upon examination and certificate. Expenses are from \$150 to \$184, the college year lasting from September 25 to June 17. Free tuition for one year is given to the best graduate of the academy. The degrees are B.A., B.L., and B.Ph. Attendance at chapel is compulsory, but not so gymnastic drill. Negroes are excluded.

There are two literary societies, the Franklin and Harland, a Christian Association, an Athletic Association, Racquet Club, and a Dining Association. The students publish the "College Mirror."

History: The trustees of Fairfield Academy in 1812 petitioned the trustees of Trinity Church, New York City, for the establishment of a college west of Albany, and a theological seminary was started the following year at Fairfield. At the suggestion of Bishop Hobart the school was transferred in 1821 to Geneva, with a college printing press. In 1822 Geneva Academy was raised to college rank by the regents of the University of New York. In 1824 the theological school was abolished, and its endowment transferred to the college. The first class was graduated in 1825. In 1874 the trustees were made elective, and the alumni were given five members. The Trinity gift of 1851 was \$3,000 a year. The present name was adopted in 1860. Four bequests of \$400,000 have been made, and four professorships and the chaplaincy have been endowed. The presidents have been: Jasper Adams, D.D., 1826-1828; Richard Sharp Mason, S.T.D., 1830-1835; Benjamin Hale, S.T.D., 1836-1858; Abner Jackson, S.T.D., LL.D., 1858-1867; James Kent Stone, S.T.D., 1868-1869; James Rankine, S.T.D., 1869-1871; Maunsell Van Rensselaer, S.T.D., 1871-1876; Rt. Rev. William Stevens Perry, S.T.D., LL.D., 1876; Robert Graham Hinsdale, S.T.D., 1876-1883; Eliphalet Nott Potter, S.T.D., LL.D., D.C.L., 1884. Acting Presidents: Daniel McDonald, S.T.D., 1825-1826; William Dexter Wilson, S.T.D., LL.D., L.H.D., 1867-1868; Hamilton Lanphere Smith, A.M., LL.D., 1883-1884.

Organization: The degrees are B.A., B.S., B.L., and M.A. Eclectics go with upper class-work. There are twenty-two scholarships and twelve prizes, besides loans and special gifts. Tuition is \$50 for the year, lasting from September 17 to June 24. Attendance at chapel is compulsory.

The grounds overlooking Geneva Lake cover fifteen acres, on which are eight college buildings, six residences, and three fraternity houses. There is a gymnasium and a campus for athletic games.

Since the foundation of the college 1345 students have been graduated, of whom 1043 are living. The oldest of these is S. P. McDonald, 1829, of Mansfield, Ohio. The societies are: the St. John's Guild, White Cross, Postulants, Critic, Debating Union, choir, Glee and Banjo Club, Dramatic Club, with an Athletic Association, baseball nine, and football eleven. The following fraternities have been established: Φ B K, 1840; Α Δ Φ, 1846-1876; Σ Φ, 1840; K Α, 1844; Θ Δ X, 1857; X Φ, 1860-1880; Φ K Ψ, 1881.

History and Organization: The college is identified with the first settlement of the State in the second decade of this century. The "Yale Band of Seven" undertook to establish Christian education in what was then the far West, and through their efforts a school was opened in 1829. A part of the original building has remained in the south wing of Beecher Hall. The first teacher was Julian M. Sturtevant, who remained with the college as teacher and president for fifty-six years. The first president was the Rev. Edward Beecher, who was elected in 1831. The government of the school is vested in nineteen trustees.

Admission, Instruction, and Degrees: Admission is by examination, but equivalents can be substituted for the subjects required in the catalogue. The courses of the first year are required, while in the three succeeding years the hours of study can be almost equally divided between elective and prescribed studies. Attendance at gymnastic drill is required. Three courses of four years each lead to degrees of B.A., B.S., and B.Ph. The degree of M.A. is given after one year's resident work, while that of Ph.D. is given after two years.

Dues, Scholarships, and Prizes: Tuition for the year, lasting from the second Monday in September to the second Thursday in June, is \$50. Other expenses are estimated at \$100. There are eight scholarships, equivalent to tuition, and ten prizes of from \$5 to \$25 each, three prizes of \$45 each, and five for \$15 each for excellence in study.

College Adjuncts: The campus covers twenty acres. Among the six college buildings is a chapel and gymnasium. The college library contains some 15,000 books. Libraries are also owned by the Sigma Pi, Phi Alpha, and Philalogian literary societies, aggregating some 4,000 books. Besides these societies there are two Christian Associations and an athletic association. A chapter of B Θ Π was organized in 1856, and existed for ten years. The graduates number 560, of whom 450 are living. The oldest of these is J. E. Spillman, D.D., 1836, of Carmi, Ill.

The university was founded in 1853. It is governed by twenty-two trustees from the sixth Illinois Conferences. The courses are in groups: the classical, leading to B.A., the Latin-scientific to B.S., and the English to Ph.B. For the master's degree a thesis is required.

The entrance examination is reputed to be strict. Tuition is \$140 for the year, lasting from September 14 to July 13. Four prizes in natural history and two in oratory are given. Attendance at chapel and gymnastic exercise is compulsory. Negroes are admitted.

The grounds cover eight acres, and comprise an athletic park and a new gymnasium. There is also an observatory. The literary societies are the Adelphic and the Amateurian. Chapters of the following fraternities have been organized: $\Phi \Gamma \Delta$, 1866; $\text{K K } \Gamma$, 1873; $\text{K A } \Theta$, 1875; $\Delta \text{ T } \Delta$, 1877-80; $\Phi \Delta \Theta$, 1878; $\Phi \Delta \Phi$, 1878-88; and $\Sigma \text{ X}$, 1883.

The students publish the "Argus," and the "Wesleyan Magazine" edited by the graduates. The museum issues annual reports. Since the foundation of the college nearly 1,000 students have been graduated, the oldest of whom is W. J. Short, D.D., 1857, of Jackson-ville, Ill.

The university was founded in 1820, and is designed to stand at the head of the public school system of the State. Cognate schools are Purdue University (the Indiana Institute of Technology), the State School of Agriculture and of Mechanic Arts, and the Normal School. The original campus of four squares has been increased to twenty acres by a grant of national forest land. The university is governed by eight trustees, three of whom are alumni. The graduates of fifty-nine high schools are admitted without examination. Some choice of subjects is offered to other candidates. Tuition is free. The expenses for the year, lasting from September 16 to June 16, are from \$160 to \$200. The degrees are B.A., B.S., B. L., with M.A., after one year of special study, and Ph.D. after a three years' course.

There are two literary societies: the Century for men, and the Independent for men and women. In addition to these there is a philological society, a lecture association, mathematical, physical, zoölogical, and botanical associations, with two Christian Associations. Chapters of the following fraternities have been organized: B Θ T, 1845; Φ Δ Θ, 1849; Σ X, 1858; Φ K Ψ, 1869; K A Θ, 1870; Δ T Δ, 1870; Φ Γ Δ, 1871; K K Γ, 1873; and K Σ, 1887-88.

"The Student" is published weekly. Of the students 540 are men and 231 women.

In 1849 it was decided at the general convention of Christian churches of Indiana to found a college at Indianapolis under the name of the Northwestern Christian University. In 1855 the school was opened. In 1875 it was moved to Irvington, and in 1877 the name was changed to Butler College. The following colleges compose the University of Indianapolis: Butler College (department of arts), Medical College of Indiana, Indiana Law School, Indiana Dental College.

The university is governed by twelve trustees, while the college proper comes under the immediate administration of twenty-two directors. Women are admitted on equal terms with men. The

degree of B.A. is conferred after a four years' course, that of M.A. after two years, and that of Ph.D. after three years of graduate study. In lieu of examination certificates from approved preparatory schools and high schools are accepted.

There are two Christian Associations, an Athletic Association, Alumni Association, and an Oratorical Society. Chapters of the following fraternities have been organized: $\Phi \Delta \Theta$, 1859; ΣX , 1866; $\Delta T \Delta$, 1875; $B \Theta \Pi$, 1879-1881; $K A \Theta$, 1874-1886, and $K K \Gamma$, 1878.

Since the foundation of the college 393 students, in all, have been graduated, of whom 351 are living. The oldest of these is Mrs. A. M. Atkinson, 1856, of Wabash, Ind.

The "Iowa Band," of twelve young graduates from Andover, in 1843 resolved to found a Christian college west of the Mississippi. In 1846 trustees were elected, and work was begun at Davenport two years later. Ten students were graduated in the following ten years. In 1859 the college removed to Grinnell. From 1858 to 1865 no students were graduated.

The school is governed by twenty-one trustees, three of whom are alumni. Students from high schools and academies are admitted on certificates; for unconditional admission a written examination is required. The degrees are B.A. and B.Ph. The degree of M.A. *in cursu* is no longer given, one year of resident work or two of non-resident study being required. Tuition is \$50 for the year, lasting

from September 11 to June 16. Additional fees are charged in special subjects. There are four scholarships with an income of \$175 each, and nine prizes are given for excellence in study.

The college grounds cover twenty-two acres. Of the four literary societies the Chrestomathian and Grinnell Institute are for men, the Calocagathean and Ellis Institute for women. There are three societies in the academy, two for men and one for women. The Goodnow Scientific Association is for advanced students in physical science and biology. There are also two Christian Associations, an Athletic Union, a Football and Track Association, a Tennis Club, and a Glee Club.

The total number of graduates is 633, of whom 548 are living. The oldest of these is Rev. John H. Windsor, 1854, of Geneva, Ill.

History: The Iowa State College of Agriculture and Mechanic Arts was founded in 1858 by an act of the Iowa legislature. In 1862 the general assembly of Iowa accepted the Federal land grant pro-

vided by Congress. The presidents of the college have been: A. S. Welch, 1868-1884; Seaman A. Knapp, 1884-1885; Leigh S. J. Hunt, 1885-1886; W. I. Chamberlain, 1886-1891; W. M. Beardshear, 1891 to the present.

Organization: The school is governed by eleven trustees. Admission is by examination. Attendance at chapel and gymnastic exercise is voluntary, but military drill is compulsory for men during the first two years. Negroes are not excluded, and are represented even in the Faculty. Besides the usual collegiate courses, instruction is given in agriculture, horticulture, stock-breeding, veterinary science, engineering, military tactics, and domestic economy. The degrees are B.S., B.Agr., M.E., C.E., and E.E., besides the degrees conferred by the professional schools. The expenses for the year are \$150. Several scholarships are available for residents of Iowa.

Equipment: The college grounds cover one hundred and fifty acres. Among the fifteen buildings are ten dwelling-houses, four college halls, besides seed-houses, shops, barns, and other agricultural structures, and an experiment station.

Societies and Publications: The students publish the "I. A. C. Student," "Mechanical Engineer," and "Junior Annual." The societies are: the Science Club, Engineering, Veterinary, Economic, Agricultural, and Horticultural societies; Bachelor, Cliolian, Welch, Philomathean, Phileluthery, and Pythian Literary societies; Lecture Association, Oratorical Association, Christian societies, College Athletic Association, with baseball and football teams, and Tennis Association. Chapters of the following fraternities have been organized: $\Delta T \Delta$, 1875; $\Pi B \Phi$, 1877, and $\Delta \Delta \Delta$, 1889.

The school was incorporated as the Mount Pleasant Collegiate Institute in 1844, and was chartered as a university in 1855. It is governed by twenty-four trustees. Associated with it is the Mount Pleasant German College. Students from high schools are admitted without examination, but must make up deficiencies. Elective studies begin with the third year. It is the avowed purpose of the authorities to do away with class distinctions in the near future, giving nothing but the name of the courses and the credits attained in them. Attendance at chapel is obligatory. The degrees are A.B., B.Ph., B.L. and B.S., with A.M. after one year of graduate study. The expenses for the year, lasting from September 16 to June 16, are \$125.

An oratorical contest, at which prizes aggregating \$50 are distributed, is held annually. "The Wesleyan" is published monthly. The students maintain five literary societies: the Hypatia and Ruthean for women, and the Philomathean, Hamlin, and Harlan for men, with lecture courses, and a Christian Association. Chapters of the following fraternities have been organized: B Θ Π, 1868; Φ Δ Θ, 1871, and Δ T Δ, 1875-1880.

At the request of Johns Hopkins, who died in 1873, the university was incorporated under a statute "for the promotion of education in Maryland." His will provided for a university and a hospital, each with \$3,500,000. The trustees in 1874 visited a score of the leading American universities, and subsequently obtained the advice of Presidents Eliot, White, and Angell, of Harvard, Cornell, and Michigan. In 1875 Daniel C. Gilman was elected president, and before taking office visited all the leading European universities. He was inaugurated in 1876 when the university was opened, and Professor Huxley delivered an address. The twentieth anniversary of the school was celebrated in 1896.

Johns Hopkins University is primarily a graduate school, 403 of the 593 students being postgraduates. It is governed by a board of sixteen trustees. Instruction is given in sixteen departments, the most well-attended of which are the English and German departments. Admission for undergraduates is upon examination only. During the first two years courses in English and literature are prescribed. Besides the usual bachelor's and master's degrees, the doctor's degree is given in philosophy, medicine, law, philology, and letters. Since the foundation of the school 363 doctor's degrees have been given. The academic year is from October 1 to June 15. Tuition is from \$150 to \$200 a year. There are twenty fellowships yielding \$500 a year, and one yielding \$800. In addition to these there exist thirty-five Hopkins scholarships, ten for Maryland, fifteen for Virginia, fifteen for North Carolina, three for Washington, and five for undergraduates.

Equipment: The site of the university is in the heart of Baltimore, near the corner of Howard and Monument streets. Among the buildings, eleven in number, are a gymnasium, three laboratories, and a library with 77,000 volumes, and 30,000 pamphlets. Over 1,000 periodicals are regularly received. An Oriental library has been recently added by G. W. Gail. Among the publications of the university, the most prominent are the journals of philosophy, chemistry, and mathematics, and those relating to historical and political science, with biological laboratory and hospital reports.

Of the societies the Christian Association, owning Levering Hall, is the most noteworthy. Chapters of the following fraternities have been established: B Θ Π, 1878; Θ K Ψ, 1879; Δ Φ, 1885; Α Δ Φ, 1889; and Φ B K, 1896.

In all, 2,078 students have been graduated at the university, more than 500 of whom are now holding chairs in seventy American universities and colleges.

The charter of the university was granted in 1887, when the school was named after its most generous benefactor. It is governed by twenty-four trustees. The location, on grounds of twenty acres, is one hundred miles south of Jacksonville, on the seacoast. The working endowment is \$140,000. The degrees are B.A. and B.S. Expenses for the year, lasting from October 2 to May 19, aggregate \$224, with special fees in music and art. There are three scholarships on the proceeds of \$3,000 each. Attendance at chapel and military drill are compulsory. The admission of negroes is prohibited by the laws of Florida. There are no college fraternities. The students publish the "Collegiate." Since the foundation 65 alumni have been graduated, the oldest of whom is Hanlon De Loud, 1886, of Frankfort, N. Y.

In accordance with a resolution of the Northwest Kansas Conference of 1883, a charter for this college was obtained in 1885. The township of Salina gave fifteen acres, with a building costing \$26,000. Instruction was begun in 1886. The trustees number twenty-four.

Admission is by examination and on certificate. Two regular courses are offered with degrees of A.B. and B.S. A graduate school has been established, leading to degrees of A.M., M.S., Sc.D., and Ph.D. The expenses for the year, lasting from September 16 to June 10, are \$109. Besides a number of scholarships established at the time of the foundation, new scholarships are given to any donor of \$1,000. The library includes the collection of Col. W. A. Phillips, covering the history of the Indian races of the West. The museum, too, is rich in specimens of Western American archæology.

The societies are the Adelpian and Ionian for men, and the Athenæum for women, besides two Christian Associations. The graduates since 1887 number 163, of whom the oldest is the Rev. H. M. Mayo, 1887, of Rocky Ford, Col.

The college had its foundation in Bristol Academy, which was established in 1795 by Bishop Asbury. It was incorporated in 1803 the second institution for higher education west of the Alleghenies. The present name was assumed more than fifty years ago. The first building stood in a campus of 115 acres. The State gave to the school more land covering 6,000 acres, some 1,500 feet above the sea. The principals and presidents have been: Valentine Cook, Rev. Joseph L. Tomlinson, Bishop John P. Durbin, and Henry B. Bascon.

The government of the school is vested in a board of education, consisting of fourteen members, two of whom are alumni. Admission is on certificates of State schools or after examination. Attendance at church and chapel is required. The expenses for the year, lasting from September 1 to June 1, are \$130. Degrees of B.A. and B.S. are conferred. The societies are the Eucleian and Philomathean, and are recognized by the authorities as a part of the college.

At the close of the Civil War the Presbyterian Church in East Tennessee and Southwest Virginia found itself without schools, and too poor to send students elsewhere. In 1866 Holston Presbytery was enabled by the Rev. James King's gift of real estate in Bristol to organize a school, which, in January, 1869, was chartered as King College. In 1891 the college was closed for two years, owing to the removal of the old buildings and substitution of new ones. The college is governed by three trustees and eighteen curators. Admission is by examination. Degrees of B.A., B.S., and M.A. are given after prescribed courses with electives. Attendance at chapel is required. The expenses for the year, lasting from September 5 to June 10, are \$150. Three medals are offered for excellence in study, and other prizes and medals are offered by the Philothesmian and Athenian literary societies, which date back to the foundation of the college. A chapter of K Σ was organized in 1878 and lasted six years. The graduates, like the students, number one hundred. The oldest is Rev. J. C. Cowan, M.A., 1870, Morristown, Tenn.

Knox College was founded by Rev. George W. Gale in 1837, and fully organized in 1841. One half the township of Galesburg was originally purchased as an endowment for the college. The presidents have been the Revs.: H. H. Kellogg, 1838-1845; J. Blanchard, 1846-1857; Harvey Curtis, 1858-1863; W. S. Curtis, D.D., 1863-1868; J. P. Gulliver, D.D., 1868-1872; Prof. A. Hurd, 1872-1874; N. Bateman, LL.D., 1874-1892; and John H. Hinley, A.M., the present incumbent. In 1843 the female seminary was burned. In 1887 the college celebrated its semi-centennial.

The school is governed by a board of twenty-four trustees. Connected with the college are the Knox Academy, the Conservatory of Music, and the Knox School of Art. In the college proper there are three courses of study, the classical, the scientific, and the literary, leading to the degrees of B.A., B.S., and B.L. Electives are offered in the later years of each course. The expenses for the year, lasting from September 8 to June 14, are \$227. Twenty-three prizes of from \$10 to \$45 each are given. Founder's day is celebrated annually on February 15. Military drill is compulsory during the first two years, attendance at chapel throughout the year. Negroes are admitted. Among the buildings, six in number, standing on fourteen acres of ground, are a gymnasium, an observatory, and alumni hall.

The literary societies are the Adelphi and the Gnothantii for men, the L. M. I. for women, and the Zetetici, E. O. D., and Oniota for students at the academy; the Knox College Contest Association, the Mission Circle, and two Christian Associations, with an Athletic Association, embracing a football and baseball team, and a Memorabilia Society. Chapters of the following fraternities have been organized: Β Θ Π, 1856; Φ Γ Δ, 1867; Φ Δ Θ, 1871; Κ Κ Γ, 1871-1874; Π Β Φ, 1884, and Δ Δ Δ, 1888.

The students publish the "Gale," an annual; the "Coup D'Etat," a monthly; and the "Knox Student," a weekly. Knox College enters upon its sixtieth year with a thousand graduates, of whom 910 are living.

The college was begun in 1879 after a normal school had been established. A fire in 1894 necessitated the reconstruction of several buildings. The object is to train colored teachers and preachers. The school is governed by ten directors, and the degrees are B.A. and B.S. The University of Tennessee has made provision for its colored students in Knoxville College by adding to the equipment of the agricultural and mechanical schools, by maintaining a professor in each, and setting aside \$600 annually for students. According to the agreement with the university all colored students over fifteen years have free tuition, for the year lasting from September 26 to June 11. Each senator of the State has the privilege of appointing two colored students, male or female, to the State Normal College for two years. The applicant must declare his intention to make teaching a profession, and in return receives \$50 credit on board and tuition for nine months. The college consists of a training school, musical department, normal school, industrial department, agricultural and mechanical course, medical department, and school of theology.

There are four literary societies, adhesion to at least one of which is required, to wit: the Witherspoon, Philomathean, Gamma, and the Douglas.

History: Lafayette College was organized in 1824. The founder was J. W. Porter. In 1826 the school was opened. The present site was occupied in 1834. In 1866 the School of Science was added by Ario Pardee. Pardee Hall was burned in 1876, and rebuilt in 1880. The presidents have been: George Junken, 1832-1841; John W. Yeomans, 1841-1844; George Junken (second term), 1844-1848; C. W. Nassau, 1848-1850; Dr. V. McLean, 1850-1857; G. W. McPhail, 1857-1863; William C. Cattell, 1863-1883; James H. M. Knox, 1883-1890; Traill Green, 1890-1891, and E. D. Warfield, the present incumbent. The college is governed by twenty-four trustees, six of whom are alumni.

Organization: Certificates of the New York regents and of approved preparatory schools are received in lieu of an examination. Degrees of B.A., B.Ph., C.E., in music, and in electrical and mining engineering are given. The master's degree is conferred after a prescribed course of two years, and that of Ph.D. after three years. Attendance at chapel and gymnasium are required. The college year is from September 12 to June 18. The expenses for the year are from \$150 upwards. Seventeen prizes of from \$10 to \$50 are offered for excellence in study.

The college has two libraries, and the literary societies own 6,000 volumes in addition. The alumni have provided an athletic field of seven acres with a gymnasium. Eastonian Hall is provided with the best periodicals and newspapers.

The students publish the "Melange," "Mirror," and "Miscellany." Besides the Franklin and Washington literary societies, who hold an annual contest in oratory, there are two scientific societies, two Religious Associations, an Athletic Association, and ten Alumni Associations, who meet once a year at the college. Chapters of the following fraternities have been organized: Φ B K, 1853; Φ K Σ, 1853-1882; Δ K E, 1855; Z Ψ, 1858; Θ Δ X, 1866; Ξ X, 1867-1887; Φ K Ψ, 1869; Φ Δ Θ, 1873; X Φ, 1874; Δ T Δ, 1875; Φ Γ Δ, 1883, and Δ Y, 1885.

The total of graduates has been 1,563, of whom 1,333 are living. The oldest of these is George W. Kidd, M.A., 1836, of Houston, Texas.

History and Organization: Lake Forest University was planned and its location selected by Presbyterians of Chicago and Waukegan in the year 1855. In 1856, "The Lake Forest Association" was formed, and purchased 2,500 acres of land where Lake Forest now stands. Half of this land was permanently set apart as Association property, and the plat of the town was recorded July 23, 1857. Every alternate lot was assigned as an endowment for a university, and sixty-two acres were set apart as inalienable campus. The institution was chartered in 1857, as "Lind University," subject to the control of the Synod of Peoria and its ecclesiastical successors. In the fall of 1858 the first building was erected and the academy began. In 1865 the legislature changed the name to "Lake Forest University." In 1869 Ferry Hall was built, and the seminary course began. In August, 1875, Rev. Robert W. Patterson, D.D., was elected president of the university, and in September, 1876, the collegiate department was opened with a freshman class of eight men and four women. In March, 1878, President Patterson resigned, and the year was finished under the control of Acting President John H. Hewitt. In the summer of 1878 the present college dormitory was built and Rev. Daniel S. Gregory, D.D., assumed the presidency, and the next college year began with all the classes organized. In March, 1879, the original academy building was burned, but was speedily replaced by "Old Academy Hall." Dr. Gregory resigned the presidency in 1886, having brought the institution \$14,000 in scholarship

funds and \$80,000 in buildings, and sent forth forty-five graduates. Rev. William C. Roberts, D.D., LL.D., succeeded to the presidency in September, 1886. In 1887, Rush Medical College and the Chicago College of Dental Surgery became departments of the University, and in 1889 the Chicago College of Law was added. The Durand Institute and the Gymnasium were erected in 1891. In April, 1892, President Roberts resigned, having added \$800,000 to the endowment funds of the institution. For the next fourteen months Rev. James G. K. McClure, D.D., was President *pro tempore*, under whose administration the new academy buildings, Reid Hall, Annie Durand Cottage, and East Dormitory were erected, at a cost of \$80,000. In June, 1893, John M. Coulter, Ph.D., was installed as President. In 1896, Dr. Coulter resigned, and John J. Halsey was elected Acting President.

The university comprises six distinct institutions: Lake Forest Academy, Ferry Hall Seminary, Lake Forest College, Rush Medical College, Chicago College of Dental Surgery, and Chicago College of Law. The first three are governed by the board of trustees of the university, while each of the three professional schools has its own board of trustees, but of all the four boards the president of the university is an *ex officio* member. The trustees number twenty-four.

Admission, Instruction, and Degrees: The admission requirements are based upon four years of secondary school work with three daily recitations. Candidates for admission must undergo examinations in English, history, mathematics, laboratory science, Latin, and one modern language. Certificates are accepted in lieu of examination from four academies of Illinois and Wisconsin, and from twenty-six high schools, two of which are in Iowa and Wisconsin. The requirements for graduation are four years of twenty-four semesters, with thirteen semesters of required work, and from five to seven of elective studies. Among the required subjects are English, mathematics, laboratory science, philosophy, and Biblical literature. In the college the degree of B.A., only is given. The master's degree is conferred after one year of resident graduate work, and the doctor's degree after three years of post-graduate work, two of which must have been spent at the university. The usual professional degrees are conferred by the professional schools.

Tuition, Scholarships, and Prizes: The charge for tuition is \$60 for the year, lasting from September 14 to June 14. In addition to this, laboratory fees and a diploma fee of \$10 are charged. The total expenses for the year are estimated at from \$215 to \$500. There are in all twenty-one scholarships, on incomes from sums ranging from \$78 to \$5,000. Of these scholarships, ten are available only for students studying for the ministry. In addition to this, tuition is remitted to all children of clergymen who need such assistance. A loan fund of \$50,000, to be distributed in amounts not larger than \$100, has been established by Dr. D. K. Pearsons.

Equipment: The college grounds cover seventy acres. Besides the residences provided for dwelling purposes and college clubs, there is a college dormitory, a recitation hall, an art institute, and a modern gymnasium with a swimming bath. The Library contains some 13,000 volumes. Ferry Hall, the women's building, contains some

2,000 volumes in addition. Laboratories exist for all branches of scientific work, as well as an astronomical observatory, and a herbarium.

Societies and Publications: The students publish the "Weekly Journal," and "The Stentor." The societies are: the Athenæan, the Zeta Epsilon, Tri Kappa, and Gamma Sigma for men, the Alephian for women, the Musical Association with glee, banjo and mandolin clubs, the Latin Club, Biological Club, Social Science Club, Athletic Association with teams for track athletics, baseball, football, and other field games, two Christian Associations and an Alumni Association. Chapters of the following fraternities have been organized: K Σ, 1878-1882; Γ Φ, and Φ Φ E.

LA SALLE COLLEGE.

*Philadelphia, Pa.**Men.**Christian Brothers.*

The college was incorporated in 1853, and authorized to confer degrees of A.B., and A.M. In 1892 the Bouvier Mansion was occupied, and further buildings were erected by Francis A. Drexel. Courses in science, the classics, and literature are given, and special attention is paid to English. All examinations are in writing, and prize medals are awarded for excellence in study. The year lasts from the first Monday in September to the last Thursday in June. Tuition is \$60 a year. The college is conducted by the Brothers of the Christian Schools, and none of the teachers are named in the college catalogue.

In 1846 Amos A. Lawrence, of Boston, gave \$10,000, to which \$10,000 were added, thus founding the Lawrence Institute. In 1849 it was made a university with the Rev. W. H. Sampson, president.

In 1853 a fund of \$100,000 was raised, to which \$50,000 was added in 1885. The presidents have been, the Revs.: William H. Sampson, 1849-1852; Edward Cooke, 1853-1861; Russell Z. Mason, 1861-1865; George M. Steele, 1865-1879; E. D. Huntley, 1879-1883; B. P. Raymond, 1883-1889; C. W. Gallagher, 1889-1893; Samuel Plantz, 1894 to the present.

The school is governed by sixteen trustees. Admission is by examination, and on certificates from accredited schools. A classical, modern classical, and scientific course lead to the degrees of B.A., B.S., and B.L. Degrees in music and commerce are given by the musical and commercial departments. There is also a university extension course. A loan fund provides for indigent students, and there are also scholarships remitting the tuition of \$132 and ten prizes. The college year lasts from September 14 to June 23.

The university grounds cover sixty-two acres. The students maintain four literary societies: the Philoethean and Phoenix for men, and the Athena and Lawrence for women. A Science Club, Natural History Association, and Christian Association are also maintained. The "Lawrencian" is published.

Since 1857 some 616 alumni have been graduated, 583 of whom are living. The oldest of these is Henry Coleman, A.M., 1857, of Beloit, Wis.

Asa Packer in 1865 gave \$500,000 with 115 acres of land, and by his will added \$2,000,000. The college is governed by eight permanent trustees, and by six honorary and four alumni trustees. There are three departments: the classical, Latin-scientific, and that of science and letters, together with special facilities in seven branches of engineering, chemistry, and architecture. The degrees are B.A., B.S., B.Ph., and A.M.; and in the School of Technology, C.E., M.E., B.M., B.S., E.M., E.E., A.C., M.S., and Ph.D. Admission is by examination only. Students in literary courses are permitted to take technical courses for a part of their work during the junior and senior

year. The expenses for the college year, from September 7 to June 16, are from \$350 to \$500. Three scholarships of from \$200 to \$250, and seven prizes of from \$10 to \$50 have been established.

The university library has shelf room for 160,000 volumes. Besides four laboratory buildings, there is an observatory and a gymnasium.

The students publish the "Brown and White," a weekly, the "Bun," a monthly, and the "Epitome," an annual. The societies are the Agora, for literary debates, the Mustard and Cheese, a dramatic club, the Chemical and Natural History Society, the Engineers' and Mining Club, the Classical Society, the Electrical and Architectural Club, the Toothpick, Ace, and Dynamite Eating Clubs, a University Glee Club, with Banjo and Mandolin Clubs, a Christian Association, and an Athletic Association, with football, baseball, track, and lacrosse teams, and a Brush Club. Chapters of the following fraternities have been established: Φ B K, 1870; Φ K Σ , 1870-1886; X Φ , 1872; A T Ω , 1882; Δ Φ , Ψ T, Θ Δ X, 1884; Δ T, 1885; Σ N, T B Π , Φ Γ Δ , 1886; Φ Δ Θ , Σ X, 1887; Δ T Δ , 1888: and B Θ Π , 1890.

Since the foundation of the college 782 alumni have been graduated, of whom 752 are living. The oldest of these is Miles Roch, C.E., 1869, of Philadelphia.

History and Organization: Leland Stanford, and Jane Lathrop Stanford, in 1884, determined to found a university for both sexes, with all colleges, schools, seminaries, institutes, museums, and collections appropriate thereto. In the following year, the legislature of California passed an authorizing act, and in 1885 the grant was made. The cornerstone was laid in 1887, at Palo Alto, some three miles from the sea, near the Monte Diablo Mountains, thirty-three miles from San Francisco. David S. Jordan, the present president, was installed in 1891. The suit for \$15,000,000, or the original endowment, between the university and the Federal Government was decided in the university's favor in 1895. The university is governed by twenty-four trustees, chosen for life.

Admission, Instruction, and Degrees: Candidates for admission have a choice of twenty-two subjects, in which to undergo examination. To attain full standing, twelve of these must be successfully passed. Certificates are not accepted in lieu of examination. Attendance at chapel or military drill is not required. The degrees are B.A., B.S., and C.E. No honorary degrees are given. Degrees of M.A., M.E., and Ph.D. are conferred only after resident post-graduate work. Expenses for the year lasting from September 3 to May 29 are from \$225 to \$500. Tuition is free.

Equipment: The estate, on which the university is situated covers 7,500 acres. The buildings are arranged in a series of quadrangles, the present central group consisting of two, one of which includes the other. The architecture of the buildings follows the *motif* of the Spanish missions. They are all low, with connecting open arcades, and are built around an open court covering more than three acres.

Publications and Societies: Besides twelve scholarly and scientific publications issued by the university, the students publish a daily and weekly paper, a junior annual, and a senior classical. The societies are: The Associated Students, Euphronia, Alpha, Philalexian, Nestorian, Bench and Bar, Coif Club, Green Bag, Marshall, Curtis, and Bractam Law Clubs, Press Club, Zoölogical, Geological and Botanical Club, Engineers' Club, Republican and Democratic Clubs, University Orchestra and Band, Glee and Mandolin Clubs, Choral Society, Whist Club, and Students Guild. Chapters of the following Greek letter societies have been organized: Ζ Ψ, Φ Δ Θ, Φ Κ Ψ, Φ Γ Δ, Σ Ν, Σ Χ, Α Τ Ω, Σ Α Ε, Δ Τ Δ, Β Θ Π, Χ Ψ, Κ Α, Δ Υ, Θ Ν Ε, Σ Σ, Δ Κ Ε, Ψ Υ, Θ Δ Χ, Α Δ Φ, Κ Α Θ, Κ Κ Γ, Π Β Φ, Ι Λ Σ, Δ Γ, and Α Φ.

The graduates number 365. The oldest of these is George W. A. Luckey, 1894, of Lincoln, Nebraska.

Holbrook Chamberlain, of Brooklyn, erected the first buildings of the university after its foundation in 1870, and after his death left the bulk of his property, about \$100,000, as an endowment fund. It is governed by twenty-seven trustees. The degree of A.B. is given after a four years' course in the classics, mathematics, English, and psychology. No charge is made for tuition, but other expenses are from \$85 to \$150. The university has taken under its charge, as auxiliary schools, Howe Institute; Leland Academy, at Donaldsonville, La.; and Coleman Academy, at Gibbsland. Besides a Christian Society and an Endeavor Society, the Philomathean, a literary society for both sexes, is maintained.

History and Organization: Grants of land were made from 1806 to 1827 for the use of a "Seminary of Learning." In 1855 a State Seminary and Military Academy was established at Alexandria. It was opened in 1860 with William Tecumseh Sherman as superintendent. Instruction was suspended throughout the Civil War. The original building was burned to the ground in 1869, causing the removal of the college to Baton Rouge. The agricultural and mechanical colleges associated with it were established at New

Orleans in 1873. The fusion was brought about in 1877. The federal government relinquished its old fort, dating back to the Spaniards, with grounds of 213 acres to the university in 1886, thus adding a lake and campus of fifty-two acres to the former grounds. The supervisors number fourteen.

Admission, Degrees, etc.: Five courses are offered: the agricultural, mechanical, engineering, classical, Latin-scientific, and general scientific. Admission is by examination. Attendance at military drill is compulsory. The degrees are A.B. and B.S., with post-graduate degrees of A.M., M.S., and C.E. Medals are given by the Faculty and Alumni Society. Seventy-five beneficiary cadets may be sent from as many parishes at a cost of \$250 each. Tuition is free. The college year lasts from September 16 to June 16.

Equipment: Of the twenty-five buildings four are used as barracks. Besides these there is an armory for each of the cadet companies. A new gymnasium and hospital have recently been equipped, and laboratory buildings for agriculture, chemistry, and physics have been established. On the grounds overlooking the Mississippi are a botanical garden, herbarium, and artificial lake, with a government experiment station.

Societies and Publications: The students maintain the Clay-Gibson Debating Society, and publish a student journal. Chapters of the following fraternities have been organized: K A, A T, 1885; K Φ , Σ N, 1887. The graduates since 1869 number 166.

History and Organization: In 1863 the State accepted the agricultural grant of 1862, and from its proceeds established this college. In 1865 a board of fifteen trustees was appointed, among whom was Hannibal Hamlin. The presidents have been: C. Fernald, A.M., 1868-1871; Charles F. Allen, D.D., 1871-1879; C. Fernald, Ph.D., 1879-1893, and A. W. Harris, Sc.D., 1893 to the present time.

Admission, Degrees, etc.: Admission is by examination or on the certificate of any of forty-three approved schools. Two general courses are offered: Latin and Latin-scientific; four scientific courses: chemical, agricultural, medical, and preparatory; three technical courses: civil, mechanical, and electrical engineering, and five short courses. The degrees are B.S., C.E., and M.E. Other diplomas are also granted. Attendance at chapel and military drill is compulsory. Negroes are not excluded.

Dues, Scholarships, and Prizes: Tuition is free, but there are so many incidental charges that the expenses for the year are estimated at \$200. One scholarship, the income of which is not stated in the catalogue, is offered together with eight prizes for excellence in study. A loan fund has also been provided.

Equipment: The college grounds cover 360 acres. In all \$500,000 have been spent on buildings and grounds. Connected with the Horticultural Building is a Government Experiment Station, dairy, and botanical garden. The library contains nine thousand books and pamphlets.

Societies and Publications: Besides catalogues, reports, bulletins, and circulars published by the college as such, the students publish the "Cadet," a monthly, and the "Prism," a junior annual. The societies are: the Engineering and Electrical Society, Photographic Club, Y. M. C. A., Publishing Association, Reading Club, Press Club, college band and orchestra, and an Athletic Association with baseball, football, and other teams. Chapters of the following fraternities have been organized: Q T V, 1874; A Σ X, B Θ Π, 1878; K Σ, 1886; A T Ω, and O E H Π.

The college was organized in 1853, and dedicated ten years later. It is governed by a board of trustees, and is divided into two departments, the classical and the scientific. Instruction is also given in architecture and commercial methods. Admission is by examination or on regents' certificates. The degrees are B.A., B.L.L., B.S., C.E., and M.A. after two years. The expenses for the year, lasting from the first Monday in September to the last Friday in June, are \$350. There are seven scholarships, and numerous medals are given for proficiency, as well as a prize of \$50 for the best English essay. Besides seven literary unions, the students maintain a glee club and a college orchestra.

There are six other institutions which are affiliated with the college. In all, 542 students have been graduated, the oldest of whom is Rev. J. P. McClancy, 1866, of Middletown, N. Y.

History and Organization: In 1830 the Marietta Institute of Education was established with four departments, among which were a high school and a ladies' seminary. In 1832 a Women's Teachers' Seminary was added. In 1835, after a transfer of the property, the present name was adopted, and the present quarters occupied. There was then a faculty of five. The first class was graduated in

1838. The presidents have been: Joel H. Linsley, D.D., 1835-1846; Henry Smith, D.D., LL.D., 1846-1855; Israel W. Andrews, D.D., LL.D., 1855-1885; John Eaton, Ph.D., LL.D., 1885-1891; John W. Simpson, D.D., LL.D., 1892 to the present. In 1893 Marietta College for Women was opened under the original college charter, but with a provision that instruction to women was to be given in a separate building,

Admission and Degrees: Admission is upon examination, with special reference to the studies taken in the preparatory department. The studies in the regular courses are largely elective during the last two years, but English is required throughout. The expenses for the year, lasting from September 7 to June 18, are \$120. There are thirty general scholarships and several private ones, besides fourteen cash prizes and four gold medals. Degrees of B.A., B.S., B.Ph., M.A., and Ph.D. are given. Honorary degrees are extensively bestowed.

Equipment: There are five college buildings, among which are a library, science building, observatory, and museum. The library contains over fifty thousand volumes, several thousand pamphlets, while some eleven thousand volumes are owned by the students' societies. There are three laboratories and a college chapel. Opportunities for exercise are furnished by extensive athletic grounds and a college boathouse.

College Publications and Societies: The students publish the "Olio," an annual, and the "Monthly Medical Journal." The "Bulletin" and a law journal are issued by the Faculty. There are two literary societies, two Christian Associations, a Mathematical Society, two Alumni Associations, and an Athletic Association, with football, baseball, and tennis clubs. Chapters of the following fraternities have been established: $\Phi B K$, $\Phi \Gamma \Delta$, 1855; $A \Sigma \Phi$, 1860; and $\Delta \Upsilon$, 1870.

The college was established by Act of Congress of July 2, 1862, supplemented by aid from the State, with grounds covering 360 acres. The presidents have been: Hon. Henry Flagg French, M.A., 1864-1866; Hon. Paul Ansel Chadbourne, M.D., D.D., LL.D., 1866-1867; Col. William Smith Clark, Ph.D., LL.D., 1867-1879; Charles Louis Flint, M.A., LL.B., 1879-1880; Hon. Levi Stockbridge, 1880-1882; Hon. Paul Ansel Chadbourne, M.D., D.D., LL.D., 1882-1883; James Carruthers Greenough, M.A., 1883-1886, and Henry Hill Goodell, M.A., LL.D., the present incumbent, elected in 1886.

On January 5, 1883, the Durfee plant house was destroyed by fire. In 1885 the same thing happened to South dormitory, and in June, 1894, to the college barn. Admission is by examination. Attendance at military drill is compulsory. Besides annual reports and bulletins issued by the experiment department of the college, the students publish the "Index," a junior annual, and "Aggie Life," a bi-weekly. A "Hand-book" is issued by the Young Men's Christian Association.

The societies are the College Shakespearean Club, Washington Irving Literary Society, Y. M. C. A., Natural History Society, Reading Room Association, Athletic Association with baseball and football teams, and a Polo Club, and the Glee and Banjo Clubs. Chapters of the following fraternities have been organized: D G K, 1868; Q T V, 1869, and Φ Ξ K, 1873. The graduates number 500, of whom 450 are living. The oldest of these is Lewis A. Sparrow, 1871, of Boston, Mass.

History and Organization: The institute was founded in 1861 after a memorial to the Legislature by Wm. B. Rogers. It was opened in 1865 with 272 students. The course of Electrical Engineering was established in 1886. The presidents have been: William Barton Rogers, 1865-70; John D. Runkle, 1870-78; Prest. Rogers (second term), 1878-81; and Francis A. Walker since 1881. The corporation consists of forty-one trustees and three ex-officio members: the governor, chief justice, and secretary of education of the State. Affiliated with the institute are the Lowell Institute, for general instruction, and the School of Practical Design.

Admission, Instruction, Degrees: Admission is by examination, which can be undergone in Boston and the principal cities of the union. Candidates must be seventeen years old. College graduates are admitted without examination. Twelve distinct courses lead to degrees of B.S. Of these courses, seven are in engineering, four in the sciences, with one of liberal learning. At the end of the first half year, in which the same instruction is given to all, the choice of courses is free. Specialization is encouraged. No religious services are held. Master's degrees are conferred only after resident graduate study.

Equipment: The buildings now occupied are the Rogers Building, on Boylston Street, devoted to instruction in mathematics, literature, history, political science, geology, mineralogy, and biology; the Walker Building, at the corner of Boylston and Clarendon Streets, mainly devoted to the departments of chemistry, physics, and electricity, and to instruction in language; the engineering building, on Trinity Place, devoted to the engineering laboratories and to instruction in mechanics and hydraulics, and in mechanical and civil engineering; the architectural building, immediately adjoining the engineering building; a series of workshops, on Garrison Street, with a room devoted to the Lowell School of Design; and a gymnasium and drill-hall on Exeter Street.

Besides the general library, a special reference library of 5,000 is owned by the Department of History and Political Science. Similar libraries are owned by the Departments of Chemistry, Physics, Electricity, and Railroads. Well equipped laboratories are maintained by all the departments. The annual expenses of the school aggregate nearly \$500,000. Tuition for the year, lasting from the last week in September to the last week of May, is \$200. Incidental expenses are estimated at \$30, while living expenses are from \$100 to \$500. Thirty-three scholarships, equivalent to tuition, are available, with two funds yielding \$400 each, for graduate students. In all, funds amounting to \$75,000 are devoted to aiding poor students.

Societies and Publications: The students publish the "Tech," a weekly, and the "Technique," an annual. Social and other organiza-

tions of every description are maintained by the students, besides athletic teams and chapters of the following fraternities: $\chi\Phi$, 1873-78; $\Sigma\chi$, 1882; $\Lambda\tau\Omega$, 1885-1886; $\Phi\Gamma\Delta$, $\Delta\Psi$, $\Theta\Xi$, $\Delta\tau\Delta$, 1889; and $\Theta\Delta\chi$, 1890.

The college was organized as Lebanon Seminary in 1828, and is therefore the oldest institution of higher education in the West. In 1830 it took the name of Bishop McKendree who had bequeathed all his possessions to it, and came under the control of the bishops of

the Methodist Church. The first principal was E. A. Ames, who afterwards became a bishop, while the first president was the Rev. Peter A. Akers. The school is governed by thirty-six trustees. Entrance is by examination and by high school certificate. Degrees of B.A., B.C., B.L., and of Law are conferred, and M.A., after one year. The law degree gives admission to the bar of the State. Tuition for the year, lasting from September 10 to June 4, is \$36. Special fees are charged for laboratory work. The societies are the Philosophian and Platonian for men, and the Clonian for women. There have been in all, 8,000 students, of whom 700 have taken degrees. The oldest graduate is H. H. Horner, 1841, of Lebanon, Ill.

History and Organization: The university was established under its present name in 1809, according to acts of Congress of 1792 and of 1803 vesting a township of land with the legislature of Ohio. The law of 1812 providing that the actual settlers should from a given date and forever after pay only a yearly rent of six per cent upon the purchase money, for a period of seventy years prevented the university from securing an increased revenue, and thus practically crippled it, so that in 1873 the school had to be closed. It was reopened in 1886, but has undergone a complete change of faculty since that time. Women were admitted in 1887. In 1896

the State legislature provided a special fund by levying an annual tax upon the State, and thus restored Miami University to its original rank.

The school is governed by twenty-six trustees. Admission is by examination and upon provisional certificates. In the junior year the majority of courses, and in the senior year all studies are elective. Attendance at chapel is compulsory. The degrees are B.A., B.S., and M.A. after one year and a specific examination. The expenses for the year, lasting from September 16 to the third week in June, are from \$170 to \$300. There is no charge for tuition. Free lecture courses are also given. Three prizes of \$25 each are given for excellence in English and the classics.

Societies and Publications: The students publish "The Miami Journal." There are two literary societies with halls and libraries called the Erodolphian and Miami Union, and there is also an Oratorical Association offering an annual prize, an Athletic Association with football and baseball teams, and a Christian Association. Chapters of the following fraternities, three of which were originally founded at Miami, have been organized among the students: $\Delta \Delta \Phi$, 1835; $\Theta \Pi$, 1839; $\Phi \Delta \Theta$, 1848; $\Delta K E$, 1852; ΣX , 1855-1858; and ΔT , 1866-1873.

Since the first class was graduated in 1824, there have been 1,093 graduates, of whom 513 are living. The oldest of these is John W. Caldwell, 1827 of Cincinnati, Ohio; while the best known is Ex-President Benjamin Harrison.

The school was founded in 1886 to meet the want of preparatory training for colleges in Ohio, but a collegiate course is at the same time given. Three courses lead to B.A., B.L., and B.S., and there are elective courses. The degree of M.A. is conferred after three years. Special attention is given to military instruction, and uniforms are worn by all the students. The expenses for the year, lasting from the third week in September to the first of June, are \$350. The school is governed by seven trustees. The names of the teachers are not given in the catalogue.

MICHIGAN AGRICULTURAL COLLEGE.

INCOME, \$85,000	STUDENTS, 402	INSTRUCTORS, 31	BUILDINGS, 40	BOOKS, 20,000
---------------------	------------------	--------------------	------------------	------------------

The college was organized in 1855 and opened in 1857. In 1862 it received a congressional land grant. It was under the control of the State Board of Education until 1861, when it came under that of the department of Agriculture. The presidents have been: Joseph R. Williams, 1857-1859; Theophilus C. Abbot, 1863-1885; Edwin Willits, 1885-1889; Oscar Clute, 1889-1893; Lewis G. Gorton, 1893-1895.

Admission is upon certificate and by examination. Degrees of B.S., and M.S. are conferred after four years, the latter being for graduate study, or for an honorary degree. Attendance at chapel is not compulsory, but military drill is. Negroes are not excluded. Of the forty buildings, seven are laboratories, three dormitories, and one a dwelling house for the teachers. Six new laboratories have been equipped, and there is an herbarium of 60,000 specimens. The general museum contains a large collection of zoölogical exhibits. The campus covers eighty acres, the college farm four hundred acres, while forty acres are devoted to horticulture.

The expenses for the year, lasting from September 14 to June 18, are \$122. Besides the bulletins and reports issued by the experiment station, the students publish the "Weekly Record," an outgrowth of the former "Speculum," a monthly. The societies are, the Eclectic, Hesperian, Olympic, Columbian, Union, and Feronian, a branch of the Y. M. Christian Association, the Alumni Organization, and a Students' Organization, controlling athletics and matters of discipline; botanical and natural history societies, a Shakespeare Club, and a College Band. Chapters of the following fraternities have been organized: $\Delta T \Delta$, 1872; and $\Phi \Delta \Theta$, 1873.

The graduates since 1851 number 676, of whom 645 are living. The oldest is Albert F. Allen, Vineland, Kan., of the class of 1861.

History, and Organization: In 1800 the General Assembly of Vermont established Middlebury College in one of the most picturesque spots of the Champlain Valley. The former presidents of the institution have been: Jeremiah Atwater, D.D., 1800-1809; Henry Davis, D.D., 1810-1817; Joshua Bates, D.D., 1818-1839; Benjamin Labaree, D.D., LL.D., 1840-1866; Harvey Denison Kitchel, D.D., 1866-1873; Calvin Butler Hulbert, D.D., 1875-1880; Cyrus Hamlin, D.D., LL.D., 1880-1885; Ezra Brainerd, LL.D., 1886 to the present time. The college corporation consists of a board of nineteen trustees.

Instruction: Two courses are furnished, the classical and the Latin-scientific. All studies for the first two years are prescribed; while for the juniors eleven hours a week, and nine hours a week for the seniors are prescribed. A system of honors is established. Dr. Merrill, a former proctor at Middlebury, gave \$15,000 for prizes and elocution. Two prizes are offered for the best freshmen speakers, and two for proficiency in Latin. There are funds for the payment of term bills, a scholarship of \$100 for a woman student, five scholarships of \$60 each for deserving students, and \$2,400 to be divided among thirty students.

College Adjuncts: The library has 20,000 volumes and 1,150 pamphlets. There is also a museum, rich in geological specimens, and a gymnasium with athletic grounds. Commencement is on June 25. Of the 2,524 students that have been graduated since the beginning of the college, 1,422 are now living. The oldest of these is Jonathan B. Kidder, of the class of 1821, in Huntington, Pa.

In 1830 the college was established at Clinton by the citizens of that village. It was controlled at first by a board of elective trustees, then came under the control of the Presbyterians; and later, in 1850, under that of the Baptists. During the Civil War instruction was suspended, and a debt of \$10,000 incurred by the preservation of the property, with simultaneous loss of a cash endowment of \$100,000. In 1865 the debt was cancelled, the college restored to the Baptist denomination, the buildings repaired, and instruction resumed. Among the presidents have been Dr. I. Turner, Rev. E. C. Eager, Dr. Walter Hillman, Prof. M. T. Martin, Dr. W. S. Webb, Rev. R. A. Venable, and J. W. Provine, Ph.D., the present incumbent.

The school is governed by twenty-six trustees. The college year is from September 18 to June 3. Tuition is free. The degrees are B.A., B.S., and B.L.L. Four gold medals are given every year for essays and speeches. There are two literary societies, the Hermeanian and the Philomathean, and a society of missionary inquiry. Chapters of the following fraternities have been established: $\Phi K \Psi$, 1860-1861; $\Sigma A E$, 1869-1875, and ΣX , 1873-1874. The students publish the "Mississippi College Magazine."

History: The college owes its origin to an act of the general government passed in 1862, to encourage the establishment of industrial colleges. By this act public land was sold, realizing some \$227,150 for the State. The State Legislature in 1878 gave one half of this to the Mississippi Agricultural College, and another to a similar school for negroes, upon the condition that a first-class institution be maintained, at which besides agriculture, horticulture, and the mechanic arts, also the classics and sciences should be taught, including military tactics.

Organization: The school is governed by nine trustees. Tuition is free for students residing in the State, but a matriculation fee of \$5 is charged. Admission is upon examination or certificate. Applicants must be fifteen years of age, except in the case of two brothers entering simultaneously. In that case one may be under the specified age, but not more than two years. Military drill and attendance at chapel are compulsory. The degree of B.S. is conferred.

Societies, etc.: Besides a military company, forming a part of the militia of the State, there is an Athletic Association with baseball and football teams, tennis, wheeling, and fencing clubs, and a dramatic club and students' orchestra. The literary societies are the Dialectic and the Philotechnic. A chapter of Σ A E has been maintained since 1887, and there is also a Christian Association. Of the 180 graduates 173 are living. The oldest of these is H. H. Harrington, 1883, of College Station, Tex.

Organization: Mount Angel Seminary and College, situated some forty miles south of Portland, was opened in 1887. It was incorporated under the laws of Oregon, and is under the control of the Benedictine Fathers. The trustees number five, among whom are the Archbishop of Oregon City and the prior of the Benedictine Monastery. The college is divided into three departments: St. Thomas Grand Seminary, for students of philosophy and theology; St. Anselm's Little Seminary, for preparatory ministerial students; and St. Joseph's Seminary, for professional and other students.

Instruction and Degrees: Degrees of B.A., B.L., B.S., and B.M. are given after the completion of at least one year's course, with a suitable thesis, or musical composition. Masters' degrees can be obtained after one year of post-graduate residence, or upon application after two years. Attendance at chapel and mass, with monthly confession and communion, is compulsory. Students are not allowed to leave the college premises without permission, to retain money in their possession, to smoke or use tobacco, or to form clubs and societies, or hold meetings without permission. Books, papers, periodicals, etc., may be read only at the approval of the director. The expenses are \$200 for the year, lasting from the first Tuesday of September until the end of June. Extra charges are made for the use of the library, for instruction in natural philosophy, chemistry, telegraphy, engineering, drawing, Spanish, and music, as well as for each diploma.

Equipment: The college building is surrounded by ample playgrounds. There are two distinct libraries: one containing 1,500 books for the students, another containing 6,000 volumes for the teachers. A museum of botanical and mineral specimens has lately been added to the college, and a few years ago a meteorological observatory was there established by the United States Signal Service. There is an exhibition hall, provided with a stage and a drop curtain, as well as eight sets of scenery. The college press issues a German weekly, and a monthly college magazine called the "Banner." The societies are the Sodality of the Immaculate Conception, St. Joseph's Altar Society, Acme Dramatic Club, college choir and band, the Gross Literary and Debating Society, and Alumni Association.

Women.

Non-Sectarian.

INCOME, \$62,000	STUDENTS, 335	INSTRUCTORS, 34	BUILDINGS, 8	BOOKS, 16,000
---------------------	------------------	--------------------	-----------------	------------------

Organization: Mount Holyoke Seminary was founded by Mary Lyon in 1836, and was opened in 1837. It was chartered as a college in 1888, and assumed its present name in 1893. In September, 1896, shortly after the opening of the academic session, a fire destroyed the main building, causing consternation among the students and teachers. No lives were lost, and the building was fully insured. It is governed by twenty trustees, of whom three are chosen by the alumnae.

Instruction: Admission is on certificate and by examination, which may be undergone in New York, Boston, Chicago, Philadelphia, Washington, St. Louis, St. Paul, and Bangor, as well as at the college itself. Attendance at chapel is compulsory, as is gymnastic exercise during the first three years. Negroes are not excluded. The degrees are B.A., B.S., B.L., and M.A. after one year's residence and a thesis. The expenses for the year, lasting from September 17 to June 17, are \$250. There is a loan fund for poor students, and a fund for twenty-one scholarships amounting to \$60,000.

Equipment: Besides the college library, which is connected with the main building, there are several working libraries and a reading-room. Instruction is given in four halls, among which is a gymnasium and an observatory. The college grounds cover seventy acres, adjoining Lake Nonotuck. There is a botanical garden and arboretum of one acre.

Societies and Publications: The students maintain a debating society, Shakespere Club, Contemporary History Club, Mendelssohn Club, Glee Club, Banjo Club, Boat Club, Athletic Association, Basket Ball Team and Christian Association. Twenty-three alumnae associations, one of which is in Constantinople, have been established. During the last year these associations raised \$150,000 to add to Dr. Pearson's gift of \$50,000.

Chapters of the following fraternities have been organized: $\Sigma \Theta X$, and $\Psi \Phi \Delta$. The "Larmarada," an annual, and "The Mount Holyoke Literary Magazine," are published.

The graduates number 2,335, of whom the oldest is Mrs. G. C. Curtis, 1838, Rochester, N. Y.

The college was founded in 1808 and received its charter in 1830. The founder was Fr. John Dubois, afterwards Bishop of New York. A new college building was completed in 1825, but in the same year it was destroyed by fire. The first president was Rev. John D. Purcell, afterwards Archbishop of Cincinnati. He was succeeded by the Very Rev. John McCaffrey, D.D., from 1838-1871. The institution is under the control of a board of directors, the president of which, by virtue of his office, is the Archbishop of Baltimore.

Students are admitted on certificates. The degree of B.A. is conferred, and that of M.A. after two years of post-graduate study. The

expenses for the year, lasting from September 9 till the first week of June, are from \$150 to \$300. Twenty medals for excellence in study are given each year.

The literary societies are the Purcell, and the Carroll Lyceums. A religious society, a Junior Sodality, college orchestra and band are also maintained. The oldest graduate is John A. Boyle, 1826, of Westminster, Md.

Affiliated institutions are the St. Joseph's Academy, for girls, and an Ecclesiastical Seminary.

The college was founded in 1846, and has just celebrated its first semi-centennial, in honor of which a new building has been founded. It is governed by twenty-seven trustees, and by committees of supervision and visitation from five conferences. Admission is by examination, but credit is given to certificates from approved preparatory schools. Women are admitted on equal terms with men and are alike eligible to places in the faculty and in the governing boards. Degrees of B.A., B.Ph., B.S., and in music and commercial science are conferred. The expenses for the year, lasting from August 24 to June 23, are from \$50 to \$100, and can be reduced in various ways.

The students publish the "Dynamo," and maintain two literary societies: the Republican and the Linnæan,—two law clubs: the Oxford and Blackstone, a journalistic and Itinerant Club with Christian and Athletic Associations. Chapters of the following fraternities have been established: $\Delta \Gamma \Delta$, 1875-1884; $A T \Omega$, 1882; $\Delta \Gamma$, 1882; $\Sigma A E$, 1885.

The graduates number nearly 2,000.

Newberry College grew out of a theological and classical institute founded at Lexington, S. C., by the Lutheran synod of South Carolina, 1832. In 1854 it was converted into a college, and was located at Newberry. A charter was obtained in 1856, and the school was opened in 1859. After the close of the war the college building was occupied by a Federal garrison, as barracks. It was ruined by the troops, and a bill has, therefore, long been pending in Congress asking for an appropriation on account of this damage to property. In 1869 the college was moved to Walhalla, in the extreme northwestern part of the State, where it remained until 1877, when it was re-located at Newberry.

The presidents have been the Revs.: Theophilus Stork, 1859-1860; J. A. Brown, 1860-1861; J. P. Smeltzer, 1861-1877; George W. Holland, Ph.D., 1878-1895, and George B. Cromer, A.M., the present incumbent.

The institution consists of a college and theological seminary. It is governed by a board of twenty-six trustees. Chapel is compulsory. Degrees of B.A., B.S., and B.Ph. are conferred. Negroes are excluded. The expenses for the year, lasting from October 1 to June 19, are \$122. Four scholarships, yielding from \$50 to \$70 each, have been established, and four gold medals and prize books are annually distributed.

Three literary societies: the Phreno-Cosmian and Excelsior and a Christian Association have been organized. The students publish "The Collegian," a fortnightly. The graduates number 130, the oldest of whom is Joseph E. Houseal, Cedarstown, Ga.

INCOME, \$190,000	STUDENTS, 1,275	INSTRUCTORS, 127	BUILDINGS, 13	BOOKS, 31,000
----------------------	--------------------	---------------------	------------------	------------------

History and Organization: The university owes its foundation in 1831 (after the plan to found such a school had been publicly discussed in 1829) to gifts of public-spirited citizens. In 1896, after an amendment to the original charter, the name of the university was changed from University of New York to the present name, and the school was moved from Washington Square to University Heights. The present site above 181st Street is midway between Columbia University and St. John's College, at Fordham.

The university consists of The Council and General Faculty, The College, Graduate School, School of Engineering, School of Pedagogy, Law School, Medical College, and the related Theological Seminary.

The council is a self-perpetuating body of thirty-two members, each holding office four years, or until his successor is elected.

There are three faculties of arts and science, dating from 1832; one of medicine, since 1841; of law, since 1858; and of theology, since 1890.

Admission, Degrees, etc.: Candidates must bring certificates of previous study, and must undergo examination in all the subjects named therein. Degrees of B.A., B.Ph., and B.S., are conferred, together with degrees of A.M., Ph.M., and M.S., as well as Ph.D. Appropriate professional degrees are conferred by the graduate and professional schools. At the beginning of the sophomore year the student must enter one of ten groups, named in the catalogue, while seniors may choose from a stated number of graduate courses. Attendance at military drill is compulsory for freshmen and sophomores,

while attendance at chapel is compulsory for all. Women are admitted to the graduate school. Negroes are not excluded.

Dues, Scholarships, and Prizes: Tuition is \$100 for the year, lasting from September 30 to June 10. Thirty-two scholarships, yielding incomes of \$400, are offered, and eleven of from \$100 to \$200, with three graduate fellowships of \$300, and a few beneficiary scholarships besides. A prize of \$100 is given for the best examination paper, and nine prizes, ranging from \$20 to \$75, for excellence in study. A loan fund has also been established.

Equipment: Three buildings are in process of erection on the new grounds on University Heights. Dormitory halls are to be added. The other ten buildings of the university are distributed throughout the city. The college grounds cover thirty-two acres. A gymnasium and athletic field have recently been equipped.

Societies and Publications: The publications issued by the college are the "Violet," a student annual; "The Item," a weekly; the "University Quarterly," published by students and professors: and the "University Law Review," a monthly.

The societies are the Eucleian, Scientific Society; glee, mandolin, and banjo clubs, and an Athletic Association with football, baseball, and lacrosse teams.

Chapters of the following fraternities have been organized: Φ B K, 1835-1848; Σ Φ , 1835; A Δ Φ , 1835-1895; Ψ T, 1837; Δ Φ , 1841; Z Ψ , 1846; Δ Ψ , 1847-1853, Δ T, 1865; Φ Δ Φ , 1888; Φ Γ Δ , and Δ Π .

Academic costume was adopted in 1895, the degrees being indicated by the pattern, and the classes by the colors.

The graduates number 12,300, of whom nearly 10,000 are living. The Rev. W. R. Gordon, 1834, of Manchester, N. Y., is the oldest.

History: Niagara University, conducted by priests of the Congregation of the Mission, was founded at Buffalo in 1856, by Rev. John J. Lynch, afterward first archbishop of Toronto. It was incorporated in 1863 as the Seminary of Our Lady of Angels, after its transfer to its present site, two miles above the Suspension Bridge on the heights of Mount Eagle Ridge, six years before. In 1883 the college was made a university by the regents of New York. In the same year a medical department, under the presidency of John Cronyn, was established in Buffalo. From 1864 to 1865, owing to a fire, instruction was suspended. The presidents have been: Rev. John J. Lynch, C.M., 1857-1860; Rev. Thomas Smith, C.M., 1860-1863; Rev. John Asmuth, C.M., 1863-1864; Rev. Robert Rice, C.M., 1864-1877; Rev. P. V. Kavanagh, C.M., 1877-1893; Rt. Rev. S. V. Ryan, C.M., D.D., 1893-1896; and Rev. P. MacHale, C.M., the present incumbent.

Organization: The school is governed by ten trustees. Besides the collegiate and medical departments, there is a theological seminary and preparatory school. The college grounds cover three hundred acres, with a campus of seven acres. Admission, except for those entering from the preparatory department, is by examination,

and upon regents' certificates. Attendance at chapel is compulsory. The degrees are B.A., and M.A. besides the medical and theological degrees conferred by the school of medicine and the seminary. The expenses for the year, lasting from September 5 to June 25, are \$200. There is one free scholarship for medical students.

Societies and Publications: "Niagara's Tribute," published in 1870, became the "Index Niagarensis" in 1874, and is now published fortnightly as the "Niagara Index." The societies are: The Shakespearean, Basilian, R. E. V. R., B. L. A., S. O. L. A. (three literary societies), B. V. M. Sodality, a religious organization, Niagara Battalion, N. U. Athletic Society, N. U. Baseball Club, Niagara Reserves, N. U. Football Team, Cecilian, Choral Union, Banjo and Glee Club, and a college band and orchestra.

History: A meeting to consider the establishment of this university was held in 1850 in Chicago; a charter was obtained in 1851, and two years later a president was appointed. The College of Liberal Arts was opened in 1855, the Medical School in 1869, that of law in 1873, of pharmacy in 1877, of dentistry in 1888, and the Women's College in 1892. In the early years of the university the Garret Biblical Institute was made the Theological School. The presidents have been: Clark T. Hinman, D.D., 1853-1854; Randolph S. Foster, D.D., LL.D., 1855-1860; Henry Sanborn Noyes, A.M., 1860-1866; David

H. Wheeler, LL.D., 1867-1869; Erastus O. Haven, D.D. LL.D., 1869-1872; Charles H. Fowler, D.D., LL.D., 1872-1876; Oliver Marcy, A.M., LL.D., 1876-1881; Henry Wade Rogers, LL.D., 1890 to the present time.

Organization: The trustees number forty-four. The Faculty consists of all professors, associate and assistant professors, as well as instructors. The faculties of the Medical College and Law School are in Chicago, where these schools are situated. The university council consists of the president, deans of faculties, and one member of each faculty, and considers only such matters as relate to the university as a whole.

Admission and Degrees: Candidates are admitted on examination or on the certificates of nearly a hundred accredited schools of various States. After October, 1897, no student will be admitted without undergoing an examination in English. The elective system during the last year was extended within certain limitations to the first and second years. The degrees are A.B., B.Ph., B.L., besides the degrees granted by the professional schools. Masters' degrees are conferred after one year of resident, or two of non-resident post-graduate study. The degree of Ph.D. is conferred after at least two years of resident study and a thesis. Since 1869 women have been admitted on the same terms as men. Negroes are not excluded. Attendance at chapel is compulsory for all, but not so gymnastic or military drill. By a provision of the charter the sale of liquor is not allowed within four miles of the university.

Dues, Scholarships, and Prizes: The expenses for the year, lasting from September 11 to June 12, are \$200. Three fellowships of \$400 each are offered in chemistry, physics, and mathematics. Fifty-one State scholarships and five private funds, yielding incomes equivalent to tuition and more, are available, and a loan fund has been established. Five prizes of \$100 each are offered for oratory and composition, with three ranging from \$20 to \$40 for extemporaneous speaking.

Equipment: The ten buildings at Evanston stand on grounds of forty-five acres, fourteen of which form the campus. Athletic grounds have been levelled in the immediate vicinity of the old gymnasium. During the last year William Deering gave to the university \$215,000, thus raising the total endowment to \$3,800,000, of which \$1,818,000 yields income. The museum contains a good ceramic collection with many anthropological and archæological specimens. The botanical museum and herbarium is rich in ligneous specimens. Modern laboratories have been equipped by the botanical, chemical, geological, mineralogical, physical, and zoological departments.

Societies and Publications: Besides the "Northwestern Record," published by the university as such, the students publish the "Northwestern," a weekly, and the "Syllabus," an annual. The societies are: Woman's Club, Coffee, Science, Glee, Banjo, Mandolin, and Good Government clubs, Historical Association, Oratorical League, Hinman Literary Society, Prohibition League, Volunteer Band, Settlement and Northwestern Association, Woman's Debating Club, two Christian Associations, Alumni Association, Deru Society,

Thalian Dramatic Club, and Athletic Association, with Tennis Club, Golf Club, football and baseball teams. Chapters of the following fraternities have been organized: Φ B K, Φ Δ Θ , 1859; Φ K Ψ , 1864; Φ Γ Δ , 1867-1870; Σ X, 1869; Φ K Σ , 1872; B Θ Π , 1873; Δ T, 1880; A Φ , 1881; Δ Γ , K K Γ , 1882; K A Θ , Γ Φ B, 1888; Δ T Δ ; Θ N E; Π B Φ ; Δ Δ Δ ; Ω Ψ ; Σ A E; A X Ω ; Σ Φ H; Φ Δ Φ ; Φ P Σ ; N Σ N; Φ X, and Δ Σ Δ .

The graduates number 5,200. During the coming year all departments will join in a common commencement. The wearing of cap and gown, introduced in 1895, is now required on such occasions.

History, and Organization: The school was chartered in 1833 as the Oberlin Collegiate Institute, and assumed its present name in 1850, when a College and Theological Institute were established. The founders were the Rev. John J. Shipherd, and Philo P. Stewart. The presidents have been, Rev. Asa Mahan, 1835-1850; Rev. Chas. Grandison Finney, 1851-1866; Rev. James Harris Fairchild, 1866-1889; Rev. William Gay Ballantine, 1891 to the present time. A conservatory of music, a school of art and a physical training school have since been added. The government is vested in a board of twenty-five trustees, six of whom are elected by the alumni.

Admission, Degrees, etc.: Admission is on examination and upon certificates of thirty-eight specified High Schools of the State, and eight others. Three parallel courses lead to degrees of B.A., B.S., and B.Ph. In all these courses the studies of the first year are required; in the three following years three-fourths of the subjects are elective. Gymnastic drill is likewise elective, but attendance at chapel is compulsory. Degrees of M.A., and M.S. are conferred after one year of resident graduate study.

Dues, Scholarships, and Prizes: The expenses for the year, lasting from September 24 to June 24, are from \$160 upwards. Facilities for self-support are numerous, and free tuition is provided for many. There are thirteen scholarships for theological students; twenty-seven for self-supporting women; fifty-seven for negroes; and seven for general use.

Equipment: The college grounds cover forty-five acres, sixteen of which are reserved for the campus. Among the fourteen college buildings there are two modern gymnasia and a rich library. There are several good collections of archæological, palæontological and zoölogical specimens, and eight distinct herbaria. Laboratory work is carried on in two buildings.

Societies, and Publications: Three literary societies are maintained by men: the Phi Kappa Phi, the Phi Delta, and the Alpha Zeta, and two by women: the L. L. S. and the Æolian. Between them they

own 9,000 volumes. In the theological seminary the societies are the Samekh Aleph, and the Finney; in the academy: the Acme, and the Cadmian, and in the conservatory, the Harmonia. Secret societies are not permitted. Besides two Christian Associations and a Missionary Club, there exist an Agassiz Club, a Botany Club, a German and French Club, and an Athletic Association, with football and baseball teams. The college publishes five annual reports, a quinquennial catalogue, periodical laboratory and library bulletins, and an annual necrology. The students publish the "Hi-O-Hi," an annual, and the "Oberlin Review," a weekly. The graduates number 3,200, the oldest of whom is Huntington Lyman, 1836, of Cortland, N. Y.

History and Organization: The university was founded in 1870. In addition to the congressional grant of 1862 the university has received a permanent annual grant from the general government, special appropriations from the State, and since 1891 a permanent annual grant from Ohio, raising the whole endowment to more than half a million. The university consists of a school of art and philosophy, of science, and agricultural engineering, of a law school, and a medical school. The preparatory department was dropped in 1896. The university is governed by seven trustees.

Admission, Degrees, etc.: Admission is upon examination and on certificates from the Preparatory and Normal schools of Ohio. A four years' course leads to degrees of B.A., B.S., and B.Ph., as well as to degrees in agriculture, horticulture, industrial art, with civil, mining, and mechanical engineering. The courses in pharmacy, medicine and veterinary medicine lead to appropriate degrees. The degree of M.A., is conferred after one year of resident post-graduate study, that of Ph.D. and SS.D. after three years.

Dues, Scholarships, and Prizes: The necessary expenses for the year, lasting from the middle of September to the last week of March, are \$128. The only charges for tuition are \$15 a year for incidentals, and \$5 for diploma fee. There are eight fellowships, divided among the different departments, and three scholarships in agriculture for one student from each county of the State. An employment committee secures work for poor students.

Equipment: The college grounds cover 330 acres, part of which is reserved for botanical and horticultural purposes, and for the twelve college dwelling-houses. Besides the college library, the libraries of the city and of the State with 130,000 books are open to students. There is a botanical and geological museum, with 20,000 specimens and an archæological collection of Ohio antiquities. Extensive athletic grounds give opportunity for physical training.

Societies: The Halcyon Literary Society and the Horton, both for men, have halls in the University. The Browning Society, founded in 1883, and the Philomathean for women, have halls of their own. Besides these there is Newman Club for Catholics, a Biological Club, a Political Science Association, Engineers' Club, Athletic Association, two Christian Associations, and a branch of the King's Daughters.

The university, though chartered and organized in 1804, was established in 1887 by a purchase of land from the United States. It is under the control of the legislature and of twenty-one trustees, who are appointed by the State. The grounds cover ten acres. The main building, which was built in 1817, is the oldest college edifice in the State, just as the university itself was the first institution of higher learning contemplated in Ohio. Instruction was suspended between 1846 and 1849. The presidents have been: the Revs. James Irvine, A.M., 1822-1824; Robert G. Wilson, D.D., 1824-1839; William H. McGuffey, D.D., LL.D., 1839-1843; Alfred Ryors, D.D., 1843-1852; Solomon Howard, D.D., LL.D., 1852-1872; William H. Scott, A.M., 1872-1883, and Charles W. Super, A.M., Ph.D., since 1884.

Admission is by examination and upon certificate. The degrees are A.B. and B.Ph., and A.M. and Ph.D. after three years and conspicuous scientific attainments. Half the subjects after the first year are elective. Attendance at chapel is compulsory. Negroes are not excluded. The expenses for the year, lasting from September 3 to June 27, are \$175. Ten \$100 scholarships are offered.

The societies are the Athenian and Philomathean, with the Adelpia for women. Chapters of the following fraternities have been organized: B Θ Π, B K, 1841; Δ T Δ, 1862; Φ Δ Θ, 1868; K A Θ, 1876-1885; and Π B Φ, 1889.

The oldest graduate is O. W. Brown, 1829, of Pittsburgh, Pa.

History and Organization: The college was founded in 1842. The faculty was organized two years later. The presidents have been: Bishop Thomson, 1842-1860; Rev. Frederick Merritt, 1860-1873; Fales Newhall, 1873-1883; Professor McCabe, 1883-1886; Charles H. Payne, D.D., LL.D., 1886-1889; and James W. Bashford, Ph.D., from 1889 until the present. The trustees number thirty, of whom five are alumni.

Admission, Degrees, etc.: Admission is by examination and upon certificate for subjects corresponding to those of the curriculum. The degrees are A.B., B.L., and B.S.; A.M. after one year; Ph.D. after three years of resident study; and S. T. D. after ten years of marked success. Attendance at chapel is required except upon petition. Attendance at gymnastics and military drill is voluntary, and credits are given for such attendance. Negroes have been admitted ever since the close of the Civil War. Connected with the college is an academic department.

Dues, Scholarships, and Prizes: Tuition is \$15 a year, but an "incidental fee" of \$36 is charged in addition. In 1854 no less than 3,740 scholarships were sold, which are expected to reach cancellation within twenty years. A prize of \$25 is offered for modern languages.

Equipment: The college buildings number ten, of which six are on the campus. Besides a gymnasium and library, there are three buildings equipped for laboratory work. Monnett Hall, the dormitory for women, is situated a half mile from the campus amid picturesque surroundings. The college grounds cover forty acres.

Societies and Publications: The students publish the "Transcript" and "Weekly Folio." The societies are the Zetagathean, Christomathean, Athenian, and Amphictyonian. Halls are owned by all. Four societies are maintained by the academic department, while three more flourish in Monnett Hall: namely the Clonian, Athenean, and Castilian. In addition to these organizations there is a Christian Association, growing out of the Missionary Lyceum, dating from 1846, and an Athletic Association with baseball and football teams. Chapters of the following fraternities have been organized: Β Θ Π, 1853; Σ Χ, 1855; Φ Δ Θ, 1860; Φ Κ Ψ, 1861; Δ Τ Δ, 1866; Φ Γ Δ, 1869; Κ Φ, 1873; Κ Κ Γ, 1879-1881; Κ Α Θ, 1881; Α Τ Ω, 1887; and Σ Α Ε, 1889.

The alumni number more than 2,200, of whom 2,000 are living. The oldest of these is W. D. Goodman, D.D., 1846, of Winsted, La.

It is governed by seventeen trustees. Admission is upon certificate. Attendance at chapel is compulsory. Degrees of A.B., and of Litt.B., for women, are conferred after two years and an examination. The expenses for the year, lasting from September 3 to June 19, are from \$60 to \$100. Tuition is \$10 a term. Nine prizes of from \$10 to \$20 are offered for essays and declamations. The societies are the Cheever, Park and Bullock, with oratorical and Christian Associations. The president's "family" is also mentioned as one of the societies. The students publish the "Stylus." The graduates number 245, of whom the Rev. W. T. Scott, 1879, Cleone, Ore., is the oldest.

The college was organized in 1859 as the Farmers' High School, and in 1862 became the Agricultural College, after the legislature had appropriated the proceeds of the national land grant of 1862 to its use. In 1874 it assumed its present name. In all, the State has appropriated more than \$6,000,000 to this one college. The presidents have been: Evan Pugh, Ph.D., F. C. S., 1860-1863; W. H. Allen, LL.D., 1864-1866; John Fraser, A.M., 1867-1868; T. H. Burrowes, LL.D., 1869-1871; Rev. James Calder, D.D., 1871-1880; Joseph Shortlidge, A.M., 1880-1881; Geo. W. Atherton, LL.D., from 1882 to the present. The college is governed by ten elective and nine *ex-officio* trustees.

Admission, Instruction, and Degrees: In lieu of examination, certificates of all normal and high schools, as well as of all academies of the State are accepted. The four years' courses are: classical, general science and Latin-scientific, with courses in agriculture, biology, chemistry, civil, electrical, mechanical, and mining engineering, as well as in mathematics and physics. Provision is also made for an extensive range of elective work in ancient and modern languages, psychology, ethics, pedagogics, history, and political science. Degrees of A.B., B.S., and of C.E., M.E., and E.E., as well as masters' degrees after special study are given. Attendance at military drill and chapel is compulsory. Negroes are not excluded.

Dues, Scholarships, and Prizes: No tuition is charged for residents of the State. Others pay \$100 for the year, lasting from September 11 to June 17. An incidental fee of \$17 is charged, as well as laboratory fees. Fifty senatorial scholarships have been established, exempting the holders from all charges except laboratory fees for four years. Five prizes of unspecified value are annually distributed.

Equipment: The college grounds cover four hundred acres, one hundred of which are used for experimental purposes, while fifty are reserved for the campus. Besides six public buildings, among which are a gymnasium and armory, an Agricultural Experiment Station, with well-equipped physical and chemical laboratories and machine-shops, there are ten dwelling-houses for professors. No dormitories have as yet been provided. Separate libraries have been established for each college department.

Societies and Publications: The college publishes an annual bulletin, an alumni record, and many agricultural bulletins. The students publish the "Free Lance," a monthly; and "La Vie," a junior annual; the "Mining Bulletin," and a Y. M. C. A. handbook. The societies are: the Alumni Association, Adelphi Club, Scientific Association, Friday Club, Camera Club, Press Club, Electrical Engineers, Mining Association, Chemical Club, L'Union des Esprits, Cotillion Club, Glee Club, Choir, Orchestra; Banjo, Guitar, and Mandolin Clubs; Delmonico Club, Clover Club, Future Farmers, Military Company, Athletic Association with football and baseball teams, and a Tennis Association. Chapters of the following fraternities have been organized: $\Delta T \Delta$, 1872-1874; $\Phi \Gamma \Delta$, 1888; $Q T V$, 1885-1890; $B \Theta \Pi$, 1887; $\Phi K \Sigma$, 1890; ΣX , 1891; $K \Sigma$, $\Sigma A E$, 1892; $\Phi \Delta E$, 1893, and $\Theta N E$, 1894.

The institute is the outgrowth of the Brooklyn Collegiate and Polytechnic Institute, incorporated in 1854, and opened in 1855, with John H. Raymond, LL.D., as president. Up to 1870 two courses were offered leading to degrees of A.B., and B.S. The present name was adopted in 1889.

The school is governed by a corporation of twenty-one trustees. Admission is by examination and upon regent's certificates, and those of the public schools of Brooklyn. At present only the degree of B.S. is given after the regular course, while degrees of C.E. and E.E. are conferred after graduate study. The academic department is preparatory to all the others. Gymnastic drill is required but not so attendance at chapel. Tuition for the year, lasting from September 18 to June 16, is \$200.

Among the four buildings is a gymnasium, machine-shop, and main hall containing many well-equipped laboratories. The astronomical observatory has an equatorial telescope. The museum is rich in mineralogical and other specimens.

Besides several scientific publications and bulletins issued by the Faculty, a students' journal is published. Many societies and organizations are maintained among the undergraduates. The graduates since 1858 number 600, of whom R. W. Raymond, Ph.D., 1858, of Brooklyn, is the oldest.

The site of this institute, fronting on Riordan Street in Brooklyn was purchased in 1884, and the buildings were erected during the three following years. The government of the school is vested in three trustees and an associate council of eight. The conditions of admission are left to the heads of the various departments. Instruction is given in high school branches, fine arts, decorative art, domestic pursuits, science and technology, kindergarten work, and in cataloguing and museum classification. Diplomas are given in each of these departments.

In the high school the clubs are branches of the Pratt Institute Neighborhood Association,—they are the Talkers, Voluntaries, Camera, Glee, Sketch, Bicycle, and Archery clubs. The instructors and assistants, of whom only those of the higher departments are enumerated below, number nearly 150. The graduates number 10,066.

The college was founded in 1880, by Rev. William P. Jacobi, D.D. The presidents have been: William S. Lee, A.M., 1880-1885; Rev. Robert P. Smith, A.M., 1885-1888; Joseph W. Kennedy, A.M., 1888-1890; John I. Cleland, A.M., 1890-1894; Rev. E. C. Murray, 1894 to the present time. The government of the school is vested in twenty-nine directors.

Admission is by examination. Two courses, the classical and scientific, lead to degrees of A.B., and B.S., with the degree of A.M. after one session of post-graduate study. Attendance at chapel is compulsory, but not so gymnastic drill. Negroes are excluded. The expenses for the year, lasting from September 16 to June 11, are \$135. Three gold medals are offered for excellence in speaking and writing. The four college buildings, among which are gymnasium and museum, stand on grounds of more than twenty acres.

The students publish the "Palladium," and maintain the Eukosmian and Philomathean societies for men, and the Alethesophian for women. A Christian Association, Gospel Temperance Union and Athletic Association with a baseball club, and a chapter of Π K A have also been organized.

History: The first charter was granted in 1746, and the second, making the trustees a self-perpetuating body, in 1748. The college was opened at Elizabethtown, near New York, with Rev. Jonathan Dickinson as president, and was removed to Newark, and soon afterward in 1753, to Princeton. During the next two years Nassau Hall was erected. Though this hall has twice been damaged by fires, in 1802 and 1855, it still stands. The presidents have been: Jonathan Dickinson, 1747; Aaron Burr, 1748-1757; Jonathan Edwards, 1757-1758; Samuel Davies, 1759-1761; Samuel Finley, 1761-1766; John Witherspoon, 1768-1794; Samuel Stanhope Smith, 1795-1812; Ashbel Green, 1812-1822; James Carnahan, 1823-1854; John Maclean, 1854-1868; James McCosh, 1868-1888; Francis Landey Patton, S.T.D., LL.D., 1888 to the present. The Green School of Science was added in 1873, and a department of Engineering in 1875. The sesquicentennial of the college was celebrated in 1896, when lectures were delivered by Profs. Felix Klein of Göttingen, Edward Dowden of Dublin, Joseph J. Thomson of Cambridge, Goldwin Smith and Edward B. Boulton of Oxford, Andrew Seth of Edinburgh, Henry Moissan of Paris, E. K. Bruggmann of Leipsic, Johann Conrad of Halle, A. A. W. Hubrecht of Utrecht, W. Dörpfeld of Athens, and by Sir J. W. Dawson, William Peterson, and Rev. Dr. Caren of Canada. In the same year, after a material increase of the endowment, the trustees transformed the college into a university, changing its name from the College of New Jersey to Princeton University.

Organization: The university comprises an academic department, a scientific and engineering school, a graduate school and affiliated theological school. The government is vested in twenty-six trustees, with the Governor of the State as an *ex-officio* member. The seminary is under the control of a separate board of trustees.

Admission, Instruction and Degrees: Admission is by vote of the Faculty after examination. Examinations are held at Princeton, New York, Philadelphia, Washington, Buffalo, Pittsburgh, Cincinnati, Louisville, Chicago, St. Louis and Denver, and at other places if necessary. The four years' academic course, leading to the degree of A.B., embraces studies in philosophy, languages, mathematics and the sciences. Studies can be elected in the junior year, when one-third of the work only is prescribed. Masters' degrees are given after one year of resident study, while that of Ph.D. is conferred after two years. Attendance at chapel is compulsory. Students are forbidden to leave the village without permission.

Dues, Scholarships, and Prizes: The expenses for the year, lasting from September 18 to June 10, are from \$325 to \$500. Of this \$150 is for tuition. In the scientific department tuition is \$160, with additional fees for laboratory work. Four fellowships of \$500 and \$400 are available, with nine fellowships of from \$200 to \$600, besides

one hundred scholarships on the income of \$1000 each, three on the income of \$2,000 and \$3,000, several competitive scholarships, and thirty-six prizes, the highest of which is for \$500. Four funds, aggregating \$50,000, have been provided for the aid of poor students. Special funds, yielding an income of \$1,700, exist for ministerial students, and seven biblical prizes of \$50 each, are available for theological students.

Equipment: The college grounds cover 225 acres, of which 140 are reserved for the campus. Of the thirty-two buildings the oldest are Nassau Hall and the dean's house. The first halls of the Whig and Clisophic societies were built in 1836. Among the modern buildings is the attractive house of the president, a new gymnasium and library, an art museum, with museums of biology, geology, and archæology, and an astronomical observatory. Nine well-equipped laboratories are maintained by the various departments. The theological seminary, which was established in 1812, consists of five buildings, the oldest of which, Alexander Hall, was occupied in 1817. The Brokaw athletic field, in close vicinity to the campus, contains a tennis building and two clubhouses.

Societies and Publications: The Clisophic and Whig societies date back to the early history of the college in the last century. They occupy new buildings, and own libraries of ten thousand books each. Prizes are given by them for declamations, speeches, and essays. The Philadelphian, a religious society, dating back to 1825, also occupies a hall of its own; while the St. Paul, a similar organization, offers a series of sermons each year. Another of the old clubs is the Ivy. In addition to these there are numerous social, dining, dramatic, and musical organizations, besides the well-known athletic teams. Chapters of the following fraternities were at one time organized, despite prohibition by the college authorities: B Θ Π, 1843-1846; Δ K E, 1845-1857; Z Ψ, 1850-1884; Δ Ψ, 1851-1853; X Ψ, 1851-1857; K A, 1852-1855; Φ K Σ, 1853-1876; Σ Φ, 1853-1858; Δ Φ, 1854-1879; X Φ (Princeton), 1854-1860; X Φ (Hobart), 1864-1868; Θ Δ X, 1863-1867; A Δ Φ, 1864-1865; Σ X, 1869-1882; A Σ X, 1875-1880; besides several others.

Subordinate to the Alumni Association of Nassau Hall and the National Association are twenty-two clubs throughout the country. The students publish the "Princetonian," a daily; the "Tiger," a comic fortnightly; the "Nassau Literary Monthly;" the "Nassau Herald," an annual; and the "Bric-a-Brac," a society annual.

Of 7,500 graduates, 4,500 are living. The oldest of these is William C. Wallace, 1823, of Newark, N. J.

The university was founded in 1890 by the Puget Sound Conference of Methodists. A preparatory school was added in 1892, and in 1895 a normal and business department. The first class was graduated in 1893. The presidents have been: F. B. Cherington, 1890-1892; and C. R. Thoburn, the present incumbent. A new site of several hundred acres has been selected for future occupancy.

The sale of some of this property is expected to add \$500,000 to the endowment. The trustees number twenty-one.

Admission is by certificate. Degrees of A.B., B.L., B.S., and B.P'gy. are given, as well as A.M. after one year, and Ph.D. after two years of resident graduate study. Attendance at chapel is obligatory. The expenses for the year, lasting from September 16 to June 23, are \$150. The students publish "Ye Record," and maintain the following societies: Athenian, Delphian, Clonian (for women), Aedean Choral Society, two Christian Associations, a Missionary Institute and an Athletic Club. The graduates number nine.

The university, which is the agricultural and mechanical college of Indiana, was founded by John Purdue in 1873. In this year the proceeds of the Federal Land Grant of 1862 became available for this school, netting, in all, \$340,000. Previous to this, in 1869, John Purdue had given \$150,000, while one hundred acres and \$50,000 were contributed by citizens of Tippecanoe County. A president was elected in 1872, but instruction was not begun until 1874 after the resignation of the first president. The presidents have been: Richard Owen, LL.D., M.D., 1873-1874; Abraham C. Shortridge, 1874-1875; Emerson E. White, A.M., LL.D., 1875-1883; James H. Smart, A.M., LL.D., 1883 to the present time.

The plan of organization embraced schools of natural science, engineering, and agriculture. In 1883 the School of Industrial Art was added, while in 1884 followed the School of Pharmacy, and in 1887 those of Civil Engineering, Veterinary Science, with that of Electrical Engineering two years' later. A Government Experiment Station, with an income of \$15,000 a year, has also been established.

Admission is by examination and on certificate for residents of the State. Degrees are given in agriculture, science, veterinary science, pharmacy, and with the following degrees after graduate study: M.E., C.E., A.C., and M.S. Attendance at chapel is compulsory, as

is attendance at gymnastics and military drill during the first two years. Negroes are not excluded. Tuition is free. Other expenses for the year, ending June 10, are \$200. A number of scholarships are available.

Equipment: The grounds cover 180 acres. Among the twenty buildings are University Hall, containing libraries and a museum; Industrial Art Hall; Women's Dormitory; Chemical, Mechanical, and Electric Laboratories; Military Hall, and Pierce Conservatory. A university farm is also maintained.

Societies and Publications: The literary societies are the Irving, Philat, Philalethean, Emersonian, and Carlyle, besides which the students maintain a Thirteen Club, Cosmos, Glee and Mandolin clubs, two Christian Associations, Civil Engineering Society, Alumni Association, Battalion, and an Athletic Association, with football and baseball teams. The publications are the "Exponent," a fortnightly; and the "Debris," a senior annual. Chapters of the following fraternities have been organized: ΣX , 1874 $K \Sigma$, 1885; ΣN ; $\Phi \Delta \Theta$; $\Sigma A E$; and $T B \Pi$. The graduates number 620, of whom nearly 600 are living. The oldest is John B. Harper, 1875, of Durango, Cal.

Radcliffe College, the successor of the Society for the Collegiate Instruction of Women, offers instruction to women under the teachers of Harvard University. The first class was graduated in 1883. More than eighty instructors of the university are teachers in Radcliffe College. It is governed by a council of eleven members and twenty-two associates.

Fay House contains the recitation rooms and offices, a library and gymnasium. A field has been levelled for basket ball. The college has four laboratories, of physics, chemistry, botany, and biology. The collections of the Agassiz Museum of Comparative Zoölogy, the Peabody Museum of American Archæology, the University Museums of Geology, Botany, and Mineralogy, and the Semitic Museum, are also open to the students; and by vote of the President and Fellows of Harvard College, the students have the use of the University Library, containing 400,000 volumes. Opportunities for study in the astronomical observatory, the botanic garden and the herbarium are also afforded. The expenses of the year, corresponding to that of Harvard, are \$300. Five scholarships of \$200 each, equivalent to tuition, are available.

The requirements for admission are identical with those for admission to Harvard College. The courses of instruction given in Radcliffe College correspond to both undergraduate and graduate courses offered by Harvard University. Graduate students in Radcliffe College have access to a large number of graduate courses in Harvard University. The examinations are the same in both institutions, and the diplomas conferring the degrees of A.B. and A.M. are countersigned by the President of Harvard University as

a guarantee that these degrees are equivalent to the corresponding degrees given by the university. Many societies are maintained by the students. The graduates number over one hundred.

This college, which consists of two separate schools situated at Ashland and Lynchburg respectively, was chartered in 1830 and opened in 1832. The women's college at Lynchburg was established in 1893. The two schools are governed by two boards of trustees of forty-four members each, and have separate faculties, but are administered by one president. The conditions of admission, the courses of instruction and the degrees of A.B. and B.L. are identical in both schools. Both courses are largely elective. Attendance at chapel and gymnastic drill are compulsory. The expenses for the year, lasting from September 12 to June 11, are from \$200 to \$250. The campus at Ashland covers twelve acres, while that at Lynchburg contains twenty acres.

The students of the older institution publish a magazine and maintain the Washington and Franklin Societies, with an Athletic Association, with baseball and football teams. The women's literary societies bear the same names, and Christian Associations are maintained in both schools. Chapters of the following fraternities have been organized: Δ Ψ, 1853-1861; K A, 1869; Φ K Ψ, 1870-1882; Φ K Σ, 1872; B Θ Π, 1873; Σ X, 1874; Φ Δ Θ, 1874; K Σ, 1885.

The graduates number one thousand.

History: The school was founded in 1824 by Stephen Van Rensselaer for the teaching of science, and secured a charter in 1826. In 1835 the first American civil engineer was here graduated. In 1849 the school was re-organized as a general polytechnic institute, and its course of study was enlarged. The presidents have been: Samuel Blatchford, D.D., 1824-1828; John Chester, D.D., 1828-1829; Eliphalet Nott, D.D., LL.D., 1829-1845; Nathan S. S. Beman, D.D., 1845-1865; Hon. John F. Winslow, 1865-1868; Thomas

C. Brinsmade, M.D., 1868; Hon. James Forsyth, LL.D., 1868-1886; John Hudson Peck, LL.D., 1888 to the present time.

Organization: The school is governed by nineteen trustees. Admission is by examination only. The degrees are B.S., and C.E. Tuition is \$100 for each semi-annual session, while other expenses are estimated at \$300. One prize, the income of \$2,000, is offered for the best engineering thesis.

Equipment: The institute is well equipped with machine-shops and laboratories, and avails itself extensively of the local factories and machine-plants. Attendance at gymnastic drill is not required. No religious services are held. Negroes are freely admitted. The college grounds cover five acres, and contain a good gymnasium.

Societies and Publications: The students publish the "Polytechnic," a monthly; and the "Transit," an annual. The societies are the Rensselaer Engineers, the R. P. I. Union, Glee, Mandolin, and Banjo clubs, an Athletic Association, with football and baseball teams, a Christian Association, and chapters of the following fraternities: $\Theta \Delta X$, 1853; $\Theta \Xi, \Delta \Phi$, 1864; $Z \Psi$, 1865; $\Delta K E$, 1867; $X \Phi$, 1878; $\Delta T \Delta$, 1879; ΣX , 1887; $\Theta N E$ and $B \Delta B$.

Of the 1,200 graduates, more than 925 are living. The oldest is William G. Henry, 1828, of Detroit, Mich.

The Modist School which was established by the Rev. Edward Baptist in Powhattan County in the early part of this century, was moved to Spring Farms and became the Baptist Seminary in 1832. Two years afterward it was moved to Richmond, and in 1840 it was duly chartered as a college. During the Civil War instruction was suspended.

The college is composed of eight academies and schools. It is governed by thirty-nine trustees. Admission is by examination, supplemented by high school certificates. Degrees of A.B., B.S., and B.L.L. are conferred, with that of A.M. after post-graduate study. Attendance at chapel and at gymnastic drill is not compulsory. Negroes are excluded. The expenses for the year, lasting from September 20 to June 20, are \$208. The college grounds cover twelve and one-half acres.

The students publish the "Richmond College Messenger," a monthly; and the "Bulletin," a quarterly. The societies are the Philogian, the Geographical and Historical, Mu Sigma Rho, Law, Christian and Athletic Associations with teams, and an Alumni Association. Chapters of the following fraternities have been organized: B Θ Π, 1870; K Α, 1870; Φ K Σ, 1873; Φ Δ Θ, 1875; Α T Ω, 1878-1882; Σ X, 1880-1881; Σ A E, 1884; Φ Γ Δ, 1890 and Φ Α X.

The graduates number some 900, of whom 450 are living. The oldest of these are P. S. Hanson, of Chicago and J. Ryland of Richmond, of the class of 1846.

The college was founded by the Rev. John Collier with other Free-will clergymen in 1868. The school was not properly equipped or endowed, its actual assets never reaching \$20,000, so that in 1892, after undergoing many vicissitudes under Presidents Collier and Bates, the school with all its property, valued at \$40,000, was transferred to the Congregational churches of Indiana, who appointed a new board of trustees with a new president and faculty. The trustees number twenty-one. Admission is on certificate. Two courses lead to degrees of A.B., and B.S. Instruction is also given in preparatory and normal and business branches, as well as music. The college grounds cover five acres. Expenses for the year, lasting from September 28 to June 24, are \$75. Children of clergymen can obtain aid not exceeding that sum.

History: The institute was founded by Chauncey Rose, of Terre Haute, in 1874, but was not opened until 1883. The presidents have been: Charles Oliver Thompson, Ph.D., 1883-1885; Thomas C. Mendenhall, LL.D., 1886-1890; Henry T. Eddy, Ph.D., 1890-1895; and Carl Leo Mees, Ph.D., 1895 to the present.

Organization: The school is governed by eight managers. Admission is only by examination. Four parallel courses: the mechanical, electrical, engineering, and chemical, all identical in the freshman year, lead to the degree of B.S. The master's degree is conferred two years after graduation on one year's study, while the degrees of M.E., C.E., and E.E. are conferred after two years of professional practice after the master's degree. The expenses for the year, lasting from September 16 to June 17, are \$300, of which \$75 is for tuition. Attendance at chapel and drill are not obligatory, though the latter may soon be required. Negroes are not excluded.

Equipment: Among the five college buildings are an academic building, shops (with electrical plant and boiler house), chemical laboratory, and a gymnasium. The campus covers ten acres, and contains a running and wheel track, athletic field with tennis courts, baseball diamond, etc. The shops were partially destroyed by fire in 1892, but were rebuilt and in full operation within three months. The chemical laboratory was burnt to the ground in 1895, but was rebuilt and occupied in four months.

Societies and Publications: Besides many bulletins and scientific publications issued by the Faculty, the students publish the "Rose Technic," a monthly; and the "Modulus," an annual. The societies are the Rose Scientific Society, Orchestra Club, Christian Association, Athletic Association, with football and baseball teams, as well as a Tennis Club, and an Alumni Association. Chapters of the following fraternities have been organized: $\Phi \Sigma \Phi$, $\Lambda \Gamma \Omega$, and $\Sigma \Lambda$.

The graduates number 162.

History: The college was established by royal charter in 1770 as Queen's College. It took its present name in 1825, in honor of Col. Henry Rutgers. The Protestant Reformed Church had control of the school until 1865, when it became an independent literary institution. The presidents have been: Dr. J. R. Hardenberg, Dr. J. H. Livingston, Dr. P. Milledoler, 1825-1840; Hon. A. B. Hasbrouck, 1840-1850; Hon. Theodore Frelinghuysen, 1850-1862; and Dr. W. H. Campbell, the present incumbent, who was appointed in 1863.

Organization: The trustees number thirty-eight, of whom three are *ex officio*. Admission is by examination and on certificate. Degrees of A B., and B.S. are conferred, with that of A.M. after one year's post-graduate study, those of Ph.D., and Sc.D. after two, and that of C.E. after three years. Degrees in divinity are also conferred. Elective studies may be largely pursued after the first two years. Tuition is \$75 for the year, lasting from September 18 to June 16. A scholarship of \$300, with forty smaller scholarships for the State, and one for each assembly district, three prizes for \$100, and twenty-eight prizes of from \$25 to \$100 are available.

During the last year the students decided to abandon the "Sophomore Cremation," an old college custom usually attended by various irregularities of conduct, and to substitute an annual play therefor.

Equipment: Queen's College, the original building, was erected in 1808. The Fine Arts Building, with a good collection of objects of art and a memorial collection, followed in 1841. Van Nest Hall, used for general purposes, was given six years later. An observatory was established in 1865. The Geological Hall and the Kirkpatrick Chapel and Library followed in 1871 and 1872. A museum, new gymnasium, and athletic field, covering eight acres, have been equipped in recent years. Connected with the agricultural department is a farm of one hundred acres.

The students publish the "Scarlet Letter." Among the societies are the Peithessophian and the Philoclean, a Dramatic Club, Chris-

tian Association, Athletic Association, with football track and baseball teams. Chapters of the following fraternities have been organized: Φ Ψ Σ , 1845; Δ Ψ , 1848-1852; Σ Ψ , 1848; Δ Υ , 1858; Δ Σ Ψ , 1861; Σ Φ , 1867; Δ Σ Ψ and Σ Θ Π , 1871-1888; Σ Ψ , 1879; Σ Σ , 1887.

The college was founded in 1871 by the Franciscans who had established a mission at Santa Clara in 1851. A university charter was obtained in 1853. The old Mission Church is still preserved.

Admission is by examination. Students pass through classical, scientific, and commercial courses leading to degrees of A.B., and B.S. The master's degree is conferred only after examination. Besides an entrance fee of \$15 the expenses for the ten months, from August to June, are \$350. Six money prizes and one hundred and sixty medals are offered for excellence in study.

Nine libraries are distributed through the various departments. The Literary League, which after the pattern of Congress, is divided into two houses, has two halls with libraries. The buildings enclose a quadrangle of ten acres. Two gymnasiums, with a swimming-pond, and play grounds of four acres, have been established. The graduates since 1859 number 250.

The college was founded in 1875 by Miss Sophia Smith, of Hatfield, Mass., who selected the site and bequeathed the first funds. The college is designed to furnish the same means and facilities for higher education as are provided by the best colleges for men. The trustees number fourteen.

Admission is by examination. The degrees are A.B., B.L., and B.S., and that of A.M. is given to graduates of two years' standing who have pursued post graduate study at the college for one year. The degree of Ph.D. is also given after stringent requirements. Attendance at chapel is customary. Tuition is \$100, while the other expenses for the year from September 24 to June 16, aggregate \$300. Annual scholarships of \$100 and \$50 are available, with two scholarships on the income of \$5,000 and two on \$1,000. The library has an endowment of \$300,000 for the purchase of books. Besides the general library, various reference libraries are maintained by the different departments.

The students maintain numerous social organizations, with a dramatic club and an athletic association. A field has been levelled for basket ball. The graduates number more than one thousand.

	184	11	7	30,000

The college was founded in 1801 and opened its doors in 1805. In 1863 the Confederate Government converted it into a hospital. After the close of the war the college charter was amended and the school was re-opened as the University of South Carolina, in 1866. In 1878 it was divided into two branches: Columbia and Orangeburg, but ten years later the old name was again assumed and the college re-opened in 1891.

The school is governed by nine elective and eight ex-officio trustees. Admission is by examination and upon certificate. Four courses, in classics, literature, science and law are offered, leading to degrees of B.A., B.L., B.S., and B.L.L. Since 1894, when the college was opened to women, instruction in normal branches has also been given. Attendance at chapel is compulsory. The expenses for the year, lasting from the last week of September to the last week of June, are \$163. Six scholarships, equivalent to tuition, are available after the junior year.

The students maintain the Euphorian and Clarisophic societies, dating from 1806, two Christian Associations and an Athletic Association. Chapters of the following fraternities have been organized: Δ Ψ, 1850-1861; Δ K E, 1852-1861; Φ K Ψ, 1857; X Ψ, 1858; Β Θ Π, 1858-1861; Θ Δ X, 1859-1861; K A, 1880; Σ A E, 1882; Φ Δ Θ, 1882; A T Ω, 1883; Σ N, 1884; X Φ, 1889; and K Σ.

The graduates since 1809 number 2,050. The oldest of these is Thomas M. Lyles, 1831, of South Carolina.

The university was founded before the Civil War by William M. Stewart of Pennsylvania and Tennessee.

The institution was suspended from February 1862 until September 1869, when the buildings were seized and held for three years as barracks and hospital by troops of the Federal army. While thus occupied all their contents, libraries, apparatus, furniture, floors,

windows, doors, etc., were utterly destroyed, and the president himself, while humanely visiting the sick soldiers, contracted small-pox and died.

In 1875 Stewart College was turned into the Southwestern Presbyterian University. In 1884 a fully equipped Theological Department was added. The presidents have been William M. Stewart, Rev. R. B. McMullen, D.D., Rev. J. B. Shearer, D.D. Chancellors, after the enlargement into the University, Rev. John N. Waddel, D.D., Rev. C. C. Hersman, D.D., 1888-1891; Rev. James M. Rawlings, D.D., 1891-1892; and the Rev. George Summey, D.D., 1892.

The university is governed by ten directors and five alternates. Candidates are admitted without examination, their standing being determined by the proficiency shown by them after entrance. Degrees are conferred in arts, science and divinity, with the master's degree after graduate study. Attendance at chapel is compulsory, but not so military or gymnastic drill. Negroes are excluded. The expenses for the year, from September 9 to June 10, are \$170. Ten prize medals are annually distributed and ten perpetual scholarships on a fund of \$10,000 are available. The four college buildings stand on grounds of twenty-five acres on the bluffs of the Cumberland.

The students issue the "S. W. P. U. Journal," a monthly, and maintain the Palmer Homiletic Society, Washington Irving Literary Society, Stewart Literary Society, Foreign Missionary Society, Athletic Association, Lawn Tennis Association; and chapters of the following fraternities have been organized: Rainbow 1873-1874; Π K A, 1878; K Σ, A T Ω, Σ A E, 1882; and K A, 1887.

History: The University is the outgrowth of no less than twelve schools, organized prior to 1869, on which a total of \$300,000 had been expended. Among the most prominent of these were Ruterville College, chartered by the Congress of Texas in 1840; McKenzie, begun in 1841; Wesleyan, chartered in 1844; and Soule, chartered in

1856. In 1869 the Methodist Conference of the South determined to consolidate the schools to form one of the best grade. A site was procured in 1873 and a new charter in 1875, when the name of Texas University was changed to "Southwestern." In the first year thirty-three students attended. In 1878, two years after the first graduates had been sent forth, women were admitted, though in separate classes. The regents have been F. A. Mood, D.D., 1873-1884; J. W. Heidt, D.D., 1885-89 and John H. Mclean, A.M., D.D., the present incumbent.

Organization, Instruction, Degrees: The University is governed by eleven trustees and twenty-nine curators. Admission is by examination and upon certificate. The course of instruction is divided into schools, leading to degrees of A.B., B.S., B.Ph., and A.M. Attendance at chapel is compulsory. Students are forbidden to carry deadly weapons or to leave the town without permission. The expenses for the year, lasting from September 11 to June 3, are from \$150 to \$200, of which \$40 is for tuition. The sons of clergymen are admitted free, and tuition is refunded in cases of protracted illness. Many gold medals and prizes are annually distributed, and a loan fund to help deserving students has been recently established.

The students publish the "University Monthly" and "An-X," and maintain five literary societies with halls and libraries known as the Alamo, San Jacinto, Alethean, Grady, and Clio; two Christian Associations, a lecture course, and an Athletic Association. Chapters of the following fraternities have been organized: Rainbow, 1882-1886; K A, 1883; K Σ, 1886; Φ Δ Θ, 1886; Σ A E, 1887-1888; and Φ K N, 1890. The graduates number 275, of whom 260 are living. The oldest of these is the Rev. James Campbell, 1876, of Waco, Texas.

The college was founded by the Southwest Kansas Conference of Methodists in 1886. The presidents have been John E. Earp, 1886-1890; Milton E. Phillips, 1890-1894; William N. Rice, and Granville Lowther, 1894-1895; with C. A. Place, the present in-

cumbent, who was elected in 1895. In 1896, the dormitory building was burned to the ground. The trustees number thirteen. Admission is upon certificate. The degrees are B.A., B.S., and B.Ph., with that of A.M. after one year's graduate study. Attendance at chapel, though not compulsory, is expected of all. The expenses for the year lasting from September 24 to June 16, are \$110. The college grounds cover twenty acres. The students publish the "Southwestern Collegian," and maintain the Athenian literary society for men, and the Cadmus, and Belles Lettres for women.

History: The State of Iowa in 1840, and again in 1857, accepted the congressional land grant of 1852, and the first General Assembly located the university and provided for a board of trustees. In 1860 the university was formally opened. The presidents have been: Dr. Amos Dean, 1855-1858; Silas Totten, D.D., L.L.D., 1860-1862; Dr. Oliver M. Spencer, 1862-1867; N. R. Leonard, 1867-1868; James Black, D.D., 1868-1870; George Thacher, D.D., 1871-1877; Hon. C. W. Slagle, 1877-1878; Josiah L. Pickard, 1878-1887; Charles A. Schaefer, 1887 to the present.

Organization, Instruction, and Degrees: The school is governed by thirteen regents. The university comprises a collegiate department, with schools in law, medicine, dentistry, and pharmacy. Admission is by examination, and on certificate from a hundred schools, provided all deficiencies are made up during the first year. Four general courses in philosophy, in the classics, and in the sciences, with courses in Engineering, lead to degrees of A.B., B.Ph., B.S., B.Pe., and B.S. in Engineering, together with professional degrees granted by the respective schools. The master's degree is conferred only after one year of resident graduate study. Attendance at military drill is compulsory for all male students.

Dues and Prizes: Tuition is free. The expenses for the year, lasting from September 16 to June 10, are \$150. Two prizes of \$35 each are given for the best essays, one of \$25 for athletics, and one for speaking.

Equipment: The General Assembly in 1896 provided for an annual tax, which will realize \$275,000 for the university. These funds are to be devoted to the erection of new buildings. The athletic grounds now cover ten acres. The museums are well equipped, as is the astronomical observatory.

Societies and Publications: Annual bulletins are issued by the Natural History Department. The students publish the "Quill," a weekly; the "Vidette Reporter," a tri-weekly; the "Hawk-eye," a junior annual, and the "Transit," an annual. The societies are: The Tabard, Polygon, Ivy Lane, Baconian, Irving, Zetogathean, Philomathean, Hesperian, Erodelphian, Christian Associations and Athletic Association with athletic teams, besides numerous societies in the Engineering, Law, Chemical, and Medical Schools. Chapters of the following fraternities have been organized: B Θ Π, 1866; Φ K Ψ, 1867-1885; Φ Γ Δ, 1873; Δ T Δ, 1880; Φ Δ Θ, 1882; Σ X, 1882-1889; K K Γ, 1882; Π B Φ, 1882; and Δ Γ, 1887.

The graduates number nearly 4,500. The oldest is Dexter E. Smith, B.S., 1858, of Santa Ana, Cal.

The institute was founded in 1871, after Edward A. Stevens in 1867 had given a block of land with \$150,000 for buildings, and an endowment fund of \$450,000. Since 1881 more than \$50,000 has been added. The school is governed by eleven trustees.

Admission is by examination only. The courses of study are such as to fit the students for mechanical engineering. The time devoted to shop work by each student must aggregate 481 hours. The degree is M.E. Tuition for the year, lasting from September 27 to June 21, is \$150, in addition to which students from other States must pay \$75. Nine scholarships, equivalent to tuition, are available and a trust fund of \$11,000, the income of which is devoted to aid poor students, has been established. Inspection tours to various manufacturing centres of the East are annually undertaken.

Among the numerous societies, is an Engineers' Club, Christian Association, Alumni Association, and Athletic Association, with football, baseball, lacrosse and track teams. Chapters of the following fraternities have been organized: $\Theta \Xi$, 1874; $\Delta \Gamma \Delta$, $\Lambda \Sigma X$, and $B \Theta \Pi$, 1875; $A T \Omega$, 1881; ΣX , 1883; $X \Psi$, 1883; and $X \Phi$, 1883.

The students publish the "Eccentric," "Bolt," and "Link," and other publications.

The graduates number more than 600, of whom 560 are living. The oldest of these is J. A. Henderson, 1873, of Lamont, Pa.

The college was founded in 1858, on grounds of thirty acres. It is managed by Benedictine Friars, who also constitute the Faculty. Besides its collegiate and academical departments it has a department for ecclesiastical training. Admission is on certificate and by examination. The degrees are B.A., and A.M., the latter after two years of post-graduate study. The expenses for the year, lasting from the first Monday of September to the last Wednesday in June, are \$200. Medals, premiums and honors are distributed for excellence in study in all the departments.

A gymnasium and play grounds have been recently equipped. There is a museum rich in specimens of natural history and an unusually complete herbarium. The students maintain a Philomathic and Library Association, Shakespeare Club, Choir, Band and other musical associations as well as an Athletic Association; and publish the "Student."

The college was founded in 1830 by Charles Carroll, who stipulated that its principal object would be to train students for the priesthood. Besides conveying to it 250 acres of land, he gave \$5,000. The corner-stone was laid in 1831, but the school did not become a college until 1848, when the buildings were completed and the first president, Rev. O. L. Jenkins, assumed charge. Since that time the presidents have been, S. Ferte, D.D., Rev. P. P. Denis, and the Rev. F. L. M. Durant, D.D. In all more than 700 graduates have been ordained.

The college, which is under the control of five trustees, is connected with St. Mary's University of Baltimore. Admission is by examination. Attendance at chapel is compulsory, but not so gymnastic drill. Though negroes are not formally excluded, they are nevertheless not admitted to the college. The degrees are B.A., A.M., and B.D. The expenses for the year, lasting from the middle of September to June 25, are \$200. More than fifty premiums are annually distributed. The students maintain several societies, but no publications are issued by them. The graduates number more than 1,000, of whom more than 800 are living.

The college began in 1683 as a Jesuit Latin School, near Bowling Green. In 1809, its successor, the Literary Institute, was established near the present Catholic cathedral on Fifth Avenue. The school became a college in 1847, and was chartered as such in 1861.

The institution is governed by eleven trustees. Admission is by examination only. The college course, leading to the degree of A.B., comprises philosophy, rhetoric, literature, and the classics, the latter being studied as an aid to English. Many post-graduate courses are offered. Attendance at chapel is compulsory. The expenses for the year, lasting from the first week in September to the last week of June, are from \$75 to \$100, exclusive of board. Twenty-four scholarships, on the income of \$1,500 each, are available. Besides eight gold medals and an alumni prize of \$50 for excellence in study, numerous prizes and medals are offered.

The main building, which adjoins the Church of St. Francis Xavier, the best example of the Rococo style in New York, is on West Eleventh Street, near Sixth Avenue. The school has a well-equipped museum, and a herbarium containing some 25,000 specimens, which are in the main duplicates of those contained in the Smithsonian Institute of Washington. The students maintain a Dramatic Club, whose performances of classical plays are famous throughout New York, an Ethical Society, Alumni Sodality, Debating Club, Junior Debating Society, and Military Organization, together with musical, religious, and other clubs.

Of the 670 graduates, some 550 are living. The oldest of these is the Rev. Thomas Killeen, 1855, of Bayonne, N. J.

The first foundation of this school dates back two centuries. King William's School, the predecessor of this college, was founded in 1696, and existed as such until 1788. In 1784 it obtained a college charter, and began its collegiate existence in 1789. During the Civil War this college, like so many other Southern schools, suspended instruction. The presidents have been: J. McDowell, LL.D., 1790; Bethel Judd, D.D., 1807; H. Lyon Davis, D.D., 1820; W. Rafferty, D.D., 1824; H. Humphreys, D.D., 1831; C. K. Nelson, D.D., 1857-1861; Henry Barnard, LL.D., 1866; J. C. Welling, LL.D., 1867; J. M. Garnett, LL.D., 1870; J. McDowell Leavitt, D.D., 1880; W. H. Hopkins, Ph.D., 1884; Thomas Fell, Ph.D., LL.D., since 1886.

The college is governed by thirty-two governors and visitors. Admission is by examination. Four parallel courses: the classical, Latin-scientific, and engineering, lead to degrees of A.B., and B.S. The degree of A.M. is conferred after one year of graduate study. The expenses for the year, lasting from September 20 to June 27, are \$260. The State provides scholarships for one student from each senatorial district, twenty-six in all, while fifteen Annapolis scholarships and others for ministerial students have been provided. Attendance at chapel, gymnastic exercise, and military drill is compulsory.

The students maintain the Philokalian and Philomathean literary societies, a Christian Association, and an Athletic Association, with football, baseball, and track teams. The graduates since 1793 number more than 500, of whom William Horwood, A.M., 1827 of Annapolis is the oldest.

The college was founded by Archbishop Hughes in 1841, and incorporated in 1846, when it was transferred to the Jesuit Fathers. The presidents have been, Cardinal McCloskey, Rev. John B. Harley, Archbishop Bayley, Father Thébaud, Rev. John Larkin, Rev. Remigius Tellier, Rev. Edward Doucet, Father Moylan, Rev. Joseph Shea, Father Gocklen, Rev. P. F. Dealy, Rev. Thomas Campbell, Father Scully, and Rev. Thomas J. Gannon.

The college occupies a site of seventy-five acres on the old Rose Hill estate, adjoining Bronx Park. It is governed by nine trustees. Admission is by examination. Of the course of seven years, the first three are preparatory, while the remaining four years are devoted to collegiate and university instruction, leading to the degree of B.A., and that of A.M. after two further years. Attendance at chapel, confession, mass, etc., is compulsory. The expenses for the year, lasting from September 4 to June 24, are \$270, of which \$60 are for tuition. Nearly one hundred prizes of from \$10 to \$50, together with gold medals and a large number of other medals and premiums, are annually distributed.

Of the societies the Parthenian Sodality, dating back to 1837, is the oldest. The Sodality of Holy Angels was organized in 1847, followed by the St. John's Debating Society in 1854, afterward changing into the House of Commons; the Historical Association in 1862. Previous to this an Alumni Society and Dramatic Club had been organized. Among the papers published have been the "Fordham Monthly" "Goose Quill," "Sem," "Collegian," and "Spy." Of the 700 graduates the oldest is the Rev. Patrick McGovern, 1848, of Croton-on-Hudson.

The school was founded by Rev. William Byrne, the first president, in 1821, and chartered as a college in 1837. The Jesuit order had charge from 1833 to 1846; the secular clergy of Louisville diocese from 1846 to 1869. The college was suspended from 1869 to 1871 on account of financial embarrassment after the war. From 1871 to 1896 the Congregation of the Resurrection has had charge. The main building of the college burned down, once in the first decade and again shortly before the war. The trustees number four.

Admission is by examination and upon certificate. Negroes are excluded. Attendance at chapel and at military drill is compulsory. Courses in the classics, sciences, and commercial branches lead to degrees of A.B., B.S., and that of A.M., after one year's graduate study. The expenses for the year, lasting from the first Wednesday in September to the last Wednesday in June, are \$200. The grounds cover five hundred acres.

The students publish the "Monthly Sentinel," and maintain literary, debating, declamatory, and dramatic clubs, an Athletic Association, and a battalion. The graduates since 1874 number 150. The oldest of these is Samuel Spalding, 1828, of Lebanon, Ky.

History: The college was founded in 1864 after one of the yearly meetings of the Friends of New York, Philadelphia and Baltimore. The presidents have been: Edward Parrish, 1869-1871; Edward H. Magill, 1871-1889; William Hyde Appleton, 1889-1891; and Charles De Garmo, the present incumbent, who was elected in 1891. In 1881 a destructive fire caused the college to be transferred to Media, Pa., for one year. The trustees number thirty-two. Associated with them are women managers.

Admission, Degrees, and Scholarships: Admission is by examination. The courses of study are advanced in their nature, and elective studies in increasing proportion are offered after the freshman year. Attendance at chapel and at gymnastic exercise is compulsory. The use of tobacco is strictly prohibited. The question whether negroes are to be admitted, has never been decided. The expenses for the year, lasting from October 20th till June 6, are \$450, of which \$200 is for tuition. Two fellowships, one of \$525, and one of \$450 are given for advanced study. The first of these is available for women only. Three scholarships, equivalent to board and tuition are available, beside ten freshman scholarships, yielding either \$200 or \$100 to resident or non-resident students. Beside these scholarships there is a trust fund, the income of which is devoted to aid deserving students.

Equipment: The grounds cover sixty acres, of which five are in the campus. Among the buildings is the main college, a meeting-

house, science hall, gymnasium with athletic grounds, and an observatory. The museum contains collections of minerals, collected by Joseph Leidy, of comparative osteology, of stuffed birds, Alaskan Indian implements, of shells, and of stalactites. The Eckfeldt herbarium contains more than 2,000 Pennsylvanian plants.

Societies and Publications: The students publish the "Phoenix," a bi-weekly, and the "Halcyon," a junior annual. The societies are: the Delphic, Eunomian, and Summerville literary societies, Leidy Scientific Association, Young Friends Association, Oratorical Union, Mandolin and Glee Clubs, and Athletic Association, with football, base ball and track teams, besides chapters of two fraternities: the K Σ , 1888; and Φ K Ψ , 1889. The graduates since 1873, number more than 400.

The college was founded in 1874. It is the only college in the State which is controlled by its alumni. The trustees number thirteen, and the visitors seven. Admission is upon certificate. The curriculum embraces courses in English, the Classics, History, Philosophy, Science and International Law. The degrees are B.A., and B.S. No student is allowed to change his place of boarding, leave town, or be out of his room after seven in the evening. The students' rooms are visited at all hours by members of the faculty, and any student found absent, or engaged in playing cards, or other "disrepu-

table conduct" is disciplined. All students are required every Monday to fill out the following blank:—

I attended Sunday School at.....

Church at

And in the evening at.....

I was at the opening and remained to the close.

The university was founded in 1871, on a site overlooking the Onondaga Lake and Valley. It consists of colleges of Liberal Arts, of the Fine Arts, and of Medicine and Law. The trustees number forty-nine, of whom four are alumni.

Admission is by examination and on certificates from seven specified schools, as well as on regents' certificates for the subjects covered by them. The degrees are A.B., B.L., B.Ph., with degrees in Architecture, Painting, Music, Laws, and Medicine. The master's degree is conferred after one year, and that of Ph.D. after two years of resident graduate study. Attendance at chapel is compulsory. Tuition is from \$75 to \$120 for the year, lasting from September 22 to June 11. Forty-three scholarships, equivalent to tuition and more, are available.

The property of the school is valued at \$1,800,000, with productive funds of \$800,000. The library has recently been enriched by the famous historical collection of the late Von Ranke. Special libraries are owned by the colleges of Law and Medicine. The collection of

Fine Arts is rich in portraits and landscapes. The university is one of the colleges supporting the school for classical study in Rome.

Among the numerous societies are two Christian Associations, an Athletic Association, with football, base ball and other teams, and an Alumni Association. Among other publications the students publish the "Syracusan" and "Onondagan." The graduates number 1,650.

History and Organization: Tabor College dates from 1866, and was the outgrowth of Tabor Institute. It is modelled after Oberlin College, and is practically non-sectarian. The college is governed by twenty-five trustees, but some share of the government is left to the students.

Admission, Instruction, Degrees: First-class certificates are accepted in lieu of examination. Three courses of study are offered: the classical, scientific, and literary, leading to degrees of B.A., B.S., and B.L., besides that of A.M. after further study.

Dues, Scholarships, and Prizes: Tuition is \$39 for the year, lasting from September 8 to June 12. Other expenses, with incidental fees and other charges, aggregate \$150. Eighteen free scholarships are available, and several prizes are annually distributed.

Societies and Publications: The literary societies are the Phi Delta, Veritatis, Quæstores, and Phi Kappa; the Current Literature Club,

Athletic Union, and two Christian Associations are also maintained by the students. The graduates number 140, of whom Mr. and Mrs. A. S. McPherson, 1870, of Redlands, Cal., are the oldest. The college grounds cover ten acres.

The college was founded in 1859, taking its origin from the Union Institute and Normal College of Randolph County. The principals and presidents have been: the Rev. Dr. Brantley York, 1838-1842; Dr. B. Craven, 1842-1863; W. T. Gannaway; 1863-1866; Dr. B. Craven (second term), 1866-1882; W. H. Pegram, 1882-1883; Rev. M. L. Wood, 1883-1884; Professor Heitman, 1884-1887; John P. Crowell, A.B., 1887-1896; and John C. Kilgo, the present incumbent. In 1864 the college grounds were occupied by Federal troops, and all instruction suspended until the close of the Civil War. The present endowment fund was begun in 1883. In 1888 the preparatory courses were abandoned, and courses in technology, theology, and law were instituted during the three following years. In 1892 the college was moved from Raleigh to Durham, after a gift of sixty-two acres and \$85,000 from Washington Duke, of Durham.

The college is governed by thirty-six trustees, twelve of whom are alumni. Admission is by examination and on certificates. There are four courses of instruction, leading to degrees of B.A., B.Ph., B.S., B.L.L., and C.E. The expenses for the year, lasting from September 1 to June 8, are \$150. Sixty scholarships, yielding \$50 each, have been established, and four prizes of \$100 are given for excellence in study.

The students maintain two literary societies: the Columbian and Hesperian, and an Economic Club, besides Historical, Theological, Christian and Athletic Associations. Chapters of the following fraternities have been organized: $X \Phi$, 1871-1879; $A T \Omega$, 1872-1879; $K \Sigma$, 1873-1879; $\Phi \Delta \Theta$, 1878-1879.

History and Organization: The charter of Washington College, as this school was formerly called, dates from 1823. Instruction was begun in 1824. In 1845 the name was changed to Trinity, and in 1883 the election of three alumni to the Board of Trustees was provided for. Previous to this, in 1872, the old campus was sold to Hartford, and a new site of 80 acres was purchased, on which new buildings were erected and occupied in 1878. In 1883 the west side of the quadrangle, over 600 feet in length, was completed. An observatory, the president's house, gymnasium, and hall of science were added during the following four years. In 1883, the election of three alumni to the Board of Trustees was provided for.

Admission, Instruction, Degrees: The requirements for admission are the same as in most of the New England colleges. Examinations are held in Hartford, New York, Philadelphia, Pittsburg, Chicago, and San Francisco. Provision is made for special students who cannot pass entrance examination. During the last two years elective studies can be pursued. The degrees are B.A., B.S., B.L., and that of A.M. after one year of graduate study.

Dues, Scholarships, and Prizes: Tuition for the year, lasting from September 19 to June 25, is \$100, with other expenses aggregating \$200. Scholarships to the number of 100 are available yielding incomes equivalent to tuition, in addition to which there are three prize scholarships, yielding \$600 each, and 15 prizes, ranging from \$10 to \$100.

Equipment: During the last year nearly \$100,000 has been added to the endowment by gifts and bequests. The ample college grounds include an athletic field near the gymnasium. The library, besides its books, contains some 25,000 pamphlets, and has special

income from a fund of \$28,000. The other departments of the University are well equipped with laboratories, collections, and other working material.

Societies and Publications: The students publish the "Ivy," an annual, besides other publications, and maintain numerous social, literary and debating societies, Christian associations, and an athletic association with athletic teams. Chapters of the following fraternities have been organized?

The graduates number nearly 1,200, 750 of whom are living. The oldest of these is Charles Graham, 1830, of New York City.

In 1847, a fund of \$100,000 was raised for the creation of a Universalist College. Charles Tufts added to this 100 acres of land, while Amos Packard gave his entire fortune, to which P. T. Barnum, added \$95,000. A charter was obtained in 1852, but instruction was not begun until 1855. In 1892 women were admitted. The presidents have been: Hosea Ballou, 1852-1862; Rev. A. A. Miner, 1862-1874; and Rev. Elmer H. Capen, who is still in charge.

The trustees number twenty-nine. Admission is by examination and on certificate. All the work done by students counts toward acquiring a degree. The degrees are A.B., M.E., C.E., E.E., A.M. and Ph.D., the last two following after graduate study. The expenses for the year, from September 19 to June 17, are \$261. Forty-eight scholarships yielding incomes of \$100, and five of \$50 are available. A women's loan fund has been established together with numerous prizes for excellence in study.

Among the eleven buildings are Ballou Hall, the Library, Metcalf Hall for women, Broomfield Parsons Building, Barnum Museum, Goddard Chapel and a gymnasium. Besides numerous social and literary organizations, chapters of the following fraternities have been established: Z Ψ, 1855; Θ Δ X, 1856; Δ Γ, 1886; and Δ T Δ, 1889.

In all, 750 graduates are living, the oldest of whom is the Rev. J. Eastwood, 1860, of Brattleboro, Vt.

History and Organization: In 1882 Paul Tulane gave a fund for the higher education of the white citizens of Louisiana. The administrators of the fund prevailed upon the University of Louisiana, which had been in operation since 1878, to unite with the new school. This was done in 1883, when W. P. Johnston, the present president, was elected. A Medical School, dating from 1834, and a Law School, dating from 1847 were added at the same time. The university is governed by a board of seventeen administrators. Negroes are excluded.

Admission, Instruction, and Degrees: Admission is by examination and on the certificates of ten high schools and academies. Classical, literary, scientific and technological courses lead to degrees of A.B., B.S., C.E., M.E., Archt. Eng., Chem. Eng., and to those of A.M., and Ph.D. after graduate study, and further degrees are granted by the professional schools. Attendance at gymnastic drill and chapel is voluntary. The courses and degrees in the H. Sophie Newcomb College for women, are identical with those of the University, and graduates are admitted to the University's graduate courses.

Dues, Scholarships, and Prizes: Tuition for the year, lasting from October 1 to June 18, is \$105, while other expenses aggregate \$200. Some 175 scholarships, equivalent to tuition, are available, and five medals are also annually distributed.

Equipment: The grounds have a frontage of 582 feet on Audubon Park, and cover eighteen acres. Twelve new buildings have been erected for the College of Arts and Sciences, for physical and chemical laboratories and for technological and mechanical halls. All these buildings are fitted with the most modern equipment, and are among the best in the South.

Societies and Publications: The students publish the "Collegian," a fortnightly; and the "College Spirit," a weekly. The societies are the Glendig Burke, New Literary, Student's Congress, Engineering Society, Sketch Club, Glee, Banjo, and Mandolin Club, Class Associations, Alumni Association, Christian Association, and Athletic Association with football, baseball and track teams, besides tennis clubs and other athletic organizations. Chapters of the following fraternities have been organized: K A, 1886; Σ X, 1886; A T Ω, 1887; Σ N, 1888; Δ T Δ, Φ Δ Θ, 1889; K Σ; Φ K Σ; Π B Φ and Θ N E.

East Tennessee Wesleyan College, the predecessor of the Ulysses S. Grant University was established in 1867, on the grounds of the Athens Female College, an institution once owned by the Independent Order of Odd Fellows. In 1886 the name of the school, which in 1869 had assumed the title of university, was changed to Grant Memorial University, in recognition of support received from General Grant. Previous to this and again afterward the institution labored under financial difficulties. The presidents have been: Percival C. Wilson, M.A., 1866-1868; Rev. Nelson E. Cobleigh, D.D., 1868-1872; Rev. James A. Dean, 1872-1875; Rev. John J. Mankee, 1875; Rev. John F. Spence, D.D., 1875-1890; and Bishop I. W. Joyce, LL.D., now in charge.

History: Union College was incorporated by the Regents of the University of the State of New York, in 1795. It was the second college incorporated in the State, and the first north of the city of New York and west of the Hudson River. It received its name from the circumstance that several religious denominations co-operated in its organization, and was the first college in the United States which was not of a strictly denominational character. The presidents have been: Rev. John Blair Smith, 1795-1799; Jonathan Edwards, Jr., 1799-1801; Rev. Jonathan Maxey, 1801-1804; Rev. Eliphalet Nott, 1804-1866; Rev. Laurens P. Hickok, 1866-1868; Rev. Charles A. Aiken, 1869-1871; Rev. Eliphalet Nott Potter, 1871-1884; Hon. Judson S. Landon, LL.D., *ad interim*; Harrison E. Webster, LL.D., 1888-1894; and Rev. A. V. V. Raymond, D.D., LL.D., who was inaugurated in June, 1894.

Union College by its original charter, acquired full university powers, but the creation of graduate institutions at Schenectady was not found practicable for a while. The schools of Law and Medicine, and the astronomical observatory which had long existed at Albany, were united with Union College, under the charter and Board of Trustees of the latter, in 1873. The Albany College of Pharmacy was incorporated as a department of the University in 1881. The hundredth anniversary was celebrated in 1895.

Organization: Union University embraces the following institutions: Union College, Albany Medical College, Albany Law School, Dudley Observatory, Albany College of Pharmacy. The president of Union College and permanent chancellor of Union University has the oversight of the university, each of the institutions having its resident dean. The dean of Union College acts in the place of the president in his absence, and also assists him in matters delegated to him by the president. The University Board of Governors is composed of sixteen permanent trustees of Union College, and of representatives of each of the other institutions embraced in Union University.

Admission, Instruction, Degrees: Admission is by examination for all candidates, including those from other colleges, and excepting only those holding certificates from the State University, or full university diplomas. The classical course, leading to the degree of B.A., is largely elective after the second year; the philosophical course omits only the study of Greek; the scientific course substitutes modern for ancient languages, and the engineering courses, while including the modern languages, substitute engineering and technological courses for all other studies. Besides the degrees of B.A., B.S., B.Ph., the degrees of C.E., and M.A. are conferred after one year of graduate study.

Dues, Scholarships, and Prizes: The expenses for the year, lasting from September 19 to June 27, are \$300, of which \$75 is for tuition. Ten free scholarships are available, besides a number of half-scholarships and thirteen scholarships of \$150 each. In addition to this, the income of \$50,000 is devoted toward aiding poor students. The interest of \$1,000 is given annually for the best essay in English, while many prizes, from \$10 to \$50, are annually distributed in the various departments.

Equipment: Among the twenty-two college buildings, which are distributed through Schenectady and Albany, are a library, containing fifty thousand books and pamphlets; a natural history museum, containing collections of zoölogy, botany, mineralogy, and geology; a gymnasium; and an astronomical observatory. The college grounds cover fifty acres.

Societies and Organization: The students publish the "Garnet," "Union," and "Concordiensis." The societies are the Key and Coffin, Philomathean, Adelpheic, Shakespeare Club, Musical Association (with mandolin, guitar, and banjo clubs), Republican Club, Christian Association, and Athletic Association, with baseball, football and track teams. Chapters of the following fraternities have been organized: Φ B K, 1825; Σ Φ , Δ Φ , 1827; Ψ T, 1833; Δ T, 1838; X Ψ , 1841-1877; Θ Δ X, 1847-1869; Z Ψ , 1857-1873; Δ K E, 1857-1869; A Δ Φ , 1859; B Θ II, 1881; Φ Δ Θ , 1883; Φ Δ Φ , 1884, Φ Σ K, 1888; K A; Φ Γ Δ ; Θ N E; Σ X.

The graduates number 5,000, of whom 2,800 are living. The oldest of these is Thomas Hun, M.D., 1826, of Albany, N. Y.

UNITED STATES MILITARY ACADEMY.

*West Point, N. Y.**Men.**Non-Sectarian.*

INCOME, \$464,261	CADETS, 322	INSTRUCTORS, 64	BUILDINGS, 8	BOOKS, 38,203
----------------------	----------------	--------------------	-----------------	------------------

History: The United States Military Academy was established by an Act of Congress in 1802, and was augmented under a subsequent Act of Congress in 1812. Its location is permanent, and the academic course was never suspended. The Long Barracks, known as the Yellow Barracks, were destroyed by fire on Christmas day, 1827. The same fate overtook the academy on February 19, 1838; the

Cadet Guard House, (store room), on March 13, 1870, and the roof of the Cadet Barracks on February 5, 1871.

The superintendents have been: Maj. Jonathan Williams, 1802-1803; Lieut.-Col. Jonathan Williams, 1805-1812; Col. Joseph G. Swift, 1812-1817; Bvt. Maj. Sylvanus Thayer, 1817-1833; Maj. René E. DeRussy, 1833-1838; Maj. Richard Delafield, 1838-1845; Capt. Henry Brewerton, 1845-1852; Bvt. Col. Robert E. Lee, 1852-1855; Bvt. Major John G. Barnard, 1855-1856; Maj. R. Delafield, (second term), 1856-1861; Maj. Alexander H. Bowman, 1861-1864; Brig.-Gen. Z. B. Tower, 1864; Brig.-Gen. George W. Cullum, 1864-1868; Bvt. Brig.-Gen. Thomas G. Pitcher, 1866-1871; Bvt. Brig.-Gen. Thomas H. Ruger, 1871-1876; Maj. Gen. John M. Schofield, 1876-1881; Bvt. Maj.-Gen. Oliver O. Howard, U. S. A., 1881-1882; Bvt. Maj.-Gen. Wesley Merritt, 1882-1887; Bvt. Maj.-Gen. John G. Parke, 1887-1889; Lieut. Col. John M. Wilson, U. S. A., 1889-1893; Lieut. Col. Oswald H. Ernst, 1893 to the present.

Organization: The academy is supported by the United States, and comes under the direct supervision of the Secretary of War and a board of twelve visitors appointed by the President of the United States and by Congress. Officers are detailed from their regiments to teach at the academy, and after ten years of such service have the assimilated rank of colonel. Cadets are made commissioned and non-commissioned battalion officers on the ground of merit, and are divided into four classes, the youngest cadets forming the fourth class. The teaching staff is divided into a military staff and academic staff, which in turn is divided into ten departments of philosophy, drawing, mathematics, sciences, tactics, modern languages, civil and military engineering, gunnery and ordinance.

Admission is by examination after appointment by the President of the United States. The curriculum is that of the best colleges in addition to military training. Attendance at chapel is compulsory.

Equipment: Among the buildings which pertain directly to the Academic features of the place, are the Academy Building, Cadet Barracks, Cadet Mess Hall, Cadet Chapel, Officers Mess, Library Building, Administration Building, Gymnasium, Riding Academy and Cadet Hospital. The area of levelled and improved drill grounds is about forty acres. The area of the entire military reservation is 2,500 acres.

Societies and Publications: The only publication of the academy is the official "Register of Officers and Cadets" published annually. "The Howitzer" is a humorous pamphlet, published annually by the cadets for private distribution. There are no secret societies, but the cadets maintain a branch of the Y. M. C. A., an Athletic Association, with football and baseball teams, and a Dialectic Society.

UNITED STATES NAVAL ACADEMY.

*Annapolis, Md.**Men.**Non-Sectarian.*

INCOME, \$200,000	STUDENTS, 245	INSTRUCTORS, 70	BUILDINGS, 66	BOOKS, 35,235
----------------------	------------------	--------------------	------------------	------------------

History: The United States Naval Academy was founded in 1845 by the Hon. George Bancroft, Secretary of the Navy, in the Administration of President James K. Polk. It was formally opened on October 10th of that year under the name of the Naval School, with Commander Franklin Buchanan as superintendent. It was placed at Annapolis, Md., on the land occupied by Fort Severn, which was given up by the war department for the purpose. The course was fixed at five years, of which only the first year and the last were spent at the school, the intervening three years being passed at sea. This arrangement was not strictly adhered to, the exigencies of the service making it necessary, in many cases, to shorten the period of study. In January, 1846, four months after the opening of the school, the students consisted of thirty-six midshipmen of the date of 1840, who were preparing for the examination for promotion; thirteen of the date of 1841, who were to remain until drafted for service at sea; and seven acting midshipmen, appointed after September of the previous year. The midshipmen of the date of 1840 were the first to be graduated, finishing their limited course in July, 1846, and they were followed in order by the subsequent dates until the reorganization of the school in 1850.

In 1850 the system of instruction was reorganized, a practice cruise supplying the place of three years of sea-service, thus reducing the course from six years to four. In May, 1861, on the outbreak of

war, the academy was moved to Newport, R. I. The three upper classes were detached and ordered to sea, and the remaining midshipmen were quartered in the Atlantic House, and on board the frigates "Constitution" and "Santee," while the academy itself was occupied by Federal troops. In the summer of 1865 the academy was moved back to Annapolis, where it has since remained. When the Bureau of Navigation was established in 1862 the academy was placed under its supervision. In 1867 it was put under the direct care of the Naval Department, — all details of administration still coming under the Bureau of Navigation. The term of the academic course in 1873, was changed by law from four to six years.

The superintendents have been: Comm. Franklin Buchanan, 1845-1847; Comm. George P. Upshur, 1847-1850; Comm. Cornelius K. Stribling, 1850-1853; Comm. Louis M. Goldsborough, 1853-1857; Capt. George S. Blake, 1857-1865; Rear-Ad. David D. Porter, 1865-1869; Com. John L. Worden, 1870-1874; Rear-Ad. C. R. P. Rodgers, 1874-1878; Com. Foxhall A. Parker, 1878-1879; Rear-Ad. George B. Balch, 1879-1881; Rear-Ad. C. R. P. Rodgers, 1881; Capt. F. M. Ramsay, 1881-1886; Comm. W. T. Sampson, 1886-1890; Capt. R. L. Phythian, 1890-1894; Capt. P. H. Cooper, 1894 until the present.

Organization: The academy, as stated, is under the direct control of the Secretary of the Navy and the Navigation Bureau. In addition to this there is a board of twelve visitors, consisting in part of congressmen. The teaching staff is divided into departments of discipline, seamanship, ordnance, navigation, steam-engineering, mechanics, physics, mathematics, English, languages, drawing, and physical training.

Admission, Discipline, etc.: Candidates for admission are appointed from each congressional district and at large, and must be within the age limit of fifteen and twenty years. Admission is by examination. Negroes are not excluded. Two courses of instruction are now given, the one for cadet midshipmen, the other for cadet engineers, each of four years. All undergraduates are designated as naval cadets. Attendance at chapel is compulsory for all. Cadets are promoted to the rank of cadet officers for merit.

Equipment: The grounds of the academy, called the campus, cover ninety acres. Among the sixty-six buildings are the commandant's house, a chapel, gymnasium, and other structures worthy of note. The United States practice-ship, used by the cadets for their summer cruises, is the "Bancroft," and the "Monongahela" has been used for similar purposes. In the last academic year Congress appropriated \$199,618.45.

Societies and Publications: The cadets publish "Shakings and Etchings," "Fag Ends," "Junk," and the "Lucky Bag." Among the societies are a branch of the Y. M. C. A., a boat club, football eleven and baseball nine.

UNIVERSITY OF ALABAMA.

University, Tusc. Co., Ala. Co-Educational. Non-Sectarian.

INCOME, \$26,000	STUDENTS, 185	INSTRUCTORS, 25	BUILDINGS, 6	BOOKS, 12,000
---------------------	------------------	--------------------	-----------------	------------------

Organization: The university was founded in 1831. It is governed by nine trustees and consists of an academic department embracing eleven schools and a professional department of three law schools. In the academic department five courses of study are offered: classical, literary, scientific, civil, and mining engineering, leading to degrees of B.A., B.S., B.L., C.E., and Min.Eng. with LL.B. in the Law School. Master's degrees are given after one year's resident study. Admission is by examination, except for students from the university's auxiliary schools. Male candidates must be at least sixteen years old, while women must be at least eighteen, and must be prepared to enter the sophomore class. To candidates for Bachelor of Science, the study of Latin is optional. Candidates for Min. Eng. and Civil Eng. do not take Latin or Greek; but scientific students may take the civil or mining engineering course, at the end of the freshman or sophomore year. Attendance at chapel and military drill is compulsory for all undergraduates. The only fee charged is an incidental one of

\$15 a year for residents of Alabama. Others pay \$40 for the year lasting from the first Wednesday in October to the middle of June. There are post-graduate scholarships, one in mineralogy, geology, and chemistry; one in Latin, Greek, and modern languages; one in English, history and philosophy; one in mathematics and physics; and one in civil and mining engineering which entitle the holder to instruction in any school except that of law, free of all cost for board, lights, fuel, and attendance for one year.

Equipment: The college buildings, consisting of Alva Woods, Manley, Clark, Garland, Tuomey and Barnard halls, surround the university quadrangle. The auditorium in Clark Hall accommodates fifteen hundred persons. A gymnasium and armory, with neighboring athletic grounds, provide for physical exercise. The natural history museum in Garland Hall contains good collections of the geology and birds of Alabama.

Societies and Publications: The students publish the "Crimson-White," a weekly, and besides two literary societies, maintain two Christian Associations, an Alumni Society (providing for poor students), and an Athletic Association, with baseball and track teams, as well as a Tennis Club. Chapters of the following fraternities have been organized: $\Phi B K$, 1847; $\Delta K E$, 1847; $A \Delta \Phi$, 1851-1856; $\Phi \Gamma \Delta$, 1855-1878; $\Sigma A E$, 1856; $K \Sigma$, 1867-1869; ΣN , 1874; $\Phi \Delta \Theta$, 1877; ΣX , 1876-1878; $A T \Omega$, 1885; and $K A$, 1885.

The graduates since the foundation of the college number nearly 1,500, of whom J. B. Read, M.D., 1834, of Tuscaloosa, Ala., is the oldest.

------------------	------------------	--------------------	-----------------	-----------------

The University of Arizona was created by a territorial act of 1885, providing for a board of six regents, of whom the governor and

superintendent of instruction of the state are *ex officio* members. Building began in 1887, and the first instruction was given in 1891.

The university is situated on high ground covering some forty acres, near the mountains, one mile from Tucson. Admission is by examination and on certificate. Candidates must be sixteen years old. Five courses in collegiate branches, science, engineering, metallurgy, and agriculture lead to the degree of B.S. Degrees of A.M., M.S., C.E., M.E., E.E., and Irrig.E. are given to graduates after one year of resident study. Attendance at military drill is compulsory for all male students during the first year, but not so attendance at chapel. Tuition is free, but a matriculation fee of \$5 is charged. Other expenses aggregate from \$150 to \$200 for the year, lasting from September 24 to June 2.

The library contains 2,000 books, of which 1,200 deal with science. An agricultural experiment station has been established with two chemical laboratories, and a museum containing biological, botanical, entomological, and mineralogical specimens. One of the best-equipped departments of the university is the School of Mines. The students maintain the Philomathean Literary Society.

INCOME, \$285,237	STUDENTS, 2,400	INSTRUCTORS, 235	BUILDINGS, —	BOOKS, 65,000
----------------------	--------------------	---------------------	-----------------	------------------

History: The university was instituted by a law which received the approval of the governor March 23, 1868. Instruction was begun in Oakland in the autumn of 1869. The commencement exercises of 1873 were held at Berkeley, July 16, when the university was formally transferred to its permanent home. Instruction began at Berkeley in the autumn of 1873. The new constitution of 1879 made the existing organization of the university perpetual.

The College of California, which had been organized several years before the university, transferred its property and students upon terms which were mutually agreed upon, and closed its work of instruction in 1869. It had been incorporated in 1855, and through its agency a part of the Oakland property of the university and the

Berkeley site now owned and occupied by the latter, were secured — a domain of about two hundred and fifty acres, situated on the slope of the Contra Costa hills, about five miles from Oakland, facing the Golden Gate.

The undergraduate colleges were the only ones actually included in the original organization, although the Organic Act contemplated the establishment of Colleges of Law and Medicine. The professional colleges in San Francisco have been added from time to time. The Lick Observatory was formally transferred to the university in June, 1888; the Mark Hopkins Institute of Art, in 1893.

Organization: The university comprises the following departments: College of Letters, College of Social Sciences, College of Natural Sciences, College of Agriculture, College of Mechanics, College of Mining, College of Civil Engineering, College of Chemistry, Lick Astronomical Department, Mark Hopkins Institute of Art, Hastings College of Law, Medical Department, Post-graduate Medical Department, College of Dentistry and California College of Pharmacy.

The government and financial management of the university is intrusted to the regents, consisting of the governor, the lieutenant-governor, the speaker of the Assembly, the State Superintendent of Public Instruction, the president of the State Agricultural Society, the president of the Mechanics' Institute of San Francisco, and the president of the university, as members *ex officio*, and sixteen other regents appointed by the governor and approved by the senate.

The instruction and government of the students are intrusted to the several faculties and to the Academic Senate. The Senate consists of the members of the faculties and the instructors of the university. It holds regular meetings twice a year, and is created for the purpose of conducting the general administration of the university, memorializing the board of regents, regulating in the first instance the general and special courses of instruction, and receiving and determining all appeals from acts of discipline enforced by the faculty of any college.

The Academic Council is composed of the president and the professors and instructors in the College of Letters and the Colleges of the Sciences, the president and professors alone having the right to vote in its transactions. The president of the University is *ex officio* chairman, and the recorder, secretary. It regulates provisionally, or supervises, such matters as are not reserved by law to the separate faculties at Berkeley, but in which they are all concerned.

The Professional Council is composed of the president of the university and two members of each of the faculties of Law, Medicine, Dentistry, and Pharmacy, elected annually by these faculties, respectively. Of this committee, the president of the university is *ex officio* chairman, the secretary being elected from its own number. It regulates provisionally, or supervises those matters in which these colleges are all concerned; it also considers the wants of any or all of these colleges, and makes recommendations concerning the same to the Academic Senate.

The editorial committee, consists of the president of the university, as chairman *ex officio* and two professors in the College of Letters, elected annually by the Academic Council. This committee has editorial charge of the "Register" and such other publications con-

cerning courses of instruction and like matters as are from time to time authorized by the Academic Council or by the Senate.

In all matters not expressly delegated to the Senate or to the several faculties, the Board of Regents governs, either directly or through the president or secretary.

Admission, Instruction, Degrees: Admission is by examination and on the certificates of forty-eight accredited schools. The curricula of the various departments lead to degrees of B.A., B.L., B.S., A.M., C.E., D.D.S., D.V.S., LL.B., A.M., M.L., M.S., M.E., M.D., Met.E., Min.E., Ph.G., Ph.B., and Ph.D.

Dues, Scholarships, and Prizes: Tuition in the colleges and at the observatory is free, with only incidental expenses and inevitable charges at the special schools. Six fellowships of \$600, two of \$500, two of \$200; eleven scholarships of \$300, eight of which are for women, and several loan funds are annually available. In addition to these many gold and silver medals are annually distributed for excellence in specified studies.

Equipment: The endowments on which the College of Letters and the Colleges of the Sciences have been founded and maintained are the following: The Seminary Fund and Public Building Fund, granted to the state by Congress; the property received from the College of California, including the site at Berkeley; the fund derived from the Congressional Land Grant of July 2, 1862; the Tide Land Fund, appropriated by the State; various appropriations by the State Legislature for specified purposes; the State University Fund, which is a perpetual endowment derived from a State tax of one cent on each \$100 of assessed valuation; the Endowment Fund of the Lick Astronomical Department; the United States Experiment Station Fund of \$15,000 a year; the Morrill College Aid Fund, yielding in the current year \$20,000; and the gifts of individuals. The Colleges of Medicine, Dentistry, and Pharmacy are supported by fees from students; the College of the Law and the Mark Hopkins Institute of Art have separate endowments. The general library contains 60,000 volumes, and has the income from \$50,000 annually. Besides collections of ethnology, botany, zoölogy, paleontology, geology, mineralogy, petography, soils, seeds, and models, the university has a gallery of fine arts, and a museum of classical archæology. Extensive laboratories including a botanical garden, conservatory, students' observatory, the famous Lick Observatory and others have been equipped by the various departments. Experiment stations are maintained at the Berkeley, Jackson, Paso-Robles, Tulare, between Chino and Pomona, Santa Monica, and the San Josea Mission. A gymnasium was presented to the university by A. K. P. Harmon.

Societies and Publications: Besides eighteen publications and bulletins issued by the university, the "Blue and Gold," with other publications is issued by the students. They also maintain among numerous other social, literary and religious associations, several athletic associations, with football, baseball, lacrosse, and track teams. Chapters of the following fraternities have been organized: Z Ψ, 1870; Φ Δ Θ, 1873; X Φ, 1875; Δ K E, 1876; Β Θ Π, 1879; K K Γ, 1880-1884; Φ Γ Δ, 1882; Φ Δ Φ, 1883; Σ X, 1886; and K A Θ, 1890.

The graduates number nearly 3,000, of whom 2,500 are living.

UNIVERSITY OF CHICAGO.

*Chicago, Ill.**Co-Educational.**Non-Sectarian.*

INCOME, \$1,860,000	STUDENTS, 1850	INSTRUCTORS, 187	BUILDINGS, 23	BOOKS, 325,000
------------------------	-------------------	---------------------	------------------	-------------------

History: The first University of Chicago was founded in 1857 by the Baptist Society of Chicago, and was presided over for many years by the Rev. Dr. Burroughs. In 1886, its doors were closed owing to lack of funds. Its successor, the present University of Chicago, was founded by John D. Rockefeller, who subscribed \$600,000 of its original endowment fund of one million dollars to which he afterward added three and a half million dollars in bonds. The original site, valued at \$125,000 was given by Marshall Field, who also gave \$100,000 in money. More than one million dollars for new schools and buildings have since been donated or bequeathed to the university. A president for the university was elected in the spring of 1891. Work on the new buildings began in the autumn of the same year. On October 1st, 1892, the new school opened its doors to some 600 students. Cobb Lecture Hall and two dormitories for graduates were the only buildings then ready for use. Since that time fourteen of the projected number of forty-two buildings have been erected, while the number of students has risen to 1850.

Organization: According to its charter the aims of the University of Chicago are to give facilities for higher education to both sexes; to erect and maintain schools of literature, science, law, medicine, technology, music and the fine arts; and to confer degrees. The university is governed by a self-electing body of twenty-one

trustees, by the president, a university council and the university senate. The trustees elect the president and all members of the faculty. The president is the executive head of the university in all its departments, is responsible for the discipline of the university, presides at the meetings of the faculties, and is the official medium of communication between the faculties and the Board of Trustees, and between the students and the trustees; he recommends all appointments to the several faculties, and must submit an annual report of the work and condition of the university in all its departments.

The University Senate consists of the president, the recorder, the head professors of the departments of instruction, and the university librarian. It considers all questions of education. The University Council consists of the president, the examiner, the recorder, the registrar, the chaplain, the deans of all schools, colleges and academies, the director of the university extension division, the director of the university libraries, laboratories and museums, the director of the university press, the director of the university affiliations, and the principals or deans of affiliated institutions. The Council considers and decides on matters of administration. The university includes five divisions: the university proper; the university extension; the university libraries, laboratories and museums; the university press; the university affiliations. The university proper includes: the Graduate School of Arts and Literature, the Ogden (Graduate) School of Science; the Divinity School, already organized; the School of Law, the School of Medicine, the School of Technology, the School of Fine Arts, and the School of Music, to be established when the funds of the university permit; the Colleges of Arts, Literature, and Science.

Admission, Instruction, Examinations, Degrees: The university requires examinations for admission in: Latin, Greek, Mathematics, English, History, Physics, Chemistry, Biology, German and French. Of these all but Greek, Chemistry, Biology and one modern language are indispensable. Courses of instruction in the university are classified as majors and minors. The major calls for eight to ten hours of class-room work, or its equivalent, each week; the minor, for four to five hours of class-room work, or its equivalent, each week. A major continuing through twelve weeks is called a double major; a minor continuing through twelve weeks is a double minor. The regular work of a student during each term of a quarter is one major and one minor or three minors. Non-resident work is accepted for only one third of the work required for a degree. Degrees of A.B., Ph.B., and S.B., according to the courses of instruction pursued, are given after a satisfactory completion of twenty-four majors and twenty-four minors or thirty-six majors. The degree of A.M. is given after a post-graduate course of one year and an examination; the degree of Ph.D. is given after three years of post-graduate study at the university, an examination, and the submission of a printed thesis. No honorary degrees are conferred.

Dues and Scholarships: Tuition per annum is \$140 in the graduate schools. The matriculation fee is \$5, and is paid but once. The fee for instruction is \$40 a quarter. Students in chemistry or

biology pay a laboratory fee of \$10 a quarter for a major course, \$5 for a minor course. The fee for a diploma is \$10. A bond of \$200 is required of all students. Of eighty existing scholarships and fellowships, forty yield \$120 a year, twenty \$320, and twenty \$520 a year. Five are special fellowships.

The Academic year: The year is divided into four quarters, beginning respectively on the first day of July, October, January, and April, and continuing twelve weeks each, with a recess of one week between the close of one quarter and the beginning of the next. Each quarter is divided into two equal terms of six weeks. Attendance at chapel is voluntary.

A large number of social, literary, religious, and athletic societies are maintained by the students, who also publish several college journals.

UNIVERSITY OF CINCINNATI.

*Cincinnati, O.**Co-Educational.**Non-Sectarian.*

INCOME, \$85,853	STUDENTS, 773	INSTRUCTORS, 23	BUILDINGS, 4	BOOKS, 10,000
---------------------	------------------	--------------------	-----------------	------------------

History and Organization: In 1858, Charles McMicken bequeathed \$1,000,000 to the city for a school in which students should "receive the benefit of a sound, thorough, and practical English education," as well as instruction in the higher branches of knowledge, "except in denominational theology." Inasmuch as a large part of this bequest consisted of land in Louisiana, valued at \$500,000, it was lost to the city, for the State of Louisiana took possession of it, refusing to recognize the validity of bequests of real estate to institutions not situated in its borders. In 1870, the Ohio Legislature passed an act "to enable cities of the first class to promote education," under which the city of Cincinnati accepted what was left of the McMicken bequest. Pending the erection of college buildings, instruction was given in the Woodward High School, and later after the formal organization of the university in 1875 in another school on Franklin Street. From 1875 to 1895, the university occupied the buildings erected for it on the grounds of the McMicken homestead on McMicken Avenue. Latterly the University has been established on a tract of forty-three acres at the southern end of Burnet Woods Park. The directors, who are appointed by the Superior Court of Cincinnati, number nineteen, including the mayor of the city, an ex-officio member.

Admission, Instruction, Degrees: Admission is by certificate and by examination. Persons who are at least twenty years old may be admitted without examination to lectures and laboratory courses at the will of the individual lecturer or professor, but recitation courses are for matriculated students only. The university offers nine groups

of studies, each extending over four years, leading to bachelors' degrees in Arts, Letters, Science, Astronomy, Biology, Chemistry, Civil Engineering, Mathematics, and Physics. A large part of the work included in these courses is elective. Master's degrees and the degree of civil engineer are conferred after graduate work, whether *in absentia* or otherwise, except in case of graduates from other colleges, of whom resident study is required. Attendance at chapel and gymnastic exercise is voluntary. Instruction is free to *bona fide* residents of Cincinnati, and to the alumni of the university. Non-residents pay \$75 for the year, lasting from September 27 to June 15, while special students pay \$38 or a fee of \$5 a year for a course of one hour a week, with pro-rata increase of charges for every additional hour. Further fees are charged for registration, supplemental examinations, and for laboratory work.

Equipment: The University buildings are McMicken and Hanna Halls, erected in 1895 and 1896 on Burnet Woods Park; and the old college building on McMicken Avenue, in which the scientific laboratories are still maintained. The general library, containing the collections of E. F. Bliss and others, is in McMicken Hall, as is the gymnasium, which has a floor space of 3,600 square feet. The observatory, erected in 1873, crowns the summit of Mt. Lookout, six miles from the smoky city. In addition to these facilities, all the libraries, museums, and collections owned by the city and other public institutions are available for students.

Societies: Besides many social, literary, and religious organizations, the students maintain an athletic association, with foot ball, base ball, and other teams. Chapters of the following fraternities have been organized: ΣΧ, 1882; ΚΚΓ, 1885; ΒΘΠ, and ΣΑΕ, 1890. The graduates number 250.

UNIVERSITY OF COLORADO.

*Boulder, Col.**Co-Educational.**Non-Sectarian.*

INCOME, \$70,000	STUDENTS, 600	INSTRUCTORS, 70	BUILDINGS, 9	BOOKS, 12,000
---------------------	------------------	--------------------	-----------------	------------------

History: The university was incorporated by the territorial legislature in 1861. Ten years later, fifty-two acres covering the present site were given by three citizens of Boulder. By the state constitution of 1876, the school was made a State University, and land was appropriated to it that had been provided by Congress in 1875. Instruction was begun in 1877, with two teachers and forty-four pupils. In the succeeding years some \$150,000 was appropriated by the General Assembly, besides the proceeds of a special tax levy of one-fifth of a mill on the assessed valuation of all state property. The university is governed by a board of six regents.

Admission, Instruction and Degrees: Admission is by examination or on certificate of the State Preparatory School, or of eighteen high schools and academies. In addition to the collegiate course and scientific courses leading to degrees of A.B., B.L., B.Ph., and B.S., four graduate courses are offered as well as scientific and professional instruction leading to degrees in Engineering, Medicine, Law and Music. Master's and Doctor's degrees are conferred after six and twelve graduate courses respectively. The expenses for the year, lasting from September 8 to June 4, are estimated at \$300, of which \$30 is for matriculation, library and other fees. Non-residents pay \$20 for tuition.

Equipment: The university is situated at Boulder and overlooks the City of Denver in the distance. Westward, rising above the adjoining foot-hills are the Rocky Mountains, showing the snowy summit of Arapahoe Peak. Of the ten buildings, three are dormitories, two of which are for women, while the others are used for purposes of instruction with the sole exception of the President's house. All buildings are lighted by electricity. Four laboratories have been equipped in the scientific and chemical buildings, and the new gymnasium has been put into the engineering building. The library, containing 12,000 volumes, is soon to be placed in a separate building.

Societies and Publications: The students publish the "Silver and Gold," a weekly, and the "Portfolio," a monthly, and maintain the Bell Literary Society, University Debating Club, and Homeric Society, besides two Christian Associations, and an athletic association. Chapters of the following fraternities have been organized: $\Delta T \Delta$, 1883; $\Delta \Gamma$, 1885; and $\Pi B \Phi$, 1885. The graduates number 350, of whom the Hon. Richard H. Whiteley, 1882, of Boulder, is the oldest.

UNIVERSITY OF DENVER.

*Denver, Col.**Co-Educational.**Methodist.*

INCOME, \$25,000	STUDENTS, 554	INSTRUCTORS, 88	BUILDINGS, 5	BOOKS, 6,000
---------------------	------------------	--------------------	-----------------	-----------------

History and Organization: In 1864 Gov. Evans of the Territory helped incorporate Colorado Seminary, and assumed the presidency of the Board of Trustees, which he has now held for thirty-three years. In 1880 the school was made a university.

The university is under the control of the Colorado Conference of Methodists, is governed by twenty-eight trustees, a board of visitors, and by a university senate composed of the chancellor, and of student representatives elected by the different classes. It comprises the following departments: College of Liberal Arts, School of Medicine, Iliff School of Theology, School of Law, School of Music and Fine Arts, School of Dentistry, School of Pharmacy, Preparatory School, Haish Manual Training School.

The Schools of Medicine, Law, Music, Dentistry, Pharmacy, and Manual Training are all in the centre of Denver, within two blocks of the postoffice. The College of Liberal Arts, Iliff School of Theology, and the Preparatory School are located at University Park, within the city limits, but distant from the other buildings.

Admission, Instruction, and Degrees: Admission is on high school and other certificates, and by examination on subjects not mentioned in such certificates. Three collegiate courses lead to degrees of B.A., B.L., and B.S., and diplomas are also conferred in medicine, theology, law, music, dentistry, and pharmacy, besides masters' and doctors' degrees. The expenses for the year, lasting from September 8 to June 9, are \$215. Tuition is charged at the rate of fifty cents a week for each study, and additional fees are charged for matriculation, use of laboratory and library, and for incidentals. A few scholarships equivalent to the charges for incidentals are offered, besides several prizes. Attendance at chapel is compulsory.

Equipment: The university buildings at the Park are University Hall, the Iliff School of Theology, the Chamberlin Observatory, Wycliffe Cottage for Women, and University Commons. University Hall, which cost \$80,000, is devoted exclusively to purposes of instruction and is the home of the College of Liberal Arts. The Iliff School cost \$60,000, and is the gift of Mr. William S. Iliff, an alumnus of the College of Liberal Arts. The Chamberlin Observatory is housed in two buildings costing \$30,000. It contains a twenty-inch equatorial reflector with other subsidiary instruments. In addition to the university library, students have access to the public library of Denver, each containing more than 25,000 volumes.

Societies: The students maintain the Phi Alpha and the Evans Literary Societies, two Christian Associations, and an Athletic Association, with a baseball team. Chapters have been organized of: ΠΒΦ, 1885; and ΒΘΠ, 1888.

The graduates number 250, of whom the oldest is P. V. Carlin, M.D., 1882, of Denver, Col.

UNIVERSITY OF GEORGIA.

Athens, Ga.

Men.

Non-Sectarian.

INCOME, \$56,347	STUDENTS, 237	INSTRUCTORS, 20	BUILDINGS, 11	BOOKS, 27,000
---------------------	------------------	--------------------	------------------	------------------

History: The university was chartered in 1785, but was not opened until 1801, when the present site was selected. In 1872 after the proceeds of the Federal Land Grant of 1862 had become available, the Colleges of Agriculture and Mechanical Arts were added, to be followed by schools of law, medicine, and technology. In 1890 instruction was provided for negroes.

Organization: The government of the university, by an act of the general assembly, of 1889, is vested in a board of trustees, appointed by the governor and confirmed by the senate. The board consists of one member from each congressional district of the state, four from the state at large, and two from the city of Athens. The governor and the chairman of the board of directors of the Technological School, the Girls' Normal and Industrial College, and the Colored Industrial College are *ex officio* members of the board.

The university organization consists of several distinct but co-ordinate departments, each under the direction of its own faculty, and subject to its own regulations, but all are under the general oversight of the board of trustees. These departments are the Literary Department, or Franklin College; the Scientific Department, or the State College of Agriculture and the Mechanic Arts; the Department of Law; and the Department of Medicine. To these should be added the School of Technology; the Georgia Normal and Industrial College; the College for Colored Youths; and the Georgia State Normal School.

Admission, Instruction, Degrees: Admission is on certificate and by examination. No students are admitted under fifteen years of age. Undergraduate students are received either as candidates for the degree of A.B., or as elective students. Degrees in science, agriculture, and engineering are conferred by the State College, while the graduate and professional schools confer degrees of A.M., M.S., B.L.L., M.D., and M.E. No tuition fee is charged, but other expenses aggregate \$150. Three fellowships, for amounts not stated, can be competed for, as well as eight gold medals; and a loan fund has been established on the income of \$50,000. Attendance at chapel and military drill are compulsory. Students are forbidden to leave town, or to change their domicile without previous permission. Attendance at conventions, fairs, or any public assembly is forbidden.

Equipment: The university grounds are in the heart of the city of Athens, and cover an area of thirty-seven acres. They furnish sites for the college chapel, the library building, the Moore College, — a gift of the city to the college, — the Ivy building, the halls of the Demosthenian and Phi Kappa literary societies, the new college building, the gymnasium and Y. M. C. A. building, the dormitory, the chancellor's residence, and the houses occupied by several of the professors. In addition, they contain the parade ground of the university battalion and the ball grounds of the Athletic Association, which have recently been improved. Laboratories have been equipped by each of the scientific departments. The museum contains general alcoholic collections of vertebrates and invertebrates. Two miles from the college is the university farm, consisting of sixty-five acres, and of a building known as Rock College.

Societies and Publications: The students publish the "Pandora," an annual; and maintain two literary societies: the Demosthenian, dating from 1801, and the Phi Kappa, dating from 1820, besides a Christian Association, an Alumni Society, and Athletic Association, with football and baseball teams. Chapters of the following fraternities have been organized: Mystical Seven, 1844-1861; Σ A E, 1866; X Φ, 1867; K A, 1868; Φ Δ Θ, 1871; Σ X, 1872-1874; Φ Γ Δ, 1871; Δ T Ω, 1878; Δ T Δ, 1882; Φ K Ψ, 1883; Σ N, 1873; and X Ψ, 1890.

The graduates number more than 2,000, the oldest of whom is A. H. Mitchell, D.D., 1828, of Somerville, Ala.

The university was organized in 1892, and is governed by nine regents. Admission is by examination and on certificate. Courses in arts, philosophy, science, and engineering lead to degrees of A.B., B.S., B.Ph., B.E., M.E., and B.Agr. Degrees of A.M., C.E., and E.Min. are conferred after three years of graduate study and practice. Tuition is free. The expenses for the year, from September 23 to June 11, are \$125. The college grounds cover twenty acres, on an elevation of 2,600 feet above the sea. The students maintain the Amphyction, Websterian, two Christian Associations, Philharmonic, Cecilian Chorus, and an Athletic Association, with football, baseball, and track teams, besides a Tennis Club.

UNIVERSITY OF ILLINOIS.

*Urbana and Champaign, Ill.**Co-Educational.**Non-Sectarian.*

INCOME, \$140,000	STUDENTS, 855	INSTRUCTORS, 114	BUILDINGS, 17	BOOKS, 36,000
----------------------	------------------	---------------------	------------------	------------------

History: Under the Act of Congress of 1862 the State of Illinois received scrip for 480,000 acres. Of this land 25,000 acres was located in Nebraska and Minnesota, while the balance of the scrip was sold for what it could bring. After much agitation Champaign County, in 1866, secured the university by contributing a building, with eleven hundred acres for a campus and farm, and \$100,000, while the Illinois Central Railroad added \$50,000 in transportation. The legislature since that time has given \$1,300,000. In 1867 the Illinois Industrial University was incorporated, and was opened in 1868. In 1870 the first shop instruction given at any American uni-

versity was begun. In 1877 authority to confer degrees was given and in 1885 the present name was adopted.

Organization : The university is governed by nine trustees, with three *ex officio*. It embraces colleges of literature and the arts, of engineering, of science and agriculture, a graduate school, and that of pharmacy, each of which offers special courses. Admission is by examination, and on the certificates of 134 accredited schools. All of the first year's work and part of the second is prescribed. That of the two remaining years is largely elective. Military drill is compulsory for all able-bodied men through six university teams. Attendance at chapel is voluntary. The degrees are A.B., and B.S., in architecture; civil, electrical, and mechanical engineering; agriculture; chemistry; and pharmacy. The master's degrees, conferred after graduate study, correspond to these. The doctor's degree is conferred after three years, one of which must be resident.

Dues, Scholarships, and Prizes : Tuition is free. Other expenses for the year, lasting from September 3 to June 9, are \$157. Six fellowships of \$400 are offered for the promotion of original research. In 1895 the legislature provided one scholarship, equivalent to annual expenses, for each county of the state. A special scholarship is also offered in the military department, with a prize medal for drill. Many other prizes, ranging from \$20 to \$100, are available for excellence in specified studies. A loan fund has also recently been established.

Equipment : The university grounds, including the university farm, arboretum, and the drill ground, cover 210 acres. Among the buildings a Natural History Hall, containing several good museums, is worthy of note; together with University Hall, containing the library, art gallery, and museum of antiquities. Machinery Hall, erected in 1895, is equipped with all modern appliances for shop work and laboratory study. A gymnasium and armory, with a separate gymnasium and athletic grounds for women, provide for physical exercise.

Societies : The students maintain the Adelpic and Philomathean societies (for men), Alethenai (for women), Agricultural, Architects', Engineers', English, French, Medical, and Zoölogical clubs, the University, and Young Ladies' Latin Club, Military Band, University Chorus, Mandolin Club, two Christian Associations, and an Athletic Association, embracing football, baseball, and track teams. Chapters have been organized of $\Delta T \Delta$, 1872-1879, and ΣX , 1881. Of the 900 graduates, 875 are alive. The oldest of these is J. M. Matthews, M.D., 1872, of Mason, Ill.

History and Organization: In 1864 the State of Kansas accepted the Federal Land Grant of 1862, and established the university on its present site. Departments of literature, science, and art were at the same time created. At that time there were but four teachers in the faculty. The university is governed by a board of six regents. The chancellors have been: R. W. Oliver, 1866-1867; John Frazier, 1867-1874; James Marvin, 1874-1883; John A. Lippincott, 1883-1889; Regent Spangler, 1889-1890; and Francis Huntington Snow, the present incumbent.

Admission, Instruction, and Degrees: Admission is by examination, and on certificates from any public high school in the state. The regular college curriculum leads to degrees of B.A. and B.S., and the degrees of A.M. and Ph.D. are given after independent graduate study as well as degrees in law, pharmacy, and music after study in those departments. Attendance at chapel is voluntary. Physical culture is compulsory in the freshmen and sophomore years. Negroes are not excluded. Tuition is free to residents of the state. Others pay from \$10 to \$25 a year. Living expenses are estimated at from \$140 to \$300, including incidental fees in special studies. A prize of \$25 is annually awarded for the best essay on English literature and a loan fund has been provided by the alumni of 1894.

Equipment: The college grounds cover forty acres. The seven buildings include North College (the oldest hall), Main Building, Chemistry Hall, Snow Hall, Music Hall, the Physics and Engineering Buildings, and the Spooner Library. The Museum of Natural History contains collections of zoölogy, paleontology, entomology, mineralogy, osteology, conchology, and ornithology, besides an herbarium of five thousand species.

Societies and Publications: The university publishes the "University Quarterly," while the students publish the "Courier" and "Journal," two weeklies; the "University Review" a monthly; "Kansas University Lawyer," and the "Kikalee," an annual. Among the societies are the Literary Society, Moot Senate, German Club, French Conversation Club, Science Club, Language Conference, Pharmaceutical Club, Greek Symposium, Electrical Seminary, Woman's League, two Christian Associations, and an Athletic Association, with football and baseball teams. Chapters of the following fraternities have been organized: B Θ Π, 1872; Φ K Ψ, 1876; K A Θ, 1881; Φ Δ Θ, Φ Γ Δ, 1882; Π B Φ, 1883; K K Γ, 1883; Σ N, Σ X, 1884; and Θ N E.

The graduates number 1,000, of whom L. D. L. Tosh, 1873, of Argentine, Kan., is the oldest.

UNIVERSITY OF MICHIGAN.

*Ann Arbor, Mich.**Co-Educational.**Non-Sectarian.*

INCOME, \$445,805	STUDENTS, 3,000	INSTRUCTORS, 183	BUILDINGS, 20	BOOKS, 100,000
----------------------	--------------------	---------------------	------------------	-------------------

History and Organization: The university was established by a legislative act of 1821, repealing a previous act of 1817, by which a "university or catholepistemiad" had been created by the *ipse dixit* of Judge C. B. Woodward. The university was not organized until March of 1837, when the regents obtained a loan of \$100,000 from the state, and erected five buildings at Ann Arbor. In the fall of the same year instruction was begun with a faculty of two, and an

entering class of six. Until 1853 the school remained in a state of partial development, owing to incessant interferences from the legislature, and internal dissensions among the faculty. In 1852 a new board of regents was constituted, with a president to whom independence of action was guaranteed. Dr. Henry P. Tappan was elected, and continued in office until 1863, when he was summarily removed. This action was protested against by the faculty, as well as by the students and alumni, and was twice made a subject of censure by subsequent boards of regents. During Dr. Tappan's presidency the university more than quadrupled in numbers, and made itself recognized as a school of liberal learning on both sides of the Atlantic. Since that time the presidents have been: Erastus Otis Haven, 1863-1869; Henry S. Frieze, 1869-1871; and James Burrill Angell, from 1871 until the present time.

In 1870 the university, under pressure from the legislature, opened its doors to women. The first to enter was Madelon A. Stockwell. Since 1867, the university has received from the State \$1,800,000. The School of Mines was established in 1875, the Homœopathic College and School of Pharmacy in 1876, and the first hospital and museum in 1879. The semi-centennial of the university was celebrated in 1887.

Organization: The university is a part of the public educational system of the State. The governing body is a board of eight regents, elected by popular vote for eight years. The university comprises the department of literature, science, and arts, including the graduate and summer school, the departments of engineering, of medicine and surgery, of law, the school of pharmacy, the homœopathic medical college, and that of dental surgery. Each department, school, and college, has its special faculty. The university senate is composed of all the faculties, and considers questions of common interest and importance.

Admission, Degrees, etc.: Candidates for admission must be at least sixteen years old, and must pass the prescribed entrance examinations. In the department of literature, science, and arts, different lines of study lead to the degrees of Bachelor of Arts, of Philosophy, of Science, and of Letters, and to the corresponding masters' degrees; as well as to doctor of philosophy, of science, of letters and to civil, mechanical, mining and electrical engineer. The degree of Bachelor of Science is given for the course in general science, and for the courses in engineering, in chemistry, and in biology. In the professional schools the degrees are as follows: In departments of medicine and surgery, Doctor of Medicine; in law, Bachelor and Master of Laws; in pharmacy, Pharmaceutical Chemist and Master of Pharmacy; in the Homœopathic College, Doctor of Medicine; in dental surgery, Doctor of Dental Surgery and of Dental Science.

Students in any department may enter the classes in any other, upon permission from the faculties of the respective departments.

Dues and Scholarships: The matriculation fee is \$10. The annual fees for the different departments are as follows: In the literary department for all residents of the State \$25, for others \$35; in the departments of law, medicine, surgery, pharmacy, homœopathy and dentistry, \$30 for residents, and \$40 for others. Further fees are

also charged for incidental expenses and for laboratory work, and a fee of \$10 for every diploma.

Two fellowships yielding \$500 are offered, and nine scholarships for graduates of the high schools of Detroit, Saginaw, and Grand Rapids. The late H. S. Phillips, Jr., established six scholarships, and funds aggregating \$30,000 have been contributed for the same purpose by Mrs. C. H. Stranahan and by the class of 1894. Attendance at chapel has not been required for nearly twenty years.

Equipment: Of the college buildings five are museums, containing collections of objects of natural history, a Chinese exhibit and anthropological specimens, and an art gallery costing more than \$200,000. Seven laboratories and an astronomical observatory have been equipped by the different departments. The libraries are the General, the Medical, the Law Library and that of Dental Surgery. They contained September 30, 1895, 98,707 volumes, 17,241 unbound pamphlets, and 1,151 maps. There are two hospitals, and a new gymnasium costing \$70,000, with an athletic field covering ten acres.

Societies and Publications: The societies are the Choral Union, the $\Phi \Phi \Delta$, the Students' Lecture Course, Oratorical Association, Moot Court, engineering, philosophical and philosophical societies, the Mathematical Club and the Political Science Association, with many other kindred organizations, besides an Athletic Association with football, baseball, lacrosse, and other teams, all under the control of the faculty. The Christian Association hold meetings for social and religious improvement. There are five church guilds for religious culture and social entertainment. The students publish a daily, weekly and monthly journal, besides the "Palladium," an annual.

Chapters of the following fraternities have been organized: $\text{B} \Theta \Pi$, $\text{X} \Psi$, 1845; $\text{A} \Delta \Phi$, 1846; $\Delta \text{K} \text{E}$, 1855; $\Delta \Phi$, 1855-1878; $\text{Z} \Psi$, $\Sigma \Phi$, 1858; $\Phi \Delta \Theta$, 1864; $\Psi \Upsilon$, 1865; $\Phi \Delta \Phi$, 1869; $\Delta \text{T} \Delta$, 1875; $\Phi \text{K} \Psi$, $\Delta \Upsilon$, 1876; ΣX , 1873; $\text{K} \text{A} \Theta$, 1879-1886; $\Gamma \Phi \text{B}$, 1881; $\text{N} \Sigma \text{N}$, 1882; $\text{X} \Phi$, 1882-1885; $\Phi \Gamma \Delta$, $\Delta \Gamma$, 1885; $\Pi \text{B} \Phi$, $\text{A} \text{T} \Omega$, $\text{M} \Sigma \text{A}$, 1888; $\Sigma \text{A} \text{E}$, 1889; $\Theta \Delta \text{X}$, 1888 and $\text{A} \text{E} \text{I}$, 1890.

The graduates number 13,700, of whom 12,600 are living. Among 2,874 students during the last year 576 were women.

UNIVERSITY OF MINNESOTA.

*Minneapolis, Minn.**Co-Educational.**Non-Sectarian.*

INCOME, \$250,000	STUDENTS, 2,575	INSTRUCTORS, 144	BUILDINGS, 22	BOOKS, 40,000
----------------------	--------------------	---------------------	------------------	------------------

History and Organization: The university was first organized in 1851, but was reorganized in 1860, 1864, and in 1868, when college work was at last begun. The university comprises the following colleges and departments: Graduate Department, College of Science, Literature and Arts, College of Engineering, Metallurgy and the

Mechanic Arts, College of Agriculture, College of Law, the Department of Medicine, composed of the Colleges of Medicine and Surgery, of Homœopathic Medicine and Surgery, of Dentistry, and of Pharmacy; the Experiment Station, and the Geological and Natural History Survey. The government of the university is vested in a board of twelve regents; nine of these members are appointed by the governor of the state and confirmed by the senate, and hold office for six years. The other three members are *ex-officio*, the governor of the state, the state superintendent of public instruction, and the president of the university.

Admission, Instruction, and Degrees: Admission is by examination and on the certificates of the high schools of Minneapolis and twenty-one other schools. Negroes are not excluded. Courses of two, three and four years in the various departments lead to degrees of A.B., B.S., B.L., C.E., M.E., E.E., B.Agr., B.L.L., M.D., D.D.M., and Ph.G. Degrees of A.M., and Ph.D. are conferred only after prescribed graduate studies. Attendance at military drill is compulsory for men during the first two years, but attendance at chapel is voluntary.

Dues, Scholarships, and Prizes: Tuition is free in all studies but those of the professional schools with incidental fees ranging from \$5 to \$20. Nine prizes of from \$20 to \$100 are offered in history and English, two in engineering; one fellowship of \$280; five scholarships and honors in various courses and departments. The college year lasts from the first week in September to the first week in June.

Equipment: The campus covers fifty acres and commands a view of the Falls of St. Anthony. Among the twenty-two college buildings are a gymnasium, library, and many museums with collections of minerals, casts, fossils, fac-similes of manuscripts, birds, and a herbarium of 175,000 specimens. An astronomical observatory and agricultural experiment station have been established with a farm and orchards covering 366 acres.

Societies and Publications: The students publish the "Quarterly Bulletin," the "Ariel," "Junior Annual," "Engineering Year-Book" and "Y. M. C. A. Hand-book." Among the societies are the Hermitian, Delta Sigma, Shakespearean, Forum, Minerva, Law, Literary, University Congress, Society for Psychical Research, Knights of English Learning, Philological Society, Fortnightly Scientific Club, Societas Latina, Political-Historical Union, Graduate Club, two Christian Associations and an Athletic Association, with football, baseball, track and other teams and clubs. Chapters have been organized of: K Ψ, 1874; Θ Φ, 1874; Φ Δ Θ, 1881-1889; K K Γ, 1880; A Γ, 1882; Δ T Δ, 1883; Σ X, 1888; Φ K Ψ, 1888; K A Θ, 1889; B Θ Π, 1890; Π B Φ, 1890; Φ Γ Δ, 1890; Δ T, 1890; and others making twenty-two in all.

The graduates number some 1600, of whom the oldest are Warren C. Heustis of Owatana, Minn., and Henry M. Williamson, of Portland, Oregon, of the class of 1873.

UNIVERSITY OF MISSISSIPPI.

Oxford, Miss.

Co-Educational.

Non-Sectarian.

INCOME, \$36,243	STUDENTS, 252	INSTRUCTORS, 16	BUILDINGS, 1	BOOKS, 15,500
---------------------	------------------	--------------------	-----------------	------------------

History and Organization: The university was chartered in 1848. Women were admitted in 1882. The school is governed by a board of nine trustees. It is divided into two departments of literature and art and of professional education, including twenty-one minor schools. Schools of medicine, pharmacy and engineering are to be added in the near future. Admission is on certificate and by examination. Students must be at least sixteen years old. The curriculum is partly prescribed and partly elective. All students are required by law to attend chapel and religious service, and are forbidden by law to carry or bring deadly weapons within two miles of the college campus. The degrees are A.B., B.S., Ph.B., with A.M. and Ph.D.

after graduate study. Matriculation costs \$10, and tuition in the law school \$50. In the other departments tuition is free. The expenses for the year, from September 12 to the first Wednesday in June, are \$160. Four gold medals for oratory are annually awarded by the trustees and officers of the two literary societies. A scholarship fund, yielding \$1,400 a year, has been established, and there are four fellowships for professors, yielding \$400 each.

Societies: The literary societies are the Phi Sigma and Hermean. The law students maintain a Blackstone Club and Moot Court. Two Christian Associations have been organized, as have been chapters of: Rainbow, Δ T Δ, 1848; Δ K E, 1851; Δ Ψ, 1855; Mystical Seven, B Θ Π, Σ X, Φ K Ψ, 1857; X Ψ, 1858; Φ K Σ, 1859-1861; Σ A E, 1866; Φ Γ Δ, 1868-1879; Φ Δ Θ, 1877; A B T, 1882; K A, 1883; and Δ Γ, 1872-1889.

Of 1,170 graduates, 860 are living. The oldest is Thomas E. Brigg, 1851, of Starke, Fla.

UNIVERSITY OF MISSOURI.

Columbia and Rolla, Mo. Co-Educational. Non-Sectarian.

INCOME, \$145,000	STUDENTS, 606	INSTRUCTORS, 59	BUILDINGS, 16	BOOKS, 23,000
----------------------	------------------	--------------------	------------------	------------------

History and Organization: The university was chartered in 1839 and academic instruction began two years later. The normal department dates from 1867. Agricultural and metallurgical departments were established in 1870, a Law School in 1872, Medical College in 1873, School of Engineering in 1877, Experiment Station in 1888, and the State Military School in 1890. In 1892 the main building was burned and the state legislature gave \$273,000 to repair the loss, adding \$264,000 in 1893, with \$25,000 for a new building at Rolla. The university is governed by nine curators, and besides its faculty of arts and letters comprises seven professional schools. The presidents have been: John H. Lathrop, six years; James Shamon, six years; N. N. Hudson, three years; B. B. Minor, four years; Daniel Read, nine years; S. S. Laros, thirteen years; and R. H. Jesse, 1890, now in office.

Admission, Instruction, Degrees: Admission is on certificate and by examination. The curriculum leads to degrees of A.B., B.S., B.L.,

B.Pe., B.Agr., B.L.L., B.S., and the three engineering degrees. Degrees of M.D., A.M., and Ph.D., are conferred only after one or three years of resident graduate study. Attendance at chapel and military drill is voluntary, except for state cadets.

Dues, Scholarships and Prizes: Tuition is from \$10 to \$50. Other expenses aggregate \$175. Free scholarships have been established for one student from every county of the state. Teaching fellowships, yielding \$200, are also offered to graduates. Prizes are offered for oratory. The college year at Columbia lasts from September 8 to June 2, and at Rolla from September 14 to June 10.

Equipment: The university proper is at Columbia with grounds of thirty-two acres. The School of Mines and Metallurgy is at Rolla. The agricultural farm embraces 768 acres, including thirty acres of horticultural grounds. The new auditorium, which was recently dedicated by President Angell of Michigan, seats fifteen hundred persons. The Academic Hall, which was erected after the fire, is declared to be the finest educational building in the state. All the principal buildings at Columbia are grouped around a university quadrangle. Besides the general library, special law and medical libraries have been provided, together with special reference libraries for each department. Among the latest additions to the university are a new gymnasium and new athletic grounds. A separate gymnasium and athletic grounds have been provided for women.

Societies and Publications: Of periodicals published by the students there are: the "Independent," a bi-weekly; the "Argus," a monthly; and the "Savitar," an annual. The societies are: the Athenæum, Union Literary, Bliss Lyceum, the Medical, Agricultural, and Engineers' societies, University Debating club, Philalethean (for women), two Christian Associations, Glee, Mandolin, Guitar, and Banjo clubs, and an Athletic Association, with football, baseball, and other teams. A Scientific and Literary Club, Journal Club, and the Alpha (a women's literary society), are maintained at Rolla. Chapters of the following fraternities have been organized: $\Phi K \Psi$, 1869-1876; $\Phi \Delta \Theta$, 1870; $\Delta T \Delta$, 1872; $K K T$, 1875; $\Sigma A E$, 1884; ΣN , 1886; and $B \Theta \Pi$, 1890.

History: In 1785, eleven years before Tennessee became a State, Davidson Academy, the predecessor of this university, was incorporated by the Legislature of North Carolina, and 250 acres of land at Nashville was given to it. In 1806 the academy was re-organized as Cumberland University. In 1825 the university assumed its present name. Prominent among the trustees of that time was Andrew Jackson. The Medical College was established in 1850, and in the same year the literary department was closed. In 1855 the college proper was re-opened as a Military College, but was closed again in 1861 at the opening of the Civil War. The medical college, however, continued throughout the war. In 1867 Bell Academy was opened as a preparatory school to the college, which shortly afterward resumed instruction. In 1875 the Peabody Fund for a State Normal College was accepted. In 1889 the literary department was merged into this college. New buildings were provided in 1890 and in the three following years. The legislative appropriation in 1895 was increased to \$420,000 leading to the establishment of a musical conservatory in 1896. The chancellors and presidents have been: Dr. Craighead, 1806-1809; Rev. Dr. James Priestley, 1809-1821; Rev. Dr. Philip Lindsley, 1821-1850; Felix Robertson, 1852-1855; Gen. Bush-

rod R. Johnson, 1855-1861; Gen. E. Kirby, 1870-1875; Rev. Eben S. Stearns, 1875-1887; and William H. Payne, A.M., from 1887 until the present.

Organization: The university is governed by nine trustees, and consists of the Peabody Normal College, Medical School, and College of Music with the associated Bell Academy, and Winthrop Model School. Admission is by examination or on certificate. Degrees of B.A., B.S., B.L., are conferred, with corresponding masters' degrees after two years of resident graduate study. The degree of M.D. is conferred by the Medical School while the other non-collegiate departments confer licentiate's diplomas and degrees in music. At commencement all recipients of degrees must appear in academic costume. Tuition is free. Fees are charged for matriculation, incidentals and diplomas making the total expenses for the year, lasting from September 1 to June 2, \$150. The Peabody scholarships for \$100 a year now number 104, and are distributed among the students of twelve southern states. In the Bell Academy twenty-five tuition scholarships are offered.

Societies and Publications: The students publish the "Peabody Record," a weekly, and the "Historical Magazine," a quarterly. The societies are the Agatheridon and Erosophian, dating from 1825; with the Girls' Chapter, Adelphic, Peabody and Alpha Phi, all literary societies; two Christian Associations, a Lecture Association, an Athletic Association with football and baseball teams, tennis and golf clubs, and other athletic organizations. Chapters of the following fraternities have been organized: ΔΚΕ, 1848-1861; ΦΓΔ, 1848-1850; ΣΑΕ, 1857-1875; ΧΦ, 1860-1861; ΑΤΩ, 1871-1874; ΤΓΨ, 1871-1875.

Of the 4,000 graduates the Hon. E. H. Ewing, 1827, of Murfreesboro, Tenn., is the oldest.

History: The State Legislature in 1869 founded the university, and provided for its organization by the legislative acts of 1875 and 1877. Students were received in 1871. The regents originally numbered twelve. Dissensions between members of the faculty and Chancellor Fairfield concerning the voluntary or compulsory attendance at chapel, and other matters of discipline, were made the subject of legislative inquiry in 1880, leading to the dismissal of three professors, and the final dismissal of the chancellor in 1882. Since that time attendance at chapel has been voluntary. The twenty-fifth anniversary was celebrated in 1894. The chancellors have been: Allen R. Benton, LL.D., 1867-1876; Edmund B. Fairfield, LL.D., 1876-1882; Henry E. Hitchcock, Ph.D. (Acting), 1882-1884; Irving J. Manatt, LL.D., 1884-1888; Charles E. Bessey, Ph.D. (Acting), 1888-1891; James H. Canfield, LL.D., 1891-1895; George E. MacLean, LL.D., Ph.D., 1895 to the present.

Organization: The regents now number six. The university comprises nine schools: the graduate, literary, industrial, law, agricultural, mechanical, sugar, professional, and summer school. The faculties of all these schools are represented in the university senate. The natural history survey of the State is under the charge of the university.

Admission is by examination and on the certificates of seventy-two high schools of the State. The degrees are A.B., B.S., B.L.L., C.E., M.E., E.E., M.A., M.D., and Ph.D. The last two degrees can be attained *in absentia*.

Tuition is free, except in the professional and special courses, where from \$10 to \$50 is charged. Matriculation in any department costs

\$5. The college year is from September 15 to June 10. A fellowship yielding \$300 is offered, together with several scholarships for \$150, which are awarded only for exceptional merit. Six prizes of from \$5 to \$20 are offered for oratory and composition, and a silver medal for the best essay on the American Revolution is annually awarded.

Equipment: The university has a campus in the centre of the city of nearly twelve acres, and owns farm lands covering 320 acres. Among the ten buildings the most prominent are the Chemical Laboratory; Grant Memorial Hall, containing an armory and gymnasium; Nebraska Hall, containing the museums of natural and physical science; and the Library Building completed in 1896.

Societies and Publications: The students publish the "Literary Magazine," "Botanical Seminar," "Hesperian" (a fortnightly), the "Nebraskan" (a weekly), and the students' "Handbook" and "Sombrero" (annuals). The societies are: Graduate Club, Classical, and Engineering societies, English, Law, Economy, and Zoölogical clubs, Palladium, Union, Edelian, Alumni Association, two Christian Associations, two debating clubs, four musical and art organizations, and an Athletic Association, with football, baseball, and other teams, all under the control of a committee consisting of students and professors. Chapters have been organized of: $\Phi \Delta \Theta$, 1875; ΣX , 1883; $K K \Gamma$, 1884; $B \Theta \Pi$, 1886, $K A \Theta$, 1889; and $\Delta \Gamma$, 1888.

Of the 560 graduates the oldest are James S. Dales, of Lincoln, Neb., and William H. Snell, of Tacoma, Wash., of the class of 1873.

The university was established in 1892, and incorporated in 1889, but the building was not completed until 1892, when instruction in the normal and preparatory departments was begun. A department of pharmacy was added in 1894. The government is vested in five regents. The university is supported by taxation representing three tenths of a mill of the annual revenues of the Territory.

Admission is on certificate. Two courses, the Latin-Scientific and English, are offered, but no degrees are conferred. Special attention is given to Spanish. Tuition is free, but matriculation at the beginning of each year costs three dollars. Other expenses aggregate \$130 for the year.

UNIVERSITY OF THE STATE OF NEW YORK.

*Albany, N. Y.**Non-Sectarian.*

History: This university, which, like the University of France, is purely administrative in character, was founded in 1784, shortly after peace had been concluded with England. Its organization as a State institution by the Legislature of New York, in 1787, is supposed to have furnished Napoleon I. with a model for his organization of the *Université de France*.

The State Library, founded in 1818, and the State Museum, founded in 1843, came under the control of the university in 1889. In 1890 the university assumed control of all medical examinations and the conferring of medical degrees. Its most distinguished chancellor was George W. Curtis.

Organization: The university consists of all incorporated institutions of academic and higher education, — with the State Library, State Museum and such other libraries, museums, and scientific or educational institutions of the state as may be admitted by the regents of the university for the purpose of governmental supervision and encouragement. Thus the university comprises some 450 institutions, 110 academies, 275 high schools, and more than 100 degree-conferring and professional schools.

The government of the university is vested in a board of twenty-three regents, of which the Governor of the State, the Lieut.-Governor, the Secretary of State, and the State Superintendent of Education are *ex-officio* members. The regents are elected by the legislature in the same manner as the United States senators, and serve without salary.

The regents have power to incorporate or to alter or repeal the charters of colleges, academies, libraries, museums, or other educational institutions belonging to the university; to distribute to them all funds granted by the State for their use; to inspect their workings and require annual reports under oath of their presiding officers; to establish examinations as to attainments in learning and to confer suitable certificates, diplomas, and degrees, as well as honorary degrees.

The work of the university is divided into five departments: Executive, Examination, University Extension, State Library and State Museum. A fund of \$106,000 is annually apportioned by the regents, whose various budgets aggregate \$230,600.

The regular meetings of the regents are held the second Wednesday in December, the second Thursday in February, and Thursday of Convocation week. Special meetings are held as called by the chancellor or on request of five regents.

The annual University Convocation of the Regents and the officers of colleges and academies belonging to the university, is held on Wednesday, Thursday and Friday following July 4.

History: The charter for this school was granted in 1789. Gen. Benjamin Smith gave 20,000 acres of land, afterwards sold for \$14,000. The cornerstone of the old East Building was laid in 1793. After the citizens of Chapel Hill had given 1,300 acres of land for a site, the

college was opened in 1795. The chief promoter of the new school was Governor Davie. No president was appointed until 1804. The presidents have been: Joseph Caldwell, D.D., 1804-1812; Robert H. Chapman, D.D., 1812-1816; Joseph Caldwell, D.D., 1816-1835; David Lowrey Swain, LL.D., 1835-1868; Solomon Pool, D.D., 1868-1875; Charles Phillips, D.D., LL.D., 1875-1876; Kemp Plummer Battle, LL.D., 1876-1891; George Tayloe Winston, LL.D., 1891 to the present time. Instruction was suspended from 1870-1875, owing to lack of funds. Three years after the re-opening a medical school was added to the university, a law school having been inaugurated in 1845. The centennial of the university was celebrated in 1895, and the date of the laying of the cornerstone, October 12, is celebrated each year as "University Day."

Organization: The university is governed by eighty-one trustees, and consists of the college, a law school, medical school and a summer school. Students are admitted without examination on the certificates of State schools. Negroes are excluded. Courses in arts, philosophy, and the sciences lead to degrees of A.B., B.S., and B.Ph. The degrees of A.M. and Ph.D. are conferred after graduate study of one and two years respectively. Professional degrees are given by the schools of medicine and law. Attendance at chapel and gymnastic drill is compulsory. Tuition for the year, from the first Thursday in September until the first Thursday in June, is \$81.50. Other expenses aggregate \$200. Thirteen scholarships, equivalent to tuition, and eight prizes together with the interest on \$62,000 are annually distributed for excellence in study.

Equipment: The college campus covers forty-nine acres surrounded by a rock wall. Among the eleven college buildings the most notable are the old East and West Buildings, dating back to the last century, and the new East and West Buildings containing the museum and laboratories as well as the society rooms. A gymnasium was built in 1885, and an Infirmary in 1894. In Memorial Hall, which is used for commencements, the illustrious former alumni of the university are commemorated.

Societies and Publications: The students publish the "Tarheel," a weekly; an Athletic Journal; the "Hellenian," a fraternity annual; and a Y. M. C. A. handbook. Among the societies are the Dialectic and Philanthropic literary societies, which date from 1795 and own halls. Besides these the students maintain a Philological, Philosophical and Shakespeare club, Elisha Mitchell Scientific Society, North Carolina Historical and Scientific Societies, the Gimghouls, German and Dramatic and Century Clubs, St. George's Nursery, a Christian Association, Glee, Banjo and Mandolin Clubs, and an Athletic Association with foot-ball, baseball and track teams, besides tennis and golf clubs. Chapters have been organized of: $\Delta K E$, 1851; $B \Theta \Pi$, 1852; Mystical Seven, 1834 united 1889; $\Theta N E$, 1848; $\Phi \Gamma \Delta$, 1851; $\Sigma A E$, 1852-1861; $\Delta \Psi$, 1854-1862; $\Delta \Phi$, $X \Psi$, 1855-1861; $\Phi K \Sigma$, 1856; $\Theta \Delta X$, 1857-1862; $Z \Psi$, 1858; $X \Phi$, 1858-1868; $K \Sigma$, 1875-1876; $A T \Omega$, 1879; $K A$, 1881-1888; $\Phi \Delta \Theta$, 1885; ΣN , 1888 and ΣX , 1889.

The oldest living graduate is George F. Davidson, 1823, of Old Fort, N. C.

UNIVERSITY OF NORTH DAKOTA.

*Grand Fork, N. D.**Co-Educational.**Non-Sectarian.*

INCOME,	STUDENTS,	INSTRUCTORS,	BUILDINGS,	BOOKS,
\$37,000	170	14	3	5,500

History and Organization: The university was organized in 1883 under a special legislative act, and was opened in 1884 with thirty students. By the division of the Territory of Dakota, and the admission of North Dakota as a State, in 1890, the university became the State University of the new State. Subsequently a grant of forty thousand acres of public lands was appropriated to the school. The government is vested in a board of five State trustees. Besides the college of arts and sciences, a normal college, school of mines, military department, and professional schools are included in the university.

Admission, Instruction, and Degrees: Admission is by examination, and on certificates. Three courses: the classical, Latin-scientific, and the scientific, lead to degrees of B.A., and a post-graduate course leads to that of M.A. Special students are admitted free into all classes. Attendance at chapel is compulsory, though the charter of the university declares that no instruction either sectarian in religion or protestant in politics shall be allowed. Negroes are admitted.

Equipment: The university grounds are on the line of the Great Northern Railway, within a mile of Grand Forks. All the work of instruction is carried on in the main building, which contains an assembly hall, library, museum, three laboratories, a gymnasium,

armory, and a post-office. Dormitories have been erected for both men and women.

Societies and Publications: The students maintain two literary societies, the Adelphi, and Per Gratis, two religious associations, an Athletic Association, and publish the "Student." The graduates number sixty.

History and Organization: The school was founded in 1842, and was chartered two years later. In 1879 the college buildings were destroyed by fire. The golden jubilee of the university was celebrated in 1895. The presidents have been: Bishop Edward Sorin, 1842-1865; Patrick Dillon, 1865-1866; William Cosby, 1866-1872; Augustus Lemonnier, 1872-1874; Patrick Colovin, 1874-1877; William Cosby (second term), 1877-1881; Thomas E. Walsh, 1881-1893; and Andrew Morrissey, the present incumbent.

Admission, Instruction, and Degrees: Admission is by examination only. Classical, scientific, and English courses lead to degrees of B.A., B.L., B.S., C.E., and in biology. The Institute of Technology embraces departments of engineering, practical mechanics, and machine drawings. Attendance at chapel, mass, confession, etc., is compulsory. Students are forbidden to leave the university grounds without permission, to use tobacco without the expressed sanction of their parents, or to indulge in "clandestine and improper correspondence." All students must rise at 6.30, and retire not later than 10 P.M. Attendance at military drill is voluntary.

Dues and Prizes: The expenses are \$300 for the year, lasting from September 20 to June 13. Five special prize medals are annually distributed for excellence in English and Christian doctrine, with fifteen gold and silver medals for excellence in general study, other gold medals for honors, and thirty gold and silver medals for good deportment.

Equipment: The university is situated one mile and a half from South Bend, Ind., eighty miles east of Chicago. North and west of the university are St. Joseph's and St. Mary's lakes, the latter covering some twenty-three acres, while St. Joseph's River sweeps past the university grounds on the west. Among the new buildings rebuilt after the fire are a richly decorated church, containing chimes, and what is claimed to be the largest bell in the country. Sorin Hall, the main building, contains a chapel, recitation rooms, court room, law library, and society rooms. Carroll and Bronson Halls are dormitories; St. Edward's Hall is for academic pupils, and two halls are devoted to scientific instruction alone. In addition to these there is a students' play hall, a music hall, with billiard, athletic, and bicycle rooms, and an exhibition hall seating twelve hundred persons; an infirmary, astronomical observatory, and post-office. Near the university is St. Mary's Academy, a college for women under the same administration.

Societies and Publications: The students publish "The Scholastic" (a weekly), and maintain five religious societies, a Total Abstinence Union, the St. Aloysius Philodemic Society, the Thespian Association, Columbian Literary and Dramatic Association, St. Cecelia Philomathean Society, St. Stanislaus Philopatrian Society, Sorin Literary and Dramatic Association, the University Stock Company, choir, orchestra, Orpheus Club, glee and mandolin clubs, university quartettes, cornet band, Law Debating Society, with a moot court, court of chancery, probate court, justices' court, supreme court, with district and commissioners' courts. The athletic clubs are the Athletic Association, with two branches; the Lemonnier Boat Club, embracing seven six-oar crews; the university cycling clubs, tennis club, hand-ball association, Hoynes' Light Guards, and the Sorin Cadets. The graduates number 500, the oldest of whom is the Rev. E. B. Kilroy, 1852, of Stratford, Ont.

Shortly after the opening of the Territory, the university was located at Norman on condition of a grant of \$10,000 and forty acres of ground. Instruction was begun in 1892. The university is governed by six regents, and is supported by a territorial tax of a half mill on the annual *pro rata* revenues of the Territory. Tuition is free to all residents of the Territory. Admission is on high school certificates. Degrees of A.B., B.S., B.L., and B.Ph. are conferred. The societies are the Pierian, the Athena (for women), a Historical Society and an Oratorical Society, which annually awards a gold medal for debate. The Presbyterians and Methodists have erected halls for students of those denominations adjoining the campus.

Bellevue College was opened in 1880 on grounds overlooking the Missouri River, eight miles from the city. In 1891 the name was changed to University of Omaha, when the law school, medical and dental college were consolidated with the older institution. The presidents of Bellevue College have been: W. W. Harsha, D.D., LL.D., 1883-1888; Francis Blainey, D.D., 1888-1890, and first Chancellor of the University of Omaha; and David R. Kerr, D.D., Ph.D., 1890 to the present.

The university as a whole is governed by forty trustees. Graduates of high schools and academies are admitted without examination. Instruction is given in the classics, sciences, literature and normal branches leading to degrees of A.B., B.S., B.L. and A.M. while professional degrees are conferred by the other departments of the university. Attendance at chapel is compulsory, but not so gymnastic exercise. The expenses for the year, from September 15 to June 8 are \$175. The students publish the "Star," and maintain the Philomathean and Adelpia literary societies, two Christian Associations with a baseball team and tennis club.

Through the efforts of Benjamin Franklin a fund was raised in 1749 to change Penn's Charity School, begun in 1720, into an academy. It was opened in 1751, and four years later received a college charter. The first commencement was in 1757. The school languished for several years, so that Provost Smith had to be sent to England to raise funds. He there met the commissioner of King's College, now Columbia University, and they both agreed to share the proceeds of their joint efforts, some £6,000. After his return Provost Smith sided with the "war party," and was cast into prison

for publishing an alleged libellous pamphlet against the assembly. While in jail he continued to give lectures to his classes, but in 1759 was compelled to flee to England, where he was received with great honor, and made a doctor by Oxford University. He returned after a peaceful settlement of his differences with the assembly, with £20,000 funds for the college. In 1791 the college was amalgamated with the new school, which was the first to be called a university in this country. The Medical School, likewise the first in this country, dates from 1765. A German school was added in 1785, and a Law School in 1790.

In 1810 the university was reorganized, and the classes were reduced to three: freshmen, juniors, and seniors. The college thenceforth continued as an old-fashioned classical college till 1868, when the elective system was introduced. In 1872 the department of arts was reorganized, and the department of science, known as the Towne Scientific School, was established. In 1877 a department of music, and in 1878 that of dentistry were added. The provosts and presidents have been: Benjamin Franklin, 1749-1756; Richard Peters, D.D., 1756-1764; James Hamilton, 1764; John Penn, 1764-1771; James Hamilton, 1771-1773; Richard Penn, 1773-1774; John Penn, 1774-1779; Benjamin Franklin, LL.D., 1789-1790; William White, D.D., 1790-1791. University of the State of Pennsylvania: Joseph Reed, 1779-1781; William Moore, 1781-1782; John Dickinson, 1782-1785; Thomas McKean, LL.D., 1788-1791. University of Pennsylvania: Dr. John Ewing, 1791-1802; Dr. John McDowell, 1802-1810; Dr. Andrews, 1810-1813; Rev. Frederick Beaseley, 1813-1828; Dr. William H. DeLancey, 1828-1833; Dr. John Ludlow, 1833-1853; Henry Vethake, 1853-1860; Dr. Daniel R. Goodwin, 1860-1868; Dr. Charles J. Stillé, 1868-1880; Charles C. Harrison, A.M., the present incumbent.

Organization: The corporation consists of twenty-eight trustees, with the Governor of the State as *ex officio* president. The university comprehends the following departments: The college, in which are given the courses in arts, finance, and economy, biology, music, architecture, science, and technology, chemistry, mechanical, electrical, civil, and chemical engineering; the departments of philosophy, law, medicine, dentistry, and veterinary medicine; university hospital; auxiliary department of medicine; Wistar Institute; hygiene laboratory; veterinary hospital; library, museum of archæology and paleontology; observatory, and gymnasium.

Admission, Instruction, Degrees: Candidates for the freshman class are admitted by examination, or, under certain conditions, on high school diplomas. During the first two years at the college, four elective courses are open, among which are Greek, Latin, and the modern languages. In the two following years thirteen groups of elective studies are open. The degrees are A.B., B.S., B.S. in Biol., B.Mus., B.Archt., and B.Eng. Masters' degrees in arts and science, as well as those of C.E., M.E., and Min.E. are conferred after one year of graduate study, while those of Ph.D., Mus.Doct., and LL.D. are conferred after two years. Professional degrees are conferred by the Law School, Dental College, and School of Medicine and other professional departments.

Dues, Scholarships, and Prizes: Tuition is \$160 for the year, lasting from September 27 to June 11. A graduation fee of \$20 is charged, with special fees in the professional departments. The total expenses, it is claimed, need not exceed \$350. Two scholarships, established by Thomas Penn, are conferred by the Governor of the State. Besides these fifty-five Philadelphia scholarships, equivalent to tuition, and one in American history, are annually available. From a fund of \$50,000 further scholarships and thirty-seven prizes of from \$40 to \$75 have been established. Six fellowships, equivalent to tuition and living expenses, and \$25 extra, are offered in philosophy, besides two in hygiene and physics; fifteen scholarships and a \$100 prize in veterinary medicine; and ten law scholarships with four law prizes of from \$40 to \$75.

Equipment: The university buildings, twenty-two in number, are situated on forty-eight acres of ground in West Philadelphia. The general library, containing 135,000 volumes and 50,000 pamphlets, contains sixteen private collections. The most notable of these are the Colwell collection, one of the most complete finance libraries in the world, and the Bechstein Library, containing 15,000 books on German philology and literature. The museum of archæology and paleontology contains collections of American, Asiatic, and Egyptian antiquities of great value. Its Babylonian collection is declared to rank equal with those of the British Museum and the Louvre. The observatory consists of three buildings situated on the Flower Farm, two miles from the university. Houston Hall, a clubhouse for students, was finished in 1896.

Societies and Publications: The students publish the "Pennsylvanian" (daily), the "Red and Blue" (monthly), the "University Courier" (weekly), "Ben Franklin" (comic fortnightly), and the "Class Record" (an annual). Among the societies are the Philomathean (dating from 1813), Telosophic (dating from 1829), Field Club, Camera Club, Library Club, two Christian Associations, and an Athletic Association, with football, baseball, and track teams, 'varsity and class crews, golf and tennis clubs, and other athletic organizations. Chapters have been organized of: $\Delta \Phi$, 1849; $Z \Psi$, $\Phi K \Sigma$, 1850; $\Delta \Psi$, 1854; ΣX , 1875-1878; $\Phi K \Psi$, 1877; $B \Theta \Pi$, 1880; $A T \Omega$, 1881-1884; $\Phi \Gamma \Delta$, 1881-1887; $X \Phi$, 1883-1885; $\Phi \Delta \Theta$, 1883, $\Phi \Delta \Phi$, ΥK , 1886; $N \Sigma N$, $K K \Gamma$, 1890; $M \Phi A$; ΣN ; $\Phi A \Sigma$; $\Psi \Upsilon$; $\Gamma \Delta$; $\Delta \Upsilon$; $\Delta \Phi$; $K \Sigma$; $A M \Pi \Omega$; $\Delta \Sigma \Delta$, and $\Phi B K$.

The number of graduates is 15,500, of whom 10,000 are alive. The oldest is Robert B. Davidson, A.M., 1826, of Philadelphia.

UNIVERSITY OF ROCHESTER.

*Rochester, N. Y.**Men.**Baptist.*

INCOME,	STUDENTS,	INSTRUCTORS,	BUILDINGS,	BOOKS,
\$44,457	230	17	3	30,000

History and Organization: A charter similar to that of Columbia College was granted in 1851. Plans for establishing this university had been under consideration since 1847. After contributions had been pledged by the various religious denominations of Rochester, the university was organized and instruction begun in 1850 with a board of twenty-seven trustees, of whom twenty are Baptists and seven alumni. The presidents have been: Hon. Ira Harris, LL.D., 1850-1853; Martin Brewer Anderson, LL.D., L.H.D., 1853-1888; and David J. Hill, LL.D., 1888 to the present.

Instruction, Scholarships, Degrees: Admission is by certificate for definitely stated subjects. The studies for the first two years are

strictly prescribed. After that elective studies can be pursued under definite restrictions. The degrees are A.B., B.S., and B.Ph., with that of A.M. after a prescribed course of study. A university extension course has recently been established. Attendance at chapel is compulsory. Tuition is \$75 for the year, lasting from September, 16 to June 18. Forty scholarships, equivalent to tuition, are annually available. Two graduate scholarships on the interest of \$5,000 each are offered in political history and economy. A scholastic prize of \$60, thirty-nine prizes of \$75, and fifteen undergraduate prizes of from \$30 to \$90 are further offered. The college grounds cover twenty-four acres.

Societies and Publications: The students publish "Interpres" and maintain several literary, social, religious, and athletic societies, with chapters of the following fraternities: Φ B K, A Δ Φ , Δ Ψ , 1851; Δ T, 1852; Δ K E, 1856; Ψ T, 1858; Z Δ X, 1866-1879; and X Ψ , 1884-1889.

Of 1160 graduates, 1,000 are living. The oldest is the Rev. Robert Telford, 1851, of Philadelphia.

The university was chartered in 1882, and is now sustained by legislative appropriation, until the income from the sale of 86,000 acres of land becomes available. The government of the school is vested in nine regents and five trustees. The university comprises colleges of sciences, literature, arts, music and business, and preparatory courses. Admission is by examination and on certificate. The degrees are A.B., B.S., and B.L. Attendance at chapel is voluntary. The expenses for the year are \$160. Tuition is free for residents of the state. Non-residents pay \$10 a year.

The student associations publish the "Volant" a fortnightly. Among the associations are several literary, social, Christian, athletic and other organizations.

This university, whose aim is declared to be "aggressively Christian," was founded in 1880. It is governed by twenty-one trustees, and comprises colleges of Liberal Arts, Medicine and Music, with schools of Commerce, Oratory and Arts, besides a Preparatory School and University Academy. A Normal Department with schools of Law and Dentistry are about to be added.

Admission is by examination or on the certificates of twelve high schools. Elective courses are offered besides the curriculum to enable students to prepare for technical and professional studies while taking the college course. The degrees are A.B., B.L., B.Ph., B.S., B.D., and M.D. The expenses for the year lasting from September 17 to June 18, are \$160. Eight scholarships of \$150 are offered in history, the classics, modern languages, sciences and civics.

Societies: The students maintain three literary societies: the Aristotelian for men, and Athena for women, and the Philophronian, besides two Christian Associations, and an Athletic Association with a baseball team and tennis club.

UNIVERSITY OF TENNESSEE.

*Knoxville, Tenn.**Co-Educational.**Non-Sectarian.*

INCOME, \$67,500	STUDENTS, 505	INSTRUCTORS, 49	BUILDINGS, 6	BOOKS, 10,000
---------------------	------------------	--------------------	-----------------	------------------

History: The parent school of this university was Blount College, which was founded in 1794 by the General Assembly of the territory south of the River Ohio, receiving its name from William Blount, the first governor of the territory. In 1807 the school became the East Tennessee College, after a transfer to Poplar Hills, and in 1840 the Tennessee University. The present name was assumed in 1879. The hill on which the present university stands was purchased for \$600 in 1826. The old chapel, or Centre College, was then erected together with three one-story dormitories. The college has been co-educational from the very beginning, when Barbara Blount, one of the first women students, caused college hill, the present site of the university, to be named after her. Corporal punishment was in

vogue as late as 1840. During the *ante bellum* period the college was involved in a long controversy with the University of North Carolina, concerning certain lands located in Tennessee, twenty thousand acres of which were finally assigned to East Tennessee College. Owing to the difficulties arising from this controversy two of the presidents, Dr. Coffin and Mr. Piper, had to resign. In the spring of 1861, when war was declared, the students and teachers of the university enlisted in such numbers that instruction had to be suspended. Confederate troops occupied the college from January, 1862, to September, 1863, when Knoxville was taken by the Union troops, who in their turn occupied the college buildings. The two armies left little of the college property except bare walls and fortifications. When instruction was resumed only twenty students attended. In 1869, the Federal land grant of 1862 became available, and the proceeds of the three hundred thousand acres that had been assigned to Tennessee, were appropriated to the State University. Free scholarships were at the same time established. In 1877 the entire faculty was re-organized, and in 1879, the university was inaugurated as a State University, with a medical and dental school at Nashville. In 1888 the university was again completely re-organized, and a law department was established. The centennial of the school was celebrated in 1894. The presidents have been: Rev. Samuel Carrick, A.M., 1794-1809; Rev. David Sherman, A.M., 1820-1825; Rev. Charles Coffin, D.D., 1827-1832; Rev. James H. Piper, A.M., 1833-1834; Joseph Estabrook, A.M., 1834-1850; Hon. W. B. Reese, LL.D., 1850-1853; Rev. George Cook, A.M., 1853-1857; Rev. William D. Carnes, A.M., 1858-1860; Rev. J. J. Ridley, D.D., 1860-1862; Rev. Thomas W. Humes, A.M., S.T.D., 1865-1883; Charles W. Dabney, Ph.D., 1887 to the present.

Organization: The board of trustees of the university holds a charter from the State dating from 1807. It is limited to thirty members, chosen from the different congressional districts of the state, who serve for life or until removal from the state, or resignation. The governor, the secretary of state, and the superintendent of public instruction are members *ex-officio*. Seven members form a quorum. The president of the university is also president of the board of trustees; the other officers are a treasurer and a secretary. A separate faculty has charge of the instruction in each department. The faculties consist of a dean and professors, aided by lecturers, instructors, fellows, and assistants. The departments are the Academic Department; the College of Agriculture, Mechanic Arts, and Sciences; Teachers' School; University Department; Law School; Medical School, and School of Dentistry.

Admission, Instruction, and Degrees: Admission is by examination, and on certificate. Examinations can be taken in almost any part of the state. Six college courses, one of which must be taken by every student, lead to degrees of B.A., and B.S., or B.S. in Agr., Mech. Eng., etc. These courses are the literary, scientific, agricultural, civil engineering, mechanical engineering, and the mining course. Degrees of A.M., S.M.S., Ph.D., C.E., Min.E., and M.E., are conferred after graduate studies. Degrees of B.L., M.D., and D.D.S., are attained after courses in law, medicine, or dentistry. Attendance

at chapel is compulsory. Military drill is required of freshmen and sophomores, but is optional to juniors, seniors, and graduates. All those who do not take military instruction are required to attend gymnastic exercise. Negroes are excluded, instruction for them being provided at Knoxville College.

Dues, Scholarships, and Prizes: Tuition since 1869 has been free. Other expenses, including an incidental fee of \$10, aggregate \$100. Four fellowships, yielding \$200 each, are available for graduates. One free scholarship is given to each of the university accredited high schools, making 275 in all. Twelve agricultural and mechanical apprenticeships, yielding from \$50 to \$100, are annually awarded to under-graduates. At the close of each year three free scholarships are awarded to the best regular students of the freshman, sophomore, and junior classes. A gold medal is annually awarded for excellence in mathematics.

Equipment: The college grounds cover thirty-six acres, not including the college farm. Among the fourteen college buildings are: Old College, erected in 1826; East College, West College, North College, and Janney Building (now Woman's Building), in 1840; South College, in 1872; Steward's Hall, in 1873; Agricultural Building, in 1880; and the more recent Science Building, Mechanical Hall, Experiment Station, Y. M. C. A. Hall, and the farm home. The university's resources are: State certificates (balance of old East Tennessee University fund), \$9,000 at five per cent; Congressional Land Grant fund, 1862, \$396,000 at six per cent; United States Experiment Station fund, \$15,000 per annum; Morrill Act fund, 1890, for present session, \$21,000; college fees, about \$5,000 to \$6,000 per annum; college farm, valued at \$175,000; university grounds, about thirty-six acres, estimated value, \$245,000; fifteen buildings, estimated value, \$152,000; Library fund (given by city of Knoxville), \$20,000 at six per cent.

Societies and Publications: The students publish the "University Magazine" (a monthly), the "Scientific Magazine," published annually by the Engineering Society, and the Y. M. C. A. "Handbook" (an annual). The chief student organizations are the Philomathesian and Chi-Delta (for men), Barbara Blount (for women); Engineering Society, Glee Club, Orchestra, Athletic Association, with subordinate clubs for tennis, baseball, football, etc., besides class, social, religious, and other organizations. Chapters of the following fraternities have been organized: Π K Α, 1874-1875; Α T Ω, 1872-1873; Σ Α Ε, K Σ, 1879; K Α, 1884-1888; Rainbow, 1885-1886; Φ Γ Δ, 1890; and Alpha Beta Democrita.

The graduates number more than 500, the oldest of whom is William Park, 1825, of Columbia, Tenn.

UNIVERSITY OF TEXAS.

*Austin and Galveston, Tex.**Co-Educational.**Non-Sectarian.*

INCOME, \$70,000	STUDENTS, 730	INSTRUCTORS, 46	BUILDINGS, 3	BOOKS, 13,000
---------------------	------------------	--------------------	-----------------	------------------

History and Organization: The Congress of Texas in 1839 provided for a capitol at Austin, and gave to the proposed university forty acres, since known as College Hill, and fifty square leagues of land were set apart for the university, the proceeds of which have since

been applied to the school. The university was chartered in 1858, and was formally organized in 1876. Buildings were not put up until 1881 when regents were elected and a faculty was selected. Instruction was begun in 1883. The chairmen of the faculty have been: J. W. Mallet, M.A., M.D., LL.D., Ph.D., F.R.S., 1883-1884; Leslie Waggener, M.A., LL.D., 1884-1894; T. S. Miller, A.B., LL.B., 1894-1895, President *ad interim*: Leslie Waggener, from 1895 to the present time. The university is governed by eight regents, and comprises departments of literature, science and the arts, of engineering and of law, and a medical school at Galveston.

Instruction, Scholarships, Degrees: Admission is by examination or on the certificates of sixty-two high schools of the state or of normal and agricultural colleges. The studies of the first year are prescribed. During the three succeeding years there is a steady increase of elective studies. Negroes are not admitted. Attendance at chapel is optional and there is no gymnastic or military drill. The degrees are A.B., B.S., and B.L. with professional degrees in medicine and law. The master's degree is conferred after at least one academic year of graduate study. The only charge in the academic department is an annual fee of \$10. Other expenses are \$125 for the year, lasting from the fourth Wednesday in September to the third Wednesday in June. Three fellowships of \$300 a year are offered in physics, biology and geology, the recipient to assist in instruction during his graduate studies.

The college grounds cover forty acres. The three university buildings consist of a main hall, chemical hall, and club house with plunge bath and restaurant. The students publish a monthly magazine and maintain the Athenæum, and Rusk Society (for men), Ashbel Society (for women), two Christian Associations and an Athletic Association, with a baseball team and tennis club coming under the control of the faculty. Of the 410 graduates, 400 are living. The oldest of these is Samuel C. Red, 1885, of Houston, Texas.

History and Organization: The university was chartered in 1855, when it was located in Santa Clara. In 1871 its schools were consolidated on a site near San José. The Napa Collegiate Institute dates from 1870, and was changed to Napa College in 1885. The University of the Pacific was finally organized, with the two institutions still retaining their own academic departments, in 1890. The trustees number sixty-eight, of whom seventeen belonged to the old corporation, and fifteen to Napa College.

Admission is on certificate and by examination. Four courses of study lead to degrees of A.B., B.S., B.L., B.Ph., and to masters' degrees after graduate study. Instruction consists largely of lecture and topical investigation. Attendance at chapel is compulsory. Tuition is \$52 for the year, lasting from August 6 to May 28. Other expenses aggregate \$200.

College Adjuncts: Each college has grounds of five acres, with botanical gardens, gymnasium and astronomical observatories. At San José the students maintain six literary societies, four for men and two for women, to wit: the Arcania, Rhizomia, Cartesia, Adelpia, Amendia, and Sopholectia, with two Christian Associations; while at Napa College there are three literary societies: the Orophilian, Colomensian (for men,) and the Philomathean (for women), with two more Christian Associations and an Athletic Club. The Natural History Society of both colleges also has its headquarters there. Chapters exist of $\Phi K \Psi$, 1881; and $K A \Theta$, 1889.

History: The college was founded in 1857 upon an endowment of \$500,000 and \$100,000 given by the Legislature of the State. During the war, which broke out only two years after the college had been opened, instruction was suspended, and almost the entire endowment dissipated. After the war new funds were raised, and the college was once more opened in 1868. To the academic and theological departments, with which the university was opened, departments of medicine and law were added in 1893 and 1894.

Organization: The university is governed by seventeen bishops, forty-five trustees, and three alumni trustees, drawn from eleven southern states, assisted by a "hebdomadal" board of twelve members of the faculty. It embraces collegiate, theological, medical and law faculties. Admission is by examination. The degrees are A.B., B.D., B.L.L., M.A., M.S., M.D. and LL.D. Attendance at chapel is compulsory. The expenses for the year, ending August 6, are \$260, of which \$100 is for tuition. Seven scholarships, equivalent to tuition, are annually offered to theological students, with seven for \$200 each for academic students. Free tuition is further offered to thirty-four deserving students. Seven medals are annually distributed, and an order of "gownsmen" exists for the most deserving students each year.

Societies: Among several literary, social, religious and athletic organizations the students have organized chapters of: A T Ω, 1877; Σ A E, K Σ, 1881; Φ Δ Θ, Δ T Δ, K A, 1883; Σ N, 1890; and T Δ Σ, 1889. A student's journal is published.

History: The University of Deseret was incorporated in 1850 and in 1851 was chartered with a chancellor and twelve regents. Instruction was not begun until 1867, when commercial branches were taught for two years. In 1869 classical, scientific and normal courses were added. In 1884 the power to confer degrees was given, and in 1892 the name was changed to the present one. The presidents have been: Dr. John R. Park, 1869-1892; Prof. Joseph T. Kingsbury, Acting-President, 1892-1894; and Dr. James E. Talmage, who was elected in 1894. In the same year an endowment of \$60,000 was received with sixty acres of land. In 1895 the city gave "university square" a ten acre block.

Organization and College Adjuncts: The university is governed by nine regents. Admission is on certificate and by examination. The degrees are A.B., B.S., and Min.Eng. Attendance at chapel is voluntary. The students publish the "Chronicle," and a "University Quarterly" is also issued. Four literary societies, of which two are for men, one for women, and one for both sexes, with Christian Associations, and other organizations are also maintained. In affiliation with the university are the Microscopic and Natural History Societies of Utah and a Scientific Field Club.

Of the 435 graduates, 400 are living. The oldest is William Bradford, 1876, of Salt Lake City.

History: The university was founded by General Ira Allen, who gave £4,000. The act establishing the university was passed by the legislature in 1791, and has remained substantially intact, except that an agricultural college has been provided for. The medical college dates from 1854, and is one of the oldest in the country. During the War of 1812 the college buildings were occupied by the American troops for one year. In 1829 the main building was destroyed by fire. In 1854 the semi-centennial of the first class was held and the Medical College established. In 1891 the centennial of the college was celebrated. The presidents have been: Daniel Clarke Sanders, 1800-1814; Samuel Austin, 1815-1821; Daniel Haskel, 1821-1824; Willard Preston, 1825-1826; James Marsh, 1826-1833; John Wheeler, 1833-1849; Worthington Smith, 1849-1855; Calvin Pease, 1855-1861; Joseph Torrey, 1861-1866; James Burrill Angell, 1866-1871; Matthew Henry Buckham, 1871 to date.

Admission, Instruction, Degrees: The university is governed by eighteen trustees, and embraces schools of arts, science, engineering, chemistry, agriculture, and of medicine. Admission is on certificate, or by examination. Negroes are not excluded. After the first year elective studies are offered. The degrees are A.B., B.S., B.Ph., B.S. in Chem., C.E., E.E., M.E., and B.Agr., with A.M., and Ph.D., after one and two years of graduate study.

Dues, Scholarships, and Prizes: Tuition is \$80 for the year, lasting from September 25 to June 24. Other expenses aggregate from \$150 to \$200. Thirty state scholarships, equivalent to tuition, are offered, and forty-five on the incomes of individual endowments, besides twelve prizes ranging from \$10 to \$50. A loan fund has likewise been established.

Equipment: The grounds cover a square of three-eighths of a mile. The library includes the valuable collection of the late George P. Marsh. The museum contains an art gallery with other notable collections, among them a complete set of the rocks and marbles of Vermont. A gymnasium and athletic grounds provide for physical exercise, and a university farm is connected with the agricultural

station, together with a herbarium containing all the plants found in Vermont.

Societies and Publications: The students publish the "Cynic," which appears once every three weeks, and "Ariel," a junior annual. The societies are: Athletic Association, providing for baseball, football, tennis, track athletics, etc.; two Christian Associations; glee, mandolin, and banjo clubs; clubs of students from preparatory schools; Chemical and Engineering societies; Cotillion and Republican clubs; with chapters of the following fraternities: Φ B K, Γ A, 1836; Σ Φ , 1845; Δ Ψ , 1850; Φ Δ Θ , 1879; Δ M, 1880; K A Θ , 1882; A T Ω , 1887; Φ X, 1889; A K K, 1890; K Σ , Δ Δ Δ , 1893; and A Φ , 1895.

History: The University of Virginia was the first state university established in this country. Thomas Jefferson, after great opposi-

tion from all other Virginia colleges, founded the university in 1819. It was then united with Central College, and after full acceptance of Jefferson's original plans, opened its doors to students in 1825. The university buildings were finished by Italian sculptors whom Jefferson had imported. Dr. Thomas Cooper, the first professor of the new university, by reason of his heterodox views, was forced to resign immediately after his election, to Jefferson's great chagrin. The founder thereupon turned to Europe for new material, calling no less than four professors from England. In 1824, the new school was visited by George Ticknor, of Harvard College, who is believed to have there assimilated the reforms in regard to discipline and elective study, which were afterward introduced by him at Harvard. Two years later Thomas Jefferson died, after having had sole charge of the university for one year, as its first rector. He was buried on the roadside of the highway leading from his house to the university, and his grave is marked by a monument erected by Congress, bearing the inscription: "Here was buried Thomas Jefferson, author of the Declaration of American Independence, of the Statute of Virginia for Religious Freedom, and Father of the University of Virginia. Born April 2d, 1743, O.S. Died July 4th, 1826."

After Jefferson's death the university became heavily indebted, until the state legislature freed its annual appropriation from all encumbrances. A medical school was added in 1827, which has since been enlarged by schools of medical jurisprudence, of surgery, and of anatomy. In 1851 the Law School was created, followed in 1856 by the two schools of Language and of History, the last of which was endowed with \$50,000 by W. W. Corcoran. A School of Technology was added in 1867, followed in 1870 by the establishment of a School of Agriculture on Samuel Miller's endowment of \$100,000. An astronomical observatory was given by Leander J. McCormick in 1882. Connected with it was Professor Sylvester, the famous mathematician. The largest attendance of nearly seven hundred occurred shortly before the outbreak of the Civil War. During the war instruction was suspended. The semi-centennial of the university was celebrated in 1875. In October, 1895, the Rotunda and Annex built by Jefferson were destroyed by fire, including many books and works of art. Since that time sufficient funds have been raised among the alumni to restore these buildings, and to erect a public hall, physical and chemical laboratories, costing in all \$250,000. The Rotunda, henceforth, is to be used for library purposes only.

Organization: The university is governed by ten visitors, and comprises academical, engineering, agricultural, medical, pharmaceutical, and law departments, besides numerous other schools. Admission is by examination, but no candidates over sixteen years of age are rejected for deficiencies in studies they do not intend to pursue. Negroes are excluded. All studies are elective. Attendance at chapel and religious exercises has always been voluntary. The laws of the university require from every student a sacred regard for truth. Thus the "honor system" at examinations has been practised at Virginia ever since its foundation. Students are forbidden to indulge in outdoor sports on Sundays, to swear, game, or introduce spirits or deadly weapons into the university precincts, nor are they

allowed to contract accounts with tradesmen. At the end of each month a circular letter is sent by the president to the parent or guardian of each student informing them of the student's absences from study and other matters of conduct. Members of athletic teams or musical clubs not of age are not allowed to leave the university for intercollegiate contests. The degrees are B.A., B.S., B.L., Ph.G., M.D., M.A., and Ph.D., the last of which are granted after graduation from a specified number of schools.

Dues, Scholarships, and Prizes: Tuition for the year, lasting from September 15 to June 17, is from \$125 to \$175 in the different departments. Total expenses for Virginians aggregate from \$200 to \$300, while students from other states pay some \$80 in addition. Eleven university scholarships, yielding from \$100 to \$160, are annually awarded, with six others for less amounts, and one graduate fellowship.

Equipment: The university owns four hundred acres, of which one hundred and a skating-pond belong to the campus. Besides the two buildings which were burned, there are the Museum, the Leander McCormick Observatory, and the physical, chemical, biological, and pathological laboratories, with a new mechanical hall and machine shop. The total productive funds amount to \$275,000.

Societies and Publications: The students publish the "University Magazine" (a monthly), the "Quarterly Bulletin," "College Topics" (a weekly), and a Y. M. C. A. "Handbook," with bi-weekly "Annals of Mathematics." The societies are: the Philosophical Society (composed of professors and graduates), the Jefferson and Washington literary societies (dating back to the beginning of the university), several musical clubs, a Christian Association, and a recently organized Athletic Association, with football, baseball, track, and other athletic clubs, coming under the control of the faculty. Chapters of the following fraternities have been organized: Δ K E, 1852; Φ K Σ, 1855; Φ K Ψ, 1853; Β Θ Π, 1856, united with Mystical Seven in 1867; K A, 1857-1861; Σ A E, 1857; Φ Γ Δ, 1859-1887; X Φ, 1859; Σ X, Δ Ψ, 1860; K Σ, 1867; Z Ψ, 1868-82; X Ψ, 1868-1870; Φ K A, 1868-1890; A T Ω, 1868; Σ N, 1870; Θ Δ X, 1872-1877; K A, Φ Δ Θ, 1873; Δ T Δ, 1885; Φ A X, Φ Θ Ψ, Φ Δ Φ, 1890.

INCOME, \$45,000	STUDENTS, 425	INSTRUCTORS, 18	BUILDINGS, 5	BOOKS, 5,000
---------------------	------------------	--------------------	-----------------	-----------------

History: Under an Act of Congress of 1854 the Territorial Legislature in 1858 established this university on 160 acres of land at Cowlitz. In 1860 and the following year the university was moved to Seattle, where ten acres of land were provided. The first building was finished in 1862. Since 1893 the state legislature has given \$200,000 for new buildings, and has voted \$40,000 a year for maintenance, besides bonding the university land for \$250,000. The first instructor was A. S. Mercer, in 1862, who was succeeded by W. E. Barnard, and G. F. Whitworth, each for two years. The school was then closed for two years. In 1870, S. H. Hall took charge. From 1872 to 1874, E. K. Hill presided, followed by F. H. Whitworth and Miss Thayer. G. F. Whitworth was president from 1874 to 1876. For lack of funds the university was then closed. A. J. Anderson, who was president in 1877, remained until 1882. The college was organized and a class has since been graduated every year. In 1882 L. J. Powell was president, and served till 1887. He was succeeded by T. M. Gatch, A.M., Ph.D.

Organization: The university is governed by seven regents. Admission is by examination in six subjects selected out of sixteen, except for graduates of the State High School. The curriculum is elective from the first year. The degrees are A.B., B.Ph., B.S., B.L., and B.L.L., C.E., Ph.C., Min.Eng., and Ph.G., with masters' degrees after graduate study. Attendance at chapel is voluntary, but military drill is required of all able-bodied male students. Tuition is free to all residents of the state, except in the Law School and Musical Conservatory. Students from other states pay \$40 for the year, lasting from September 3 to May 28.

Equipment: The university has just been transferred to a tract of 320 acres 225 feet above the sea, between Lakes Union and Washington, three miles from Seattle. The new buildings, of great architec-

tural beauty, include an Administration Hall, containing a museum, assembly hall and library, besides lecture rooms and laboratories, an astronomical observatory, with a gymnasium and armory, offering accommodations for men and women. The arboretum on the new university site is rich in the trees and plants of Puget Sound.

Societies and Publications: The students publish the "Pacific Wave," a monthly, and maintain the Aletheuonean and Philomathean, Normal, and Thalian Literary Societies, two Christian Associations, two Athletic Associations, an Oratorical Association, and two Classical Clubs. Of the 120 graduates, 110 are living. The oldest is Clara M. Wilt, of 1876, of Tacoma.

History: The territorial government in 1833 established the university and in 1848 the State made special provisions for its benefit. In 1849 a board of regents was organized. The first buildings were erected in 1851, Agricultural Hall and University Hall following in 1855 and 1861. In 1866 the university was re-organized and the College of Agriculture was added, followed by those of Law in 1868, of Engineering in 1870, of Pharmacy in 1883, Summer School in 1887, with Schools of Economics and Political History in 1892, and a Musical Conservatory in 1895.

Organization: The regents number fourteen. Matters of academic discipline are entrusted to a student body of class officers, chosen by the faculty. Admission is by examination and on the certificates of 118 accredited schools, and the State Normal School. Attendance at chapel is voluntary, but military drill is compulsory for male

students during the first two years. The academic degrees are A.B., B.S., and B.L., with professional degrees in pharmacy, medicine and laws conferred by those respective departments, and with technical degrees of B.S. in Agr., and B.S. in English. Masters' degrees are conferred after one year of graduate study, with that of Ph.D. after three years of such study. University Extension provides for twenty-one courses. During the last two years of the collegiate course studies are largely elective, eleven groups of such studies being offered.

Dues, Scholarships and Prizes: Tuition is free for residents of Wisconsin, but non-residents pay \$25 for the year, lasting from the last Wednesday in September to the Thursday before the last Tuesday in June. Special fees are charged in the professional schools. Ten scholarships of \$35 are offered for Scandinavians, ten fellowships yielding \$400 each for graduates, three university scholarships (one of which is for women), one pharmaceutical, and ten honorary scholarships, each yielding \$150.

Equipment: The college grounds cover 240 acres on the former site of Camp Randall adjoining Lake Mendota. Besides the university library there are special collections of French literature, law and astronomy, and students have access to the Law and State Historical libraries of Madison. The laboratories number more than one dozen. The museum contains collections of geology, biology and zoölogy and there is a herbarium with a rich collection of the plants of Wisconsin. The Washburn Observatory is equipped with a fifteen and one-half inch telescope. An armory and gymnasium, measuring two hundred by one hundred feet, together with athletic grounds, provide for physical exercise together with a smaller gymnasium in Ladies' Hall.

Societies and Publications: The university issues series in engineering, economics, philology and literature. The agricultural station and observatory have published seventy such volumes. The students among other periodicals publish the "Trochos" and "Badger," and maintain the following societies: Athenæan, Hesperian, Philomathean and Phœnix, (for men), Castalian and Laurean (for women), Bildungs Verein, Nova Semlog, with clubs of Biology, Mathematics and Chemistry. Three societies are incorporated in the law department, with others in the agricultural department, and there are two Christian Associations and an Athletic Association, with football, baseball, track and other teams as well as crews. Chapters have been organized of: Φ Δ Θ, 1857; Β Θ Π, 1873; Φ Κ Ψ, 1875; Χ Ψ, 1878; Κ Κ Γ, 1875; Δ Γ, 1881; Σ Χ, 1884; Δ Τ, 1885; Γ Φ Β, 1885; Δ Τ Δ, 1879; Φ Γ Δ, 1882 and Α Τ Ω, 1888.

The graduates number more than 5,000 of whom the oldest is Levi Booth, 1854, of Denver, Col.

INCOME, \$34,000	STUDENTS, 796	INSTRUCTORS, 25	BUILDINGS, 4	BOOKS, 18,000
---------------------	------------------	--------------------	-----------------	------------------

The university was organized in 1866, and the cornerstone was laid in 1868. An endowment was secured in 1869, and the following year the collegiate department and medical school began instruction. A preparatory school was added in 1872, and normal and graduate courses followed in 1882.

The trustees number thirty. Admission is by examination. Classical, philosophical, and literary courses, with elective studies in the last two years, lead to degrees of A.B., B.S., and B.L., with masters' and doctors' degrees after prescribed graduate study. Attendance at chapel is compulsory. The expenses for the year, lasting from September 11 to June 13, are \$160. Many scholarships are offered to deserving students, with prizes ranging from \$25 to \$90 for excellence in study and debate.

The college grounds cover twenty-one acres, with an adjoining athletic field. The university buildings, standing on high ground in an old oak grove of twenty-one acres, include a chapel, observatory, and gymnasium. The students maintain three literary societies: the Athenae and Irving (for men), the Willard (for women), besides the Lowell and Orio in the academy, two Christian Associations, a Mission Band, and an Athletic Association, with a baseball team and other athletic organizations. Chapters of the following fraternities have been organized: $\Phi K \Psi$, 1871; $B \Theta \Pi$, $\Phi \Delta \Theta$, 1872; ΣX , 1873; $K A \Theta$, $K K \Gamma$, 1875; $\Delta T \Delta$, 1879, $\Phi \Gamma \Delta$, 1882, and $A T \Omega$, 1888.

Of the 900 graduates, forty per cent are clergymen. The oldest alumnus is John C. Miller, 1871, of Winfield, Kan.

The university was chartered in 1886, and opened in 1887 with four courses. In 1891 the usual government appropriation of \$35,000 caused an agricultural college to be added. Ex-Governor Hoyt was president during the first three years, and was succeeded by A. A. Johnson, B.D., the present incumbent.

The university is governed by eleven trustees. Admission is on certificate and by examination. Courses are offered in the classics, literature, philosophy, and the sciences leading to bachelors' and masters' degrees; and there is a Normal School, a School of Mines and Mechanic Arts, and an Agricultural College, all conferring appropriate degrees. Attendance at chapel is voluntary, but military drill is required of all able-bodied male students.

The college grounds cover twenty acres, and include a university farm. The students maintain the Olympic, Lowell, and University societies, a Mock Senate, with Alumni, Christian, and Athletic associations. Secret societies are not allowed by the faculty. The graduates number twenty-five, of whom William H. Bramel, 1891, of Salt Lake City is the oldest.

History: The school was founded as Fayette Seminary by G. W. Alexander, and took its present name in 1857. A charter was granted in 1862, when the first college class was graduated. The principals and presidents have been: Rev. William H. Poor, 1857-1858; L. H. Bugbee, A.M., D.D., 1858-1860; William Brush, A.M., D.D., 1860-1869; Rev. C. M. Stowers, A.M., 1869-1870; Rev. B. W. McLean, 1870-1871; Rev. R. Norton, 1871-1872; J. W. Bissell, A.M., D.D., 1872 to the present.

Organization: The university is governed by thirty trustees. Admission is on certificate and by examination. Negroes are admitted. A classical, Latin-scientific, and scientific course lead to degrees of A.B., B.S., and B.Ph. The master's degree is conferred after three years of graduate study. In the first two years all studies are prescribed. In the junior year one-third, and in the senior year two-thirds of all studies are elective. Attendance at chapel is compulsory, but gymnastics and military drill are elective. Expenses for the year, from September 1 to June 10, are \$125. Prizes of \$25 and \$50 are given for debate and oratory, besides declamation prizes in the academy. The college grounds cover ten acres. The museum of natural history is well-equipped with specimens from the State of Iowa.

The students publish the "Fayette Collegian," and maintain the following literary societies: Zetagathean, Philomathean, Zeta Alpha, and the Aeonia, Oratorical and Christian associations, a Mission Band, Ladies' Professorship Association, and an Athletic Association, with baseball team and tennis club. The Alumni Association consists of graduates who have contributed \$100 to endow a chair of biology. Of the 280 graduates, 250 are living.

The college was chartered in 1869, and opened in 1870. In 1881 women were admitted and a building on a separate lawn of four acres was erected for them. The entire college grounds cover twenty-eight acres. The directors, of whom five are alumni, number twenty-one.

Admission is by examination and on high school and academy certificates. The courses of study are the classical, Latin, Latin-mathematical, scientific, and in modern languages, all leading to the degree of A.B. The School of Theology confers the degree of B.D. All these studies are largely elective. Attendance at chapel is compulsory. Expenses for the year, lasting from September 17 to June 20, aggregate \$150. Fourteen scholarships, on the interest of \$1,000 each, are annually available. A four-year tuition scholarship, three oratorical prizes, and tuition for one graduate from each high school of the state are also offered.

The students maintain the Zwinglian and Schaff societies, two Christian Associations, the Olevian for women, and the Ehrhard for Germans. Of the 300 alumni, 280 are living, not including seventy-three honorary alumni.

Cornelius Vanderbilt in 1873 gave \$1,000,000 to which W. H. Vanderbilt, his son, added \$300,000, besides buildings. The presidents have been L. C. Garland, 1875-1893 and J. H. Kirkland, his successor. The government of the university is vested in nineteen trustees, with eleven *ex-officio* members. Admission is by examination. Negroes are excluded. A collegiate curriculum, with courses in the sciences, engineering, mechanical arts, law, medicine, dentistry and pharmacy, lead to degrees of A.B., B.S., B.L.L., B.D., B.B., C.E., M.E., Min.Eng., Ph.Ch., M.Ph., Ph.G., M.D., and D.D.S., besides masters' and doctors' degrees after graduate study. Gymnastics is compulsory as is attendance at chapel, with certain restrictions.

Dues, Scholarships, and Prizes: Tuition is \$85 for the year, lasting from September 17 to June 16, with other expenses aggregating \$125. Eleven medals are offered for excellence in study, besides ten teaching scholarships, yielding \$150 each; ten fellowships of from \$200 to \$500; nine scholarships, equivalent to tuition, and two prizes of \$50 and \$100. A loan fund offers loans of \$850 a year. In the biblical department a \$300 fellowship and two prizes are offered, in the law school two scholarships equivalent to tuition; and in the medical college a Founder's Medal of gold is annually awarded.

Equipment: The university grounds cover eighty acres, including an athletic field. Among the thirty odd buildings the most noteworthy are University Hall, Science Hall, containing museums and laboratories of geology and engineering; Wesley Hall, for the Biblical Department, the Astronomical Observatory, gymnasium, dining-hall, and eight dormitories, with many professors' dwelling houses.

Societies and Publications: The students publish the "Hustler," (a weekly), the "Observer," (a monthly), and the "Comet," (an annual). The literary societies are the Philosophic and Dialectic, which are recognized as supplemental to the university course. In addition to

these there are numberless social, dining, and educational societies besides two Christian Associations, a Missionary Society, Alumni Association and an Athletic Association, with football, baseball, and other athletic teams and clubs. Chapters of the following fraternities have been organized: $\Phi \Delta \Theta$, $K \Sigma$, 1876; Rainbow, 1879, united with $\Delta T \Delta$ in 1886; $K A$, 1883, $X \Phi$, 1883; $B \Theta \Pi$, 1884; ΣN , 1886; $\Sigma A E$, 1879; and $\Delta K E$, 1890.

The graduates number 3,000.

INCOME,	STUDENTS,	INSTRUCTORS,	BUILDINGS,	BOOKS,
\$240,543	558	54	9	23,000

The college was founded in 1861 by Matthew Vassar, and received its charter in the same year. The first buildings were erected during the war. The college was opened in 1865 with 350 students. The presidents have been: Milo P. Jewett, LL.D., 1861-1864; John H. Raymond, LL.D., 1864-1878; Samuel L. Caldwell, D.D., 1878-1885; J. Ryland Kendrick, D.D., acting president, 1885-1886; and James M. Taylor, D.D., 1886 to the present.

Admission, Instruction, Degrees: Applicants for admission must be sixteen years old. The entrance examinations are the same for regular and special students. Required and elective studies are interspersed throughout the curriculum. Attendance at evening prayer and gymnastic exercise is compulsory. The degrees are A.B., A.M., and Ph.D., the last two after graduate study only, and degrees in music are conferred. The expenses for the year, are \$400. A fellowship of \$400 is annually awarded, besides seven graduate scholarships, equivalent to board and tuition for one year. The funds for scholarship and loans aggregate \$184,000.

Equipment: The college grounds cover four hundred acres including a college lake. The total endowment is \$1,018,000. The college buildings include the Main Building, containing the offices, class rooms, chapel, parlors, dining-room, rooms for students and officers; Thompson Library, attached to the main building; Observatory; Laboratory of Physics and Chemistry; museum containing the collections of natural history, art galleries, music rooms, mineralogical and biological laboratories; the Alumnae Gymnasium; the new hall for residence for one hundred students; lodge; residences for professors; conservatory; boiler house; gas house; and farm houses.

Societies: The most important organizations among the students are the Students' Association, Philalethean Society, Dramatic Club, Young Women's Christian Association, and Athletic Association.

The graduates number nearly one thousand, while the non-graduates number three thousand. Of the graduates fifty-four took the doctor's degree.

The college was founded in 1832 and received its charter in 1834. In the following year a campus of four acres was obtained, and in 1838 the first two students were graduated. The presidents have been: Elihu Whittlesey Baldwin, D.D., 1834-1840; Charles White, D.D., 1841-1861; Joseph Farrand Tuttle, D.D., LL.D., 1862-1892; George Stockton Burroughs, Ph.D., LL.D., 1892 to the present. The school is governed by twenty-one trustees. Admission is by examination. The degrees are A.B., B.S., and B.Ph. Attendance at chapel is compulsory. The expenses for the year, from the third Tuesday in September to June 17, are \$160. Five funds have been established from the interest on which loans can be made to deserving students, and there are several annual scholarships and fellowships besides five prizes for composition and oratory. The college museum contains a good collection of natural history.

The students have published a monthly literary journal since 1857, and the seniors issue the "Wabash" an annual. Among the societies are the new Calliopean, (a natural history society), Oratorical Association, Y. M. C. A., an Athletic Association, and chapters of B Θ Π, 1845; Φ Δ Θ, 1851; Φ Γ Δ, 1866; Φ Κ Ψ, 1870; Δ Τ Δ, 1872-1879; Θ Δ Χ, 1879-1882; and Σ Χ, 1880. Of the 710 graduates nearly six hundred are living. The North Carolina Legislature in 1833 granted a charter to the Wake Forest Institute, on the strength of which 615 acres, covered with magnificent oaks were secured. Instruction was begun in 1838. The presidents have been: Rev. Dr. Waite, 1834-1846; William Hooper, 1846-1849; John B. White, D.D., 1849; W. H. Owen, President *pro tem.*, 1852; W. M. Wingate, D.D., 1854; T. H. Pritchard, D.D., 1879; and C. E. Taylor, D.D., 1883.

In 1883, after a long period of depression, lasting since the Civil War, the college endowment reached a total of \$100,000, which has since been increased to \$200,000.

The trustees number thirty-seven. Admission is by examination. Negroes are excluded by a special provision of the charter. Instruction is given in law as well as in collegiate branches, leading to degrees of A.B., B.L.L., and A.M. Attendance at chapel and military drill is compulsory. The college fees are \$70, for the year, lasting from August 26 to the last Thursday in May. Other expenses aggregate \$100. Six gold medals are annually awarded for excellence in study, and small loans are made from the income of \$1,400. The campus covers thirty acres.

The students maintain the Philomathesian and Euzelian, which award medals for debate, a Scientific Society, a Historical and Economic Club, Minstrel Band, Christian Association and Athletic Association. A chapter of K A existed from 1880 to 1890, but Greek letter fraternities are now forbidden. The "Student" is published. Of the 545 graduates, the oldest is the Hon. H. B. Falk, 1849, of Brownsville, Tenn.

Ten years after Western Pennsylvania was first colonized an effort was made to found a college. Instruction at the older school was finally begun in 1802. Two colleges bearing the names of Washington and Jefferson were maintained until 1865, when a gift of \$50,000 led to their amalgamation, and their location at Washington in 1869. The joint institution is governed by thirty-one trustees.

Admission is by examination and on certificate. The studies are classical, Latin-scientific and scientific, with elective studies in the last two years, leading to degrees of A.B., B.S., and A.M., the last after graduate study. The expenses for the year, lasting from September 11 to June 17, are \$165. The students maintain two literary societies: the Franklin and Washington, and the Philo-Union, owning two halls, a Christian Association and an Athletic Association,

with baseball and track teams. Chapters have been organized of: $\Phi \beta \kappa$, $\beta \Theta \Pi$, 1842; $\Phi \Gamma \Delta$, 1848; $\Phi \kappa \Psi$, 1852, $\Phi \kappa \Sigma$, 1854; ΣX , (Jefferson) 1858-1870, (Washington), 1859-1863; $\Delta \kappa E$, 1858-1865; $\Delta \Upsilon$, 1858-1870; $\Delta T \Delta$, 1861; $\Theta \Delta X$, 1869-1872; $\Phi \Delta \Theta$, 1875; and $A T \Omega$, 1882.

Of the 3,700 graduates, some 2,000 are living. The oldest is the Rev. John L. Hawkins, 1818, of Fort Scott, Kansas.

History: Washington Academy was chartered in 1782, as the successor of three academies, the oldest of which, Liberty Hall, dated from 1743. George Washington in 1798 endowed it with one hundred shares in the James River Company, the proceeds of which, some \$50,000, now yield six per cent. In 1804 buildings were erected on the present site of seventy-five acres. General Robert E. Lee of Confederate war fame was elected president in 1865, and after his death and burial in the college chapel in 1870, the university took its present name. He was succeeded by his son, Gen. George Washington Custis Lee, the present incumbent. Other contributors besides George Washington have been: George Peabody, W. W. Corcoran, Thomas A. Scott, and Cyrus H. McCormick.

Organization, Scholarships, Degrees: The university is governed by fifteen trustees and one associate, and comprises an academic, engineering, and law department. No formal entrance examinations are held. The degrees are A.B., B.S., C.E., E.E., Min.Eng., B.L.L., and Ph.D. Attendance at chapel and military drill are not required. Tuition is \$80 for the year, lasting from September 10 to June 16. Other expenses aggregate \$100. A fellowship of \$500 a year is offered for special research, with nine university scholarships, equivalent to tuition and living expenses, forty alumni and six endowed scholarships, equivalent to tuition, and eight prize medals for commencement speeches.

Societies: The students maintain the Graham-Lee (dating from 1809), and the Washington Society (dating from 1812), with a Chris-

tian Association, and an Athletic Association. Chapters of the following fraternities have been organized: Φ K Ψ , 1855; Θ Π , 1856-1880; Λ T Ω , K A, 1865; Σ X, 1866; Σ A E, 1867-1886; Δ K E, 1867-1878; Φ Γ Δ , 1868-1878; Δ Ψ , 1869-1888; Θ Δ X, 1869-1874; K Σ , 1873; X Φ , 1872-1878; Σ N, 1882; Φ Δ Θ , 1887; Π K A; Φ K Σ ; and Θ N E.

The college was established by an act of the state legislature in 1782, as a part of the proposed University of Maryland. General Washington consented to the assumption of his name, contributed to its endowment, and visited it in 1784. Its immediate predecessor was an academy dating from 1723, into which the Free School of Charlestown had been merged. The original college, built in 1783, was destroyed by fire in 1827, and lectures were given in private houses of the town until the present central building was erected in 1844. No degrees were conferred from 1827 to 1849.

The college is governed by twenty-three trustees. Students are admitted from public schools, and are allowed to make up deficiency in Greek after entrance. Two parallel courses in the classics and the sciences lead to the degree of A.B. The master's degree is conferred after one year of resident graduate study. Attendance at chapel is compulsory. The expenses for the year, lasting from September 16 to June 16, are \$180. One woman from each county on the eastern shore of Maryland is entitled to a scholarship equivalent to tuition, and general scholarships are annually awarded to two students from each county throughout the State. Five prizes are annually distributed for excellence in study.

The students maintain the Mount Vernon Society (dating from 1847), the Philomathean (of recent origin), and the Pieria for women, with Christian and Athletic organizations. Secret societies are for-

bidden. Of 160 graduates since 1849, 135 are living. The oldest of these is Eben E. Perkins, 1849, of Chestertown, Md.

History: This school was founded as Martin Academy under a charter from North Carolina in 1783, thirteen years before Tennessee became a state. It was the first institution of higher learning in the Mississippi Valley. The founder, who had charge of the school for thirty-five years after his graduation from Princeton College under Witherspoon, was the Rev. Samuel Doak. The college was chartered and took its present name in 1795. Its hundredth anniversary was celebrated two years ago, on its reopening after two suspensions of many years. The presidents have been: Dr. Samuel Doak, 1783-1818; Rev. John W. Doak, M.D., 1818-1820; Rev. John V. Bovell, 1820-1828; Rev. James McLin, 1829-1838; Dr. S. Doak (second term), 1838-1840; Joseph I. Foote, 1840 (killed on his way to inauguration); Rev. Archibald A. Doak, 1840-1850; Rev. E. T. Baird, 1850-1852; Rev. A. A. Doak (second term), 1852-1856. Suspended until 1868, when it was reorganized as a female college, under Rev. W. B. Rankin. After second suspension Rev. J. E. Alexander took charge and re-organized it as a co-educational school. He was succeeded in 1883 by J. W. C. Willoughby, the predecessor of the present incumbent.

Organization: The trustees number twenty-one. Admission is by examination or on the certificates of certain incorporated high schools. Three courses of study offering elective courses during the last year, lead to degrees of A.B., B.S., and B.L. The expenses for the year, lasting from August 25 to May 6, are \$100. Attendance at chapel is compulsory.

The students maintain the Utopian and Phionomian societies (for women), the Calliopean and Philadelphian (for men), with Christian and Athletic Associations. A chapter of $\Phi \Gamma \Delta$ was maintained in 1852 but lasted only one year.

Washington University was founded by Dr. William G. Eliot in 1853, and was opened by Edward Everett in 1857. An academy had been in operation for three years previous to this. The college dates from 1859, the Law School from 1862, the Polytechnic and Engineering School from 1870, the Art and Training School from 1879, the School of Botany from 1885, the Medical College, founded in 1842, became part of the university in 1891, while the Dental College dates from 1892. Under the same charter have also been organized: Smith Academy, St. Mary Institute, and the Normal School. The university recently purchased a lot of ground, four and a half miles further west, on the edge of the city. The chancellors have been: Joseph G. Hoyt, LL.D., 1859-1862; William Chauvenet, LL.D., 1862-1868; Dr. William G. Eliot, 1868-1887. The chancellorship was vacant until 1891 when Winfield S. Chaplin, the present incumbent was elected. The university is governed by seventeen directors, and nine associates to the board.

Admission, Instruction, Degrees: Admission is by examination only. Four of the required subjects at least must be taken at the first examination, but the other requirements may be passed in the course of one or two years. After the sophomore year all studies are elective. Attendance at chapel is not compulsory. Military drill is required only in the preparatory department. The degrees are A.B., B.S., in the collegiate course; C.E., M.E., E.E., Min.Eng., M.S., and A.M. after one year of graduate study; LL.D., M.D., D.M.D., and Ph.D. after further professional and graduate study.

Dues, Scholarships, and Prizes: Tuition is \$150 for the year, lasting from September 18 to June 18. The total expenses range from \$375 to \$500. One perpetual scholarship, on the income of \$5,000, has been placed at the disposal of the Mercantile Library Association of St. Louis. Three further scholarships, equivalent to tuition in the Engineering School, are held by the school boards of the City High School and of Kansas. Twenty scholarships, also equivalent to tuition, are available for children of Union soldiers. A fund of \$10,000 has been established to aid deserving students, and four prizes, from \$10 to \$15, for declamation are annually awarded. Other scholarships and fellowships, as well as prizes, are awarded in the professional schools.

Societies and Publications: The students publish "Student Life," and maintain numerous social, literary, professional, religious, and athletic organizations, and among them chapters of $\Phi \Delta \Theta$ and $\Sigma \Lambda \Xi$. Extinct chapters are $B \Theta \Pi$, 1869-1879, and $\Phi \Delta \Phi$, 1882. The graduates number more than 3,100.

WELLESLEY COLLEGE.

Wellesley, Mass.

Women.

Non-Sectarian.

INCOME, \$222,950	STUDENTS, 788	INSTRUCTORS, 73	BUILDINGS, 12	BOOKS, 46,000
----------------------	------------------	--------------------	------------------	------------------

Wellesley College, founded by Henry F. Durant, was established in 1875 to give university instruction to women. The presidents have been: Alice E. Freeman, 1882-1887; Helen A. Shafer, 1888-1894; and Julia J. Irvine, since 1895.

The college is governed by seventeen trustees, and includes an academic and art department with a school of music. The four years' curriculum is prescribed. Degrees of A.B., and B.Mus. are conferred, and a diploma is given for studies in art. The degree of A.M. is conferred after one year of resident graduate study. Attendance at chapel and gymnastic exercise is compulsory. The expenses for the year, lasting from the middle of September to June 24, are \$400. Fifty scholarships are annually available, forty of which are on the income of \$5,000 each. The tuition fee of \$150 is remitted to all graduate students, and smaller sums are distributed by the Students' Aid Society in cases of need. In all \$7,563 is thus annually disbursed.

Equipment: The college grounds, which include a lake, cover three hundred acres, and are ten miles from Boston and Harvard University. The main hall contains a chapel with handsome windows, and a library of rare volumes. A new building for chemistry has recently been erected, containing physical, chemical, biological and geological laboratories. The Farnsworth Art Building, which was erected in 1889, contains an art gallery besides lecture-rooms, drawing-rooms, and studios.

Societies and Publications: The students publish the "Wellesley Magazine" and "Legenda" (a senior annual). The societies are: the Beethoven Society, the Shakespeare Society, formed in 1876, the Phi Sigma and Zeta Alpha, Tau Zeta Epsilon, Agora, the object of which is to promote an intelligent interest in political questions, and the Classical Society, besides a glee club and class crews. Of some 1,200 graduates, 1,175 are still alive.

WELLS COLLEGE.

*Aurora, N. Y.**Women.**Non-Sectarian.*

INCOME, \$40,243	STUDENTS, 80	INSTRUCTORS, 21	BUILDINGS, 2	BOOKS, 6,000
---------------------	-----------------	--------------------	-----------------	-----------------

History and Organization: Wells Seminary was incorporated in 1868, changing its name to the present in 1870. The first building fully equipped and surrounded by twenty acres was given by Henry Wells. In 1888 this building was destroyed by fire. Edwin B. Morgan, in 1873, gave \$200,000 more and in 1875 Mr. Wells added twelve acres and another building. In 1879 Mrs. Morgan gave Morgan Hall. The preparatory department was abolished in 1894. After 1875 the Rev. Edward S. Frisbie was president until recently. The trustees number seventeen.

Admission, Instruction, Degree: Admission is by examination and on Regents' certificates. Elective courses are interspersed throughout the curriculum. Attendance at chapel and gymnastic exercise is compulsory. The degree of A.B. is conferred. The expenses for the year, lasting from September 18 to June 10, are \$400, and special diploma fees are charged. Graduate students pay \$300 a year. A limited number of scholarships are offered, yielding sums from \$30 to \$100.

Equipment: The college grounds cover twenty acres and include a lake. A new building has been erected in the place of the one that was burnt. This is the main hall, containing a chapel, lecture rooms and the society halls. Morgan Hall contains all laboratories, and the musical conservatory.

Societies: The students maintain the Phoenix Literary Society, a Social Science Club, College Settlements, a Mission Band, Christian Association, Guild, Athletic Association and a Boat Club.

WESLEYAN UNIVERSITY.

*Middletown, Conn.**Co-Educational.**Methodist.*

INCOME,	STUDENTS,	INSTRUCTORS,	BUILDINGS,	BOOKS,
\$90,451	300	33	10	43,000

History and Organization: Wesleyan, founded in 1831, is the oldest college supported by the Methodist Church. It was founded for the purpose of providing an educated ministry, but the increasing demands of other professions has reduced the number of graduates entering the ministry to seventeen per cent.

The college is governed by fifty-three trustees. A conference committee of four members of the faculty and ten students has charge of all disciplinary matters. Admission is by examination. Three courses: the classical, Latin-scientific, and scientific, with elective courses in all but the first year, lead to degrees of A.B., B.S., and B.Ph., with A.M., and M.S. after graduate study. Thirteen of the fifteen departments give graduate instruction. Attendance at chapel is compulsory.

Dues, Scholarships, and Prizes: Tuition is \$75 for the year, lasting from September 26 to June 24. Other expenses including library, laboratory, and diploma fees, aggregate \$150. Besides a limited number of scholarships equivalent to tuition, there are three \$100 scholarships, with twenty-three prizes. In addition to this a fund of \$12,000 a year has been established for the aid of deserving students.

Equipment: The college grounds cover fourteen acres. Among the ten college halls, the most notable is old North College, dating from the foundation of the college. In the rear of the campus are two athletic fields and the Fayerweather Gymnasium, which is claimed to be the best in New England. The astronomical observatory contains a twelve-inch telescope. The museum contains good collections of natural history and ethnography, with 150,000 specimens, 90,000 of which are molluscs and shells, with 10,000 plants and 5,000 coins. The total endowment of the college exceeds one million dollars.

Societies and Publications: The students publish the "Argus," "Lit," and the "Ollapod," and maintain eight class literary societies, Oratorical Society, Christian Association, Glee and Mandolin Club, Athletic Association, with football, baseball, and track teams, and chapters of the following fraternities, most of which have chapter houses: Φ B Φ, 1836; Mystical Seven, 1837-1865, united with Β Θ Π, 1889; Φ N Θ, 1837; Ψ Υ, 1843; Χ Ψ, 1844; Δ Υ, 1850-1852; Θ Δ Χ, 1857-1863; Δ Κ Ε, 1867, and Κ Α Θ, 1883-1885.

INCOME, \$11,000	STUDENTS, 275	INSTRUCTORS, 10	BUILDINGS, 4	BOOKS, 3,000
---------------------	------------------	--------------------	-----------------	-----------------

History: The first steps towards founding Western College were taken by the Iowa Annual Conference of the church of the United Brethren in Christ, held at Muscatine, in August, 1855. The school was located at Western, Linn County, on February 11, 1856, and was incorporated under the laws of the state in the following month. The college was moved to Toledo in 1881, and the new building was occupied in 1883. On Christmas night of 1889, the main college building, with all its contents, except the library, burned to the ground. This building has since been replaced by another. The presidents have been: Rev. Solomon Weaver, 1856-1864; Rev. William Davis, 1864-1865; W. M. Bartlett, A.B., 1865-1867; H. R. Page, (fall term), E. C. Ebersole, A.M., 1867-1868; E. B. Kephart, A.M., D.D., 1868-1881; W. M. Bearashear, A.M., D.D., 1881-1889; J. S. Mills, Ph.D., D.D., 1889-1892; A. M. Beal, A.M., D.D., 1892-1893; G. A. Funkhouser, D.D., 1893-1894; Lewis Bookwalter, A.M., D.D., 1894 to the present.

Organization: The college is governed by a corporation of twenty-four members, three of whom are alumni, while the others are divided among six different conferences. Admission is on certificate and by examination. Three courses lead to degrees of B.A., B.Ph., and B.S., with master's degrees after one year of resident graduate study. Attendance at chapel is compulsory. The expenses for the year, lasting from September 16 to June 17, are \$125.

College Adjuncts: The college grounds cover thirteen acres, comprising a large church and gymnasium with athletic field. The societies are the Philophronean, Alphanean, Young Men's Institute, Cyclomathean, Athenæum and Calliopean, the last two of which are for women, with two Christian Associations and an Athletic Associa-

tion with baseball and football teams. The graduates number 200, of whom the oldest is the Rev. W. T. Jackson, 1864, of Emmetsburg, Iowa. The College "Era" is published.

The college was founded in 1867, on a site one thousand feet above tide water. It is governed by thirty-three trustees. Though the school has been co-educational from its beginning, the two departments for men and women are kept strictly separate. Admission is by examination. One course of four years leads to the degree of B.A., with that of M.A., after three further years of graduate study. The expenses for the year, from the second Monday in September to the third Thursday in June, are \$200. Scholarships covering all expenses are available for one student from each senatorial district of the state.

The principal building, commanding a picturesque view, has front and flanking towers with covered porches running along its entire length. The literary societies are the Irving and Webster (for men), and the Browning and Philomathean (for women). Two Christian Associations and an Athletic Association are also maintained. Of the 315 graduates since 1871, the oldest is Wm. S. Crowe, 1871, of St. Michael's, Md.

*Cleveland, Ohio.**Co-Educational.**Non-Sectarian.*

INCOME, \$120,000	STUDENTS, 920	INSTRUCTORS, 110	BUILDINGS, 15	BOOKS, 50,000
----------------------	------------------	---------------------	------------------	------------------

History: The university was founded in 1826 as the Western Reserve College at Hudson, Ohio, and was moved to Cleveland in 1882 after Amasy Stone's gift of \$600,000. The Medical School was established in 1843; the College for Women in 1888, opening in 1892, in which year the Dental, Law, and Graduate Schools were likewise added. The Preparatory School has remained in the old college buildings at Hudson. The presidents have been: the Revs. Charles Backus Storrs, 1830-1833; George Edmond Pierce, D.D., 1834-1855; Henry Lawrence Hitchcock, 1855-1871; Carroll Cutler, D.D., 1871-1886; Hiram Collins Haydn, D.D., LL.D., 1887-1890; Charles Franklin Thwing, D.D., LL.D., 1890 to the present time.

Organization: The university is governed by thirty trustees, and comprises Adelbert College, the College for Women, Graduate School, Medical and Dental College with a Law School and Preparatory Department, each with its separate faculty and equipment.

Admission, Instruction, Degrees: Admission is by examination and on the certificates of approved high schools. Elective courses are offered in the last two years. The degrees of Adelbert College and the College for Women are B.A., B.L., and B.Ph., with masters' degrees after one year of resident graduate study. The degrees of the other schools are B.L.L., M.D., and D.D.S. The degree of Ph.D. is conferred after a prescribed course of graduate study and a thesis. Attendance at chapel is compulsory, but not so gymnastic or military drill.

Dues, Scholarships and Prizes: The total annual charge for tuition for men and women is \$75. Other expenses for the year, lasting from the Thursday after September 18 to the Wednesday after June 17, are \$250. One annual prize of \$50 is offered to sophomores for excellence in study, and five similar prizes, ranging from \$20 to \$30 are open to freshmen. Two prizes of \$30 and \$60 are offered for the best philosophical essays, and the income of \$2,000 for general excellence, and that of \$1,000 for research in American History, as well as a loan fund for deserving students.

Societies and Publications: The students issue the "Reserve" "Amulet" "Transcript" "Occidental" and "Folio," the last of which is published by women. Among the societies are a Debating, French, Greek, Dramatic and Present Day Club, several literary societies, two Christian Associations and an Athletic Association, with football, baseball, track and other teams and athletic clubs. Chapters of the following fraternities have been organized: ΦΒΚ, ΑΔΦ, ΒΘΠ, 1841; ΔΥ, 1865; ΔΚΕ, 1868; ΦΓΔ, 1876; ΔΤΔ, 1882; ΔΓ, 1883-1888.

Of the 4,000 alumni the oldest is Dr. Dudley Allen, 1832, of Oberlin, Ohio.

WESTERN UNIVERSITY OF PENNSYLVANIA.

*Allegheny, Penn.**Co-Educational.**Non-Sectarian.*

INCOME, \$60,000	STUDENTS, 583	INSTRUCTORS, 128	BUILDINGS, 8	BOOKS, 16,000
---------------------	------------------	---------------------	-----------------	------------------

History: The Western University was originally founded as the Pittsburgh Academy, and was incorporated under this name in 1787. It is the second oldest institution of higher learning west of the Appalachians. In 1819 it was re-incorporated as the Western University of Pennsylvania. The original college buildings were destroyed by the great fire in 1845, which wiped out the greater part of Pittsburgh; and were again destroyed by fire in 1849. After having been rebuilt they were sold to Allegheny County for temporary use as a courthouse in 1881. During this time the collegiate department and engineering school were temporarily located on North Avenue, Allegheny, in buildings of the United Presbyterian and Reformed Presbyterian Theological Seminaries. The present buildings are located upon the campus originally acquired in 1869, at the time the Allegheny Observatory became the property of the Western University of Pennsylvania. Since its reincorporation the presidents have been: Robert Bruce, D.D., 1819-1835; Rev. Gilbert Morgan, 1835-1836; Robert Bruce, D.D., 1836-1843; Heman Dyer, D.D., 1843-1849; D. H. Riddle, D.D., 1849-1855; John F. McLaren, D.D., 1855-1858; George Woods, LL.D., 1858-1880; Milton B. Goff, A.M., 1880-1881; Henry M. McCracken, D.D., LL.D., 1881-1884; Milton B. Goff, LL.D., 1884-1891; W. J. Holland, D.D., Ph.D., LL.D., 1891 to the present time.

Organization: The university at present consists of the following departments: the College, Engineering School, Western Pennsylvania School of Mines and Mining Engineering, Allegheny Observatory, all four located on the campus in Allegheny; the Western Pennsylvania Medical College, connected with which are the Reineman Maternity Hospital and the Emma Kaufmann Clinic, located on a site immediately contiguous to that of the Western Pennsylvania Hospital, Brereton Avenue and 30th Street, Pittsburgh; Law Department, temporarily located in the Allegheny County Court House; Pittsburgh College of Pharmacy, corner of Bluff and Pride Streets, Pittsburgh; Pittsburgh Dental College, located in the McNally Building, 711 Penn Avenue, Pittsburgh.

Admission, Instruction, Degrees: Admission is by examination, and provisionally upon certificates. In the college classical, scientific, and Latin-scientific courses lead to degrees of B.A., B.Ph., B.S., with further degrees of C.E., E.E., M.E., Min.Eng., B.L.L., M.D., Ph.C., P.D., and Phar.M. granted by the professional schools. Degrees of M.A., M.S., and Ph.D. are given after one and two years of graduate study. Attendance at chapel is compulsory in the college but not in the professional schools. Gymnastic drill is optional, and negroes are freely admitted.

Dues, Scholarships, and Prizes: Tuition is \$100 for the year, lasting from September 14 to June 17. Total expenses are \$280. Of five scholarships, equivalent to tuition and more, three are for the descendants of Union soldiers. Free tuition is also given to twelve college students for merit shown in the freshman year. Three prizes of \$50 and \$25 are annually awarded for oratory, with two other prizes of \$15 and \$25, in the second year, for excellence in English literature.

Equipment: The college grounds cover fourteen acres. Of the eight college buildings, several are dormitories. The natural history department has the best collection of specimens from Pennsylvania, and the herbarium is the largest in the state. The astronomical observatory has become distinguished by the researches in solar physics conducted by Professor Langley.

Societies and Publications: The literary societies publish the "Western University Courant," and the "West Penn'a Clinic." Among many social, religious, dramatic, musical, and other organizations, the students maintain a Scientific and Electrical Club, two Christian Associations, glee, mandolin, and banjo clubs, and an Athletic Association, with football, baseball, and track teams, as well as tennis clubs and other athletic organizations. Chapters of the following fraternities have been organized: $\Phi \Gamma \Delta$, 1863-1870, and $\Delta T \Delta$, 1864-1879.

The college was organized in 1855. Instruction was suspended during the Civil War, which left the college with only \$30,000 of its

originally large endowment. This amount has since been increased to \$200,000. Dr. W. W. Robertson has presided over the institution from its foundation until his death in 1894.

The college is governed by twenty-one trustees. Admission is on certificate and by examination. Attendance at chapel is compulsory. The degrees are A.B., B.S., and B.L., with that of Ph.D. after a year of resident study. The expenses for the year, from September 12 to June 11, are \$170. The societies are the Philologic and Philathlean, with Christian and Athletic Associations. Chapters have been established of: $\text{B } \Theta \text{ } \Pi$, 1863; $\Phi \Delta \Theta$, 1880 and $\text{K } \Lambda$, 1890. In the vicinity of the college is the Women's College of Missouri.

The university was established by act of legislature in 1867 as the West Virginia Agricultural College, afterwards taking its present name. It is governed by nine regents, and comprises four colleges. To wit: the academic, with a special department of medicine; the agricultural; the college of law, and the engineering college; with five schools of physical training, military instruction, commercial branches, pedagogy, and of preparatory instruction.

Admission is by examination, and on the certificates of state schools. The curricula of the various colleges and schools lead to degrees of B.A., B.S., B.L.L., M.A., and M.D.; B.A. and B.S. in Law; B.S. in Agriculture, Civil Engineering, Mechanical Engineering. Attendance at gymnastic exercise and military drill is compulsory for all able-bodied male students during the first two years, while attendance at one or the other is obligatory during the last two years. Attendance at chapel is voluntary. Tuition is free for all residents of West Virginia. Others pay from \$5 to \$12.50 per term. Special fees are charged for matriculation and diplomas. Other expenses aggregate from \$134 to \$204 for the year, lasting from September 11 to June 8. A regent's prize of \$25 is annually awarded to the best essayist.

The college grounds cover eighteen acres on the banks of the Monongahela River, besides which there is an experimental farm. Among the buildings the most notable is Commencement Hall, containing a chapel, gymnasium, and drill floor, while the Agricultural Station is one of the best-equipped in the country. In all \$250,000 has been expended on the buildings.

The "Athenæum" is published, and the students maintain two literary societies, the Parthenon and Columbian, which give annual prizes aggregating \$100; an Engineering Society, Christian Associa-

tion, an Athletic Association, with football, baseball, and track teams, and a boat club. Chapters have been organized of: K Σ , 1883-1886, and Φ K Ψ , 1890.

The college was founded in 1860, and is governed by twenty trustees, and an advisory board of twelve ladies. Since 1879 the college property has been free from debt. Admission is by examination, and on the certificates of eighteen schools of Illinois, eight of Indiana, ten of Michigan, four of Iowa and Wisconsin, and from single schools of Kansas, Kentucky, and Washington. Courses in the classics, sciences, literature, music, and art, as well as in normal and commercial branches, lead to degrees of B.A., B.S., and B.L. Masters' and doctors' degrees are conferred after graduate study, and the payment of special fees. The expenses for the year, lasting from September 17 to June 25, exceed \$100. The children of clergymen and missionaries do not pay for tuition. Six perpetual scholarships have been established, yielding incomes equivalent to tuition, incidental fees, and room-rent. Limited scholarships, covering tuition and incidental fees, can be purchased for \$30 per year.

Attendance at chapel and church is compulsory. Students are forbidden to leave town during term time, or their rooms during

study hours and at night time without permission. Billiards, cards, and other games of chance, as well as intoxicating drinks or tobacco, are strictly prohibited. Students are further forbidden to join secret societies, to propagate infidel sentiments, to enter the marriage relation, or to throw fire from the windows.

Connected with the college is a preparatory school, and a college printing-press. A woman's building is in process of erection. The students maintain the Beltionian Literary Association, founded in 1855 as the Philomathean Society; the Excelsior, founded in 1872; the Kreitonian, founded in 1892; the Philolethean, founded in 1893; the Aelionian, for women, and a Christian Association.

The graduates number 250.

History: The college was founded in memory of Marcus Whitman, the missionary, who went to the territory in 1836. By his famous ride across the continent, in 1842-1843, he saved Oregon for the United States, and on his return, led the first wagon-train of emigrants to the Pacific coast. He was killed by the Indians in 1847. The Rev. Cushing Eells, who had accompanied Whitman to Washington in 1838, but who had fled to the Willamette Valley, after Dr. Whitman's massacre returned to the ruined mission, at Waiilatpu, in 1859, and founded a school for both sexes, to perpetuate the work of his friend. A territorial charter was obtained in 1860, but the school was not opened as a college until 1883, when a new charter was obtained.

Organization: The college is governed by nine trustees, with an advisory board of twelve members. It is supported in part by the American College and Education Society of Boston. Admission is by examination and upon certificate, from accredited schools of the standard of Whitman Academy. Three courses in arts, literature and science, lead to degrees of B.A., B.L., and B.S. The master's degree is conferred after three years of graduate study. The expenses for the year, lasting from September 18 to June 12, are \$100,

of which \$48 are for tuition. Candidates for the ministry, and children of clergymen, pay half-rates.

The students maintain the Athenæum, and Alcott Debating Societies, for men and women respectively; an Oratorical Association, College Chorus, two glee clubs, Christian Association, and an Athletic Association, with a Basketball Club for women.

The graduates, since 1886, number seventy.

The university was organized in 1856 with Salmon P. Chase on its first board of directors. Its object is to give education to negroes. The first president was Dr. R. S. Rust. In 1863 Bishop Payne bought the college for \$10,000, and remained its president until 1876, to be succeeded by Bishop B. F. Lee, who served until 1884, when the present incumbent took charge. The college building was destroyed by fire in 1865, and was replaced by another immediately afterward. In 1896 the state gave \$100,000, and authorized an educational tax levy, which will yield \$17,500 a year for this school.

The university is governed by a board of trustees, and comprises besides the college, a musical conservatory, law school, normal, and industrial school, military school, and the Payne Theological Seminary, all of which departments confer appropriate degrees. Attendance at chapel is compulsory.

The students maintain several literary, social and religious associations. The graduates number 165, of whom 150 are living. The oldest is John P. Juniper, B.D., 1870, of Washington, D.C.

The university was founded in 1873 for the purpose of giving instruction to negroes, and is supported by the Freedmen's Aid and Southern Educational Society. It is governed by fifteen trustees. Admission is by examination and on certificate. The college course leads to the degree of B.A., while the normal course leads to that of B.Pe. Connected with the college are departments for preparatory, theological, and kindergarten instruction, as well as a musical conservatory and an industrial department, with a model school, workshops, and a printing press. Attendance at chapel is compulsory. The expenses for the year, lasting from October 1 to May 14, do not exceed \$100, of which \$10 or \$15 is for tuition. The students maintain two literary societies and two Christian Associations.

The college was chartered in 1853. The trustees number forty-five, of whom three are alumni. The university is situated on grounds covering twenty acres, fifty-two miles from Portland, where the medical department is located. The Theological Seminary dates from 1889. The university consists of colleges of oratory, music, art, theology, law, medicine, pharmacy and a preparatory school.

Admission is by examination. Degrees of B.A., B.Ph., and B.L. are conferred after a four years' curriculum, with masters' degrees after graduate study. A diploma of Scientific Didactics is conferred after the normal course. The courses of the first two years are prescribed, but in the last two years elective studies are offered. Tuition for the year, lasting from September 17 to June 16, is from

\$24 to \$40 a year, with additional fees in the medical and law departments. Attendance at chapel is compulsory. The use of tobacco or alcohol is strictly forbidden.

The university buildings, except those situated in Portland, are in the centre of the college campus. Most notable among the buildings is the Women's College, containing the conservatory of music and a new gymnasium, claimed to be one of the best on the Pacific Coast. The students publish the "Collegian," and maintain three literary societies: the Philodosian, Philodorian and Phil-musical, besides an Oratorical Association, Men's and Ladies' Athletic Clubs and two Christian Associations.

Of the 630 graduates, 580 are living. The oldest of these is T. H. Crawford, 1863, of Portland, Ore.

WILLIAM AND MARY COLLEGE.

*Williamsburg, Va.**Men.**Non-Sectarian.*

---------------------	------------------	--------------------	-----------------	-----------------

History: This college, which celebrated its two hundredth anniversary in 1894, in a sense ante-dates Harvard College, for its establishment was first proposed in a letter of King James I., in 1617, seventeen years before John Harvard came to America. King James' letter directed collections to be taken up in various parishes in England for the benefit of an Indian college to be located on Farrar's Island. The Indian massacre of 1622 spoiled this project. In 1660 and the two succeeding years, the project was taken up again, leading to an appropriation of 1,200 lbs. of tobacco a year, "for a colledge and free schoole to bring up each Indian hostage in English literature." In 1693 the college was chartered, under William and Mary of England, adopting their name. The charter granted to the college £1,985 14s. 10d. out of the quitrents; 10,000 acres on Blackwater Swamp, and 10,000 acres in Pamunkey Neck, between the forks of York River; the office of Surveyor-General, with all its issues and fees; a duty of one penny a pound on all tobacco exported from Virginia and Maryland; and the right to one Burgess in the House of Burgesses. In 1695 was given the charity of the Hon. Robert Boyle for the education of Indian youth. In 1705 the front and north wing of the college building was accidentally destroyed by fire. In 1718 an act of the general assembly granted £1,000 for scholarships in the college, which have since become extinct. In 1723 the Brafferton building for the Indian school was erected. In 1726 and 1734 acts of the assembly imposed duties on rum and other liquors for the support of the college. In 1729 the college was transferred to its present site, and soon the chapel and president's house were built. In 1759 an act of the general assembly imposed a tax on pedlers for the support of the college. After the buildings were constructed at Williamsburg the college was never moved, though several other sites had previously been decided upon. During the War of the Revolution instruction was suspended, following closely upon the foundation of the Phi Beta Kappa Society in 1776. In 1781, two years after the reorganization by Thomas Jefferson, and the first trial of the elective system in America, instruction had to be suspended once more, owing to the occupancy of the college buildings by French troops. During this time the president's house, built in 1732, was destroyed by fire, but was restored by King Louis XVI. In 1824 an ineffectual attempt was made to move the college to Richmond. In 1859, another of the college buildings was accidentally destroyed by fire, and in 1862, while instruction was suspended, the remaining buildings were burnt to the ground by the Federal troops, leaving nothing but the original walls. At the close of the Civil War, a decree of the English high court of chancery placed the free school of Mary Whaley, founded in 1706, under the care of the college,

which had in the same year been endowed with a scholarship fund, given by W. W. Corcoran. Instruction was suspended, for the third time, from 1881 to 1888, when new gifts and an amendment of the charter, providing for normal instruction, caused the reopening of the college. In 1893, on the occasion of the two hundredth anniversary, Congress indemnified the college for all losses sustained during the Civil War.

The chancellors, from the foundation until the present date have been: Henry Compton, Bishop of London; Thomas Tenison, Archbishop of Canterbury; William Wake, Archbishop of Canterbury; Edmund Gibson, Bishop of London; Thomas Sherlock, Bishop of London; Thomas Hayter, Archbishop of Canterbury; Charles Wyndham, Earl of Egremont; Philip Yorke, Earl of Hardwick; Gen. George Washington, President of the United States; John Tyler, LL.D., President of the United States; and Hugh Blair Grigsby, LL.D. The presidents with their respective terms of office have been: James Blair, A.M., D.D., 1693-1743; William Dawson, A.M., D.D., 1743-1752; Rev. William Stith, A.M., 1752-1755; Rev. Thomas Dawson, A.M., 1755-1761; Rev. William Yates, 1761-1764; Rev. James Horrocks, 1764-1771; Rev. John Camm, A.M., 1771-1777; Rt. Rev. James Madison, D.D., 1777-1812; John Bracken, D.D., 1812-1814; John Augustine Smith, M.D., 1814-1826; William H. Wilmer, D.D., 1826-1827; Rev. Adam Empie, 1827-1836; Thomas R. Dew, LL.D., 1836-1846; Robert Saunders, A.M., 1846-1847; Rt. Rev. John Johns, D.D., 1849-1854; Benjamin S. Ewell, LL.D., 1848 *pro tem.*, 1854-1888; Lyon G. Tyler, M.A., 1888 to the present.

Organization: The college is governed by a board of eighteen visitors. The teaching force consists of the president, the masters, professors, with instructors, assistants, and other officers. Admission is by examination and upon certificate. The elective system, inaugurated by Jefferson, is still adhered to. Two courses in the classics and normal branches, lead to degrees of A.B., B.Lit., M.A., and L.I. Negroes are not admitted. Attendance at chapel is compulsory, but not so gymnastics or military drill. Students are not permitted to go more than six miles from the college or to absent themselves from any lecture without special leave. Students are furthermore forbidden to play cards, or billiards, to game, visit bar-rooms, to keep or use fire-arms or intoxicating liquors, to make loud noises or create disturbances, to swear, to haze fellow-students, or to write upon the walls of buildings. The expenses for the year, lasting from the first Thursday in October to June 29, are \$165, \$35 of which is for tuition. Four scholarships, equivalent to yearly expenses are offered, besides many gold and silver prizes for excellence in study.

Equipment: The college grounds cover one hundred and fifty acres, of which ninety belong to the campus. Besides the main hall, there is the president's house, four dormitories, a model school, college inn, and an infirmary. The school is supported on a state appropriation of \$15,000 a year, besides its annual income of \$3,900, remaining from its old endowments.

Societies and Publications: The students publish the "William and Mary Magazine," a monthly, and a quarterly is issued by the college authorities. The societies are the Phœnix and Philomathean, an

Athletic Association, with football and baseball teams, an Alumni Association, besides chapters of Φ B K, 1776; Θ Δ X, 1853-1872; Σ A E, 1858-1861; Π K A, 1871-1878; B Θ Π , 1874-1877; K Σ , 1890; K A, 1890.

The college was founded in 1849 by the Baptists of Missouri. It is governed by a board of twenty-one trustees. Admission is by examination. Four courses of study lead to the degree of B.A. and to that of M.A. after graduate study. The school of theology, which is connected with the college, confers the degree of B.D. with other ecclesiastical degrees. The college curriculum consists of prescribed and elective studies arranged in the proportion of four to one. Attendance at chapel and at gymnastic drill is compulsory. The expenses for the year, lasting from the first Thursday of September to the second Thursday of June, are \$160, of which \$50 is for tuition. Ministerial students and sons of Baptist clergymen receive instruction free.

Among the college buildings, which are situated in a village of three thousand inhabitants, fourteen miles from Kansas City, is a modern gymnasium. Not far from the college is the Liberty Female College, which is likewise under the control of the Baptist denomination. The students maintain two literary societies, the Philomathic and Excelsior, with junior branches in the academic department, a Christian Association, and an Athletic Association, with a football team.

WILLIAMS COLLEGE.

INCOME, \$83,242	STUDENTS, 400	INSTRUCTORS, 29	BUILDINGS, 21	BOOKS, 38,000
---------------------	------------------	--------------------	------------------	------------------

History: Williams College was chartered as a Free School in 1775, after a bequest of land covering the site of West Township, by Col. Ephraim Williams. Owing to the War of the Revolution no further steps were taken until 1785, when the trustees resolved that "it is the sense of the corporation that the Free School be opened for the benefit of the inhabitants of that town and of the free citizens of the American States indiscriminately;" also that "it will best coincide with the liberal views of the donor and the intention of the legislature to admit no pupil to the Free School . . . not having been taught to read English well." The first funds, some £1,200, for buildings were raised by lottery. In 1792 the school was chartered as a college. On petition the legislature passed an act in 1796, granting the college two townships of land "in the district of Maine." It provided that the trustees "shall cause to be settled fifteen families in each township within twelve years; and that there be reserved in each township three lots of 320 acres each, one for the first settled minister, one for the ministry, and one for schools in each township." These lands were sold for \$10,000, and the proceeds devoted to building East College. Nine years later the college again appealed to the legislature for assistance, and received a grant of one township, and in 1809 another township "for further aid and the erecting of other buildings and sustaining a professor of the Oriental languages." The sum of \$9,500 was realized from the last two townships. In 1814 the legislature passed an act "for the Encouragement of Literature, Piety and Morality and the Useful Arts and Sciences," and appropriated the taxes due to the Commonwealth from the Massachusetts Bank, "for the ten years next to come," to Harvard, Williams, and Bowdoin. Of this fund Williams received "three sixteenth parts," \$30,000. In 1859 the state gave the college \$25,000, and in 1868, \$75,000. The total of these legislative gifts is \$153,500.

The various college buildings were built or rebuilt in the following order, and at the following cost: West College, 1790, \$11,700; East College, 1798, \$12,400, — burned in 1841, rebuilt 1842, \$7,000; South College, 1842, \$5,000; Griffin Hall Chapel, 1828, \$10,000; Hopkins Observatory, 1837, \$3,000; Lawrence Hall Library, 1846, \$7,000; Kellogg Hall, 1847, \$5,000; Jackson Hall, 1856, \$4,000; Alumni Hall Chapel, 1859, \$20,000; Goodrich Hall, 1864, \$25,000; College Hall, 1872, \$5,000; Clark Hall, 1882, \$25,000; Field Memorial Observatory, 1882, \$8,000; Morgan Hall, 1882, \$82,400; Lasell Gymnasium, 1886, \$50,000; Library Extension, 1890, \$10,000; Hopkins Memorial Hall, 1890, \$87,800; Thompson Chemical Laboratory, 1892, \$60,000; Thompson Physical Laboratory, 1893, \$60,000; Thompson Biological Laboratory, 1893, \$60,000; College Infirmary,

\$10,000. Total, \$568,300. During the last two years the so-called "honor system" of student self-government at examinations and in matters of college discipline has been given an extended trial at Williams College. The presidents have been: Ebenezer Fitch, D.D., 1793-1815; Zephaniah Swift Moore, D.D., 1815-1821; Edward Dorr Griffin, D.D., 1821-1836; Mark Hopkins, D.D., LL.D., 1836-1872; Hon. Paul Ansel Chadbourne, D.D., LL.D., 1872-1881; Franklin Carter, Ph.D., LL.D., 1881 to the present.

Organization: The corporate name of the college is The President and Trustees of Williams College. The trustees number sixteen, and by the terms of the charter are under the supervision of the Supreme Court of Massachusetts. In addition to this body there is a board of alumni visitors, who make an annual report, and a library council, which has supervision over the college library.

Admission, Instruction, Degrees: Admission is by examination, and on the certificates of accredited schools. The curriculum, consisting of prescribed courses in the first two years, and of prescribed and elective courses in the last two years, leads to the degree of A.B. The masters' degree is conferred after two or three years of graduate study, of which at least one must be resident. Military drill is required of freshmen during the first two terms. Attendance at chapel and at nine-tenths of all college exercises is compulsory.

Dues, Scholarships, and Prizes: Tuition is \$105 for the year, lasting from September 26 to June 24. In addition to this, fees of \$4.50 and \$3, are charged for the use of the library and the gymnasium. The total expenses range from \$260 to \$500. Fourteen scholarships of from \$100 to \$300 are offered, besides a \$400 scholarship for the best senior, and two class scholarships of \$200 each. In addition to these the income of forty-two separate scholarship funds, aggregating \$7,000 a year, is annually distributed. Twenty prizes for excellence in study, of from \$20 to \$70, are furthermore awarded.

Equipment: The college campus, situated in the midst of Williamstown, is renowned for its beauty and the wealth of its chapter-houses. The library enjoys a special endowment, yielding \$4,000 a year. Separate libraries are owned by the departments of history, philosophy, language, and natural science, as well as by the students' literary societies, and the Young Men's Christian Association. The departments of biology, chemistry, and physics, with their respective laboratories, are housed in three separate buildings, presented by F. F. Thompson, of New York. Two observatories are owned by the astronomical department. The Lasell Gymnasium, which was erected and equipped at a cost of \$50,000, contains a running-track and a baseball court. The Weston Athletic Field contains a cinder-track, besides a baseball diamond and football gridiron, while several smaller adjoining fields give opportunities for tennis, golf, and lacrosse.

Societies and Publications: The students publish the "Williams Weekly," and the "Williams Literary Monthly," and maintain the Philotechnian and Philological Literary societies, Classical Society, Lyceum, with other social and musical organizations, besides a Christian Association and Athletic Association, with football and baseball teams. Chapters have been organized of: Φ B K, 1833;

K A, 1833; Σ Φ, 1834; Δ Υ, 1834; X Ψ, 1842; Β Θ Π, 1847-1851; Z Ψ, 1848; Α Δ Φ, 1851; Δ Ψ, 1853; Δ Κ Ε, 1855; Φ Γ Δ, 1880-1881; and Φ Δ Θ, 1886.

History: The Lutheran Synodical Convention of 1832 determined the foundation of this college, and led to a grant of seventeen acres by the town of Springfield, which was later increased to forty acres. The college was chartered and was opened to students in 1845, but the first building was not completed until 1851. Women were admitted on an equal footing with men in 1874. New buildings were erected in 1883 and 1886. In 1889 a Theological Divinity Building was added, and a gymnasium in 1892. In 1895 the fiftieth anniversary was celebrated. The presidents have been: Ezra Keller, D.D., 1845-1848; Samuel Sprecher, D.D., LL.D., 1848-1874; John B. Helwig, D.D., 1874-1882; and S. A. Ort, D.D., LL.D., the present incumbent.

Organization: The college is governed by forty directors, of whom at least two must be alumni. Admission is by examination and on certificate. The curriculum, consisting of prescribed studies in the first two years, and of wholly elective studies during the last two years, leads to degrees of B.A. and B.S., with the master's degree after one year of graduate study. Gymnastic exercise is compulsory for freshmen and sophomores. Attendance at chapel is obligatory for all. The expenses for the year, lasting from September 10 to June 10, are \$152.

Societies and Publications: The students publish the "Wittenberger," a weekly, and the "Cycle," a junior annual. They maintain five literary societies, two for men and two for women, with one for Germans; three political clubs, Republican, Democratic, and Prohibition; four religious societies; Pennsylvania Students' Association; Sketch, Archery, and Glee clubs, and an Athletic Association, with football and baseball teams. Chapters have been organized of: $\Phi \Delta \Theta$, 1852-1854; $\Phi \Kappa \Psi$, 1866; $B \Theta \Pi$, 1867; $A \tau \Omega$, 1883; and $\Phi \Gamma \Delta$, 1884.

The college was founded by the Methodist Episcopal Conference of Baltimore in 1884. A charter was obtained in 1885, and the college was opened to students in 1888. By an amendment of the charter, in 1890, the powers of the corporation were enlarged. The trustees now number thirty-five, and there is a board of sixty visitors. The immediate government of the students is vested in a board of control.

Admission is by examination and by certificate. Elective courses are offered during the last three years. The degrees are A.B., and that of A.M. after prescribed graduate study of one year, and a fee of \$25. Attendance at chapel and church is compulsory. The expenses for the year, lasting from September 15 to June 15, are \$375, of which \$125 is for tuition. Special fees are charged for instruction in art and music, for registration, and for diplomas. A deduction of \$50 is made for the daughters of clergymen. Eight scholarships, equivalent to tuition, have been provided by as many churches of Maryland; two by citizens of Iowa, and one by a Pennsylvanian, with others for general excellence, and for graduates of specified secondary schools. The Morgan Fund of \$60,000, and the Shirk Fund of \$100,000 have been established to promote the study of the Bible and of German.

Among the college buildings, situated in the north central section of the city, are Goucher Hall, used for instruction only, Bennett Memorial Hall, containing the college gymnasium, with a swimming-bath and walking-track, and three homes, or dormitories. In addition to the seven buildings owned by the college, two are rented annually for purposes of instruction. Besides several well-equipped laboratories, and an herbarium, rich in Maryland specimens, there is an art-gallery of many paintings and etchings. The medical and hospital advantages of Johns Hopkins University are available to the students of this college, as are many of the public lectures at the university and at the Peabody Institute, the art-galleries and library of which, as well as the other public libraries of Baltimore, are likewise accessible to the students.

The Young Women's Christian Association maintains a Working Girls' Club, and there is another club for the study of social and

economic questions, besides many other social and charitable organizations, with a chapter of the College Settlements. Since 1892 more than sixty alumnæ have been graduated.

The Rev. Benjamin Wofford in 1850 left \$100,000 for the foundation of this college. A charter was obtained in the following year, and instruction was begun in 1854. The college remained open during the Civil War. The presidents have been: W. M. Wightman, D.D., 1854-1858; A. M. Shipp, D.D., 1858-1875; and J. H. Carlisle, A.M., LL.D., since 1875. The trustees number thirteen. Admission is by examination. Candidates must be more than fourteen years old. Negroes are excluded. The usual college curriculum leads to the degree of A.B., and to that of A.M. after graduate study. Attendance at chapel is compulsory, but no gymnastic exercise or military drill. The expenses for the year, lasting from the first week day of October to the middle of June, are \$150. Sons of clergymen are exempt from tuition charges.

The college grounds cover seventy acres. Connected with the college are a medical college and a training-school. Notable among the buildings are Alumni Hall and Wightman Hall. The students publish the "Wofford College Journal," and maintain the Calhoun and Preston Literary societies, a Christian Association, and Athletic Association, with football and baseball teams. Chapters have been organized of: K A, 1869; X Φ, 1871; Φ Δ Θ, 1879; Rainbow, 1874-1877; and Σ A E, 1885-1886.

Of the 432 graduates, nearly 400 are living, of whom the oldest is Samuel Dibble, LL.D., 1856, of Orangeburg, S. C.

History and Organization: The institute was founded by John Boynton, who gave \$100,000. A charter was obtained in 1865, and instruction was begun three years later. The presidents have been: Charles O. Thompson, 1868-1882; Homer T. Fuller, 1882-1894; and T. C. Mendenhall, since 1894. The school is governed by a corporation of ten, with the mayor of the town as an *ex-officio* member.

Admission, Instruction, Degrees: Admission is by examination for candidates older than sixteen. All freshmen remain on probation until the middle of the first year. The course of instruction is identical for all until the middle of the second year, after which a system of elective courses gives opportunity for specialization. Five courses of four years each are offered, to wit: Mechanical, civil, and electrical engineering, chemistry, and general science, all leading to the degree of B.S. Graduate courses are offered in electricity.

Dues, Scholarships, and Prizes: Tuition is \$160 for the year, lasting from September 14 to June 24. Other expenses aggregate \$500, but this can be reduced in various ways. Scholarships yielding incomes of \$150 are offered to a limited number of students from Worcester County. Twenty students from Massachusetts also receive free tuition annually, while others are similarly benefited by a fund given by George F. Hoar, and the income of \$6,000 is awarded to the best six scholars of the graduating class.

Equipment: The institute buildings, standing on grounds of twelve and a half acres, command a good view of the city. Boynton Hall contains a chapel, general library, and cabinets, with lecture-rooms. There are four well-equipped laboratories for physics, engineering, etc., and the ample machine-shops, named after Mr. Washburn, their donor.

Societies and Publications: The students publish the "W. P. I.," which devotes special attention to engineering topics, and maintain the Washburn Engineering Society, Current Topics Club, Camera Club, Glee Club, Christian Association, and Athletic Association, with football, baseball, and track teams, as well as a tennis club. Chapters have been organized of Q T V 1886; Φ Γ Δ and Σ Α Ε.

History: The college was founded in 1701 by the Revs. John Pierpont, Andrew and Russel, of Branford and Milford, three graduates of Harvard, assisted by Cotton and Increase Mather, Eleazor Kimberly, John Eliot, and the Judges of the General Court, then in session at New Haven. The first gift to the projected school consisted of books from the libraries of each of the three founders, and of 637 acres of wild land given by Major James Fitch, who also agreed to furnish, without cost, the glass and nails for the college house. The charter only provided for a Collegiate School with a rector, tutors, and ushers, who might grant "degrees or licenses," to be governed by "Trustees, partners or undertakers," not more than eleven nor less than seven, all of whom were to be clergymen over the age of forty. No common seal was granted to the school, nor was it allowed to hold land exceeding an annual income of £500. Together with the charter an annual grant of £160 county pay, worth £60, was granted by the colony. The trustees first placed the school at Saybrook, provided for a baccalaureate course of three years, with three further years for the master's degree, and fixed the price of tuition at thirty shillings for under-graduates and ten shillings for graduates. In all other respects the trustees, ten of whom were graduates of Harvard, accepted the rules and regulations of that college as a standard. The first student was Jacob Heminway, who figures as "solus" in the college annals of 1702. He was followed by John Hart, who came from Harvard. The first degree was given to Nathaniel Chauncey, who passed all examinations, after mere private study.

The college by this time had been removed to Rector Pearsons's house at Killingworth, but commencements were held at Saybrook in a house given by Nathaniel Lynde. The war from 1710-1713 retarded the growth of the college. Still the colony during this period gave to the new school funds aggregating £600, while English donors, among them Richard Steele and Sir Izaak Newton, contributed some seven hundred books. In 1717 the first college hall was erected at the town of New Haven, which had offered £2,000 and eight acres, but owing to the division between the trustees concerning the best site, some of the students went to Saybrook, others to East Guilford, others to Wethersfield and Hartford, and others again to New Haven, according to their preferences and those of their tutors. As a consequence two commencements were held in 1717, one at Wethersfield, and one at New Haven, and degrees were granted from both places. In 1717 the general assembly advised the trustees to alternate their commencements between the two places, but this advice was rejected, and two commencements were once more held.

The controversy was ended by the gift of Elihu Yale, the former governor of Madras, whose official conduct and rapid acquisition of wealth had led to his recall to England. Cotton Mather wrote to him for help, promising the adoption of his name by the new college, and Governor Yale accordingly sent to New Haven three bales of goods, a portrait of George I., the royal coat of arms, and a box of books. This windfall forever crushed the aspirations of the Wethersfield faction. True to the promise of Cotton Mather, the new building was named after Yale, and the two houses of the legislature gave a vote of thanks to Governor Yale, inducing that gentleman to send another £100 worth of goods. In 1721 Elihu Yale died, leaving £500 to the school that bore his name; but for certain reasons the will could not be probated, and the money was lost to the college.

In 1722 Rector Cutler and several of the tutors, changed their faith from the Congregational Church to the Episcopal Church. This caused a profound sensation in the colony, and led to the enforced resignation of the apostates. As a consequence there ensued an interregnum of three years, during which the college was without rector or proper instruction, while the trustees attempted to carry out a plan of presiding over the college in turn, for one month at a time. At the end of this period the charter was amended, providing for a definite quorum among the trustees and other changes of government. The college rules at this time were preserved in manuscript, and had to be copied in Latin and Greek by each entering student. Thus students were to "avoid profane swearing, lying, needless asseverations, foolish garrulings, Chidings, strifes, railings, gesting, uncomely noise, spreading ill rumors, Divulging secrets, and all manner of troublesome and offensive behaviour." "No student shall use ye Company or familiar acquaintance of persons of a Dissolute and unquiet life, nor intermeddle with men's business, nor intrude himself into ye Chambers of students, nor shall any undergraduate go att Courts, elections, Keeping high Days, or go a hunting, or fowling, without leave, nor shall any be out of his room after nine at night, nor have a light in his Chamber after eleven, nor before four

in ye morning." Punishment was by fines, though the rector in cases of need could give one box on the ear to freshmen or beginning sophomores. On commencement students were forbidden to make "provision for inebriating drink of any kind whatsoever, upon penalty of being degraded." Still, at times, even staid students got "six quarts of Rhum and about two Payls fool of Sydar and about eight pounds of Suger and mad it into Samson and evited every Scholer in Colege, and mad such prdigius Rought that the Tutor was aroused." Some thirty years later further prohibitions against drunkenness at commencement week had to be enacted. Thus "no candidate for a degree was allowed to have more than "two gallons of wine." These rules continued in force until 1804, together with the so-called freshman laws, according to which freshmen had to perform personal services for all upper class men, remain uncovered in their presence, and indeed anywhere on the college premise, where they were likewise forbidden to run, or to call to any one out of the college windows, upon penalty of discipline from the sophomores. As late as 1862 students were still forbidden to "propagate disbelief," to "make an excursion in a sail boat without permission or to sail beyond the mouth of the harbor: to play at billiards, cards or dice, or any other unlawful game, or at any game for a wager, or to keep cards, or to furnish an engraved card of invitation for any college exhibition."

In 1729, Bishop Berkeley, the philosopher, who had left one of the richest preferments in England to found a college for the aborigines of Bermuda, came to Newport, as a convenient place of inquiry concerning the country, and became interested in Yale College. While waiting for the founding of his college he bought a farm where he wrote "Alciphron, or the Minute Philosopher," one of his greatest works. After his hopes for the heathen college were destroyed, he gave his farm, valued at £3,000 to Yale College, with a box of his most valuable books. When the news of this gift reached the college authorities, they were afraid to accept it "lest it should be clogged with Proselyting conditions" yet after Bishop Berkeley's liberal deed of gift had convinced them of the contrary, the authorities could do nothing better with the property than to dispose of it for a lease of 999 years, yielding no more than \$140 a year, though the property is now valued at more than \$100,000. After his return to England Bishop Berkeley later sent nearly a thousand more books, the finest collection that had yet reached America. To this collection, Benjamin Franklin, in 1752, added Bowers' "History of the Popes."

By a new charter of 1744 the Collegiate School became Yale College. Four years later Connecticut Hall, now South Middle, the oldest college building standing, was built on the proceeds of a lottery, and of a French prize taken by a Connecticut frigate. In 1763 the legislature made its first and last attempt to interfere with the college government, after a memorial asking for an inquiry into the "abuses of the college." During this period town and gown riots were of common occurrence. In 1761 one of these caused President Clap to print a public apology, in which he tried to shift the blame to the townsmen. In 1764 some Frenchmen tried to poison the whole student body. In 1803 a student was rescued from jail. In 1806 a pitched battle was fought with the "towners." Sailors attacked the

campus in 1811, in 1815, and in 1819. Further conflicts in 1819 and 1820, arising out of the alleged disinterments of bodies by medical students, led to the creation of the so-called "major and minor bullies," to lead the students in their warfare with the townsmen. Owing to another pitched battle between two student societies in 1840, class organizations were prohibited by the faculty, and this vote is in force to-day. Nevertheless there were further riots with the firemen in 1840, 1841, and 1843, in the last of which a tutor was killed. The "Yale Banner" was founded at this time as a special organ against the firemen. In 1854, after a disturbance in the concert hall, occurred the great riot in which one of the townsmen was stabbed to death by a student. The students fled to South College, which was presently beleaguered with cannon by the townsmen, who were only with difficulty appeased by the personal entreaties of the president and professors. The last of such riots was that of 1858 between firemen and students. Previous to this, in 1830, occurred the so-called Conic Sections Rebellion, when the students refused to recite in that study, a rebellion which was only quelled by the summary expulsion of forty-four students. This drastic step forever put an end to such conflicts between the student body and the faculty. A similar conflict over a religious controversy, nearly a hundred years earlier between 1772 and 1790, had led many students and several tutors to leave Yale for Dartmouth, one hundred and sixty miles distant. Thus that college was enriched by 121 Connecticut students, out of an entire attendance of 284, a defection which seriously crippled Yale.

During the War of the Revolution the college was twice suspended. At the first alarm of war many students rushed to arms, so that at the Battle of Bunker Hill no less than four of the officers were Yale men. When Washington came to New Haven the students formed a company, and with Noah Webster as their cornet, gave Washington his first military escort in New England. Among the Yale students and graduates who distinguished themselves during the war that followed were Nathan Hale, General Huntington, Major-General Wooster, Colonel Hitchcock, Colonel John Brown, Colonel Isaac Sherman, Roger Welles, Mark Hopkins, David Bushnell, Oliver Wolcott, General James Wadsworth, and many others. Instruction in the meanwhile was given at Farmington, Wethersfield, and Glastonbury, the college bell going to the latter place. In 1779, when the British took New Haven, volunteers went out with President Dagget of the college, to defend the town. Dagget was taken in the act of loading and discharging his musket and narrowly escaped with his life, through the intervention of one of his former pupils, a Tory. When asked whether he would again take up arms he answered, "I rather believe I shall, if I get a chance," and was so ill-used in consequence that he died the following year of his wounds. Commencements were not resumed until 1781.

Though a class of resident theological students had existed since the foundation of the college, regular professional schools were not added until the presidency of Day after 1817, when the Divinity, Medical, and Law schools were established in quick succession. Advanced instruction for graduates was not systematized until 1847, when the Graduate School was formally opened. The first degrees in

philosophy were given three years later. Scientific instruction was first given by Professor Silliman in 1842, but was not recognized as a special department until 1859, when the Sheffield Scientific School was organized. The Art School, succeeding the Trumbull Art Gallery, was created in 1864, with the Peabody Museum and Conservatory of Music following shortly afterward. In 1826 the first gymnasium and athletic grounds were equipped. In 1842 one of the students bought a boat, and created the Yale Navy. Three seven-oared boats, the "Pioneer," "Nautilus," and "Iris" were procured, besides an eight-oared sophomore boat, called the "Centipede." In 1852 the first boat race with Harvard was held on Lake Winnepesaukee, leading to a reorganization of the "navy" into six boat clubs and a commodore, a system which was afterward changed into four-year clubs in place of the class clubs. The first boathouse was built in 1859, the date of the first intercollegiate baseball game. Just previous to this the faculty abolished the annual football game between the freshmen and sophomores by reason of its roughness. Football as it is now played was not introduced until 1872. After the first freshman baseball game with Harvard had been won the freshmen were allowed to sit on the college fence, a privilege which has been lost by but two classes.

In 1869 the charter was amended to provide for the representation of alumni in the board of trustees, and in 1872 the corporation voted to elevate the college to the rank of a university, but this was not accomplished until 1887, when the charter was accordingly amended, and the name of Yale College limited to the academical department. Andrew H. Green's list of famous Yale alumni contains the names of one vice-president of the United States, seventeen cabinet officers, one chief justice of the United States, one chief justice of Canada, two national officers of the Hawaiian Islands, one minister plenipotentiary from China to the United States, three judges of the United States Supreme Court, one surgeon-general of the United States, fifty United States senators, twenty United States district judges, one circuit judge of the United States, twenty-two ministers plenipotentiary of the United States, one hundred and sixty state judges, four chancellors, one hundred and eighty-seven members of Congress, forty state governors, and ninety-two college presidents. Four Yale men, Livingston, Morris, Wolcott, and Hall, signed the Declaration of Independence; the same number, Dyer, Livingston, Johnson, and Baldwin signed the Federal Constitution.

The rectors and presidents,—all clergymen, the first six of whom were Harvard graduates, all the rest graduating from Yale,—have been: Abraham Pierson, 1701-1707; Samuel Andrew, 1707-1719; Timothy Cutler, 1719-1722; S. Andrew (second term), 1724-1725; Elisha Williams, 1725-1739; Thomas Clap, 1739-1766; Naphtali Daggett, 1766-1777; Ezra Stiles, 1777-1795; Timothy Dwight, 1795-1817; Jeremiah Day, 1817-1846; Theodore D. Woolsey, 1846-1871; Noah Porter, 1871-1886; and Timothy Dwight, 1886 to the present.

Organization: The legal designation of Yale is: The President and Fellows of Yale University in New Haven. The fellows number twenty-two, including the president, secretary, treasurer, and

auditor, with two *ex-officio* members. The university comprises four departments, each under a distinct faculty, to wit: philosophy and art, theology, medicine, and law. The first embraces the academical department or Yale College, with the Sheffield Scientific School, Graduate School, and the Schools of Fine Arts and Music, each with its own organization and corps of instructors. The Library, Peabody Museum, and Observatory have independent organizations. The dean of the college is responsible under the faculty for the juniors and seniors, while the lower class men are assigned to the care of individual instructors.

Admission, Instruction, Degrees: Students are admitted by examination only; certificates of standing elsewhere are not accepted in place of this examination, except in certain cases when a candidate brings evidence that he has passed the whole of a freshman year in good standing in another college. All candidates must have completed their fifteenth year of age. Written examinations may be undergone in June at New Haven, or in thirty-two of the principal cities of the United States. Supplementary examinations are held at New Haven in September. In the freshman year the course of study is prescribed, and is the same for all. In the second year six courses are prescribed and five elective. In the last two years four-fifths of the studies are elective, one hundred and seventy courses being offered, besides one hundred and twenty lecture courses. Attendance at chapel and church is compulsory. Gymnastic exercise is voluntary. The degrees are A.B., B.S., M.A., M.L.L., B.C.L., B.D., B.L.L., B.Ph., C.E., M.E., LL.D., M.D., Ph.D., with further degrees in fine arts and music.

Dues, Scholarships, and Prizes: Tuition in the college and Sheffield Scientific School is \$155 for the year, lasting from September 26 to June 25. In the other departments the annual charges for instruction are: Graduate School \$100; Law School \$100, or more if not paid in advance; Medical School \$140 in first three years, with \$50 for last year and diploma fee of \$30; Musical Conservatory from \$50 to \$100, according to nature of studies; Art School \$10 per month, with annual fee of \$10.

The corporation offers \$30,000 annually to aid needy students. In addition to a loan fund, there are fifty small scholarships yielding \$115 each, besides which there are forty-seven scholarship funds aggregating \$166,000, with thirty-seven scholarships yielding from \$100 to \$700 a year, five \$400 fellowships, and twenty \$100 scholarships, offered by the Graduate School. An annual fund of \$1,500 is yearly expended for student services. Twenty-four premiums and prizes from \$10 to \$100 are offered for excellence in study, oratory, and composition. Seven prizes, from \$20 to \$100, are offered for public speaking, one prize of \$75 for the best student of English literature, one prize of \$250 for the best English essay, and a silver medal for political economy. In the Art School a prize of \$1,500 is offered for two years' study abroad, with two \$100 and two \$20 prizes. The Conservatory of Music offers two \$100 prizes, with one of \$50, besides which any needy student showing marked talent may have tuition remitted in part or in its entirety. In the Divinity School where nothing is charged for tuition, students requiring aid

may receive \$175, besides which there are ten \$50 scholarships and two graduate fellowships yielding \$500 and \$600 a year, with other graduate scholarships of limited amounts. In the Medical School a gold medal and a prize of \$140 are annually awarded.

Societies and Publications: The first student publication was the "Literary Cabinet" of 1806, which did not outlast the first year. It was followed by many equally short-lived undergraduate papers: "The Athenæum," 1814; "Yale Crayon," 1823; "Sitting Room," 1830; "Student's Companion," 1831; "Little Gentleman," 1831; "Medley," 1833; "Literary Quidnunc," 1838; "Collegian," 1841; "College Cricket," 1846; and "City of Elms," 1846. In 1836 was founded "The Yale Literary Magazine," the oldest college publication now in existence; and the "Yale Banner" followed in 1840. Besides these last two the existing publications are the "Yale Courant," "Record," "Pot-pourri," "Alumni Weekly," "Law Journal," and "Yale News," a daily.

The former societies were: Linonia, 1753; Brothers in Unity, 1768; Beethoven Society, 1812; Caliopean, 1819; and the Spade and Grave, 1864; Slyuna; Varuna; Nixie, and Undine. The present societies, with the dates of their foundation, are: Chi Delta Theta, 1821; Skull and Bones, 1832; Scroll and Key, 1842; Wolf's Head, 1883; Berzelius, 1848; Book and Snake, 1863; Ἡ Βουλῇ, 1875; the Book and Gavel, 1891, Financial Union; Choir, Glee, Banjo, and Mandolin clubs; Drum Corps; Class Organizations; University, Andover, Exeter, St. Paul's, Siglar, Lawrenceville, Hawaiian, Kings', St. Louis, and Renaissance clubs; Co-operative Society; Modern Language Club; Democratic and Republican clubs; Alumni Association; Hasty Eating and Mince Pie Club, Yale Union, Kent Club, Corbey Court, Y. M. C. A., and Athletic Association, with the well-known football elevens, crews, baseball nines, cricket eleven, lacrosse team, golf club, tennis association, boat and canoe clubs, shooting club, Dunham Boat Club, and chess club. Chapters of the following local and general fraternities have been organized: ΦΒΚ, 1780; ΑΔΦ, 1837; ΚΣΘ, 1838; ΨΥ, 1839; ΚΣΕ, 1840; ΔΚΕ, 1844; ΔΚ, 1845; ΑΣΦ, 1846; ΓΝ, 1855; ΔΒΧ, 1864; ΣΔΧ, 1867; ΘΞ, 1867; ΔΨ, 1868; ΦΓΔ, 1875; ΧΦ, 1877; ΧΦ, 1878; ΘΔΧ, 1887; ΦΔΦ, 1887; ΣΝ, 1888; ΖΨ, 1889; ΔΕΙ, 1889; and others.

Nearly 17,000 alumni, in all, have been graduated, of whom more than 10,000 are living. The oldest of these is Charles L. Powell, 1823, of Alexandria, Va.

YANKTON COLLEGE.

Yankton, S. D.

Co-Educational.

Congregational.

INCOME,	STUDENTS,	INSTRUCTORS,	BUILDINGS,	BOOKS,
	316	13	4	5,500

This college was founded in 1882, and is the oldest college in the Dakotas. It is governed by eight trustees and a corporation of thirty-three. The presidents have been the Rev. Joseph Ward, the chief promoter of the new college, 1882-1889; Rev. D. F. Bradley, *ad interim*; Albert T. Free, till 1895, and Rev. H. K. Warren, the present incumbent.

Admission is on certificate and by examination. The usual curriculum leads to degrees of B.A., B.S., and B.Ph., and to that of M.A. after one year of graduate study. Studies are largely elective during the last two years. Attendance at chapel is compulsory. The expenses for the year, lasting from September 16 to June 23, are \$130. Some eighty dollars are annually distributed in prizes, of which one half are available for women. Poor students receive aid from several educational societies. A number of scholarships, equivalent to tuition, are also available.

The college grounds cover one hundred acres, of which eighty are devoted to the athletic park, while twenty form the campus. The students maintain two literary societies; a Conservatory Club; the Olympia, an athletic club; a branch of the National Oratorical Association, and two Christian Associations. Since 1887 sixty alumni have been graduated, the oldest of whom is Prof. G. G. Wenzloff, 1888, of Yankton.

The college, which was the outgrowth of the Gibbon Collegiate Institute, was chartered in 1890. It is governed by seventeen trustees. Admission is on certificate or by examination. Five courses in the classics, sciences, literature, philosophy, and normal branches lead to degrees of B.A., B.L., and in didactics. Attendance at chapel is compulsory. The expenses for the year, lasting from September 9 to June 16, are \$125.

The students maintain two literary societies: the Amphyction (for men), and Philomathean (for women), two Christian Associations, and a Foreign Mission Band. A chapter of $\Pi B \Phi$ was organized in 1884 and lasted four years.

MISCELLANY.

DEGREES.

LIST OF ACADEMIC AND PROFESSIONAL DEGREES WITH THEIR ABBREVIATIONS.

A DEGREE according to the dictionaries is one of a succession of steps, grades or stages, as exemplified by the Latin phrase "*gradus ad Parnassum*." In universities and colleges a degree is an academical rank conferred by a diploma, originally giving the right to teach. The earliest degree was that of *master*, which in the University of Bologna, and others modelled after this school (as were the faculties of law in all the mediæval universities) was called the degree of *doctor*, i.e. teacher.

Afterward the lower degree of *determinant* (later called bachelor) was introduced, and the intermediate degree of *licentiate*; but these were not regular degrees, except in the faculty of arts. The degree of bachelor was conferred by the "nation" of the faculty of arts; the others were given by the chancellor, by authority of the Pope. Thus, the mediæval degrees were:

1st, Determinant or Bachelor of Arts, without a diploma. 2d, Licentiate. 3d, Master of Arts. 4th, Master or Doctor of Theology. 5th, Master or Doctor of Medicine. 6th, Doctor of Laws.

The question has been raised whether the degree of B. A. standing for Bachelor of Arts can properly be conferred upon women. Inasmuch as the original word, *baccalaureus* means "one crowned with bay" and retains the same meaning in the feminine form *baccalaurea*, there seems to be no valid reason why the degree should not be extended to women, as was done by the University of Bologna, the oldest co-educational school, from the very beginning.

With the degree of M. A. standing for Master of Arts, the fact that the English word *mistress* like the Latin *magistra* bears the same initial as the masculine form, gives sufficient justification. Nevertheless the specific degree of "Maid" and "Mistress" is conferred by certain American colleges.

The following table exhibits the abbreviations and titles of the principal degrees conferred by universities and other educational institutions. Where the requirements of study are given it will be understood that the average requirements, or those of the principal colleges are meant. The sign + indicates that the degree is no longer conferred.

<i>A.A.</i> + ANALYTICAL ASTRONOMER.	<i>A.C.</i> ANALYTICAL CHEMIST. Four years' course.
<i>A.B.</i> ARTIUM BACCALAUREUS OR BACCALAUREA. Same as B.A. and B.L.A. The usual academic degree as distinguished from those given by schools of science. Course in United States, four years; in Great Britain, three years.	<i>A.D.B.</i> + BACHELOR OF DOMESTIC ARTS. Course for women.
	<i>Agr.B.</i> BACHELOR OF AGRICULTURE. Same as B.Agr., B.Ag., B.A.S., B.S.A., B.S. in Agr. Four years' course.

- Agr.M.* MASTER OF AGRICULTURE. Same as M.Agr. and M.S.A. for holder of B.Agr.; one year's graduate work.
- A.M.* ARTIUM MAGISTER. Same as M.A. Either honorary three years after A.B., or after one or two years of graduate study.
- A.M.B.* BACHELOR OF MECHANIC ARTS. Three years' course of engineering.
- A.M.M.* MASTER OF MECHANIC ARTS. For holders of A.M.B.; additional year's study and examination.
- A.O.M.* MASTER OF OBSTETRIC ART.
- Arch.* ARCHITECT. For Bachelors of Science (in architecture) at the end of a graduate year.
- B.A.* BACHELOR OF ARTS. Same as A.B. and B.L.A.
- B.Acct.* BACHELOR OF ACCOUNTS. Course (usually less than a year) in business college or in the commercial departments of some colleges.
- B.Agr.* BACHELOR OF AGRICULTURE. Same as Agr.B., B.Ag., B.A.S., B.S.A.
- B.Ar.* BACHELOR OF ARCHITECTURE. Same as B.Arch. Four years' course.
- B.Arch.* BACHELOR OF ARCHITECTURE. Same as B.Ar.
- B.A.S.* BACHELOR OF APPLIED SCIENCE. Course in civil, mechanical, and mining engineering, or practical chemistry.
- B.A.S.²* BACHELOR OF AGRICULTURAL SCIENCE. Same as Agr.B., B.Agr., B.Ag., and B.S.A.
- B.B.S.* BACHELOR OF BUSINESS SCIENCE. Two years' collegiate and two years' business course.
- B.C.¹* BACHELOR OF CHEMISTRY. Same as B.Chem. and B.C.S. Four years' course.
- B.C.²* BACHELOR OF COMMERCE. Business departments of some colleges.
- B.C.³* BACCALAUREUS CHIRURGIAE. Same as B.Chir., C.B., B.S.², and Chir.B. At end of third or fourth year for M.D.
- B.C.E.* BACHELOR OF CIVIL ENGINEERING. Four years' course.
- B.Chem.* BACHELOR OF CHEMISTRY. Same as B.C.¹ and B.C.S.¹
- B.C.L.* BACHELOR OF CIVIL LAW. After course in law school. Same as B.L. and LL.B.
- B.C.S.¹* BACHELOR OF CHEMICAL SCIENCE. Same as B.C.¹ and B.Chem.
- B.C.S.²* BACHELOR OF COMMERCIAL SCIENCE.
- B.D.* BACHELOR OF DIVINITY. Three years' course in Theology.
- B.E.¹* BACHELOR OF ELEMENTS. Two years' normal school course.
- B.E.²* BACHELOR OF ELOCUTION. One year's course.
- B.E.³* BACHELOR OF ENGINEERING. Preparatory course in engineering.
- B.E.D.* BACHELOR OF ELEMENTARY DIDACTICS. Three years' normal course.
- B.E.L.* BACHELOR OF ENGLISH LITERATURE. Four years' course in English Literature and allied branches. Same as B.L., B.Lit., and Lit.B.
- B.F.+* BACHELOR OF FINANCE.
- B.F.A.* BACHELOR OF FINE ARTS. Four years' course in arts.
- B.Hy.* BACHELOR IN HYGIENE. For registered medical practitioner. One year's study and examinations.
- B. in Agr.* Same as Agr.B., B.Agr., and B.A.S.²
- B.L.¹* BACHELOR OF LAWS. For completing a course in a law school. Same as B.C.L., B.LL., and LL.B.
- B.L.²* BACHELOR OF LITERATURE. Four years' course in English Literature and allied branches. Same as B.Lit. and Lit.B.
- B.L.A.* BACHELOR OF LIBERAL ARTS. Same as A.B. and B.A.
- B.Lit.* BACHELOR OF LITERATURE. Same as B.L.² and Lit.B.
- B.LL.* BACHELOR OF LAWS. Same as B.L.¹
- B.L.S.* BACHELOR OF LIBRARY SCIENCE. For graduates or students of two years' standing, after examination, thesis, and bibliography.
- B.M.¹* BACHELOR OF MEDICINE.
- B.M.²* BACHELOR OF MUSIC. Four years' course. Same as B.Mus.
- B.M.³* BACHELOR OF METALLURGY. Four years' course.
- B.M.E.* BACHELOR OF MECHANICAL ENGINEERING. Four years' course.
- B.Mus.* BACHELOR OF MUSIC. Same as B.M.²
- B.N.S.* BACHELOR OF NATURAL SCIENCE. Four years' college course in which the study of the natural sciences takes the place of Latin and Greek. Same as B.S.¹ and B.Sc.
- B.O.* BACHELOR OF ORATORY. Two years' course. Same as O.B.
- B.O.L.* BACHELOR OF ORIENTAL LITERATURE. Ranks with B.Lit.
- B.P.* BACHELOR OF PAINTING. Four years' course.
- B.Ph.* BACHELOR OF PHILOSOPHY. Four years' course, largely scientific, with modern languages taking the place of the classics, or of Greek.
- B.S.¹* BACHELOR OF SCIENCE. Same as B.N.S. and B.Sc.
- B.S.²* BACHELOR OF SURGERY. For Bachelors of Medicine who pass examination in surgery. Same as B.C.³, C.B., and Chir.B.
- B.S.A.* BACHELOR OF SCIENTIFIC AGRICULTURE. Same as Agr.B., B.Agr., and B.A.S.

- B.Sc.* BACHELOR OF SCIENCE. Same as B.N.S. and B.S.¹
- B.S.D.* BACHELOR OF SCIENTIFIC DIDACTICS. Four years' normal course.
- C.B.* CHIRURGÆ BACCALAUREUS. Same as B.C., B.Chir., B.S.,² and Chir.B.
- C.E.* CIVIL ENGINEER. Four years' course, or post graduate.
- Ch.D.* DOCTOR OF CHEMISTRY. Ranking with Ph.D. Same as Dr.Chem.
- Chir.B.* CHIRURGÆ BACCALAUREUS. Same as B.C., B. Chir., B.S.,² and C.B.
- Chir.Doct.* CHIRURGÆ DOCTOR. Doctor of Surgery.
- C.M.* CHIRURGÆ MAGISTER. For holder of B.M. and B.S.² Two years' hospital work in surgery and advanced examinations. Same as M.C., M.Ch., and M.S.²
- D.Æ.* DOCTOR OF ÆSTHETICS. Honorary.
- D.B.* BACHELOR OF DIDACTICS. Two years' post graduate, normal course.
- D.C.L.* DOCTOR OF CIVIL LAW. Two years' post graduate course after LL.B. or B.C.L. Ranking nearly with LL.D.
- D.Cn.L.* DOCTOR OF CANON LAW. Honorary.
- D.D.* DOCTOR OF DIVINITY. Honorary.
- D.D.S.* DOCTOR OF DENTAL SURGERY. Three years' course. Same as D.M.D., L.D.S., M.D.S.
- D.E.* DYNAMICAL ENGINEER. Two years' graduate course in mechanical engineering.
- D.Hy.* DOCTOR OF HYGIENE. After B.Hy. After two years' practice, essay and examination.
- D.L.¹* DOCTOR OF LAW. Nearly same as D.C.L.
- D.L.²* DOCTOR OF LETTERS OR LITERATURE. For holder of B.L. and B.Lit. Two years' post graduate course. Same as D.Lit. and Lit.D.
- D.L.S.* DOCTOR OF LIBRARY SCIENCE. Honorary.
- D.M.¹* DOCTOR OF MEDICINE. For holder of B.M.¹ and M.B.¹ Four years' course. Same as M.D.
- D.M.²* DOCTOR OF MUSIC. For holder of B.Mus. Four years' graduate course. Also honorary. Same as D.Mus. and Mus.D.
- D.M.³* DOCTOR OF MATHEMATICS.
- D.M.D.* DOCTOR OF DENTAL MEDICINE. Three years' course. Same as D.D.S.
- D.Mus.* DOCTOR OF MUSIC. Same as D.M.² and Mus.D.
- Doc.Eng.* DOCTOR OF ENGINEERING. Honorary. Same as E.D.
- D.O.* DOCTOR OF ORATORY.
- D.P.¹* DOCTOR OF PHARMACY. Same as D.Pharm. and Pharm.D.
- D.P.²* DOCTOR OF PHILOSOPHY. Same as Ph.D.
- D.P.H.* (English). DIPLOMA OF PUBLIC HEALTH. (Sanitation). Conferred by some English universities, though not properly a degree.
- Dr.Bot.* DOCTOR OF BOTANY. European degree ranking with Ph.D.¹
- Dr.Chem.* DOCTOR OF CHEMISTRY. European degree ranking with Ph.D. Same as Ch.D.
- Dr.Nat.Hist.* DOCTOR OF NATURAL HISTORY. European degree ranking with Ph.D. Same as N.H.D.
- Dr.Nat.Phil.* DOCTOR OF NATURAL PHILOSOPHY. European degree ranking with Ph.D.
- Dr.Nat.Sc.* DOCTOR OF NATURAL SCIENCE. For holder of B.N.S.
- Dr.Phil.* DOCTOR OF PHILOSOPHY. A European degree ranking with Ph.D.
- Dr.Philol.* (rare). DOCTOR OF PHILOLOGY. Ranks with Ph.D.
- Dr.Phys.Sc.* DOCTOR OF PHYSICAL SCIENCE. Same as D.P.S.
- Dr.Z.* DOCTOR OF ZOÖLOGY. Same as D.Z. and Dr.Zoöl.
- Dr.Zoöl.* Same as Dr.Z. and D.Z.
- D.Sc.D.* DOCTOR OF SCIENCE AND DIDACTICS.
- D.S.* DOCTOR OF SCIENCE. For holder of B.S. and B.Sc. Two years' graduate course in Science. Same as D.Sc.
- D.Sc.* DOCTOR OF SCIENCE. Same as D.S.
- D.T.* DOCTOR OF THEOLOGY. Same as D.D.
- D.V.M.* DOCTOR OF VETERINARY MEDICINE. Three years' course. Same as M.D.V. and V.M.D.
- D.V.M.S.* DOCTOR OF VETERINARY MEDICINE AND SURGERY. Three years' course. Similar to D.V.M., M.D.V., and V.M.D.
- D.V.S.¹* DOCTOR OF VETERINARY SCIENCE. Three years' course.
- D.V.S.²* DOCTOR OF VETERINARY SURGERY.
- D.Z.* DOCTOR OF ZOÖLOGY. Same as Dr.Z. and Dr.Zoöl.
- E.D.* DOCTOR OF ENGINEERING. Same as D.E.
- E.E.* ELECTRICAL ENGINEER. Four years' course.
- E.M.* ENGINEER OF MINES. Four years' course in Mining and Underground Surveying.
- G.P.* GRADUATE IN PHARMACY. Two years' course.
- J.C.D.* JURIS CIVILIS DOCTOR. Same as D.C.L.
- J.U.D.* JURIS UTRISQUE DOCTOR. Doctor of both Canon and Civil Law. Same as L.U.D. and U.J.D.

- L.A.* LITERATE IN ARTS. Ranks with M.A. Same as LL.A.
- L.B.* BACHELOR OF LITERATURE. Same as B.L., B.Lit., Lit.B., and L.E.L.
- L.D.* DOCTOR OF LETTERS. Honorary. Ranks with L.H.D.

UNIVERSITY EXTENSION.

THE purpose of the University Extension movement, which was originated by the University of Cambridge, in England, and subsequently spread to the United States, is to provide the means of higher education for persons of all classes and of both sexes engaged in the regular occupations of life. It is intended for all who are willing to give some of their time to study and instruction under the guidance of men who have had university training. It offers:

First — Education by means of systematic courses of lectures and classes in the subjects usually taught at high schools and universities.

Second — Illustrated lectures and classes in literature, art, and science, with the purpose of teaching the appreciation of the beautiful, and rendering life more interesting and enjoyable.

Third — Lectures and classes in history, civics, and economics, designed to aid the citizen in studying the problems of free government and modern life and to encourage a sense of responsibility, habits of sound thinking, and right conduct.

The American Society for the Extension of University Teaching was founded at Philadelphia in June, 1890. Its objects are:

First—To organize groups of people into centres, and to bring together these centres and competent lecturers, chosen from the list of instructors, whose qualifications to teach have been passed upon by the Society.

Second—To coöperate as far as possible with institutions of learning and other bodies with the purpose of bringing to the many the best thought of the few, to keep the University Extension idea before the country by the Society's agents and publications.

The present Board of Directors is constituted as follows: M. G. Brumbough, Charles A. Brinley, Charles E. Bushnell, John H. Converse, Walter C. Douglas, Charles C. Harrison, Theodore N. Ely, Rev. John S. MacIntosh, Frederick B. Miles, William H. Ingham, Joseph G. Rosengarten, Justus C. Strawbridge, Charlemagne Tower, Jr., Henry S. Pancoast, Stuart Wood. The Acting Secretary of the Society is John Nolen. In the first year of work twenty-three centres were organized, at which some three hundred lectures were given to an estimated attendance of ten or twelve thousand people. The second season witnessed a satisfactory increase in the number of centres, with a corresponding increase in the number of lectures and students. In the academic year 1893-94 there were given under the auspices of the American Society one hundred and fourteen regular lecture courses, thirty-one class courses, and fifty Summer Meeting courses, or one hundred and ninety-five courses in all, averaging a little over six lectures each. In the year 1894-95 one hundred and twenty-six regular courses were given, nine class courses, and forty-one Summer Meeting courses, or one hundred and seventy-six courses in all, averaging about six lectures each. Through the "circuit" or union of five or six towns which join to engage the same lecturer, towns distant from university centres have enjoyed the advantages of the system, and even villages of a few hundred inhabitants have been able to secure courses.

In addition to the winter lectures at the centres, the Society has entered upon two other lines of educational activity. The first is the formation of classes of from twenty to seventy-five members, which, under the direction of its lecturers, engage in the study of history, literature, or civics, through consecutive periods of from three to six months. The classes are intended to supplement the work of the "Local Centres" proper, and in places where conditions do not admit of the formation of a centre, to supply, as far as possible, its place. The second is the Summer Meeting, which was started in Philadelphia in 1893, where courses were given during four weeks by some of the most eminent professors of Harvard, John Hopkins, Cornell, and the University of Pennsylvania.

The second session of the University Extension Summer Meeting, held in July, 1894, in the buildings of the University of Pennsylvania, continued the general courses in history, literature, and other subjects treated in the first session, and provided in addition thoroughly well-equipped departments in economics, pedagogy, and music. In the Department of Economics advanced courses were offered by members of the faculties of Political Science in Yale, Columbia, Brown, Cornell, Amherst, and the University of Pennsylvania. In 1895 departments were organized of psychology, music, biology, civics, and mathematics. The summer courses in literature and history were confined to Greek life and thought, and were followed in 1896 by courses in Roman history and literature with subsequent study of the Middle Ages, to the Renaissance and Reformation.

From Philadelphia the movement has extended to many states. In Massachusetts a committee of leading college men is acting in coöperation with the American Society. In Rhode Island Brown University has organized many centres. In Connecticut representatives of Yale, Wesleyan, Trinity, and the Hartford Theological Seminary are on the Executive Committee of the State branch of the American Society. In New York the University of the State, through its Secretary, Mr. Melvil Dewey, has arranged for Extension lectures in many important towns and cities. Rutgers College, as the agricultural college of New Jersey, has offered scientific courses especially for the farmers of the state. The Universities of Wisconsin, Indiana, Kansas, and California have done much for their respective states. Chicago University has made for University Extension a special department. Conferences held from time to time in Philadelphia have been an important feature of the movement. The first World's Congress on University Extension was held in Chicago in August, 1893.

The literature of the Society is now abundant. The single volume most in use is the "Handbook of University Extension." The "Proceedings of the first National Conference," in Philadelphia, contains much interesting matter. The American Society publishes in addition *The Citizen*, a monthly journal, containing articles of such a character as to be supplementary to the teaching of the Society, book reviews and notes, and University Extension news and announcements. Further information can be obtained by addressing the secretary at 111 South Fifteenth St., Philadelphia.

Pole vault, handicap. — R. G. Clapp, '99, 6 inches, 10ft. 7in.; C. M. Perry, 1900, 1 foot 6 inches, 9ft. 6in.

OLYMPIAN GAMES.

STADION, ATHENS, APRIL 5 TO APRIL 15.

THESE games, though not collegiate in character, deserve mention here inasmuch as the athletes who represented America were all college men. They were: Robert Garrett, Jr., *Captain*, H. B. Jamison, F. A. Lane, and A. C. Tyler, of Princeton; Arthur Blake, E. H. Clarke, W. W. Hoyt, and J. B. Connolly, of Harvard; T. E. Burke, of Boston University, and T. P. Curtis, of the Massachusetts Institute of Technology and Columbia College.

The American contestants distinguished themselves from the very outset, causing the American flag to go up before the flag of any other nation had been raised.

Lane, of Princeton, won the first heat of the 100 metre race, the first event. The two next heats were won by Burke and Curtis. Next came the triple jump, which was won by Connolly. In the discus throw, Garrett beat the Greeks at their own game. In the 400 metre race, the two heats were won by Jamison and Burke, making the first day an uninterrupted series of victories for the Americans.

On the second day, Curtis and Hoyt came in first and second in the hurdle race. The long jump was won by Clarke, Garrett, and Connolly, after all other contestants had dropped out. Burke and Jamison came in first and second in the final heat of the 400 metre race. Garrett then put the shot farther than all others. The lifting contests were won by a Dane and an Englishman respectively, no Americans having entered. In the 1500 metre race, the last event of the second day, Flack, the Australian, came in first, and Blake, of Harvard, second. This was the first time an American was beaten by a man of another nation since the games had begun.

On April 8, the third day, was the bicycle race, at 100 kilometres (about 62 miles, 241 yards). M. Flamant, of France, won in 3h. 8m., with a Greek competitor second.

There were also shooting contests.

On the fourth day, which was unseasonably cold, Flack, of Australasia, won the 800 metre (874.89 yards) run in 2m. 11s., a Dane being second.

At fencing with sabres, Georgiades, of Greece, was first, with his fellow-countryman, Karacalos, second.

In shooting, 40 shots, at 200 metres (218.72 yards), Karrassevdas, of Greece, secured 588 points, and Pavlides, of Greece, 494 points.

On the fifth day, after the Germans and Greeks had distinguished themselves on the horizontal and parallel bars and other apparatus exercise, Burke won the final heat of the 100 metre dash, with Hoffman, a German, second. Then the competition in the high jump, as with the long jump, narrowed down to three Americans, — Clarke, Garrett, and Connolly, — and was finally won by Clarke, of Harvard, 5 feet, 11½ inches. The final heat in the hurdle race was won by Curtis, with Goulding, an Englishman, second. Hoyt and Tyler won the pole vault, at 10 feet, 9¾ inches, beating all other contestants by a foot and a half. Even this was below Hoyt's own previous record at Harvard. Indeed, it may be worthy of note that no world's records were broken throughout the games.

The principal event — the run from Marathon to Athens, over a distance of twenty-six miles — was won in 2h. 48m., by Spyridion Loues, a Greek peasant, from Marousi, near Kephissia. The second and third to arrive were Vasilakos and Belokos, also Greeks, as were the fifth, sixth, seventh, eighth, and ninth, after a Hungarian had come in fourth. For this run there were eighteen entries, Loues being the last. Blake, the only American who entered the long distance run, took the lead with Flack, the Australian, and held it till within a few miles of Athens, when he succumbed.

On the parallel bars, Flatow, of Germany, won, with Zutter, of Switzerland, second.

At climbing the pole, Andrikopoulos, of Greece, was first, and Xenakis, of Greece, second.

The contests at shooting with revolver and rifle were won by two American brothers, named Payne.

On April 11, the sixth day, the final bout of the wrestling was won by Schuman, of Germany, who beat Tsintas, of Greece.

Hajos, of Hungary, won the swimming race at 100 metres (109.36 yards).

Masson, of France, won the bicycle races, at 2,000 metres (2,187.22 yards), and 10,000 metres (10,936.11 yards).

On April 12, the bicycle race from Athens to Marathon and return, a few yards less than fifty-six miles, was won by Constantinides, of Greece, in 3h. 21m. 31s.

After the games, the Americans signed a memorial advocating the continuance of the games in Greece, instead of in other countries, as had been suggested by the original revivors of the festival.

COLUMBIA AND HARVARD, 1881-1887.

In 1881 Columbia and Harvard began to row a full university eight-oared race over the Thames course at New London. The race in 1882 was, however, a row-over for Columbia, Harvard declining to row on account of a dispute as to hour of race.

No race has been rowed since 1887.

INTER-COLLEGIATE ROWING ASSOCIATION, 1883-1895.

Since 1883 a race for fours, without coxswains, has been rowed at a mile and a half straight, under the auspices of the Inter-Collegiate Rowing Association.

1883, July 4. At Lake George, N. Y., Cornell, 11.57; University of Pennsylvania, 12.29; Princeton, 12.40; Wesleyan, 12.47.

1884, July 7. At Saratoga, N. Y., University of Pennsylvania, 8.39½; Cornell, 8.41; Princeton, 8.49; Columbia, 9.25, and Bowdoin, not timed.

1885, July 4. At Lake Quinsigamond (Worcester), Mass., Cornell finished first in 9.10½, followed by Brown, Bowdoin, and University of Pennsylvania. Referee decided Cornell disqualified for a foul, ordered Brown and Bowdoin to row over, and placed University of Pennsylvania third. July 15, same course, Bowdoin, 8.26; Brown, second.

1886, July 3. At Lake George, N. Y., Bowdoin, 8.06; University of Pennsylvania, second. Won by a length and a half.

1887, July 5. At Lake Quinsigamond, Cornell defeated Bowdoin by 2 feet, in 9.28½.

1889, June 27. A match between Cornell, Columbia, and University of Pennsylvania, in eight-oared shells, was rowed at three miles over the New London course, from Winthrop's Point, up river, Cornell winning somewhat easily, Columbia second.

Time not accurately taken, owing to darkness. Said to be between 15 minutes 3 seconds and 16 minutes 4 seconds.

- 1890, June 26. Cornell defeated University of Pennsylvania by six lengths in a three-mile race at New London. Time, 14 minutes 43 seconds.
 1891, June 25. Cornell defeated University of Pennsylvania by six, and Columbia by thirteen lengths in a three-mile race at New London. The time, 14 minutes, 27½ seconds, breaks record.
 1892, June 15. Cornell defeated University of Pennsylvania by six lengths in a three-mile race at Ithaca. The time was 17 minutes 26 seconds.
 1893, July 8. Cornell defeated University of Pennsylvania in a four-mile race at Lake Minnetonka. The time was 23 minutes 52 seconds.
 1894, June 16. Cornell defeated University of Pennsylvania in a four-mile race by two and a half lengths on the Delaware. Time, 21 minutes 12½ seconds.
 1895, June 24. Columbia defeated Cornell in a four-mile race by six lengths on the Hudson River at Poughkeepsie. Time, 21 minutes 25 seconds. University of Pennsylvania did not enter on account of a damaged boat.

FRESHMEN EIGHTS, 1880-1886.

Previous to 1880 a number of races were rowed by freshman crews of the several universities and colleges, with six oars. In 1880 an agreement was entered into by Harvard and Columbia to row an eight-oared race annually at two miles straight-away. In 1886 Yale joined, but sank in the race.

INTERNATIONAL ROWING, 1869-1896.

1869. A Harvard 'varsity four rowed Oxford over the Putney to Mortlake course, on Thames, 4 miles 2 furlongs, and was defeated by six seconds.

1876. At the Centennial Regatta, Philadelphia, a Yale four, stroked by Robert J. Cook, the present coach, lost by four feet to the London Rowing Club. Time, 8.51 for both crews.

In another event at the same regatta crews of Yale, Columbia, and First Trinity of Cambridge met. Trinity was very badly steered and did not finish. Yale secured first honors; Columbia second.

1878. Columbia sent a four-oared crew to Henley, which were beaten in a trial heat for the Stewards' Challenge Cup, but won the Visitors' Challenge Cup. This continues to be the only English boating trophy on this side the ocean.

The Shoe-wae-cae-mette four were defeated in the final heat for the Stewards' Challenge Cup at Henley.

1881. Cornell sent to Henley a four-oared crew that had the previous year won the American Inter-collegiate Regatta on Lake George. It lost at Henley as well as subsequently on the Continent.

1895. Cornell entered an eight-oared crew for the Grand Challenge Cup at Henley. It won its first heat from Leander by default, and lost its second to Trinity Hall, collapsing about 300 yards from the finish. Trinity Hall's time, 7.14.

1896. Yale entered an eight-oared crew for the Grand Challenge Cup at Henley, which met Leander, said to be the fastest crew that ever represented this club, in the first heat, and were defeated by one length and three-quarters in 7.14.

Leander subsequently won the cup, defeating New College and the Thames Rowing Club. The statistics and make-up of the Yale crew were as follows.

CRICKET.

INTERNATIONAL CRICKET.

The cricket eleven of Haverford College during the summer of 1896, went to England, where it played a series of games with some of the best English school and college elevens.

Although the team has not a long record of victories to its credit, it can show wins over Repton, Charterhouse, and Marylebone, while Shrewsbury, Rugby, Haileybury, and Marlborough were saved from defeat only by the intervention of time. Winchester, Eton, and Clifton had the best of the drawn games played with the Americans, and the only defeats sustained were at the hands of Cheltenham, Uppingham, Harrow, and Malvern, the game with the latter being won by a very small margin, after Haverford had the better in the first inning.

The individual work of J. A. Lester was the feature of the tour. In his eighteen innings he scored 1,049 runs, which gives to him the unusual average of 74.92 for completed innings, he having been four times not out. He scored double figures every time he was at the bat, and, with one exception, made over 25 for every completed inning. His best score was 135, not out, against Rugby, while he also topped the century against Marylebone and made over 90 against Shrewsbury, Marlborough, and Repton, and over 50 against Cheltenham, Uppingham, Charterhouse, Eton, Clifton, and Malvern. Lester's bowling also proved to be very effective at times, although in this weakness was shown by the team.

The batting of D. H. Adams was surpassed only by that of his Captain, while his bowling was more effective than that of any other on the team. The game against Haileybury gave him 123. He also played an excellent inning of sixty-one against Eton and made seventy-eight against Marlborough. He started the tour with ten consecutive double figure innings, and his average would have been much higher only for his inning against Repton and Harrow, when his three attempts at the bat yielded only one, four, and five. His average of 28.83 for eighteen completed innings is a splendid showing, however, and is far in advance of the next man.

J. H. Scattergood did fine work behind the wickets. Not one of the English stumpers surpassed him in this. His batting average was third in the list, and at times he played very successfully. He made fifty-one runs against Repton, forty-four, not out, against Rugby, and thirty-four, not out, against M. C. C. His average was 17.23 for thirteen innings.

A. B. Mifflin played an excellent inning of eighty-six against Haileybury, and contributed forty-seven against Malvern. He made more runs in these two matches than in all the others put together. His average for sixteen innings is 14.50.

C. R. Hinchman and C. H. Howson at times batted well, and then again proved to be unreliable. Their aggregate of runs showed a difference of two in favor of Howson, who, however, batted in one more inning, while Hinchman was twice not out. He had an average of 13.06 against Howson's 11.05.

T. Wistar, who at times showed good form, came eighth in the batting list, with an average just under double figures. He played a good inning of thirty-two against Marylebone, and was also fairly successful against Shrewsbury, Cheltenham, Repton, and Malvern.

By virtue of being three times not out in seven innings, A. F. Coca had an average among the leaders. He exhibited good batting against Winchester and Marlborough.

Of the sixteen men in Haverford's party fifteen batted. S. Rhoads played in only one match, while H. H. Lowry scored.

The following batting averages have been compiled from the scores which were cabled, and include all the public school games:—

TOUR OF THE CAMBRIDGE-OXFORD TEAM.

A team of English cricketers, comprising nine men from Cambridge University, four from Oxford University, and F. W. Milligan, of Yorkshire, during the summer of 1895 made a short tour under the captaincy of Frank Mitchell, of Cambridge. The team suffered from climatic changes and did not secure a very good record, two defeats being sustained in Philadelphia against a victory in New York, one in Philadelphia, and a draw in Canada. The record was:—

September 2, 3, and 4. — At Staten Island. All New York, 112 and 267; Cambridge and Oxford, 323 and 58 for three wickets. Cambridge won by eight wickets (12 a side).

September 6 and 7. — At Toronto. Canada, 137 and 88; Cambridge and Oxford, 189 and 15 for one wicket. Drawn.

September 13, 14, and 16. — At Philadelphia. Cambridge and Oxford, 284 and 61; University of Pennsylvania, 138 and 307. Cambridge and Oxford lost by 100 runs.

September 20, 21, and 23. — At Philadelphia. Gentlemen of Philadelphia, 234 and 138; Cambridge and Oxford, 156 and 220 for eight wickets. Cambridge and Oxford won by two wickets.

September 27, 28, and 30. — At Philadelphia. Cambridge and Oxford, 198 and 167; Gentlemen of Philadelphia, 404. Cambridge and Oxford lost by an inning and 39 runs.

The following are the averages of the team:—

LAWN TENNIS.

INTERCOLLEGIATE TENNIS TOURNAMENT.

The Intercollegiate Tennis Cup was won by Harvard in October '96, at Newport, after a contest of eight years. Under the conditions the college which first won seven first prizes in the competition was to secure possession of the trophy; in case of a tie second prizes to count. When the last tournament began Yale and Harvard had each won five times in singles and doubles, and it was necessary that either college should win both the singles and doubles in order to secure perpetual possession of the cup. The consolation cup was won by Williams College. The successive winners have been:—

SINGLES.

1889. — R. P. Huntington, Jr., Yale.
 1890. — Frederick H. Hovey, Harvard.
 1891. — Frederick H. Hovey, Harvard.
 1892. — William A. Larned, Cornell.
 1893. — Malcolm G. Chace, Brown.
 1894. — Malcolm G. Chace, Yale.
 1895. — Malcolm G. Chace, Yale.
 1896. — Malcolm D. Whitman, Harvard.

DOUBLES.

1889. — O. S. Campbell and A. E. Wright, Columbia.
 1890. — Q. A. Shaw and S. T. Chase, Harvard.
 1891. — F. H. Hovey and R. D. Wrenn, Harvard.
 1892. — R. D. Wrenn and F. D. Winslow, Harvard.
 1893. — M. G. Chace and C. R. Budlong, Brown.
 1894. — M. G. Chace and A. E. Foote, Yale.
 1895. — M. G. Chace and A. E. Foote.
 1896. — L. E. Ware and W. M. Scudder, Harvard.

Malcolm D. Whitman, of Harvard, defeated Driscoll, of Georgetown, in the singles in three straight sets. In the semi-finals of the doubles Ware and Scudder, of Harvard, defeated Budlong and Barrows, of Brown, 6-0 and 6-3, and M. D. Whitman and J. D. Forbes, of Harvard, defeated Neely and Heitkamp, of Cornell, 7-5 and 6-4. In the finals Ware and Scudder defeated Whitman and Forbes.

The scores were:—

SINGLES.

GOLF.

The golf season of 1896 was characterized by a degree of enthusiasm never before experienced in the United States, and the number of players was largely increased. The amateur and open championship events were held on the links of the Shinnecock Hills Golf Club, near Southampton, L. I., July 14-18. The opening medal play round, thirty-six holes, was finished by seventy-four players. The best sixteen scores for thirty-six holes were as follows:

Name.	First Round.	Second Round.	Total.
H. I. Whigham, Onwentsia G. C. Chicago	86	77	163
A. M. Coats, Newport G. C.	85	83	168
H. P. Toler, Baltusrol G. C.	85	85	170
J. A. Tyng, Morristown G. C.	84	86	170
L. Waterbury, Newport G. C.	87	86	173
J. G. Thorp, Cambridge, G. C.	84	90	174
A. L. Livermore, St. Andrews G. C.	91	83	174
H. G. Trevor, Shinnecock Hills G. C.	83	92	175
H. R. Sweny, St. Andrews G. C.	91	85	176
Bayard Cutting, Jr., Westbrook G. C.	89	89	178
A. H. Fenn, Palmetto G. C.	90	88	178
W. H. Sands, St. Andrews G. C.	90	88	178
C. B. Macdonald, Chicago G. C.	89	89	178

J. R. Chadwick, Richmond Co. Country Club, S. I.	92	87	179
L. P. Bayard, Jr., Baltusrol G. C.	91	89	180

Four men tied for the last place, the other three who lost in the play-off being: L. B. Stoddart, St. Andrews; Richard Peters, Newport, and T. B. Gannett, Essex Country Club, Manchester, Mass.

The championship was then played off by match play, the \$1,000 silver cup going to H. I. Whigham, of the Onwentsia Golf Club, Chicago. The three other medal men, in their order, were: J. G. Thorp, Cambridge; A. M. Coats, Newport; H. P. Toler, Baltusrol, Short Hills, N. J.

The open championship was won by James Foulis, professional, of the Chicago Golf Club, score, 78, 74 — 152; second, Horace Rawlins, Utica Golf Club, 79, 76 — 155; third, Joseph Lloyd, Essex Country Club, Mass., 76, 81 — 157; fourth, George Douglas, Brookline Country Club, 79, 79 — 158; fifth, John Shippen, Shinnecock Hills Club, 78, 81 — 159.

The champions for 1895 were: Amateur, Charles B. Macdonald; open, Horace Rawlins.

The ladies' championship, held on the links of the Morris County Golf Club at Morristown, N. J., October 6-9, was the first regular ladies' championship event, and the \$1,000 cup given by Hon. Robert Cox, of Edinburgh, Scotland, was played for the first time. Twenty-four competitors finished the opening round of eighteen holes, medal play, and the championship was won by the youngest contestant, Beatrix Hoyt, of the Shinnecock Hills Golf Club; second, Mrs. Arthur Turnure, Shinnecock; third, Anna Sands, Newport Golf Club; fourth, Cora Oliver, Albany Country Club.

YALE *vs.* ST. ANDREWS.

The first team match between representatives of a college golf club and a team of one of the best clubs in the vicinity of New York City, was played Oct. 24, 1896, on the links of the St. Andrews Golf Club, near Yonkers, N. Y. A team of ten, representing the Yale University Golf Club, tried conclusions with a team representing the home club. The visiting team included F. C. and H. O. Havemeyer, two of the best golfers at Newport last Summer; R. Terry, Jr., Craig Colgate and J. Reid, Jr., all of whom are experienced golfers. The visitors won by a score of 26 to 12. The summary:

As an outcome of another match between Yale and Columbia, at the Ardsley Casino, in November, an Intercollegiate Golf Association was formed early in 1897, with Harvard, Yale, Columbia, Princeton, and University of Pennsylvania as its prime movers.

BASEBALL.

The Intercollegiate League has varied in membership almost every year since its organization. The record since 1880 shows the following winners:—

1880. Princeton.	1886. Yale.	1892. Yale and Harvard a
1881. Yale.	1887. Yale.	tie.
1882. Yale.	1888. Yale.	1893. Harvard.
1883. Yale.	1889. Yale.	1894. Yale.
1884. Yale.	1890. Yale.	1895. Yale.
1885. Harvard.	1891. Princeton.	1896. Princeton.

Harvard and Princeton did not play in 1890, and in 1891 neither Yale nor Princeton played against Harvard, Yale refusing because of Harvard's attitude towards Princeton. In December, 1891, Harvard and Princeton agreed to resume baseball contests.

Yale and Harvard each won a majority of games from Princeton in 1892, and broke even in their own series. Harvard's challenge for a deciding game was declined on diplomatic grounds. In the 1893 series Yale and Harvard again tied each other, and the deciding game was played at the Polo Grounds, New York City, the crimson winning.

In 1894 Yale and Princeton played for the championship at Eastern Park, Brooklyn, Yale winning.

In 1895 Yale and Princeton played for the intercollegiate championship at Princeton, Yale winning.

In 1896 Princeton and Yale played for the championship at New Haven, Princeton winning.

SCRIBNER'S NEW BOOKS FOR COLLEGES.

Europe in the Middle Age. By OLIVER J. THATCHER and FERDINAND SCHWILL, Professors of History in the University of Chicago. 600 pages, 12mo. With ten maps. \$2.00 *net*. *In Press*.

The purpose of the present work is to cover the period of history usually called the *medieval* in a manner suitable for the use of college classes. It is the outgrowth of the author's experience in practical teaching. Numerous maps, topical arrangement, lucid style and comprehensiveness in a single volume are features which are noteworthy. The period covered is from the first century to the Italian Renaissance in the sixteenth century.

The Oxford Manuals of English History. Edited by C. W. C. OMAN, M.A., F.S.A., Fellow of All Souls College, Oxford. The Series will consist of six volumes, bound in neat cloth, with Maps, Genealogies, and Index. Price, 50 cents *net*, each.

I. The Making of the English Nation. 55 B.C. — 1135 A.D. By C. G. ROBERTSON, B.A., Fellow of All Souls, Modern History Lecturer, Exeter College. *Ready*.

II. King and Baronage. A.D. 1135-1328. By W. H. HUTTON, B.D., Fellow and Tutor of St. John's College. *Ready*.

III. The Hundred Years War. A.D. 1328-1485. By C. W. C. OMAN, M.A., Editor of the Series. *In Press*.

IV. England and the Reformation. A.D. 1485-1603. By G. W. POWERS, M.A., Late Scholar of New College. *In Press*.

V. King and Parliament. A.D. 1603-1714. By G. H. WAKELING, M.A., Fellow of Brasenose College. *Ready*.

VI. The Making of the British Empire. A.D. 1714-1832. By A. HASSALL, M.A., Senior Student and Tutor of Christ Church. *In Press*.

History of Philosophy. By ALFRED WEBER, Professor in the University of Strasbourg. Translated by Frank Thilly, Ph.D., Professor of Philosophy in the University of Missouri, from the Fifth French Edition, revised and enlarged. With bibliography. 8vo, \$2.50 *net*.

The leading authorities are unanimous in declaring this to be the most satisfactory textbook for college classes thus far published, and mention among its many marks of excellence: The clearness and precision of its style, the condensed and simple character of exposition, the completeness with which it covers the whole field of philosophy, the absence of undefined technical terms, the impartiality of treatment, and the soundness of criticism concerning doubtful or disputed points.

It contains 630 pages — 184 devoted to Greek Philosophy, 100 devoted to Philosophy of the Middle Ages, 318 devoted to Modern Philosophy, and 28 pages to Bibliography and Index.

Psychological Method of Teaching and Studying Languages.
French Series, No. 1.

The Facts of Life (Les Faits de la Vie). Idiomatically Described and Systematically Arranged, forming a Complete Dictionary of the Objective Language.

Part I. — Home Life — The School — Travelling — Plants. By VICTOR BÉTIS, Director of the Normal School of Languages, Boston, Mass.; and HOWARD SWAN, Director of the Central School of Foreign Tongues, London. 8vo, 80 cents *net*.

Introduction to Society. By ARTHUR FAIRBANKS, Ph.D., Yale University. 8vo, with Exhaustive Bibliography, \$2.00 *net*.

Professor STEPHEN F. WESTON, of Western Reserve University says, — Dr. Fairbanks' Analysis of Society is excellent. It is the fairest and best treatment of the subject I have seen. Particularly valuable is his discussion regarding the organic nature of society. It is a real pleasure to read such a discussion.

VALUABLE BOOKS

FOR STUDENTS.

Classical Authors. Edited by **Rosa Belle Holt**. This contains selections from the writings of 52 ancient philosophers, poets, etc., all extant before Christ. Among the authors represented are **Solomon, Homer, Hesiod, Solon, Sophocles, Herodotus, Euripides, Thucydides, and Socrates.**

Many of these selections are especially interesting as indicating the origin of familiar sayings at the present day.

The translations have been passed upon by professors of various colleges, and have received the greatest praise from Edward Everett Hale and others.

A brief biography of each writer is given with dates. The most important feature of the book, however, is the collection of 52 illustrations, which are portraits of the different authors. These are half-tone cuts, from entirely new drawings of great merit, made by **Izora C. Chandler**, from paintings, sculptures, etc., collected at a very heavy expense.

12mo. Buckram. \$1.50.

The Laureates. By **Kenyon West**. A most interesting and valuable book, consisting of a critical essay on all the Poet-Laureates of England, and selections from the writings of each. With 48 full-page illustrations by **Frederick C. Gordon**, including portraits of all the poets.

In a personal letter regarding the work, Mr. Gladstone says: "Kenyon West's selections from the works of The Laureates, and passing them in memory, are of much value and interest."

12mo. Buckram. \$1.50.

Westminster. By **Sir Walter Besant**. Those who have read with pleasure and profit Sir Walter Besant's valuable book, *London*, will gladly welcome this companion volume. Fully illustrated by **William Patten**, and others, and giving fac-similes of many quaint old documents and missals, memorial windows, and wonderful buildings of this "City which has no citizens."

The book includes among its chapters, "The King's Palace of Westminster," "The Abbey," "The Vanished Palace," "The Streets and the People," and "The Court of Charles II."

Large 12mo. Brown or green buckram, stamped with gold and ink, \$3.00. Same, presentation edition, white buckram, full gilt, boxed, \$4.00.

For sale by all booksellers, or sent postpaid.

A catalogue will be sent, on application, to any address, describing our popular series of fiction, lines of standard authors, artistic gift books and calendars, etc.

Successor of the  
"Unabridged."

**Standard** of the U. S. Supreme Court, of the U. S. Government Printing Office, and of nearly all the Schoolbooks. Warmly commended by every State Superintendent of Schools.

**THE BEST FOR EVERYBODY**  
BECAUSE

**It is easy to find the word wanted.**

Words are given their correct alphabetical places in the vocabulary, each one beginning a paragraph so as to be readily caught by the eye.

**It is easy to ascertain the pronunciation.**

The pronunciation is indicated by the ordinary diacritically marked letters used in the schoolbooks, whose sounds are taught in the public schools.

**It is easy to trace the growth of a word.**

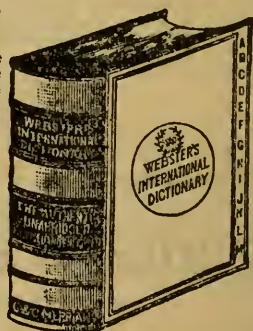

The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their growth from the root idea.

**It is easy to learn what a word means.**

The definitions are clear, explicit, and full; terse, yet comprehensive. Each definition is contained in a separate paragraph.

**Col. Vasa E. Stolbrand,**  
Superintendent.

Founded 1798; a modern military school under an ex-officer of the United States Army, with twelve years' experience in handling and teaching lads; a beautiful, healthful, and ideal location, there being no saloons at all in Aurora; strict discipline; thorough work; good library; numerous periodicals; fine gymnasium; excellent corps of instructors; **\$400<sup>00</sup>** per year.

Unique in plan. Most liberal to members. Makes a specialty of higher positions and specialists. Does business in every state. Send for circulars.

**The  
Cambridge  
School**

For girls and young ladies is a private seminary organized for the purpose of making the advantages of Boston and Cambridge of service to those who seek a well-rounded education. The instruction is adapted to the needs of every pupil, and those modern methods are used which have stood the test of experience. Superficial work is not allowed. No "fads."

English is studied with the same systematic method that has always been used in Classical work, and the first position is given to it. Preparation for College is offered to those who desire it, but any who wish may continue their studies in the School much beyond that limit.

The School lays peculiar stress upon that "cultivation" as distinguished from the mere filling of the mind which is so often lost sight of even by good teachers.

The School occupies three buildings in the best residential part of Cambridge. The school building proper is so arranged that the light falls upon the desk of every pupil in the best angle for the eyes. The building is amply warmed and ventilated. A suitable introduction is expected from all who are not known to the Director.

**The Director is  
Mr. Arthur Gilman,  
Cambridge,  
Mass.**
